The ARRL Letter
Vol. 23, No. 25
June 18, 2004
[The ARRL has weighed in on behalf of Iowa amateur and ARRL member Jim Spencer, W0SR, of Cedar Rapids, who has suffered severe broadband over power line (BPL) interference for more than two months. A formal complaint to FCC Enforcement Bureau Chief David H. Solomon calls on the Commission not only to order Alliant Energy's BPL field trial system to shut down but to fine the utility $10,000 for violating the Communications Act of 1934 and FCC Part 15 rules. Alleging "ongoing harmful and willful interference to one or more licensed radio stations," the ARRL asked Solomon to intervene "on an emergency basis."]

http://www.uplc.utc.org/index.v3page?p=44489

http://www.uplc.utc.org/file_depot/0-10000000/0-10000/7966/folder/33324/UPLC%20Comments%205_3_2004.pdf

Power companies are in full denial! (Just saying it doesn't make it true.) If you believe what's being said by UPLC, I have some great land to sell you in Florida, and a wonderful bridge investment in New York. (When did the BPL interference spectrum drop to 1.7 MHz ??)

ak

- - - - - - - - - - - - - - THE UPLC STORY - - - - - - - - - - - - - -
SUMMARY
The UPLC generally supports the FCC's initiative to develop rules that will support the deployment of broadband over power line systems that will help achieve President Bush's goal of universal affordable broadband access by 2007.1 The President supports the development of technical standards for BPL towards that goal.2 Utilities and technology providers are poised to meet this ambitious goal and the UPLC appreciates the strong support of the FCC in its BPL proceedings.

The UPLC believes that the definition of Access BPL is potentially over-inclusive and should be slightly revised. The UPLC supports the proposal to retain the existing emission limits at the present time, recognizing that the FCC is proceeding cautiously, even though it has found that the interference potential from BPL is low.

Before the Federal Communications Commission
Washington, D.C. 20554
In the Matter of Carrier Current Systems, including Broadband over Power Line Systems

ET Docket No. 03-104
ET Docket No. 04-37
Amendment of Part 15 regarding new requirements and measurement guidelines for Access Broadband over Power Lines Systems
COMMENTS OF THE UNITED POWER LINE COUNCIL

Pursuant to Section 1.415 of the Federal Communications Commission ("FCC") Rules, the United Power Line Council ("UPLC") hereby submits its comments in response to the Notice of Proposed Rule Making in the above referenced proceeding.3 The UPLC supports the proposal to retain the existing emission limits at this time, and suggests only slight changes to the operational limits proposed for Access BPL systems, as well as the proposed definition of Access BPL. Finally, the UPLC supports the proposed measurement guidelines, which will produce consistent and repeatable results that demonstrate compliance with the Part 15 rules. The UPLC heartily thanks the FCC for its support in developing these rules, which strike a very conservative and pragmatic.

. . . .

The UPLC is dismayed by the misinformation accepted as gospel by opponents of Access BPL systems. Despite apocalyptic predictions that "BPL is a Pandora's box of unprecedented proportions", the UPLC agrees with the FCC that Access BPL devices will not cause the power lines to "act as countless miles of transmission lines all radiating RF energy along their full length."6 These opponents have produced no scientific evidence to show otherwise, and all the measurements in the field contradict their abstract calculations. The industry continues to test and to address these concerns with licensees in areas where systems have been deployed, but there needs to be a rule of reason when it comes to allegations of BPL interference, and the UPLC applauds the FCC for making that message clear in this proceeding.

Definition of Access BPL
The proposed definition of Access BPL systems should be narrowly tailored to apply only to systems used to provide broadband access to the customer premises. As such, the UPLC recommends this slightly revised version of the FCC's language in the NPRM: Access Broadband over power line (Access BPL): A carrier current system that transmits high frequency (>1.7 MHz) radio frequency energy by conduction over electric power lines owned, operated, or controlled by an electric service provider for the purpose of delivering broadband data services. The electric power lines may be aerial or underground, but do not include power lines within the customer premises or in riser conduit within buildings. Access BPL does not include power line carrier systems, as defined in Section 15.113 of the Commission's rules.

. . . .

At least ham radio didn't get blamed, but a person of that name and city
is licensed according to a search of QRZ.

899. Last Weekend To File FCC Comment

Newsgroup: rec.radio.amateur.dx
Date: 2004-06-20 02:15:51 UTC
From: yea right <spam@spam.spam>
Message-ID: <pan.2004.06.20.02.17.24.921719@spam.spam>
Source record: 7240
Cross-posted to:
rec.radio.amateur.antenna,rec.radio.amateur,rec.radio.amateur.digital,rec.radio.amateur.digital.misc,rec.radio.amateur.dx

"The limit for an unintentional emitter on HF is 30 uV/m at 30 meters from the source," he said. "If you take a dipole cut for 3.5 MHz and put it in a 30 uV/m field, you'll have a noise reading of S9 plus 16 dB at your transceiver."

The FCC has extended the comment period for BPL. If you value radio, this may be the last and only chance to have your voice heard to stop BPL from destroying your hobby. The FCC has extended the comment period for BPL.

It is VERY simple to file a FCC comment. Click the link below and enter

04-37

in box #1 (proceeding number) and fill in the blanks. The simplest way to comment is to type your comment into the box on the bottom of the form. Sample comment below.

http://gullfoss2.fcc.gov/prod/ecfs/upload_v2.cgi

If you see fit, please post this to as many groups as possible because numbers count! Please mention this in your nets!

More info at http://www.arrl.org/news/stories/2004/02/12/5/?nc=1

If you can't think of any thing to type or wish to make this as painless as possible, you can cut-n-paste the comment I typed below.

/******************************/

In Writing, I wish to persuade the FCC from allowing BPL to be implemented. The destruction or at the least, deterioration of the shortwave bands is not only a violation of ITU laws that protect international broadcasters from interference and jamming, it will be destroying many people's life hobby. Amateur radio will be reduced to users with high-power amplifiers and large antennas. Emergency communications will be hindered to levels directly responsible for the loss of life. Also, this will hinder military HF comms reducing national security

There are many technologies that make BPL unnecessary. BPL will never be able to carry the high bandwidth demands for mass distribution of video much less the up-and-coming HDTV.

Thank You!

Madison PD is pretty even-handed & tends not to jump to unjustified
conclusions. I suppose in that they reflect the people they serve.

903. FM Broadcast Band station list?

Newsgroup: rec.radio.amateur.dx
Date: 2004-06-20 14:14:27 UTC
From: Albert <pass@pass.com>
Message-ID: <et6bd0hgrjnv4mq32bpo4oej6d7a4vagc9@4ax.com>
Source record: 7244

Good Day all,

I'm looking for a listing (by frequency) for all FM broadcast stations
in the US.

I'm attempting to monitor the broadcast band to (possibly) predict
when the 144 Mhz ham band might be opening (by monitoring the MUF).

When I hear a station that I normally don't hear on the FM broadcast
band, it might indicate that the 144 Mhz band is open in the same
direction.

I googled, but got very little.

Years ago, White's Radio Log publised lists such as this, by there
appears to be no such publication these days.

Any suggestions?

Thanks,

Art

http://www.fcc.gov/mb/audio/fmq.html

I think you have to select at least one search criterion - I'd do it a state at a time. (I'm betting station listings in California won't do you much good<grin>!)

It is also possible to download the underlying databases from http://www.fcc.gov/mb/databases/cdbs/ . There are multiple tables, you'll really need some kind of database system like Access or MySQL to make use of these. The tables you need are fm_eng_data and facility.

A list for Canada is on http://spectrum.ic.gc.ca/infoback/dgse/dbf/baserad.zip . This is a single .ZIP file that includes AM, FM, and TV. Unzip it in a temporary folder, and use a spreadsheet program to open FMSTATIO.DBF.

> Years ago, White's Radio Log publised lists such as this, by there
> appears to be no such publication these days.

The FM Atlas (http://members.aol.com/fmatlas/home.html) has pretty much taken over for White's. I don't remember White's as being all that accurate anyway...

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 13th/June, through Sunday, 20th/June there were 200 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4W, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5Z, 6W, 7Q, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9M2, 9Q, 9V, 9Y, A4, A6, A7, A9, AP, BV, BY, C2, C3, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J8, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V5, V6, V7, V8, VE, VK, VP2E, VP8, VP8/h, VP9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

EDITOR'S COMMENTS: Looks like DXing is on a summer decline. There were 200 DXCC entities reported this past week, and 212 and 215 the weeks before. Interesting, will it hit below 200 next week?

3Y0, PETER I ISLAND. It seems everything is a go for Peter I. Activity will take place in January 2005 according to their Web page at:

http://www.peterone.com
"The Daily DX" reports that the team has found new transportation to the island - a newly refurbished icebreaker formally in service of the Chilean Navy (no name provided). Just a reminder that this operation is a very expensive undertaking, and the team is looking for additional financial support and sponsors. More details on the upcoming DXpedition can be found on the Web page listed above.

4W, TIMOR LESTE. Peter, 4W3CW, was heard this past weekend on on 20/15/10 meters CW. Activity was between 0100-1500z. QSL via 4W3CW (QRZ.com).

ARRL FIELD DAY PROPAGATION. Propagation Guru Lee, KH6BZF, reports the following: "Since we have had some doldrums in propagation, there is some light at the end of the tunnel! Forecast data indicates that the 27.5-day solar cycle may peak close to ARRL (FD) Field Day! Flux levels upward toward 100+ level may be expected just prior to the FD. Event on June 25-27, 2004. However, some short skip on 6mtrs and 10mtrs may occur. Let 10mtrs dictate what may be expected on 6mtrs. For HF--both 20 and 17 meters seem to be where the dawn to dusk action will be, pending any solar perturbations which may always occur. Meanwhile, both 80/75 and 40 meters will be the bands to observe from grayline to night to grayline. The 30 mtr band is expected to be open to somewhere during the 24-HR period. Happy hunting." Lee, KH6BZF REPORTS.

CE0, EASTER ISLAND. Scott, AC3A, is expected to be active until June 24th as CE0/AC3A. He does plan to concentrate on 6 meters if the band cooperates. However, Scott will also be on HF during his evenings. QSL via his home callsign (QRZ.com).

GET WELL QUICK! OPDX and its readers would like to wish well-known "QRX DX" Editor Carl Smith, N4AA, a speed recovery. Carl informed his readers that after "failing" a stress test on Monday last week, he was sent directly to the hospital where he was given a heart catheter. This test revealed the main artery in the front part of his heart was 99% blocked. The doctor immediately performed the "baloon/stint" procedure to open up that artery. He is pleased to say that it apparently was a complete success, and he was allowed to come home on Wednesday evening. Once again, OPDX and its readers are glad to hear Carl is doing well and hope to see him back in print after a good rest and recovery.

IOTA NEWS.....
EU-020. Martin, SM0DTK, will be active as SM0DTK/1 from Gotland Island between June 24th and August 22nd. Skeds can be arranged via
E-mail at: sm0dtk@passagen.se
More info on: http://hem.passagen.se/sm0dtk/

EU-045. Thomas, DL5MO, will be on a holiday style operation from Orust Island and will be active as SM6/DL5MO from July 12-23rd. His activity will be focused on 40/30/20 meters. QSL via his home callsign. Visit his Web page for pictures, his QSL card and an online log search (after operation) at:
http://www.dl5mo.de

EU-054. Vanni, IK4RUX, will be active as IF9/IK4RUX from Favignana Island (Egadi archipelago, IIA TP-011) now through June 26th. Activity will be on HF SSB. During this operation other reference numbers could be activated and valid for the IIA Award, D.C.I. or WAIL- ARLHS. QSL via IK4RUX, direct or through the ARI Bureau.

NA-213. Members of the Tennessee Valley DX Association (TVDXA) will activate Dauphin Island using the callsign W4D. This island is part of the Alabama State group. W4D plans on being active about 1900z on Friday, September 24th, and will go QRT sometime on Monday, September 27th. The group will use 100w transceivers with various antennas and plans to be active on 80-10 meters SSB. Operators mentioned are: Barbarra/WA4RMC, Kathy/W4KRY, Lynn/KOMAI, Tom/K4VCM, Greg/WA4NFO, Kenny/AB4GG, Tommie/K4KWK and Paul/WA4AA. QSL via WA4AA (SASE) or bureau. A W4D website will be available to view contact logs.

KH0, NORTHERN MARIANAS (Update). Jim, KG8RP/KH0, Nao, NA8O/KH0, Yutaka, KH0/JQ2GYU, Koko, KH0/JM1MAC and Tomi, WH6CZC/KH0, will be active from Saipan, from July 9-12th. The operation will be on 40-6 meters including the WARC bands, but no 6m EME. Yutaka states, "We are planing to bring a 4-element Yagi for 6m band, 2-element HB9CV for 20/15/10m bands, a Zepp for 30m band, and an ATU + Long Wire for 160/80/75/40/17/12m bands with several barefoot radios, such as FT-897D, TS-480SAT, and so on." QSL info is as follows: KG8RP/KH0 via 7K4QOK, NA8O/KH0 via JK1FNL, KH0/JQ2GYU via JQ2GYU, KH0/JM1MAC via JM1MAC, and WH6CZC/KH0 via JF1UMK. QSL all direct or via the JARL bureau. Please do not send the QSLs to the U.S. QSL bureaus.

KP2, U.S. VIRGIN ISLANDS. The Pina Colada Contest Club will be active as KP2AA from St. Croix during the ARRL Field Day, June 26-27th. Activity will be on 80-2 meters, including Satellite. QSL via K7JA. PLEASE NOTE: Stations not involved in the Field Day competition are reminded of the exchange needed by Field Day stations. If you are at home on commercial power, your report is "1D DX" and if mobile you send "1C DX" to FD stations. More details may be found on the ARRL Web site at: http://www.arrl.org

LIGHTHOUSE ACTIVITY. A team consisting of Dima/RA0LQ, Oleg/RW0LL and Mike/UA0MF are preparing to visit Askold Island's Lighthouse (AS-066, LH-2159, RDA:PK-39) and operate as UE0LLH from July 2-5th. They will participate in the WLH Contest operating barefoot and a R7 antenna. They will be looking for ARLS and RRC/RLH numbers. More exact details and QSL info will be announced at the end of June.

MIA CONTEST. The Mediterraneo DX Club (MDXC), organizer Mediterranean Islands Contest, would like to invite Contester/DXers to join in on the contest which takes place from 1200z, September 18th to 1200z, September 19th. The complete set of rules can be found on the MDXC's Web page at: http://www.mdxc.org/contestmia/rules.htm

OH0, ALAND ISLAND. Operators OH3BHL, OH6JHU, OH6XX, OH8GCW and OH9MM will be active as OH0I during the CQ/RJ DX RTTY Contest (September 25-26th) as a Multi/2 entry. QSL via OH3BHL. They plan on using multiple beams

and vertical arrays on the low bands.

P3, CYPRUS. Skobelkin, RA3AMG, will be active as P3B in the CQ/RJ DX RTTY Contest (September 25-26th). QSL via his home callsign.

QSL INFO AND NEWS.....
Zik, YT1HA, informs all readers of Ohio/Penn DX Bulletin that the special QSL cards for 4N200A, 4N600A and 4N25K will be sent to the printer this week. The cards will be full color and nicely designed by YZ1ZV-Zoki. Also, Zik informs us that the QSL cards for the following special callsigns go to:
4N200A and 4N600A via 4N1A - Operating untill December 31, 2004.
4N25K via YU1SB - Operated between July 11, 2003 and December 31, 2003
4N1A (in contests) via YU1FJK
YT0T (in contests) via YU1FJK
YZ1V (in contests) via YU1AAV
For those who sent their cards, please be patient. You will receive your QSL cards!

CP4BT CORRECT ADDRESS. Claus, CP4BT, is stating that many HAMs are sending their QSL cards to his old address: Casilla 26, Uyuni, Bolivia. The address has changed to: Claus Braun, CP4BT, Casilla 26, Tupiza, Bolivia. Claus says, "Please can you change the city to Tupiza in the most looked for QSL info services." Please pass the word along to all QSL databases.

QSL DS3HWS/5, DS2GOO/5, DS5BSX/5 and 6K2CLF/5 via their home callsigns and bureau. Activity was from Gadukdo Island.

QSL ED8GCR via EA8AKN through the Bureau. Activity was during the DIE Contest. The Gran Canaria DX Group activated for first time the D.I.E. reference: S-349 (Roque del Burrero) from the Gran Canaria east coast.

Gerard, ON4AXU, announced this past week that the logs for his FO, FO/A and FO/M operations are available at: http://www.qsl.net/on4axu

"LZ04KM QSL cards are expected by the end of this month", states Ivan, LZ1PJ. He has uploaded on his web site the online log, QSL card preview, and some pictures from the SSTV activity. The URL address is: http:/www.qsl.net/lz1pj
Ivan also states that he has cleared all the backlog for the other callsigns he manages: LZ75A, LZ02JP, LZ02KM, LZ03KM and LZ100JVA. All future requests will be answered much faster than in the past. LZ1PJ's QSL Policy: "I answer all direct, bureau and e-mail requests. For direct requests, please include SAE + postage / 1 IRC or 1USD is OK/. All cards are 9x14 cm. Please do not send too oversized envelopes. If you don't have a suitable return envelope, an address label is OK. Please avoid sending Bulgarian stamps. Very often the post clerks do not know which stamps are valid."

Special event station CS2004REP now has its logs and an online request form for QSLs available online at: http://www.rep.pt

QSL via CT1REP, by the bureau or direct to: REP AWARD/CONTEST MANAGER, P.O.Box 483, 1112 Lisboa Codex, Portugal.

The logs for the recent TM7BDX operation from EU-159 are now online at: http://www.f5kbw.org/pagesperso/bdxgrp/

QSL via UT7UZZ/p via UT3UZ. Members of the EM0U team (UT3UZ, UT3UV, UT4UO, UT7UW, UT5UAE, UT4UAA and UT4UBS) were active over the past weekend from Ivankiv (for the Ukrainian Districts Award [URDA] Award - KO-16) and Poles'ke (URDA Award - KO-25) districts of Kiev region. UT3UZ address: Alex Arbuzov, P.O.Box 240, Kiev-232, 02232, UKRAINE.

Venco, Z36W, reports that members of the radio club Z37M (Z30M) will once again be at this year's Friedrichshafen in Germany. They will have logs for all club activites (Z37M, Z30M, Z3100IL, Z39A, Z37GBC, etc..) and also the logs for the personal callsigns Z31GX, Z31MM, Z33F (Z3100F), Z36W (Z31JA), Z32XX and Z32XA. Cards will be availble at their stand in Hall 1. Everybody is welcome to visit them.

UPDATE. Jim Reisert, AD1C, updates OPDX readers that the correct QSL Manager for ZK1VVV is W7VV.

SPECIAL EVENT. Look for the special event station ED8ERC to be aired between July 3-10th to celebrate the 2nd Canarias HamRadio Meeting (II Encuentro de Radioaficionados de Canarias). Activity will be on all HF bands SSB/CW, possibly PSK/RTTY and one APRS station on air. QSL via the info on QRZ.com. The special station will be operated by EA8ZS, the Gran Canaria DX Group members and others EA8 operators.

SPECIAL EVENT. To celebrate the Formule 1 French Grand Prix in Magny-Cours, a group will be signing TM0GP from June 20th to July 4th. Activity will be on 80-10 meters as well as 2 meters on the modes of CW/RTTY/PSK31/SSB. QSL to F5KCH via the bureau.

ST, SUDAN. OPDX was informed by Dennis, PA7M, that Michael, ST2DX, will be leaving the country on Saturday the 10th of July. So his last day of activity prbably will be on the 9th. The 10 element log-periodic antenna does a real good job from 30m through 6m. There is also a long wire for 40-160m, but daytime operation on those bands is of no use off course. Problems with his keyer forces him to do more SSB then CW. But he'll try again when it's possible. It's difficult to work stateside during daytime, while during nighttime there's no time to operate because the normal work days are from 6.30 a.m till 6.30 p.m. (but most of the times this is even longer). However, Michael will keep on trying - also on the longpath. The online log and also real audio of the recent 6m openings can be found on the following We page at: http://www.pa7fm.nl
Anyway, Michael has been heard over the past week on 30/17/10 meters. Watch around 10106, 28465 (+/- 30 kHz) and 18153 kHz between 1300-1900z. QSL to PA7FN (direct cards from outside EU with 2 USD or 1 IRC).

TK, CORSICA. Operators OK1FKL, OK1PGS, OK1JFH, OK1TIC and OK1MCS (not sure yet) will be here between June 24th and July 5th. The group of Czech hams will be active from the northest part of Corsica called Cap

Corse (GRID LOC JN42QX, about 600m ASL). Details on the operation and their QTH position can be found on the Web site at: http://www.qsl.net/ok1ofm Their main activity will be to focus on the July VHF/UHF Contest using the callsign TK/OK5DX/p. They will also be active (not during the contest) on HF with a FT100D and vertical antenna. There will NOT be any 6 meters operations. 50 MHz is prohibited in TK. The group will use the following during the contest:
144 MHz: PA 750W out, ANT 2x11 element Yagi ZACH ZZ 211
432 MHz: PA 130W out, ANT 20 element Yagi
Skeds can be made until the evening of June 22nd via E-mail at:
ok1mcs@seznam.cz
-or-
via PR, during their holidays in Corsica SMS:
+420 603 703 722 (OK1MCS) or +420 603 269 296 (OK1FKL)

USI NEWS (UNITED STATES ISLAND AWARD). Members of the Roanoke Valley Amateur Radio Club (RVARC), W4CA, will activate Christmas Tree Island (USI VA-New). This is a new island for the USI, and it is located on Smith Mountain Lake in Virginia. Activity will be on 80, 40 and 20 meters starting 1100z, August 28th and ending 2300z, August 29th. Look for the station on or about 14270, 7270 and 3860 kHz. QSL via CBA for a nice color QSL card from the RVARC.

V44, ST. KITTS AND NEVIS (Special Activity/Event). Andrei, EW1AR, will be active as NC2N/V44, July 5-12th, from the island of Nevis (IOTA NA-104. Activity will be on all bands - RTTY, CW and SSB including participation in the HF IARU Contest. QSL via W3HNK. SPECIAL NOTES: Do NOT send QSL via EW1AR please, this will delay QSL confirmation. Andrei states, "I devote this DXpedition to the 60th anniversary of the Liberation of my home country BELARUS from the faschists occupants on 3rd of July, 1944. I will transmit as NC2N/VICTORY-44 (on SSB). Special Awards will be issued to those hams who make SIX or more QSOs/SWLs on different Bands/Modes. (Applications and shipping fees of 2 USD should be sent direct to NC2N). For those who made Eight or more contacts, no fee required. The Three Special Prizes will be sent for free for those five hams who make most of the QSOs on different Bands/Modes......73s Andrei NC2N/EW1AR (ex NP3D)"

VK9C, COCOS-KEELING ISLAND. Bernd, VK2AI, has announced that he will be active as VK9AA in the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/All-Band entry. QSL via DL8YR. He will also be active in the CQWW DX CW Contest (November 27-28th) (See OPDX.648 for details.).

VP5, TURKS AND CAICOS ISLANDS. Dave, AH6HY, will be going back to VP5 in the fall on another scuba diving trip. So, look for him to sign VP5/AH6HY from Salt Cay, Turks Islands (NA-003), September 23rd to October 2nd. Activity will be on 20-10 meters SSB only. QSL to AH6HY direct or via the bureau. His Web page can be found at:
http://www.qsl.net/ah6hy

VP9, BERMUDA. Kyle, WA4PGM, will be active from Bermuda (NA-005, FM72) as VP9/WA4PGM from July 9-19th for the upcoming IARU and NAQP RTTY Contest. Activity is planned for CW, SSB, RTTY, 160-6 meters and maybe 2 meters.

QSL direct to: P.O. Box only, please do NOT use street address.

WANTED: Retired Military for DXPeditions. Bill, W4WX, is looking for some individuals that are retired from the Military living near the Jacksonville, FL, area that might want to go on some "Space A DXPeditions". If you are retired and willing to make some trips, Bill wants to talk you about it. E-mail him at: w4wx@bellsouth.net
He is only interested in locals within a couple of hundred miles so they would be able to meet and chat.

ZK1, SOUTH COOK ISLANDS. Victor, ZK1CG, has been active on 160 meters the last couple of weeks. He states that since his roomate Dr. Elisabeth is on an around the world trip until the first part of July, he will try and listen and call every night on the sked times (using the following schedule below). Here are the times Victor will try to be on 160 meters and 40 meters:
0415-0425z 1845.00 +/- QRM SSB
0425-0430z 1825.50 +/- QRM CW Send CW slow and Clear
0430-0440z 7160 to 7170 +/- QRM SSB Seems to be a radio station
on 7160 at this time
0915-0925z 1845.00 +/- QRM SSB
0925-0930z 1825.50 +/- QRM CW Send CW slow and Clear
0930-0940z 7160.00 +/- QRM SSB
Please note that Victor may be delayed going to 40 meters if he is working stations on 160 meters.

From: Mike Dalrymple <GM4SUC@compuserve.com>
Subject: International Lighthouse/Lightship Weekend 2004
To: KB8NW <kb8nw@barf80.nshore.org>
MIME-Version: 1.0

INTERNATIONAL LIGHTHOUSE/LIGHTSHIP WEEKEND 2004.

This highly popular annual August event attracts hundreds of amateur radio stations at lighthouses and lightships (369 in 48 countries for the 2003 weekend .) world-wide. It is organised by Mike, GM4SUC, and Kevin, VK2CE is the web-master. This year the period of the event is from 0001 UTC on Saturday 21 August until 2359 UTC on Sunday 22 August 2004.

The event is NOT a contest. It is a special event weekend when amateur radio stations are established at lighthouses or lightships, they do not have to be adjacent to salt water, and each group decides how it will operate the station with regard to modes and bands. Participants are not committed to being on the air during the entire period - operate as much as you can. There are no restrictions on aerials or power. We wish operators to enjoy themselves and have fun while making contact with as many stations as possible whilst giving priority to other lighthouse/lightship stations. Please take some time to work the slow operator, the newly licensed and QRP stations.

As available space in many lighthouses is filled to capacity, participation in this activity does not have to take place inside the tower itself. Field day type set-up at the light or other buildings next to the light or adjacent field is OK. Permission MUST be obtained from any interested parties.

The International Lighthouse/Lightship Weekend is used to obtain maximum exposure for our hobby. We invite the press and, QTH permitting, also the public and try to underline the parallel between the international aspects in lighthouses, lightships, and amateur radio. Full details of the event can be found at http://illw.net

As from last year, the World Lighthouse Day is held on the Sunday of the event and lighthouse keepers/managers/caretakers all around the world open their lighthouses to the public.
http://www.lighthouse.fsnet.co.uk/events/intlighthouseday.html

A list of the lighthouses/lightships of the world, currently 10,802 in 209 DXCC countries, plus their Amateur Radio Lighthouse Society (ARLHS) Number can be found at http://arlhs.com/awards/arlhs-numbers.html The list is constantly being updating and added to as more data become available. You can help: If you see a correction or an addition needs to be made, please send an e-mail with the information to K2JXW@arrl.net

If you decide to join us, please register on-line at
http://illw.net/index.html with details of your name, callsign to be
used, lighthouse/lightship, Country, qsl route etc. Although registration
is not compulsory, doing so enables us to maintain a detailed list of
participants at http://illw.net/2004.htm showing QSL address, web
site and any special event calls they may be using. E-mail addresses will
be modified with unicode to minimise harvesting by spammers.

So come and join us in the fun of the weekend, already over 100 stations
have confirmed their participation and numbers are expected to exceed 300,
establish a station at a lighthouse, lightship or maritime beacon.

IF YOU ARE UNABLE TO FIND A LIGHTHOUSE OR LIGHTSHIP TO MAN YOU CAN STILL
JOIN IN THE FUN OF THE WEEKEND BY CONTACTING THE WORLD-WIDE SPECIAL
LIGHTHOUSE/LIGHTSHIP STATIONS.

The more the merrier.

Hi Art, not exactly what you want but go to
http://www.iprimus.ca/~hepburnw/tropo.html

and there are lots of useable links from there.

Mike N0QFV

909. BPL tests in Cottonwood AZ

As did I. Thanks for simplifying the process - it was very easy.
Let's just hope our comments can influence policy.

Don't you just love it??

The BPL industry has an ally in forever changing the scope of Ham Radio to be a VHF/UHF and higher service ONLY. Who is that ally you ask? His initials are FCC.

913. Today (Monday) Isn't Too Late... but tomorrow might be!

Newsgroup: rec.radio.amateur.dx
Date: 2004-06-21 20:00:12 UTC
From: Old Ed <eXseniorsDeleteThisAndTheX@earthlink.net>
Message-ID: <g7HBc.9359$w07.2802@newsread2.news.pas.earthlink.net>
Source record: 7054
Cross-posted to:
rec.radio.amateur.antenna,rec.radio.amateur,rec.radio.amateur.digital,rec.radio.amateur.digital.misc,rec.radio.amateur.dx

I just submitted the FCC comment below (in case it provides
any useful ideas to other potential comment submitters).
I'm planning to follow up with letters or emails to my
congressional and senate representatives, per the ARRL
pages.

"This comment addresses the proposed deployment of BPL
(Broadband over Power Line) systems.

As a career radio frequency design engineer, it is obvious
to me that widespread BPL deployment would cause massive
degradation of most licensed radio services now operating in
the HF (High Frequency) spectrum-and some services would
be completely destroyed in the U.S.A.

This expectation follows directly from the fact that power
lines at HF frequencies are poor transmission lines, but are
quite efficient antennas. BPL lines will therefore radiate mas-
sive interference levels (by HF standards), and will themselves
be vulnerable to interference from licensed HF transmitters.
I am confident that my expectation in this matter is basically
the same as any other qualified engineer who considers BPL
objectively.

There is abundant evidence of the expected interference
problems in BPL field trials around the world. And there
are no examples that I know of where BPL is successfully
coexisting with licensed, co-located HF radio services.
For these reasons, BPL has already been rejected by a number
of "HF aware" countries.

The HF radio spectrum is an extremely valuable natural resource
with the unique ability to provide direct, world-wide wireless
communication. It would be highly irresponsible to allow the
destruction of this unique resource simply to provide a redundant
and probably unreliable option for internet connections.

I urge the FCC to do the following:

(1) Provide rigorous protection for the licensed radio
services now operating in the HF radio spectrum
from unlicensed emitters like BPL-both through
appropriate rules and through vigorous enforcement.

(2) Insist on thorough, objective, and successful field
trials-designed to scrutinize interference potential-
BEFORE allowing the widespread deployment of any BPL
system.

Sincerely,

<signed>"

GO FOR IT, and good luck!!!

Kenwood TS 480 online?

Anyone using a Kenwood TS 480 on line?

If so could I have the details to try it out remote.

Grayline propagation is quite useful on low bands 3.5-10MHz, please look at
http://www.dxatlas.com/ for realtime grayline map software.
On higher bands other than 14MHz the grayline is not so accurate, as a
daylight is needed

Amateur Radio Newsline™ Report 1401 June 18, 2004

Now, Amateur Radio Newsline report number 1401 with a release date of Friday, June 18 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. A new ham-sat is made ready for launch and the B-P-L struggle continues. Find out the details on Amateur Radio Newsline report number 1401 coming your way right now.

(Billboard Cart Here)

**

HAM RADIO IN SPACE: ECHO PREPARED FOR LAUNCH

The soon to be launched ECHO ham radio satellite has arrived safely at the launch complex in Russia and is being made ready for launch. This, according to Chuck Green, N0ADI, who is traveling with the bird to the launch facility. Bill Pasternak, WA6ITF, is here with more:

--

According to Green, once he and the team arrived at the launch site, the satellite shipping containers were opened and placed in the clean room. ECHO was taken out of it's shipping case and set up for completion. The bottom antennas were then installed.. So was the bottom solar panel, magnets, and corner reflectors.

ECHO was then powered on and the team successfully communicated with it over a hard wire connection from a computer. The four two meter receivers and the two 70 cm transmitters were all successfully tested. And that's good news for everyone waiting for the new hamsat
to take its ride into space.

For the Amateur Radio Newsline, Bill Pasternak, WA6ITF, in Los Angeles.

--

Currently the planned launch period for ECHO is four weeks beginning June 28th. Once in orbit the command teams will be working together to assure everything is working OK and get ECHO into its initial 'normal' modes as quickly as possible. After that it will be open to the users in the ham radio community. (AMSAT)

**

THE BPL FIGHT: AN UPDATE ON WHAT'S HAPPENING IN THE USA

The fight to keep Broadband Over Powerlines from going nationwide continues. Amateur Radio Newsline's Mark Abramowicz, NT3V, is here
with the latest:

--

With summer now here, expect the Broadband over Power Line Internet access issue to heat up - especially as more people get a chance to look over the latest filing from the National Telecommunications and Information Administration.

The federal agency, which advises the White House on telecommunications policies and oversees radio spectrum used by government agencies, weighed in with more BPL comments in a June 4 filing with the Federal Communications Commission.

And the American Radio Relay League and others who've analyzed the comments say it's clear the political considerations are overshadowing the engineering data which raises many questions about the viability of BPL.

In its filing with the FCC, the N-T-I-A's policy makers now call BPL a win-win situation for all and make what some call an outlandish claim - that deployment of the technology could actually lead to reduction, that's right, reduction of power line noise.

Now, the engineering types who've been studying the BPL and doing all kinds of test measurements are really scratching their heads trying to make sense out of that. The N-T-I-A filing also contains this comforting assertion for BPL opponents. It says that the current power line system is responsible for even greater local interference risks than what BPL would bring.

And, it says, B-P-L operators would implement procedures to eliminate any harmful interference.

The stack of complaints about BPL test sites and assertions by a lawyer representing one of the large utilities testing the technology might lead some to question that reassurance.

A source tells Amateur Radio Newsline the FCC has failed to "properly direct" BPL complaints to the appropriate FCC regulatory office for action. And, the source says, commissioners questioned about that haven't offered any explanation.

And a lawyer who has commented in writing to the FCC about some of the BPL complaints his utility company received claimed there was no basis for them, essentially saying the amateur radio operators making them don't know what they're talking about.

One thing the NTIA did suggest in its filing is the exclusion of certain bands and frequencies in specific geographical areas to protect critical government systems.

Does that suggest an agency confident BPL won't be an interference source?

The American Radio Relay League and others who've been vocal in this fight suggest otherwise.

They say BPL is far from a done deal and they're hopeful that the FCC's extension of reply comments to June 22 will net some helpful information. And, they say, they're not giving up or going away quietly.

In the meantime, there is a sense BPL is on a fast-track at the FCC where the majority of the commissioners view it as an engine to help stimulate the economy.

Could the FCC act on the BPL issue before the November election?

Anything is possible. And some close to the BPL debate say if the Bush administration believes it will generate a much-need bump in the public opinions polls or at the ballot box...well, you get the idea.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

Mark will continue to monitor the B-P-L situation and report back in future Amateur Radio Newsline reports. (ARRL, CQ, Repeater Journal, Published news reports, others)

**

THE BPL FIGHT: AUSTRALIA REACTS TO THE BPL CHALLENGE

The United States is not the only place planning to introduce this controversial Internet access technology. Proposals for Power Line Communications or Broadband over Power Lines in Australia have become a concern many spectrum users down-under. This includes the Wireless Institute of Australia which is that nations Amateur Radio national society. From Brisbane, Q-News Graham Kemp, VK4BB, reports:

--

WIA President, Michael Owen, VK3KI has said that the WIA's position in relation to B-P-L is that it supports increasing broadband access and broadband competitiveness in Australia, but in a way that does not cause interference to legitimate users of the High Frequency spectrum. The WIA supports the development by the ACA of policies for BPL that protect existing users.

The WIA believes that one of the problems associated with B-P-L is that trials on a limited basis are not good indicators, and that the full effects of a problematic technology will not be seen with such trials. The WIA considers that B-P-L will not really serve the community's long run needs because of its limited bandwidth. A deep fibber network is to be preferred to using long runs of power lines.

The WIA has appointed a team to deal with this issue. WIA President has appointed Phil Wait, VK2DKN the director responsible for developing and advocating the WIA's position in relation to BPL. He has asked Owen Duffy, VK1OD Barry White, VK2AAB and David Wardlaw, VK3ADW to assist Phil, as the WIA's BPL Team.

--

A report on a recent small trial of B-P-L in the city of Hobart to some 4 houses and 2 floors of one building is on the WIA website. (Q-News)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the VE9BSQ repeater serving St. John, New Brunswick, Canada.

(5 sec pause here)

**

RADIO RULES: COMMISSION ADOPTS SPECTRUM SHARING PLAN FOR L AND S BAND

The Federal Communications Commission adopted a spectrum sharing plan for low earth orbit satellite systems in the 1.6 GHz and 2.4 GHz bands. The so-called Big Leo birds. And here's how it will work

In the 1.6 GHz or "L-band," mobile-satellite service operators with satellite systems that utilize code division multiple access and time division multiple access technologies will share 3.1 megahertz of spectrum at 1618.25 to 1621.35 MHz. At "S-band," the Commission allocated the 2495 to 2500 MHz band to fixed and mobile except aeronautical mobile services, in order to provide additional spectrum and to accommodate the relocation of Multipoint Distribution Service channels 1 and 2.

The commission says that its new spectrum sharing plan will further the agency's goal of efficient frequency utilization by increasing the number of providers offering services to consumers over the same spectrum. It will promote the deployment of more innovative services to consumers. (FCC)

**

ENFORCEMENT: COUNTY HAS DONE NOTHING WRONG

The FCC says that a complaint that a county is using ham radio for its routine business is without merit. The agency's Daryl Duckworth, NN0W, is here with more:

--

Duckworth: "A complaint concerning Bell County Communications
Center
and club license W5BEC was dismissed. There is no showing that this
station is operated by anyone other than amateurs, nor is there a
showing that it is there a showing that it is used or intended to be
used for routine county business."

--

W5BEC is the club station license issued to the Bell County Emergency
Operations Center in Belton, Texas. Its also the call sign of a wide
area two meter repeater that covers much of central Texas. (FCC,
RAIN)

**

ENFORCEMENT: STAY OFF 10 METERS

Meantime, the FCC's crackdown on 10 meter unlicensed intruders
continues. This time the agency acts in a New Jersey case. Again,
the FCC's Daryl Duckworth, NN0W:

--

Duckworth: Auto Elite Transportation of Morristown, New Jersey, has
been sent a warning notice about a vehicle of theirs; truck number
2113, as being the source of unlicensed radio transmissions on 28.085
Mhz."

--

Auto Elite was warned that continued unlicensed operation of radio
transmitting equipment without is a violation of Section 301 of the
Communications Act. That it could subject the operator to fine or
imprisonment, as well as seizure of any non-certified radio
transmitting equipment. Monetary forfeitures for this kind of
violation normally ranges from $7,500 to $10,000. (FCC, RAIN)

**

ENFORCEMENT: SAN DIEGO'S 96.9 MHZ PIRATE REACTIVATES

According to a news bulletin from Chris Carmichael appearing in the
CGC Communicator, San Diego's 96.9 MHz pirate is back on the air.
Chris says that there is no news on the location of the transmitter,
but he believes that will only take the Commission a short time to
figure out. (CGC)

**

ENFORCEMENT: SPAMMER GOES TO JAIL

A New York state man who sent out millions of "spam" e-mails has been
sentenced to three and a half to seven years in prison. This

according to a May 27th news release from that states Attorney General's office which said that Howard Carmack, known as the "Buffalo Spammer," received the maximum sentence for 14 counts of identity theft and forgery.

A spokesman for New York Attorney General Eliot Spitzer said that Carmack sent out hundreds of millions of bulk e-mail messages. That he flooded inboxes and saddled Internet providers with millions of dollars in costs. But it was his use of stolen identities and forged addresses that caused action by state prosecutors. New York has no state laws specifically dealing with spam. Carmack was found guilty of violating state forgery and identity-theft laws in April.

Internet provider EarthLink Inc. won a $16.5 million judgment against Carmack last year, and EarthLink officials testified in the criminal trial as well. (Published news reports)

**

EMERGING TECHNOLOGY: EARTHLINK VS. PHISHERS

Meantime, EarthLink claims that it has developed a program to fight phony websites like this,. The sites, called phishers are those designed to deceive e-mail users into providing personal information such as passwords and credit card or Social Security numbers.

Phisher sites pronounced "fishers" but with a leading "p" are called
that because they "fish" for personal information that can be used in identity theft. They work by telling an Internet user via e-mail that there is a problem with the service-provider account and providing directions to a Web site for clarification. The link takes the user to a hoax Web site that may be a perfect copy of a real page used by Earthlink, eBay or another legitimate business. That is where the user is deceived into providing personal information.

EarthLink's anti-phisher program will rely on a list of known fraudulent sites. When a subscriber responds to the e-mail message, he will be linked instead to a special Web page that warns the e-mail is a fraud. The site also will provide a chance to report the hoax attempt.

EarthLink says that it receives about 40,000 telephone calls or e-mails each month from subscribers who have received one of the fraudulent e-mails. (Earthlink)

**

HAM RADIO BUSINESS: A SEARCHABLE CQ MAGAZINE ARCHIVE

Finding an article or an advertisement in a back issue of CQ Magazine is about to become only a mouse click away. This, as CQ Communications and Buckmaster Publishing announce plans to create a searchable on-line archive of CQ magazines back issues.

Buckmaster, which produces the Hamcall CD has for decades filmed issues of CQ onto microfiche for use by researchers and hobbyists. Buckmaster also provides advanced scanning and searching technology for on-line posting of documents for major corporations. Now this same technology will be applied to back issues of CQ.

As currently envisioned, searches will be free, while access to reading and printing specific pages will require a subscription at a nominal fee. Eventually Buckmaster plans to have every issue of CQ available dating back to the magazine's first issue in January 1945.

A beta test version covering CQ from 1990 to 2002 is already on-line. The archive may be accessed at http://hamcall.net/cgi-bin/cqcgi. (CQ)

**

WITH ARNEWSLINE: YHOTY NOMINATIONS CLOSE JUNE 30TH

And a reminder that the nominating period for the 2004 Amateur Radio Newsline Young Ham of the Year Award closes midnight on Wednesday, June 30th. If you are planning to nominate a youngster for this years award or, if you want to update a previous years nomination -- and have not yet done so -- you have only about two weeks left to do so.

The Young Ham of the Year Award program is open to any FCC licensed young radio amateur age 18 or younger residing in the contiguous 48 states. He or she must have made a significant contribution to the community, the nation or ham radio though the United States Amateur Radio Service.

More information and a downloadable on-line nominating form is at our website. That's in cyberspace at www.arnewsline.org.

Again, the cutoff for nominations this year is midnight on June 30th. The award presentation takes place in August at the Huntsville Hamfest in Alabama. (ARNewsline(tm))

**

BREAK 2

This is ham radio news for today's radio amateur. From the United
States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

EMERGING TECHNOLOGY: INSTANT MESSAGING EXPANDING WORLDWIDE

Wonder where some of your ham radio buddies are these days? Maybe they are now using Instant messaging instead of 2 meter FM. Norm Seeley, KI7UP, has more:

--

According to Tech Web News, Instant Message use is growing steadily among corporate workers who use free services from companies like America Online, Microsoft, and Yahoo to send quick text messages to coworkers, family, and friends. And by 2008 closer to 80 percent of corporations worldwide are expected to use either public or private Instant Messaging networks.

A recent study by The Radicati Group says that by 2008 the number of Instant Message users worldwide is expected to reach 670 million. Business wise, this equates to revenues in the $413 million range.

Even so, the percentage of people using public networks and private networks is expected to remain the same. That's at 88 percent public and 12 percent private, respectively. The reason: Its hard to get people to pay for what someone else is giving away for free.

For the Amateur Radio Newsline, Norm Seeley, KI7UP, reporting.

--

Ham radio groups are also turning to Instant Messaging. According to Internet postings, it comes in handy when there is a net to be held and propagation goes away. (TechWeb Online)

**

HAM INTERNET NEWS: THE VHF REFLECTOR BACK ON LINE

And speaking about instant messaging, or almost instant messaging, news that the VHF Reflector is back on line. This, according to Bob Vaughan, KC6SXC, who oversees the systems operation.

In a posting, Vaughn explained that the W6YX server that hosts the VHF Reflector suffered a disk failure and was off line for the past month. Vaughn says that the team has now recovered the data from the failed disk and has put the system and the Reflector back on-line. (VHF Reflector)

**

ON THE AIR: KY REPEATER NEEDS A NEW HOME

The Repeater Journal reports that the Danville, Kentucky, 146 point 655 WD4DZC repeater is looking for a new site. According to trustee George Griebe, WQ4Z, the tower supporting the systems antenna is to be taken down and will not be replaced.

Griebe says that the Wilderness Road Amateur Radio club which sponsors the repeater plans to keep it on the air from a temporary location with reduced coverage. Meantime the club is continuing its

search for a suitable, high level, wide coverage permanent site. (Repeater Journal)

**

THE SOCIAL SCENE: OHIO IN JULY

Turning to the ham radio social circuit, the 7th annual OH-KY-IN hamfest is slated for the July 24th at the Diamond Oaks Career Development Center in Cincinnati Ohio. The event will feature commercial vendors, a flea market and much more. Information is on line at www.ohkyin.org or by e-mail to n8bv@juno.com. (OH-KY-IN)

**

THE SOCIAL SCENE: COLORADO IN JULY

And the Northern Colorado Amateur Radio Club will hold its 2004 Superfest at the Budweiser Events Center in the Larimer County Fairgrounds on July 17th. Talk-in is on the 145.115 Mhz repeater with a 100 hertz tone access. For information on this one contact Willis Whatley, WA5RVL, at his Callbook address. (E-mail)

**

INTERNATIONAL - GREECE: HAM RADIO AT THE SUMMER OLYMPICS

Some more good news for foreign radio amateurs visiting Greece for the Summer Olympic Games. From the August 1st through September 15th hams from CEPT signatory nations will be permitted to operate in Greece without the need to submit any papers for a license. They will also be allowed to use the special prefix J42004. Meantime, Greek radio amateurs can use the special prefixes SX2004 or SY2004 through the 15th of November in celebration of the games. (GB2RS)

**

DX

In D-X, word that MM0AFJ will be on the air from the Island of Harris. This, from the 27th of June until the 2nd of July, mainly in the mornings on 80 to 10 meters CW and SSB. There may be some activity on 160 meters in the evenings. Requests for skeds should be sent via e-mail to m0afj@tiscali.co.uk. QSL direct to MM0AFJ at his Callbook address. (RSGB)

Also, IK4RUX reports he will operate portable IF9 on HF SSB from Favignana between the 19th and the 26th of June. Side trips to other islands in the Egadis group as well as some lighthouse operations are also possible. QSL to the operators home call or via the bureau. (RSGB)

**

THAT FINAL ITEM: HAM RADIO HONORS THE MEMORY OF PRESIDENT RONALD REAGAN

And finally this week, ham radio finds a way to honor the memory former President Ronald Reagan. Here's Bruce Tennant, K6PZW with the
rest of the story:

--

Two suburban Los Angeles area radio clubs are joing forces to honor the memory former President Ronald Wilson Reagan. This, by operating Field Day in his honor from the Reagan Library in Simi Valley, California.

According to Peter Heins, N6ZE, the two groups joing forces to honor the late United States president are the Ventura County Amateur Radio Society and the Conejo Valley Amateur Radio Club. The Ventura County group has operated Field Day before from the Reagan Library. This year, the Conejo Valley club will be joining with them for the first time.

Heins says that 2004 is the fourth year a special event will have been held at the Reagan Library using the special N-6-R call sign. The previous three were dedicated to all members of the former first family. This years Field Day operation will be specific in its remembrance of President Reagan who died of Alzheimer's disease on
June 5th at age 93.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

Field Day 2004 is the weekend of June 26th and 27th. Visitors to the Reagan Library will be able to listen in on amateur radio communication, talk to amateur radio stations located in other countries, and find out more about obtaining an FCC Amateur Radio License of their very own.

Also, the complete Field Day rules are on-line at the ARRL website. Its in cyberspace at www.arrl.org (N6ZE)

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's Q-News, that's all from the Amateur Radio Newsline(tm). Our e-mail address is newsline@arnewsline.org. More information is available at Amateur Radio Newsline's(tm) only official website located at www.arnewsline.org. You can also write to us or support us at Amateur Radio Newsline(tm), P.O. Box 660937,

Arcadia, California 91066.

Again, the cutoff for submitting nominations for this years Young Ham of the Year Award is midnight on June 30th. The award presentation takes place in August at the Huntsville. Full details are on our website at www.arnewsline.org

Also, don't forget Field Day the weekend of June 26th and 27th. We'll see you on the air.

For now, with Bill Pasternak, WA6ITF, at the editors desk, I'm Don
Wilbanks, AE5DW, saying 73 and we thank you for listening." Amateur Radio Newsline(tm) is Copyright 2004. All rights reserved.

Amateur Radio Newsline™ Report 1402 June 25, 2004

The following is an advisory and not necessarily for air. Ladies and gentlemen, Amateur Radio Newslines' Support Fund Administrator, Andy Jarema, N6TCQ:

--

This is Andy Jarema, N6TCQ, Newsline Support Fund Administrator, getting caught up with our supporters. In the month of September of last year we heard from Benton Bonney, W4PE of Orlando; monthly contributor Joseph Bartzi, Jr., KC8DKF of Columbus, OH; the St. Charles, MO ARC, WB0HSI; monthly contributor William Walters, WA2IBM, of San Jose; monthly contributor Scott Hensley of the Area Communications Team, also in San Jose and the Anchorage ARC.

Of special mention was support received in memory of the late Roy Neal, K6DUE, by the Brackett family of Cerritos, CA. Our thanks to Sharyn, Jim, KE6FVN, David, KE6OPK, and Lynn, WA6HBS.

Thank you to everyone, and we promise to do our best to continue to earn your care and support. A reminder that Newsline is a 501c 3 California non-profit corporation. FCC regulations prohibit us from telling you exactly how to support us, but that information is on our website at www.arnewsline.org. That address will be repeated at the end of the newscast.

I'm Andy Jarema, N6TCQ.

--

Thank you Andy. Now, Amateur Radio Newsline report number 1402 with a release date of Friday, June 25 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. Changes coming to ham radio in New Zealand and maybe to the 40 meter band here in the United States. Find out the details on Amateur Radio Newsline report number 1402 coming your way right now.

RESTRUCTURING: A NEW HAM RADIO IN ZED-L

Big changes appear to be in store for ham radio in New Zealand. This, as the current licensing system is replaced by one test and one class of ham radio operator. ,Jim Meachen, ZL2BHF, is in Auckland

where its all taking place:

--

Here's the bottom line. Our current New Zealand Amateur Radio licensing system is being renovated. We now have only one class of ham radio license in Zed-L called the General Amateur Radio License. This is just one of many changes coming to ham radio down-under as New Zealand radio amateurs discover the full outcome of their regulatory authority's review of the Amateur Radio service. It's all good!

The changes started on June 17th when a new revised Schedule attached to the Zed-L license came into effect. A Schedule here in New Zealand is kind of like a new set of rules. That's the first step. Other changes will take effect over the next 18 months or more. Many long standing problems are being eliminated and some of the changes are believed to be world firsts. Under the new structure there will be only one grade of Amateur operator license in New Zealand. That's the General Radio License that I mentioned earlier. One license means only one test needs to be administered.

A newly-licensed amateur will have immediate access to all amateur bands below 5 MHz and to all amateur bands above 25 MHz. After getting experience over 3 months and with at least 50 contacts logged, access is then permitted to all amateur radio bands.

All existing Limited Amateur licensees automatically became General Amateur licensees on June 17th irrespective of what is written on their existing licenses. There being only one license grade, callsigns will no longer indicate a class. There is already an established procedure to request a change of callsign if a licensee so wishes.

All amateur bands remain the same but a newly-extended Low Frequency band 130 to 190 kHz is being listed for the first time as an amateur allocation.

The permitted maximum transmitter power output for an amateur station on all bands is 500 watts P-E-P. With only one figure, the maximum power level in New Zealand is now mode-independent.

How about visitors to New Zealand? Touring hams holding a current amateur certificate of competency, authorization, or license issued by another administration, may operate an amateur station in New Zealand under a General User Radio License for visitors. A licensed visitor will be granted similar privileges to a New Zealand resident station for a period not exceeding 90 days. The present country-to-country reciprocal license agreements will disappear in time as more countries directly recognize the licenses issued by other administrations. This will make cross-border travel by radio amateurs a lot easier than it is today.

There are now minimum rules and restrictions for Amateur Radio in New Zealand and the future is positive.

For the Amateur Radio Newsline, I'm Jim Meachen, ZL2BHF, reporting from Auckland.

--

With one license exam, one license grade, and with new and simplified procedures, New Zealand telecommunications regulators say that they have positioned that nations Amateur Radio Service for an exciting future. (ARNewsline(tm), ZL2BHF, Q-News)

**

RESTRUCTURING: FCC RELEASES NPRM ON 40-METER CHANGES

The FCC says pending changes in the 40-meter amateur band as a result of the 2003 World Radiocommunication Conference will improve spectrum efficiency. It said so in a rule making notice dealing with the 40 meter band. Norm Seeley, KI7UP, has the latest:

--

The ARRL Letter reports that this remark came in an FCC Notice of Proposed Rule Making in ET Docket 04-139. This is an inquiry that seeks public comments on proposed rule changes to complete domestic implementation of various World Radiocommunication Conference allocation decisions made in 2003. Among them the future of the Amateur Service 40 meter allocation.

The regulatory agency says that it anticipates that administrations in I-T-U Regions 1 and 3 will, in the near future, authorize phone emissions in the 7 point 150 to 7 point 200 MHz band segment. The FCC notes that the ARRL has requested that the United States frequency segment for phone emissions be expanded to 7 point 125 to 7 point 300 MHz. The FCC says that authorizing voice operations in this band segment would permit same-frequency US-to-DX contacts, resulting in increased spectrum efficiency.

The N-P-R-M also addresses the deployment of Earth Exploration Satellite Service-Active spacecraft in the 70-cm band. The Commission says that this operation should not cause harmful interference to, nor claim protection from, any other services allocated in the band in the United States. This includes the Amateur Satellite service as well as any others.

For the Amateur Radio Newsline, Norm Seeley, KI7UP, in Scottsdale, Arizona.

--

Comments in the proceeding are due July 16, with reply by August 2. Interested parties may view the entire NPRM, file comments and view comments filed in ET Docket 04-139 via the FCC's Electronic Comment

Filing System at www.fcc.gov/cgb/ecfs/ (ARRL)

**

RESTRUCTURING: NO VANITY CALLS IN THE UK RIGHT NOW

Vanity callsigns 'are unlikely to be introduced in the United Kingdom before March of 2006. This, according to the Radio Society of Great Britain which says that for the last three years it has been in discussion with licensing authorities over the introduction of such a program for U-K amateurs.

The latest word is that telecommunications regulators have informed the RSGB that due to software issues it is unlikely that vanity callsigns can be introduced before March 2006. In other words, the waiting goes on. (RSGB)

**

More news in a moment, but right now its time for you to identify your station. Linda Reader, N-7-H-V-F, if you please: "From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the W7FP repeater serving Salt Lake City, Utah."

THE BPL FIGHT: ARRL JOINS IOWA HAM IN BPL INTERFERENCE STRUGGLE

The ARRL has joined in the fight on behalf of Iowa amateur and ARRL member. This, following complaints from Jim Spencer, W0SR, of Cedar Rapids, that he has suffered severe Broadband Over Powerline interference for more than two months.

According to the ARRL Letter, a formal complaint to FCC Enforcement Bureau Chief David H. Solomon calls on the Commission to order Alliant Energy's B-P-L field trial system to shut down. It also demands that the agency fine the utility $10,000 for violating the Communications Act of 1934 and FCC's Part 15 rules.

Alleging that the ongoing interference is both harmful and willful to one or more licensed radio station the ARRL asked Solomon to intervene on an emergency basis. ARRL Chief Executive Officer David Sumner, K1ZZ, who signed the letter of complaint, said Alliant Energy has been aware since March 30th. Thats the date it installed Amperion BPL equipment in Spencer's neighborhood and the interference began. (ARRL)

**

ENFORCEMENT: EX-KG6IRO FINED $10000 FOR UNLICENSED OPERATION

A man who challenged the FCC and the southern California ham radio community has been fined $10,000. Amateur Radio Newsline's Bruce Tennant, K6PZW, has the latest on a person who the F-C-C has told to stay off the air:

--

The FCC has issued a $10,000 Notice of Apparent Liability to Monetary Forfeiture -- that's a fancy way of saying a fine -- to Jack Gerritsen, the at least temporarily former KG6IRO. This, for operating a radio station in the Amateur Radio Service without the authorization from the FCC to do so.

In a June 15th letter to the Bell, California, former licensee, the regulatory agency notes his past record of non compliance with, among other things, its orders to keep off the air. It also notes his previous conviction for interfering with police radio communications in 2000 and the November 14, 2001 decision by the FCC to set aside his ham radio ticket based on complaints about the operation of his stations. Kit also raises questions regarding his qualifications to be a Commission licensee in light of his 1999 arrest and 2000 conviction on the police radio jamming charges.

At the time of the license set aside Gerritsen was warned that he has no authority to operate radio transmitting equipment. That doing so would be considered to be a violation of Section 301 of the Communications Act and could subject him to monetary penalties or imprisonment.

But on December 9th 2001, the Bell, California Police Department notified the FCC that it had received complaints against Gerritsen for making radio transmissions. On December 28th of 2001 the FCC's Los Angeles Office issued a warning letter to Gerritsen for unlicensed operation, and basically told him to get off the air. On January 2, 2002 Gerritsen replied and asserted that the set aide of his license was improper. On January 29th, the Bell Police and the California Highway Patrol arrested Gerritsen on a probation violation charge. On May 7th of 2002 he was found guilty of the parole violation and sentenced.

Soon after his release on July 28th of 2003 the FCC began getting complaints of unauthorized transmissions over local Los Angeles area amateur, business band and public safety repeaters. The complaints alleged that the person making the transmissions identified using the call letters KG6IRO. An investigation was launched. This lead to an agent positively identifying Gerritsen on November 6, 2003 as a person holding a transceiver while the investigator recorded the radio transmissions he was making. The investigation continued with the FCC identifying Gerritsen as the interference source on November 7th 2003 and on February 9th of this year.

Now, based on what the FCC cites as conclusive evidence it has levied the $10,000 fine against Gerritsen for willful and repeated

violations of Section 301. As usual, Gerritsen was given the customary 30 days to pay up or to file an appeal.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

Word is that Gerritsen has responded to the FCC with a demand that the agency rescind the fine. He reportedly claims that his license granted on November 14th 2001 has not been terminated, revoked or in any way modified to prevent him from being on the air. (FCC)

**

ENFORCEMENT: THE FCC ENFORCEMENT LOG

Gerritsen is not the only ham radio enforcement story making news this week. With more, heres the FCC's Daryl Duckworth, NN0W:

DO NOT READ: Audio report only. Hear it in the newscast at www.arnewsline.org

--

More ham radio enforcement news in upcoming Amateur Radio Newsline reports.

--

ENFORCEMENT VICTORVILLE CA PIRATE STILL ON THE AIR

A pirate broadcaster in Victorville, California, is still operating full time on AM 660 and FM 91.3. This, in defiance of FCC actions to shut it down.

Back on March 31st, the FCC issued a $20,000 fine to alleged station owner Stanley Mark Mayo. This, for willful and repeated violation of Section 301 of the Act for operating radio transmitting equipment without the required Commission authorization.

None the less, the stations remain on the air leading to speculation that another level of enforcement action might be taken. One that could lead to seizure of the broadcast equipment and jailing of those who put the stations on the air.

For a look at the Commission's action on these stations, see www.fcc.gov/eb/FieldNotices/2003/DOC-246123A1.html (CGC, others)

**

RESCUE RADIO: A 100 WATT TRAVELERS INFORMATION STATION AT LAX

The FCC has granted a request by the managers of Los Angeles International Airport for a ten fold power increase to their Travelers Radio Information Radio service. On December 4, 2002, managers filed the application that asked to increase power from 10 to 100 watts. The reason for the increase was to facilitate the airport's efforts to provide emergency communications to the traveling public in the event of a terrorist attack. The FCC has now granted the 100 watt request, due, it says, to the circumstances involved. More on this story is on-line http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-03-3843A1.doc (CGC)

**

THE SOCIAL SCENE: NEBRASKA IN JULY

Turning to the ham radio social scene, Nerbraska's Pioneer Amateur Radio Club will hold its flea market on Sunday, June 11th. The venue is the St. Charles Parish Center in North Bend. For more information e-mail mehaffey@dtnsped.net (E-mail)

**

THE SOCIAL SCENE: MARYLAND IN JULY

And the BRATS Hamfest and Computer Fest will take place July 25th at the Timonium Fairgrounds in Timonium, Maryland. This is one of the biggies that features more than 500 outdoor flea market spaces, hundreds of indoor vendors, free ham radio exams and much more. There is lots of information on this one on-line. You will find it in cyberspace at www.bratsatv.org (Press release)

**

HAM RADIO AND THE 2004 OLYMPICS: THE ATHENS 2004 AWARD

Athens 2004 Olympic Games Awards will available for all radio amateurs and short-wave listeners who make or log a requisite number of contacts with stations in Greece. This, during the period of the 15th of May until the 30th of September.

Special prefixes J4, SX and SY count 10 points each, normal SV stations count 5 points each and the Radio Amateur Association of Greece's HQ station SZ1SV counts 50 points. A total of 250 points is required for the Bronze Award, 350 for the Silver and 500 points for the Gold Award.

The address for applications is RAAG Award Manager, PO Box 3564, 102 10 Athens, Greece, or see the RAAG web site: www.araag.org/award2004.html (RSGB)

AN ARNEWSLINE FOLLOW-UP: MILITARY APPRECIATION DAY

A follow-up to a story we ran several weeks ago. Thanks to the efforts of several amateur radio operators in Ft. Wayne, Indiana a message of hope and appreciation was sent via the airwaves to our military personnel around the world. Newsline's Jack Parker W8ISH has the details:

It's official. By proclamation, May 29th, is officially Amateur Radio Military Appreciation Day in Fort Wayne, Indiana. The event was organized to honor and show appreciation to those that serve and have served in the military and related auxiliary groups. Planning for the event started last spring and quickly grew into a nationwide effort as organizer Emery McClendon KB9IBW spread the word to amateurs and MARS operators in the US and around the world.

The key to success centered on what Amateur Radio could do to let our Military members know that people supported them. Unlike written letters, amateur radio allowed Americans, in their own voice and words, tell the troops how much they care.

To get lots of public input, event organizers searched for a special event location. The Fort Wayne Wizards baseball team got into the game by offering up a spot at their stadium and a home game crowd. The effort grew momentum when radio volunteers from three Allen county amateur radio groups joined the ranks to spread the good word.

The amateurs ran three Echolink stations, IRLP, and two HF stations along with PSK31. The event scored local media coverage from newspapers, radio and network TV stations. Indiana Governor Joe Kernan, a former Vietnam POW and Indiana's senior Senator Dick Lugar both sent proclamations. They were just two of several proclamations read in a special ceremony before the first pitch of the baseball game. Many of the 65-hundred fans on hand, took advantage of the amateur radio connection to express their support to the military stationed around the world.

Reporting for Amateur Radio Newsline, this is Jack Parker W8ISH

--

The Fort Wayne hams say their mission was a success. They now plan to make Amateur Radio Military Appreciation Day an annual event. (ARNewsline(tm), KB9IBW)

HAM RADIO ON THE INTERNET: THE AOL RADIO COMMUNICATIONS FORUM

If you use America Online to get your e-mail and have never explored the Radio Communications forum pages, then you are missing half the fun. Almost since the day AoL took to Internet, the Radio Communications Forum has been a part of the service, and its not just limited to ham radio operators either. No matter what you radio hobby interest, there is probably a board for you. C-B. Scanners. You name it. There's a place for you.

So the next time you sign on and hear the famous words -- "you've got mail" -- type in the keywords radio communications and join the other radio hobbyists around the world who make this area of AoL their cyberspace home." (ARNewsline(tm))

**

HAM RADIO IN SPACE: AN ORBITAL FIELD DAY

Ham radio space travelers Mike Fincke, KE5AIT, and Gennady Padalka, RN3DT, may participate in Field Day from the International Space Station if time permits. ISS Ham Radio Project Engineer Ken Ransom, N5VHO, sent Field Day operating instructions and pass times to the ISS support team at Johnson Space Center. If they were on, Fincke should have been operating as NA1SS. Padalka would likely have signed RS0ISS. Both stations would be classified as 1 Alpha operations. (ARISS)

**

HAM RADIO IN SPACE: ITS A GIRL

And less we forget, a word of congratulations to Astronaut Mike Fincke and his wife Renita on the birth of their second child. Tarali Fincke was born on Friday June 18th with KE5AIT himself making the announcement from the orbiting I-S-S. (N1ORC)

**

THE EDUCATION FILE: THE 2004 TAPR - ARRL DCC

On the educational agenda, the 2004 TAPR and ARRL Digital Communications Conference will be held September 10th to the 12. The venue is the Airport Holiday Inn in Des Moines, Iowa and the planners say that are now accepting papers for the conference proceedings. You do not have to be present at the conference to have your paper included in the proceedings.

Submissions are due before August 10th. Send them to Maty Weinberg at ARRL Headquarters, 225 Main Street, Newington, Connercticut. The zipcode is 06111 and you will find more conference information on the web at www.tapr.org/dcc (TAPR)

**

WORLDBEAT - INDIA: A NEW HAM RADIO INITIATIVE

In world news. India's national Amateur Radio society says that it plans to conduct various programs to promote Amateur Radio as part of a disaster mitigation program in many venues across that country. Many local radio amateurs and clubs across India plan to back this National Institute of Amateur Radio initiative and also take part in this program. (NIAR via Q-NEWS)

**

WORLDBEAT - SCOTLAND: RSGB DISTRICT NAME CHANGES

And some major changes to the two Radio Society of Great Britain Scottish Regions have been announced. Region 1, previously known as Scotland West and the Western Isles, becomes Scotland South and the Western Isles Region 2, previously known as Scotland East and the Highlands becomes Scotland North and the Northern Isles.

As a result of these changes, two new RSGB districts will be added to Region 1. These are District 15 to be called Lothians and District 16, the Borders. The Deputy Regional Manager for District 15 is Dave Stockton, GM4ZNX. (GB2RS)

**

DX

In D-X, word that IZ3EFL is currently active as S79DF from the Seychelles. Look for him during his evening hours on 20 meters SSB. He expects to remain there for quite some time so QSL as directed on the air. (GB2RS)

And PA5M is now in Sudan and will be active in his spare time as ST2DX. He will be there for about one month. QSL is via PA7FM. (GB2RS)

**

THAT FINAL ITEM: D-DAY AND HAM RADIO - NEW ORLEANS STYLE

And finally this week, the story of ham radio helping to celebrate a national holiday, southern style. It took place in New Orleans and Don Wilbanks, AE5DW, is there with the rest of the story:

--

The weekend of June 5th and 6th the Jefferson Amateur Radio Club, based in Metairie, Louisiana operated W5D, a special event station to commemorate the 60th anniversary of the D-Day invasion at the National D-Day Museum located in downtown New Orleans.

Event co-chairman Keith Barnes, W5KB reports that by all measures it was a rousing success. Just over 600 contacts were made and the station display was very well received by visitors and Veterans alike. The hams manning the booth didn't miss many opportunities to

talk up amateur radio.

The display, prominently located in the main entrance hall just past the front door, featured a large collection of World War II vintage military radio gear. Among the visitors to the station were former New Orleans Archbishop Philip Hannan, himself a World War II vet and member of the 82nd Airborne. The Archbishop actually jumped with the 82nd on D-Day.

Also stopping by was Louisiana governor Kathleen Babineaux Blanco. She even sat at the radio and made a contact.

Both Archbishop Hannan and Governor Blanco signed the commemorative poster along with World War II veteran radio operators and World War II veteran hams. The poster will be made into the commemorative certificate for those stations making contact with W5D.

For more information on the special event, along with pictures of the station and vintage radio display, take your web browser to the Jefferson Amateur Radio Club's website at www.w5gad.org. To find out more about the National D-Day Museum visit www.ddaymuseum.org.

From New Orleans, I'm Don Wilbanks, AE5DW for the Amateur Radio Newsline.

Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1U, 4W, 4X, 5B, 5N, 5R, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9N, 9V, A4, A6, A7, A9, AP, BV, BY, C2, C3, C6, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J7, JA, JD/o, JT, JW, JY, K, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TI9, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V4, V5, V7, V8, VE, VK, VP2E, VP8, VP8/h, VP9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO. Operators Gerry/IZ1DSH, Giovanni/IK1WEG and Riccardo/IZ1GDB will be active as 3A/IZ1DSH, 3A/IK1WEG and 3A/IZ1GDB from July 16-18th. Activity will be on 40-10 meters CW/SSB. QSL to the operator's home callsign, direct or via the bureau.

4U1, UNITED NATIONS HQ. Dmitri, N2OW, was once again active during the past weekend. This time he was active on RTTY (a rare catch!). Remember to QSL via HB9BOU.

4X, ISRAEL. Aharon, 4X1FQ, has been active on 17 meters CW/SSB lately. Look for him as early as 2100z or as late as 0500z. QSL via AA4V.

5A, LIBYA. Andy, DJ7IK, informs OPDX that there is a newly licensed operator in 5A-land. Start to look for Ali, 5A3A, a former operator of 5A1A, now operating with his own callsign.

FO, FRENCH POLYNESIA (IOTA Op). Jean Michel, F6AJA, informs OPDX that Alain, FO5RH, is active from Tuamotu Islands (IOTA OC-066). If he can find a plane, he will try to go to Reao Island (IOTA OC-238). Also, he will try to be active from different islands in the Tuamotu archipelago group. He hopes to activate Pukapuka (OC-062) and maybe Napuka (OC-094). He will be on 80-6 meters, mostly on CW and also on 14260 kHz. There are no more details about the dates!

FP, ST. PIERRE AND MIQUELON. Look for FP/VE7SV to be active from Miquelon Island (IOTA NA-032) between October 23rd to November 2nd, inclusive. This will include participation in the CQWW SSB Contest -- in the M2 category. Operations will be on 160-6 meters including the WARC bands -- CW and SSB only at this point in the planning process. Additional modes may be added. Suggested frequencies are:
CW - 1822, 3502, 7002, 10102, 14022, 18072, 21022, 24892, 28022 and 50102
SSB - 1842, 3795, 7052, 14195, 18145, 21295, 24945, 28495, and 50145
The idea of an expedition to St. Pierre & Miquelon
has been on the minds of Team Canada members Dale/VE7SV and Andy/VE7AHA since their return from the 2002 WRTC in Finland. From VE7-land, St. Pierre & Miquelon seems a good balance between its rarity for the worldwide ham community and the relative ease of transport and setup to deliver the operation. A 9-member team has now been selected, and all participants are members of the internationally well known British Columbia DX Club (BCDX). Team members include: Dale/VE7SV, Andy/VE7AHA, Jason/VE7AG, Lee/VE7CC, Steve/VE7CT, Dave/VE7VR, Paul/VA7NT, Dick/N7RO, Ramon/XE1KK and Paul/VE7AVV. Most team members bring tremendous experience from participation in previous DXpeditions on an international scale. Others, however, are newcomers who will get a taste of what drives the engine of success from the action side of the DXpedition radio. While the primary objective of the Team will be to achieve a high QSO total for the DXpedition, their parallel objective is to give FP/VE7SV to as many locations as possible. The team will have operational blocks of time set aside specifically for JA, VK, ZL and the Pacific -- as well as other areas where working FP as a new one is particularly challenging. In the remaining months of lead time till the Team departs the west coast, everyone is working on equipment planning and deployment preparation process. Major equipment sponsors for the DXpedition are being secured, but individual or Club donations would be gratefully received. Please check their Web site if you're interested in supporting the Team. Go to the Sponsor link. For complete details of the DXpedition, go to:
http://www.bcdxc.org/st_pierre_miquelon.htm

For updates and news releases on their upcoming activity, please go to:
http://www.bcdxc.org/fpve7sv_news_release.htm for the news

IOTA NEWS.....
AS-NEW. Members of the Russian Robinson Club (RRC) and the Mediterraneo DX Club are proud to announce that the team of RA3NAN, RZ3EC, RZ0OA, RW0OO and RN0CT, are going to activate the New Asian Group in R0C - SEA OF OKHOTSK COAST NORTH group, from Malminskiye Island, starting July 15th for one week. There will be at least two stations + amplifier using the callsign RI0CM. For more details and updates, visit the following Web pages at: http://www.mdxc.org/ri0cm
http://www.mdcx.org
QSL via IZ8CCW (world-wide), via RZ3EC (Russia ONLY!!!).
The project is expensive, so, any support and donations are very appreciated via Andy, at: rz3em@yandex.ru

EU-045. (Correction, not EU-043) Thomas, DL5MO, will be on a holiday style operation from Orust Island and will be active as SM6/DL5MO from July 12-23rd. His activity will be focused on 40/30/20 meters. QSL via his home callsign. Visit his Web page for pictures, his QSL card and an online log search (after operation) at: http://www.dl5mo.de

EU-061. A two man IOTA-expedition to Tromoy-Island will take place between July 1-6th. Activity will be on 40/30/20/17/15 meters CW and SSB. Antennas are a Butternut and a Spiderbeam. There will be no HF Bands during the time between 1400z, July 3rd and 1400z, July 4th (Participation in the VHF Contest). Mario, DL5ME, will be active as LA/DL5ME. He will later be joined by Gunter, DG3HWO, who will operate a second station. QSL via their home callsigns direct (prefer) or by the bureau (a longer delay for QSLs).

EU-170. A member of the Croatian Telegraphy Club (CTC) will activate the Island of Pag (CI-082, JN74MK) from July 1-10th. Operator will be Den, 9A3FO, and he will sign 9A3FO/P. Activity will be CW on 40/30/20/17/15/12 meters. QSL via the bureau or direct to 9A3FO (no eQSL). For more info about CTC, take a look their Web page at: http://www.qsl.net/ctc

SA-090. The Association of Radioamateurs of Venezuela and the Caracas DX Group are organizing an IOTA DXpedition to activate Chimana Island (Grid: FK70) to celebrate the 2004 Venezuelan Navy Day. Look for the callsign YW6C to be active July 14-18th. Activity will be on HF (CW/SSB/RTTY) and VHF (FM). QSL via W4SO (a mail drop). QSLs are verified and mailed from Venezuela. Please no USA stamps.

NEW CW CONTEST. Eric, ON4MIC, announces that the Belgian EUCW Society (The Club Francophone de Telegraphie), invites you to enter their first contest next September 19th. This contest is open to all the world's CW

lovers, members of the EUCW Society or not. SWLs are welcome as well.
The complete rules are available in French at: http://www.on5cft.be.tf/
The complete rules in the English language are available at:
http://users.skynet.be/sb334255/CFT%20activity%20day%202004_English.pdf
More details will be forthcoming at the end of August.

NEW OFFICERS FOR 2004-2006. The Long Island DX Association (LIDXA) has elected new club officers for the 2004-2006 term:
President : Martin Miller, NN2C
V. President : Pat Masterson, KE2LJ
Secretary : Ed Whitman, K2MFY
Treasurer : John Reiser, W2GW
Directors : Andy Cola, W2VZQ
Lew Reinberg, W2BIE
Emil Tillona, KD1F
For more information on the LIDXA, check out their Web page at:
http://www.qsl.net/lidxa/

QSL INFO AND NEWS.....
NEW QSL MANAGER. Fran, EA7FTR, informs OPDX that he is now the QSL Manager for Juma, A71EM.

Randy, W5UE, reports that new cards for HC8L have been received from the printer. QSL requests sent direct to him with SASE or SAE + IRC/GS will begin to go out by this past weekend. He currently has the logs for the Feb/Mar 2004 HC8L activity and anticipates receiving logs for pre-2004 HC8L activity shortly. Randy is now handling all QSL duties for HC8L. Check his Web page for details:
http://www.datasync.com/~w5ue/qsl-w5ue.html
Randy also handle QSLs for HC8N, PZ5A, PZ5UE, C6ARB and W4D (IOTA NA-213).

QSL Manager WB2RAJ confirms that he has acquired new logs from Dobri, LZ2TU. The new logs span from February 15, 2001 thru May 17, 2004, including contest contacts. QSL cards are at the printer now. To confirm any of these contacts with LZ2TU, QSL DIRECT ONLY to: Kash Kashdin - WB2RAJ, 4591 West Overlook Drive, Williamsville, NY 14221. WB2RAJ is also QSL Manager for EM3W, FK5DX, FK8GM, ST2/G4OJW, ST2AA (up to Feb. 1995), ST0K, UZ3AYR and WB2RAJ/VP9.

SJ9, MOROKULEN PEACE REPUBLIC (Interesting Operation of the Week!). OPDX was informed that the Norsk Radio Relae Liga, LG5LG, will be active as SJ9WL on 14277 kHz between July 27th and August 9th from Fredsriket Morokulen (Morokulen Peace Replic). We have been told that this is a little republic located between the borders of Sweden and Norway. It was founded to honor the peace between the two countries. QSL via PP5ASN.

SPECIAL EVENT. During the next "27th Jazz in Marciac Festival (South France, near Toulouse), look for special event station TM5JIM to be activated by the Gers Department area Hams from August 1-15th. Activity will be on CW/SSB on 80/40/20 meters, on HF and on 144 and 432 MHz. QSL via F6DJB by the REF Bureau or direct to: Claude Bonne, Garderes 3 Vallees,

F-32230 Monlezun, France. For direct QSLing, please use a SAE and 1 IRC (or 1 USD for Europe or 2 USD outside of Europe).

ST, SUDAN (Update/Correction). Last week in OPDX.665 there was a typo listed for Michael's, ST2DX, QSL Manager. Actually, it was listed wrong twice (first as PA7M and then PA7FN). The correct callsign for Dennis is PA7FM (the eyes are going or maybe the keyboard is being uncooperative). Anyway, Michael, ST2DX, was heard this past week on 17/15/10/6 meters. Watch 18140 kHz between 1520-1545z, 21030 kHz after 1615z, 28430 kHz after 1730z and 50110 kHz between 1545-1730z. Remember he is leaving the country on Saturday the 10th of July, so his last day of activity prbably will be on the 9th. His online log and also real audio of the recent 6m openings can be found on the following Web page at: http://www.pa7fm.nl QSL to PA7FM (direct cards from outside EU with 2 USD or 1 IRC).

TO4, MARTINIQUE. Jim, N6TJ, will be active as TO4A during the CQ WW DX CW Contest in November as a Single-Op/All-Band entry. He will be operating from FM5BH's QTH. QSL via VE3HO.

UK DX RTTY CONTEST. The Scottish-Russian ARS, who ran the UK DX CW Contest last weekend (June 25-26th), is honored to invite the radio amateurs all over the world to participate in the UK DX RTTY Contest (from 1200z, July 10th to 1200z, July 11th. For more details on the contest, please visit their Web page at: http://www.srars.org/ukdxc.htm

YA, AFGHANISTAN. Daniel, DL5SE, was quite active this past week, mainly on 17 meters CW, but there were also QSNs reported on 20/15/12 meters. It seems he is active between 1045-1400z and again at 0400-0730z. QSL via DL5SE.

YZ80, SERBIA AND MONTENEGRO. To celebrate 80 years of Amateur Radio in YU-land and the first ham radio activity (Radio club YU1AFS, 1924) look for HAMs in Serbia and Montenegro to use some special prefixes. Rodja, YZ1AA, is active already with the callsign YZ80A. QSL via his home callsign.

I have particpated in the Field Day activities of two different clubs over the past three years, and I recall seeing many cases of cans of soda and but a single can of beer ("lite").

Some wives and whole families were at the Holland (MI) Amateur Radio Club's FD site for the whole weekend this year, and many other wives came for the Saturday evening potluck.

Alan AB2OS

On 06/27/04 02:56 am kh2d@my-deja.com put fingers to keyboard and launched the following message into cyberspace:

You've never operated FD in Wisconsin<grin>

While someone did find a bottle of something in the CW station, I don't think anyone drank any of it during the FD period. Might have been more exciting if we had<grin>.

Seriously, we had a great time at K4FUN. Worked a handful of DX. (unfortunately not including Walt - we have worked Walt in the past) And a whole pile of domestic QSOs. My beat up 'ol 1986 Jeep made the 130-mile round trip to Murfreesboro in one piece. And I think we may have trained a next-generation contester; 12-year-old KI4AYK made some 400+ QSOs on our SSB station.

Gotta love FD...

The world has to be expanding instead of shrinking. It never was that far when I lived in Nashville and went to Short Mountain with the Murfreesboro club for field days..

This year we were operating from the Rutherford Co. Red Cross office on
the west side of Murfreesboro. But it seems to move from year to year;
last year we were at the Smyrna Airport.

Either way, it's a LONG ride from Cheatham Co.!

Interesting observation. We felt conditions were pretty reasonable.
(maybe because the *weather* was unusually pleasant, unseasonably cool &
dry, not blazingly hot like it usually is on FD in Tennessee!)

We actually worked a bit more DX than usual this year - two DLs, OK1CZ,
RK9CWW, 4Z4TL, plus one each KH6/KL7/KP2. Admittedly that's not much of
a sample size. 20 was pretty good into Russia last night.

We also managed 39 contacts on 15 CW and another 73 on 15 SSB, a lot
more than we did last year. 10 & 6 weren't very productive though.
(though 6 was open)

For our club here in Michigan, weather was also great (a bit tool cool at night though) and propagation was noticeably better than last year although not matching what you can get at other points in the sunspot cycle. Forty meters was blazing with over 800 contacts combined voice & CW about equally split between the modes. Since we only ran 2A this year, we were able to keep this manned for the full contest time. Both 80 and 20 were also good although not up to what we got on 40. Higher HF frequencies did prove poor for us though, too.

Our GOTA station managed 220 QSO's for 271 points -- no biggie -- but all ops were inexperienced non HFers including several kids and "civilians"

Also our GOTA had 44 PSK31 QSO's
The rest were Phone on 40M, 20M, and 15M

We built a 32 foot vertical with four elavated radials -- worked back to the east coast on 40M and used it as a 3/4 vertical on 15M
Vertical radiator was three swimming pool poles held together with hose clamps.
20M antenna was a Cushcraft R8. 10M was zilch out here in the west

One of the main stations worked over 70 6M QSO's

Other main stations are being tallied
although I heard one CW station was at the 980 QSO point

Located at an EOC in Carlsbad Ca

Thanks to all for the advice on PSK31 FD operation and to Mike for the "No VHF at the GOTA" input

We gave our 6M antenna to a main VHF station.

WOW on the 216 contacts on PSK and RTTY
Our GOTA station had 18 PSK QSOs (:-)
But we spent a lot of time demo to newbies

943. QSX 14027.59

Newsgroup: rec.radio.amateur.dx
Date: 2004-07-03 11:03:55 UTC
From: spam.for.the@buerotiger.de
Message-ID: <2kni4rF4c7IfU1@uni-berlin.de>
Source record: 7084

Can someone enlighten me about the purpose of spotting a DX-station's
'precise' QSX?

DX de UA0BA: 14026.0 OJ0J QSX 14027.23 1047Z
DX de DM2CUG: 18073.1 OJ0J uufb up 1 1047Z
DX de UA0BA: 18073.1 OJ0J QSX 18074.40 1050Z
DX de EA5FID: 14026.0 OJ0J QSX 14027.26 1050Z
DX de W1RM: 14024.3 RW3DTB/0 QSX 14026.20 1050Z
DX de N8DJX: 18073.0 OJ0J UP 1 1050Z
DX de EA5FID: 18073.0 OJ0J QSX 18075.07 1053Z
DX de T96Q: 18073.0 OJ0J QSX 18075.1 1055Z

That's eight spots in eight minutes and six of them want to make us believe
that the DX-operator has finetuned his RX to ignore anything 10 Hz up or
down the purported QSX.

And most of these spots are plain wrong because these days the concept of
zero-beat is less important than the last 2 digits of a transceiver's
readout.

I'd like my DXing without spoonfeeding, thank you.

Peter Lemken
DF5JT
Berlin

Today a lot of HAMs use remote control for the rig, and giving the correct
split frequency setting makes it possible for the DX hunter to just click og
the spot to be talking to the guy.
Of cause if the information is wrong there is not much help, but thats not
realy a fault in the system.

> I'd like my DXing without spoonfeeding, thank you.

Why are you using a DX cluster then?
You should be scanning the bands, not the internet :-)

Greetings from Denmark
OZ8ACE Jesper

That's easy to explain. When the Deeee-X is werkin' speeeeeeeet, most of todays internet Deeeee-X'ers can't figure out where he's listening, so at least this way they have a chance if they can change the VFO fast enuff - as opposed to sitting there yelling their callsign over and over on the same frequency and hoping. They never do seem to figure out that a) everybody's receiver frequency isn't exactly the same and b) any smart DX who is working speeeeeeet moves around, but these guys are Cluster Monkeys so we don't expect them to be too smart........

The spotters are just reporting what the DX frequency was and what split they used to make the contact.
Maybe the reader will get the idea the DX is not listening on his frequency. But judging from the amount of callers exactly on the DX frequencies -- many just don't get it. So QSX is in order

Some DX stations pick a split and stay there -- most don't but may have a pattern of tuning. I recall several using a minus split !!!

Spoon feeding comes in different shades.

1. The DX net -- for the DX impaired

2. The List operation for the little guns who bomb into the list taker and would never make it on their own to the DX

3. The DX packet cluster -- excuse is I don't have time to spend tuning and listening -- let some one else do it.

3. CW DX Packet spots -- can't copy the DX call sign -- too fast -- but the cluster will tell me, hope I recognize my call when he gives it.

5. A DX repeater -- for the select elite group only

6. The DXpedition is from your DX club -- picks out members only

7. Your buddy calls you on the phone -- only the two of you know.

If you want to be a true blue genuine pure DXer -- ya find em yourself and let the others do the same. Otherwise you are a subscriber to the spoon.

I don't use spots (no packet and the computer isn't even in the shack)
but you can often tell where the last spot had the DX just by
listening to the pileup move around.

These guys miss out when the DX says, "Listening .210 to .250 [pause]
and 14.190." I work 'em on 14.190 [g].

DXers have always helped other DXers -- a "one-ringer" in the middle of the night, stations announcing the the QSX over a 2M repeater, cluster spots, etc. Some DXers prefer to do it alone; others are happy to have help.

Live and let live. Mind your own business. Stop whining about what others do and work some DX....by whatever means you deem appropriate.

Don't believe anyone was grousing about how folks work DX.
Agree with your comments below.

Just addressing the original poster who sed:
"I'd like my DXing without spoonfeeding, thank you."

If that be true -- why does he use the packet cluster to find his DX ??
A form of spoon feeding sez I
Wot say ye ??

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 27th/June, through Sunday, 4th/July there were 206 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4W, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5Z, 6W, 6Y, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9V, 9Y, A4, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FP, FR, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, I, IS, J7, JA, JT, JW, JY, K, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VP2E, VP2M, VP5, VP9, VR, VU, XE, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

9A, CROATIA. Franz/DL3PS and Zik/DL/VE3ZIK (4N1DX) will be active from Bilice (near Sibenik, GRID JN73) now through July 31st as 9A/VE3ZIK and 9A/DL3PS. They will be active on 40-6 meters. Also, they will (for one weekend) be active from YT6A's location (callsign probably YU6/DL3PS and 4N1DX/6). They will also participate from one of Islands in Croatia

(the island is still not known yet) in the IOTA Contest. QSL for all activity is via DL3PS, bureau is OK. While Zik DL/VE3ZIK is one of Web Administrators at www.contesting.info , there will be no QSL information at this site until August 3rd.

9Y, TRINIDAD AND TOBAGO. Operators Mike/AJ9C, Gerard/KE9I and Philip/N9LAH will be on the Island of Tobago now through July 17th. Activity will be on 160-6 meters SSB, CW and RTTY/Digital. Operators will be signing 9Y4/ homecall. All QSLs go to the operator's home call. SASE appreciated for direct QSLs. The 6m station will be a FT-897 (100w) and M2 6M5X. Grid is FK91. During the IARU Contest they will be using the 9Y4ZC callsign. The 9Y4ZC QSLs "FOR THE IARU CONTEST ONLY" will go to AJ9C (again please SASE for direct cards).

CU7, AZORES. Uwe, DH9YAT, will be active as CU7/DH9YAT from August 3-20th. Activity will be on 40/20/15 meters QRP on CW. QSL via the bureau.

CX1, URUGUAY. Look for the official station of the Radio Club Uruguayo (RCU), CX1AA, to be in the IARU HF World Championship Contest, July 10-11th. Activity will be on all bands. QSL via P.O.Box 37, 11000 Montevideo, URUGUAY or via the Bureau.

DX BANQUET. Tim, KU4J, President of the NADXC, informs OPDX that the North Alabama DX Club (NADXA) announces its annual DX Banquet in conjunction with the Huntsville, Alabama hamfest on August 21st, 2004 at 6:30pm. The guest speaker will be Jess Lewis, KR4OJ, from the T33C 2004 Banaba DXpedition. Tickets are 25USD/each and available from Vic Holland, K4RVH (k4rvh@arrl.net). Make checks payable to NADXC with SASE to Vic Holland, 219 Cedar Pond Drive, Madison, Alabama 35757-7633. For additional information Phone 256-721-9106 or E-mail.

HA, HUNGARY. Berkin, TA3J, will operate from different locations in Hungary, and sign HA(?)/TA3J between July 18-21st. Look for activity on 160, 80, 40, 20, 15, 10, 6 and 2 meters (including the WARC bands), on SSB and FM. QSL via his home callsign, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. SWL QSL cards are OK.

HI9, DOMINICAN REPUBLIC. Ralph, DL9MWG, will be active as HI9/DL9MWG from July 28th to August 16th. Activity will be mostly CW on all HF bands with 100w. QSL via the bureau.

IOTA NEWS.....
AS-109. Operators UA9JRN, UA9JPB, RW9JT and RX3BP will start their trip on July 12-13th (4 days on the road) to Obskoj Guby Islands. They will take a boat to the island, and they will use UA9JRN/mm, UA9JPB/mm, RW9JT/mm and RX3BP/mm as callsigns. They expect to be active on July 16th for 3 to 4 days.

EU-015. Rolf, DL6ZFG, will be active as SV9/DL6ZFG/p from Crete, July 27th through August 8th. There is the possibility that he will use the special event call J42004ZFG after August 1st. Activity will be mainly on 20 meter SSB and RTTY using a TS-480SAT (100 watts) and vertical antenna. QSL via his home

callsign, direct or by the bureau.

EU-030. Ric, DL2VFR, will be active as OZ/DL2VFR from Bornholm Island August 15-27th. Activity will be mostly CW during the ILLW (August 21-22nd) together with OZ/DL2SWW from different lighthouses there. QSL via the bureau.

EU-121. Look for the special callsign EJ2MT to be activated from Bere Island, July 21-27th. Also, the Bristol Contest Group (G6YB) and the East Cork Radio Group (EI7M) are joining forces for the Multi-op section of the IOTA Contest July 24-25th, using the callsign EJ2MT. The EJ2MT call signifies operation from Bere Island's historic Martello Tower. Please QSL via EI6HB for this operation. QSL will be 100% to all cards received.

EU-132. Rolf, DL6ZFG, will be active as SP1/DL6ZFG/p from July 9-11th from Wolin Island (Polish-Island-Award: SZ-02 and SPIA: SZ-03). He may also try to activate Karsibor Island (IOTA EU-132, SPIA SZ-03) for a short period of time. Activity will be on 20 meter SSB and RTTY using a TS-480SAT (100 watts) and a vertical antenna. QSL via his home callsign, direct or by the bureau.

NA-067. Jon, WB8YJF, will be active from Ocracoke Island, NC (USI NC-001S) from July 18-25th. His activity will include an entry in the RSGB IOTA Contest. His callsign will be WB8YJF/4. Operations will be on 80-10 meters, CW, RTTY, and SSB. Also, Jon informs OPDX that he will take a 6M rig with him this year. He will be using a TS-830S barefoot to a vertical. Please QSL direct for FAST response, and by the bureau is OK. If direct, please send an SASE or IRC for return postage. Jon's address is: Jon Severt/WB8YJF, 5586 Babbitt Rd., New Albany, OH, 43054 USA.

OC-016. Look for Norm, W1BYH, to be active as 3D2BY from Viti Levu from July 5-14th. Activity will be on 40-10 meters, CW, SSB, RTTY and PSK. QSL via e-QSL or W1BYH.

OC-201. The first ever amateur radio operation from Mana Island will take place during this year's IOTA Contest (July 24-25th). Operators Chris/ZL1CT and Franz/ZL2III will use the callsign ZL1V/p. On 40m SSB to Europe, ZL1V/p will transmit around 7190 kHz and listen below 7100 kHz. Access to Mana Island is weather-dependent.

WHY ARE KP1 AND KP5 NOT ON THE AIR?? DXer Carl Henson, WB4ZNH, provides the following information to help get KP1/KP5 back on the air: "Many DX groups in the USA have been trying unsuccessfully for about 12 years to receive permission to activate KP1, Desecheo Island and KP5, Navassa Island. My group has been working hard on this problem for several years now. We keep reaching a dead end. It has now become more important that someone go, regardless of who. Please non-USA Hams

write to:
The President, 1600 Pennsylvania Avenue NW, Washington, DC 20500
president@whitehouse.gov
vice.president@whitehouse.gov
and US Hams please write, E-mail, and phone your Congressman and Senator
and urge them to bring pressure to bear on the Department of Interior
to allow an operation from both of these DX locations. One third of
the US Senators and all of the US Representatives are up for reelection
this year, not to mention the President and Vice President. If you would
like to go to one of these islands, E-mail me and I will give you the
information for application and how to cause the most work for the
Department of the Interior..... 73, Carl

P.S. Oh, I forgot, Fish and Wildlife has to comply with 50cfr2545,
so please include the following download information."
http://members.megapipe.net/wb4znh/50cfr2545.doc
(This is a Word document.)

LIGHTHOUSE ACTIVITY.....
Yuri, UA0LMO, will operate CW, RTTY, PSK31 as UA0LMO/P from the
Bryusa Lighthouse (Japan sea) ARLHS ASR-018, RLHA RLA-016 on July
16-18th. QSL via his home callsign, direct or by the bureau.

Bob Schenck, N2OO, Public Relations Chairman of the Old Barney ARC,
informs OPDX that they will be operating from the Tucker's Island
Lighthouse which is in the Tuckerton Seaport in Tuckerton, New Jersey,
on the weekend of August 21-22nd. This counts for ARLHS Lighthouse
#USA-911. Operation will be primarily on 20 and 40 meters SSB but
other bands are possible. A nice full color photo QSL of the Lighthouse
is available. QSL via Bob Schenck, N2OO, PO Box 345, Tuckerton,
NJ 08087 USA. Visitors are welcome. This is also the 4th Annual Classic
Boat Festival weekend at the Tuckerton Seaport. The show runs from
10 a.m. to 5 p.m local time each day. Join the Tuckerton Seaport and
the Philadelphia Chapter of the Antique and Classic Boat Society for
two splendid days of classic wood and glass boat exhibitors,
demonstrations, and entertainment. Watch the parent/child boat building
contest or take a cruise up the Tuckerton Creek. The Classic Boat Show
is fun for the whole family.
Old Barney Amateur Radio Club - http://www.obarc.org
Tuckerton Seaport - http://www.tuckertonseaport.org

MD4, ISLE OF MAN. Dave, G3NKC, informs OPDX that MD4K plans to be active
again during the IOTA Contest, July 24-25th, on SSB/CW. QSL as usual via
G3NKC direct; via the bureau or direct request through their Web page at:
http://www.md4k.com
Please note that direct requests must have either IRC or USD for return
postage. All IRCs have to be stamped by the issuing post office to be
valid - Dave states that he has a large number that are not stamped, so
they are of no use. In future, anyone not submitting valid IRCs will have
their cards sent through the bureau.

NU1, UNITED STATES (Contest Station). This coming weekend, look for NU1AW (ARRL HQ station) during the IARU Contest. They will be operating on all bands from 160-10 meters on both CW and SSB. They will be operating from the stations of K2LE and W2AX in Southern VT, so this should be a good chance to pick up Vermont for those looking for new bands/modes WAS. QSOs with NU1AW will also count towards the "Order of Boiled Owls 50th Anniversay Award." See CQ magazine or their Web page for full details at: http://reallybig/obo

OA9, PERU. Look for Bonnie, KQ6XA, to be active as OA9/KQ6XA from now through August 25th from the Andes mountains in the Amazonas area of Peru. The ham radio operation is in conjunction with an international expedition of cave scientists (speleologists) to survey and map the deepest previously unexplored vertical caves in the southern hemisphere. In addition to the regular HFpack schedule at 1630z and 2230zC on 18157.5 kHz, the expedition will use the following schedule:
Daily at 0030z on 18157.5 kHz USB
Daily at 0030z on 18158.2 kHz CW
Daily at 0100z on 7087.5 LSB
Daily at 0100z on 7087.0 kHz CW
QSY frequency for CW will be 18095.0 kHz; 21437.5 kHz USB as needed; 10117.5 kHz CW as needed.
The Cave Expedition Peru 2004 will operate on HF using a 20W transmitter and battery power charged by solar. Transmitting time will be somewhat limited. To conserve battery power during cloudy days, OA9/KQ6XA will not call CQ, but instead will just listen for calls on schedule and respond to them directly. Radio operators around the world are invited to QSO with OA9/KQ6XA; please call at the above scheduled times and frequencies on SSB or CW. Listen for response in CW or SSB. QSL via KQ6XA by e-QSL.

OE, AUSTRIA. Berkin, TA3J, will operate from different locations in Austria, and sign OE(?)/TA3J between July 21-23rd. Look for activity on 160, 80, 40, 20, 15, 10, 6 and 2 meters (including the WARC bands), on SSB and FM. QSL via his home callsign, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. SWL QSL cards are OK.

OH0, ALAND ISLANDS. Operators OH1JT, OH3WW, OH4JFN and OH5DX will be active as OH0Z during the RSGB IOTA Contest (July 24-25th) as a Multi-Op entry. QSL via OH5DX (ex-OH1EH).

OH0 & OJ0, ALAND ISLANDS AND MARKET REEF (AND PARTY @ SEA). This press release was sent out early last week by Jarmo, OH2BN, for Martti, OH2BH. However, activity will be coming to an end by the time you read this (expected Monday) in spite of a delay in landing on OJ0 due to bad weather. Martti, OH2BH, stated that the landing on Market Reef was under very difficult conditions. Getting all the team members and their equipment onto the reef using a dinghy took some three hours. OPDX felt that the earlier press release was interesting and should be published anyway. The following is from Martti, OH2BH:

"It was early July, thirty-five years ago when a party was heading to
Market Reef aboard a large sailing yacht to put OJ0DX on the air for

a first major activity from that barren rock, located at open sea
between Finland and Sweden, west of Aland Islands (60° 05' 45" North &
19° 54' 40" East). Lars, OH0RJ, one of the members of the original
party, has now invited the original team with their friends to share
the spirit of the initial discovery of Market Reef, to sail again
toward the open sea and find the low lying reef. But now more in style.
The 160 ft. schooner Linden (http://www.linden.aland.fi), a replica of
the ocean-going ships used 100 years ago, will set sail on Tuesday,
June 29 and journey to Market Reef. The callsigns at sea will be
OH0S/M and OJ0J/MM and a Zodiac landing can be expected, depending on
the seas, during the nightless night of these northern latitudes, just
into the next day UTC. Playing on board will be the Seven Seas DX
Orchestra, featuring a piece entitled "Untuned Guitars", specially
composed for this outing. The total party of thirty (30) includes:
OH0NA (original OJ0MA), OH1XX, OH0RJ, OH0XX, OH1MA, OH1NM, OH1NOR,
OH1RX, OH1TV, OH1TX, OH2BAA, OH2BAD, OH2BC, OH2BR, OH2KH, OH2MM, OH2PM,
OH2QV, OH2TA, OH2WC, OH3UU, OH4NS, OH5NE, OH5NQ, ES1AR and OH2BH & OH2KK,
the initial discoverers of Market Reef. A tribute will be paid to those
early members of the OJ0DX team - OH1NK, OH1SY and OH0NI - who are no
longer sailing these waters. All Silent Keys. While Aland Islands are
celebrating this year the 20th anniversary of the first release of
their own postal stamps
(http://www.goaland.net/shownews.asp?lang=en&newsID=25748&style=index)
each QSL request relating to OH0S and OJ0J will be answered from Aland
Islands, using current OH0 stamps. QSL address: Lars Nikko, OH0RJ,
Matrosgatan 5L, 22100 Mariehamn, Aland Islands, Finland."

OJ0, MARKET REEF. Seppo, OH1VR/OJ0VR, is leading an international team
to Market Reef for the IARU Contest and will be active as OJ0U during
the contest. Team members include: OH2KI/Jorma, OJ0RJ/Lasse, KX7M/Denny,
W6NV/Oliver and DL8YHR/Frank. Antenna work and initial operations are
scheduled to begin on July 8th. Home callsigns signing portable OJ0 may
be used before the contest. DL8YHR will activate VHF bands.

OK, CZECH REPUBLIC. Berkin, TA3J, will operate from different locations
in the Czech Republic, and sign OK(?)/TA3J between July 23-25th. Look for
activity on 160, 80, 40, 20, 15, 10, 6 and 2 meters (including the WARC
bands), on SSB and FM. QSL via his home callsign, direct (only SASE and
1 IRC, no green stamps please) or by the bureau. SWL QSL cards are OK.

QSL INFO AND NEWS.....
QSL Manager Update: June 2004
GM3WOJ, GM4YXI, 9M2/GM4YXI, GS2MP, ZL1CT and ZL1V via N3SL
GM4AFF, GM7V and GZ7V via M0CMK

QSLs for the CT9P and CT9X operations will not be printed until after
the trip is complete. The QSL Manager for both callsigns is Kim Larson,
daughter of N3SL, via N3SL's CBA. QSL direct with SASE or SAE and
IRC/USD. Bureau cards are OK, but are shipped out only quarterly. The
logs will also be uploaded into the LoTW by N3SL as soon as they are
received.

QSL HK3JJH/0A direct only to HK3JJH. Petro, HK3JJH, was active over the past weekend from NA-132 (Bajo Nuevo and Serranilla Bank Cays). Remember, this operation will only count for DXCC as San Andres.

S79, SEYCHELLES. Look for Igor, RN3OA, to be active as S79OA from the Island of Mahe (AF-024), August 16-31st. He may also activate the Island of Alphonse (AF-033).

SILENT KEY. The following was taken from the DX-List E-Mail Reflector: "One of the best-known names in cinematic as well as Amateur Radio circles, actor Marlon Brando, died in Los Angeles July 1 at age 80. Known to hams worldwide as KE6PZH and FO5GJ, Brando is listed on the FCC database as Martin Brandeaux. He was on the air occasionally through the years with his FO5 callsign from his private island in French Polynesia. In an interview with Larry King on CNN in 1994, Brando confirmed his continued interest in Amateur Radio. In response to a caller's question, he said ham radio provided him with the opportunity to just be himself. The iconoclastic actor was best known for his roles as Stanley Kowalski in 'A Streetcar Named Desire,' a dockworker in 'On the Waterfront,' and Vito Corleone in 'The Godfather.' He was nominated for eight Academy Awards and won twice."

SJ9WL AND LG5LG, MOROKULIEN STATION (Update/Clarification/Correction). Last week OPDX was misinformed about the station at Morokulien and thanks to Osten, SM5DQC, a clarification/correction was provided. It seems that Morokulien is not a republic as mentioned last week (MOROKULEN PEACE REPUBLIC). However, there is a peace monument there; it was named in a sort of show radio-program in the fifties -- "moro" in Norwegian means fun and "kul" in Swedish also means fun. The ARIM (Amateur Radio In Morokulien) is an association which maintains and runs the amateur radio station in Morokulien. According to their Web page, ARIM has a management of 3 Swedish and 3 Norwegian radio amateurs. The main task of ARIM is to provide courses that give handicapped people radio amateur lisenses. The radio shack can be rented by worldwide radio amateurs, and it is very popular because of its very attractive callsigns, the Norwegian LG5LG and the Swedish SJ9WL. The location of the amateur station is also unique, because this is probably the only amateur station worldwide which is operating from the borderline between two countries. The shack is made useable for handicapped people. The income from rental activities are used to help Norwegian and Swedish handicapped to get amateur lisense. The QSL Manager is John, SM5DJZ, for both callsigns. LG5LG will count as Norway and SJ9WL will count as Sweden towards DXCC. Please visit their interesting Web site (with pictures and history) at: http://www.east.no/priv/la7tia/arim/

TX/C, CHESTERFIELD ISLAND. Chris, DL5NAM, informs OPDX and the Northern Ohio DX Association (NODXA) that with the great access of their last DXpedition (to the Sudan as ST0RY), the team has annnounced their next project will be to activate Chesterfield Island in October of this year. Activity will be on all bands 160-6 meters, CW, SSB and RTTY. He states that the flight tickets and vessel are booked; callsign is in hand. The operators mentioned are: Chris/DL5NAM, Jan/DJ8NK, Hawa/DK9KX, Dieter/DJ9ON, Dieter/DL3KDV and Heye/DJ9RR. They are still looking for one more operator.

This DXpedition will not be cheap (est. budget is 45,000-50,000 USD), so they are looking for funds. For any questions, please feel free to contact Chris, DL5NAM, at:
E-mail - dl5nam@arrl.net
Snail Mail - Chris Sauvageot, Guttenburg 19, D-91322 Graefenberg, Germany
F A X - ++49 9192 998968
Ph. # - ++49 9192 998967

V26, ANTIGUA AND BARBUDA. An early announcement reports that a number of operators (to be announced) will be active as V26DX during the CQ WW DX SSB Contest (October 30-31st) as a Multi-?/Low Power entry. QSL via KU9C.

VK9L, LORD HOWE ISLAND (News Release Update #2). Bill Horner, VK4FW, sent OPDX the following release on the upcoming operation to Lord Howe Island to take place October 9-23rd: "All accommodation is finalized along with plane flights. We arrive on October 9th at approx 14.45 local time. By the time we get checked in and gather all the equipment, it will be getting close to darkness; however, we hope to have one station on air very quickly followed soon after by a second. The rest will be installed when daylight breaks.
Because of severe weight restrictions we have to boat freight most of the equipment over next month. DONATIONS to help offset this cost would gladly be appreciated and can be sent direct to Oceania Amateur Radio Dx Group Inc, PO Box 513, Nambour, 4560, Australia.
The operators that are absolute confirmed starters are:

YLs

Vicki/VK2IVK - Operates SSB. She was part of the VK9CT team in 1996.
Elvira/IV3FSG - Operates SSB and specializes in RTTY. She was part of the VK9WM/VK9WY team in 1997 and has also done many other operations throughout European areas.

OMs

Eric/VK4NEF - Operates SSB. He is a keen contester who is no stranger to working pile ups.
Mike/VK3SU - Operates SSB. He has been dxing for many years and will get to be on the other side of the pile up.
Carlo/IK6CAC - Operates SSB, CW & RTTY. He is a very dedicated operator who knows how to work pile ups. He has operated from many places throughout European areas.
Bill/VK4FW - Operates SSB & CW. He is no stranger to thinning out pile ups.
It is very unfortunate that George, VK6NKG, has been forced to pull out of this trip due to unforeseen business commitments. This leaves us with 2 vacancies at the time of this release. We require 1 more YL op and 1 OM. If this interests you please E-mail me direct at: vk4fw@westnet.com.au
We will endeavor to operate with 4 stations on HF and 6m bands. The following frequencies will be covered:
6m -- 50.100 MHz CW and SSB

HF SSB -- 3790, 7045, 14195, 18140, 21245, 24945 and 28.445
HF CW -- 1807, 3507, 7007, 10107, 14007, 18077, 21007, 24897 and 28007

Lord Howe Island is ranked at 65 on the wanted list from the greater European area. We will make sure that the EU areas get a good shot at getting us in the log. We again ask you to be so kind as to send a donation today.... Bill, VK4FW" Any questions or suggestions please send them to: vk4fw@westnet.com.au

YO, ROMANIA. Special event station YR500S in Suceava county is active during July to commemoration the 500th anniversary of the death of Moldavian King Stefan the Great. QSL via YO8KGA. For more information, please visit the Web page at: http://www.qsl.net/yo8kga
ADDED NOTE: A special event station from Moldova was also active only through July 4th in celebration of the 500th anniversary of the death of Moldavian King Stefan the Great. QSL ER500S via ER1DA: Valery Metaxa, Box 3000, Chisinov, MD 2071, Moldavia.

ZK1, SOUTH COOK ISLANDS. Victor, ZK1CG, will be using the ZK1USA callsign as his callsign for the month of July. QSL to the address in any callbook or QRZ.com.

ZL, NEW ZEALAND. During the IARU HF Championship, look for the new contest callsign ZL1V to be on the air for the first time during the contest on July 10-11th. Activity will take place from the ZL6QH contest station. QSL ZL1V via N3SL.

ZL, NEW ZEALAND (ZL 160m Change). Greg, ZL3IX, announced on the Top-Band Reflector this week that after a successful remit to their national body (NZART), the standard Region 3 bandplan for 160m has also been adopted for ZL - ie narrow band only modes from 1.800 to 1.840 MHz, other modes from 1.840 to 1.950 MHz.

OK, so you want hams to be a large pain in the rear for the government agency
that would ultimately have to approve any operation here? This hardly seems
like the way to win friends....

Any news regarding Aves (YV0) DXpedition???

Few days ago Martti OH2BH was operating OJ0J station and he mentioned on the air that he will be going to Aves soon...

>air that he will be going to Aves soon...

I think it's supposed to happen at the end of the month, but that's
just speculation. I was talking to a 6-land ham who has been invited
to go on it, but he says things still have not been firmed up with the
YV navy.

For once, I hope, this is dead wrong info, as I'll be out of the
country for a month and I'd hate to miss that one!

Amateur Radio Newsline™ Report 1403 – July 2, 2004

Amateur Radio Newsline report number 1403 with a release date of
Friday, July 2, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T.

The score is now Ham Radio one, BPL zero; OSCAR Echo is alive, and business is
good for CW.

Find out the details on Amateur Radio Newsline report number 1403 coming your
way right now.

**

BPL: SCORE ONE FOR THE GOOD GUYS

A major broadband-over-power line pilot test by Alliant Energy in Cedar Rapids,
Iowa is shut
down after local hams document the harmful interference and the Federal
Communications
Commission gets a formal complaint from the A-R-R-L. We get the details from
Amateur Radio
Newsline's Mark Abramowicz NT3V:

****

It took nearly three months to accomplish the mission, but amateurs in Cedar
Rapids - armed
with ample data and the muscle of the American Radio Relay League - convinced
Alliant to
prematurely halt their B-P-L test.

Jim Spencer, W0SR, first discovered the interference on his HF radio right
after Alliant
launched its B-P-L testing March 30.

Spencer, who quickly mobilized other Cedar Rapids hams to form a technical
committee,
says the interference was so severe that it wiped out his and others' ability
to use
their radios.

Spencer says the group worked with Alliant officials to try to resolve the
interference
and conducted several test measurements with the utility's cooperation.

Spencer tells Amateur Radio Newsline the group appealed to Alliant to shut down the system and stop the interference on several occasions. But it was clear the B-P-L industry was telling Alliant's managers something else.

"There's a lot of regulatory uncertainty here," Spencer explains. "And that what the hams were calling harmful interference - in my case S-9 signals, you know, every 1-plus kilohertz across the band, they were being told that wasn't really harmful.''

Spencer says communications between his technical group and Alliant officials were civil, but they accomplished little action. He says he and others filed complaints with the FCC.

"I think in 21 communications I received one simple response basically told me to go back to the power company - the operator of the system," Spencer says. "And, of course, I had done that all the time. So, we had been asking the utility company to close it down, we had been asking the FCC to help us and then the ARRL went and escalated that."

Wade Walstrom, W0EJ, is the ARRL's Midwest Division Director. He says the league's FCC complaint finally got the utility's attention.

"The thrust of the complaint was that they were now aware that the system was causing interference and didn't shut the system off so now that makes it willful interference," Walstrom said...

Alliant stopped the B-P-L pilot test on June 25 saying it had gathered the necessary data to make a determination on whether a general rollout of B-P-L would be worth pursuing, according to Spencer. He says Alliant's project leader told him the ARRL's FCC complaint was just one factor in the company's decision.

"Obviously we're happy, but we didn't feel like we had won," Spencer said. "We felt like this was a technical problem and that we tried to communicate some of the technical parameters to them and that they'd made a good business decision."

Spencer says an Alliant representative told him the company has no plans to pursue B-P-L at this time.

"In order to distribute it out to a sparsely-populated rural area with all the equipment it would take, it's not clear that this thing makes economic sense," Spencer says. "And that this really can meet the goals of the rural user which is
one of the things that people touted."

The ARRL's Walstrom is cautiously optimistic Alliant's decision might have a ripple
effect.

"We would hope that other utilities or other organizations that were looking to

possibly use B-P-L as a source of revenue will look and see the decision that Alliant
has made and re-think their own plans and hopefully decide that maybe there are other
ways to provide broadband internet connections to the population as a whole," Walstrom says.

Walstrom says the Cedar Rapids group led by Spencer has set a precedent.

"All the proof on how well it's going to work isn't there yet," Walstrom says.

"And the proof that we have established here in Cedar Rapids and is coming out from other parts of the country is that it's not an interference-free system by

any means and in fact it causes a lot of interference and we've documented that here."

Spencer says his committee, consisting of a group of engineers - most of them retired from Rockwell Collins - stuck strictly to technical evidence in communications
with Alliant. But he says its clear B-P-L has taken on a very political tone.

"Obviously the problem has got a lot of political implications, but the thing that
hams can do is remain professional and keep it primarily on a technical level," Spencer says.

The ARRL's Walstrom says if he could stand before the FCC panel to make his case,
he would strongly urge the commissioners to postpone action on or even walk away from B-P-L.

"I think they need to delay it until they're satisfied that they're able to mitigate any
interference problems at all and by mitigate from an amateur radio standpoint that really
means eliminate," Walstrom says.

Spencer adds, there are no hard feelings toward Alliant. Spencer says he and members of
his technical group still have a good, working relationship with the utility.

"We've had quite a bit of communication back and forth through this whole thing," Spencer
says. "I mean I've had many, many e-mails and some phone calls and I would say that it
was pretty positive and still is."

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

****

In addition to operations in Cedar Rapids, Alliant also provides utility services to
customers in sections of Minnesota and Wisconsin, and a small strip of northwestern Illinois

(W0SR, ARRL)

**

HAM RADIO IN SPACE: ECHO IS UP AND RUNNING

The newest Amateur Radio satellite is now in orbit and doing fine. Chuck Green, N0ADI,
reported by phone from the Baikonur Cosmodrome that the launch of AMSAT Echo and the
other satellites occurred on time on June 29th at 0630 UTC. He watched the rocket climb
out and said it appeared to be flying straight and true. A second phone call from Chuck
18 minutes later confirmed that the launch carrying AMSAT OSCAR Echo was successful and
that all spacecraft had separated successfully.

Chuck was assisted in the final integration and checkout process at Baikonur by the team
from SpaceQuest which included Dr. Dino Lorenzini KC4YMG, Mark Kanawati N4TPY, and Lyle
Johnson KK7P. The SpaceQuest team members are also AMSAT members and volunteers.

First contact with Echo was at 1452 UTC on June 29th. After collecting a bit of TLM the
435.150 MHz transmitter was turned off at 1500 UTC. The preliminary keps were observed
to be pretty close. The first look at Echo’s telemetry shows things are looking good.
The battery was fully charged and the panels were delivering about 950 ma, which is fine.
The panels were supporting the transmitter power adequately at about 2.3W output. The
bird appeared to be tumbling as expected. Internal temperatures are around 10 degrees
Celsius which is also as expected.

On the second pass the loading of software began and good progress was made.

Telemetry continues to look very good. While fades clearly indicated Echo continues to
tumble (as expected), at 2.2 Watts output good bits were received without difficulty.
Rather than turn the transmitter off at the end of that pass, based on a very good
looking power system, the power was turned down to about 0.3 Watts.

The hour between passes was spent closely examining the captured telemetry and comparing
it to pre-launch testing, as well as tweaking the keps a bit.

During the second set of passes approximately twelve hours later, the command team
finished loading the housekeeping software. The housekeeping task is up and running
as of June 30th at 0525 UTC. With more data available on the power systems performance
the transmitter has now been left at about 1.2W.

The morning passes on June 30th concentrated on gathering telemetry. The evening passes
continued with checkout activities.

A telemetry decode program, TLMEcho, is available for those who would like to view and
report data from Echo. It may be downloaded from AMSAT.ORG in the Echo project area,
http://www.amsat.org/amsat-new/echo/

If you record telemetry please send the CSV files to ke4azn@amsat.org.

Please do not transmit to Echo until checkout and commissioning has been completed and
the satellite is made available for general use. Unexpected uplinks may cause delays
in verifying the proper operation of ECHO and delay the opening of the transponders to
general use.

(AMSAT, WD0E)

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin
stations around the world including the N7SKO repeater serving Arizona, California and Nevada.

**

WITH NEWSLINE: SEND US YOUR ID - PLEASE

Would you like to ID your own repeater or bulletin station here on Amateur Radio
Newsline? Well here is how you can do it. Record the following sentence and include
the call sign and location you want to honor.

From the United States of America, we are the Amateur Radio Newsline, heard on bulletin
stations around the world including the xxx repeater serving yyy zzz. The xxx is the
call sign. The yyy and zzz are the city and state.

Then, take the tape and mail it to Amateur Radio Newsline, Editorial Office, 28197
Robin Avenue, Santa Clarita, California, 91350. As time permits, we will select an
audio I-D and include it in the newscast.

All tapes submitted become the property of the Amateur Radio Newsline and cannot be
returned. Again, the address to make yourself a part of this bulletin service is
Amateur Radio Newsline, Editorial Office, 28197 Robin Avenue, Santa Clarita,
California, 91350.

**

RESCUE RADIO: VA HOSPITALS SAY YES TO HAM RADIO

Hospitals in Roanoke, Virginia, will soon be ham radio equipped. Mike Knight, K4IJ,
reports through the Repeater Journal that a budget of twenty-five thousand dollars has
been approved for the installation of Amateur stations at between ten and twelve primary
healthcare facilities in the Roanoke area.

Knight says that the system will include a dual band base radio, a mobile radio, a power
supply, antennas and full lightning protection at each hospital. Also going on-line will
be a pair of commercial grade FM voice repeaters with back-up generators, and a dedicated
digital repeater. The voice systems will have IRLP and Echolink tie-ins to communicate
outside the local area.

When completed, the Roanoke system will consist of five to six linked repeaters. The
base stations will be connected to each hospitals emergency power system to keep them on the air.

(Repeater Journal)

**

RADIO LAW: COURT SAYS NO TO EXPANDED MEDIA OWNERSHIP

A U.S. Court of Appeals in Philadelphia has thrown out most of the Federal Communications
Commission's new and controversial media ownership deregulation. Its Thursday, June 24th
decision means that for the time being, ownership levels of broadcast properties and
related media will remain at current levels.

Back on June 2nd of 2003, the FCC's Republican majority voted to dramatically ease a
prohibition barring daily newspapers from buying broadcast stations in their markets.
The agency lifted caps limiting how many radio and TV stations a broadcaster could own
in the same area.

But in its 2 to 1 decision the Philadelphia court said that while some relaxation of the
ownership limits might be reasonable, the agency had failed to adequately justify the
limits it had put in place. The court announced that its original stay on the FCC's media
ownership deregulation would continue until the agency fixes the regulations to the court's
liking.

(TV Week)

**

ENFORCEMENT: TOO MUCH MORSE CODE

The FCC is asking a Missouri ham why he is running a Morse code training program smack in
the middle of the 40 meter band. The target of the inquiry is Paul D. Westcott, KC0OAB of
Purdy who apparently has code practice on the air around the clock.

Its June 21st letter to Westcott notes that the agency had previously discussed this matter
with KC0OAB and was given assurances that the transmissions he was making were for Morse
Code practice. Since that time the agency has received another complaint which alleges
that the purported 40 meter code practice transmissions are 24 hours a day, seven days per
week. The FCC says that due to the crowded nature of the 40 Meter Band, it is extremely

inconsiderate to take up spectrum in that area for transmissions 24 hours a day. This,
even if it is purportedly for “code practice” purposes.

The agency has posed several questions to Westcott to explain his operation and was given
20 days from the date of the FCC letter to provide a very detailed response.

**

ENFORCEMENT: NO LICENSE - DON’T OPERATE

The town of Reseda, California, is only about 10 miles from the Newsline studio. It’s
also the place where the FCC alleges that someone has been operating a ham radio transmitter
without the benefit of being a licensed ham.

In a letter to a resident identified as Joseph A. Mosbergen, the FCC says that he or someone
in his residence has been operating radio-transmitting equipment on several Los Angeles area
Two Meter Amateur Radio repeaters. The agency warns Mosbergen that this is a violation of
it rules and will subject him or whoever is proven to be operating to punitive action.
This could include a fine or imprisonment, as well as seizure of any non-certified radio
transmitting equipment. It also tells Mosbergern that this is the last warning that he
will receive.

**

HAM RADIO BUSINESS: HEIL TO MARKET CLEAR SPEECH SPEAKER

Turning to the ham radio business scene, word that the NCT Group has appointed Heil Sound
Limited as its prime worldwide manufacturer and distributor of the Clear Speech Speaker
system. Under the terms of the deal, Heil Sound will distribute Clear Speech speakers to
their present amateur radio dealers and commercial broadcast distributors. Also, the
Clear Speech speaker will be improved and several new products will be brought to the market
using the NCT Group technologies. According to Heil Sound these new product models are in
development and will be available for market by the end of July. More is on line at
www.heilsound.com

**

COMMUNICATIOS NEWS: DUAL-CORE PROCESSORS ON THE WAY

Tech News reports that Advanced Micro Devices plans to begin selling microchips with
the equivalent of two microprocessors in one next year. The Sunnyvale, California based
company said it plans to offer dual-core processors for data-serving business computers
in the middle of next year, and for high-end home computers in the second half of next year.

Dual-core technology combines the power of two processors in one package. This permits
the creation of a more powerful computer and increased computation power when multitasking.

Last month, Intel said it would bring dual-core chips to the marketplace in 2005. That’s
more than a year ahead of schedule.

**

HAM RADIO BUSINESS: CW IS GOING STRONG

If you think Morse code is on its way out, the ham radio business community probably
disagrees with you. At least that’s the impression one gets thumbing through the articles
in the July issue of CQ Magazine.

Not only are the ads for Morse related products holding steady, but the new products area
has some reviews of the latest CW related products. And not to be outdone, Dave Ingram,
K4TWJ, devotes his World of Ideas column to Morse Keys from around the world.

If you are a Morse lover, this is the CQ edition for you. It’s on your newsstand now.
More information is on the web at www.cq-amateur-radio.com.

**

THE SOCIAL SCENE: COME TO THE TENNESSEE HAM BREAKFAST

On the ham radio social scene, the Middle Tennessee Ham Breakfast takes place at the
famed Tennessean Truckstop on the second Saturday of every month. People begin to
gather there at about 9 a.m. and it’s billed as a chance to meet the middle Tennessee
hams you may have contacted on the air.

Interested in attending? For full information simply send a note to kenbreed@surfmore.net
or call Ken, AI4DV at area code 931 – 424 – 9523 during normal business

hours.

(Do Not Read: Repeater Journal)

**

THE SOCIAL SCENE: ROANOKE VA. IN JULY

And still in the South, mark down July 31st to attend the annual Roanoke Hamfest.
This event is sponsored by the Roanoke Valley Amateur Radio Club and will be held at
William Byrd High School in Vinton, Virginia starting at 8 a.m. local time. Full
information on this friendly event is on line at w4ca.host4www.com

**

BREAK 2

This is ham radio news for today’s radio amateur. From the United States of America,
We are the Amateur Radio Newsline with links to the world from our only official
website at www.arnewsline.org and being relayed by the volunteer services of the
following radio amateur:

**

COLOR TV IS CELEBRATING ITS 50TH ANNIVERSARY THIS YEAR

Now for a bit of a history lesson. Although color TV transmissions were in the

development stages many years earlier, the broadcast industry is celebrating its
half century mark this year. This is because it was 50 years ago that color broadcasts
were initially
made available to the public.

Now, National Public Radio has posted a story and some interesting historical resources
at its website. It is very interesting reading. That URL is in this week’s printed
Amateur Radio Newsline report.

(www.npr.org/features/feature.php?wfId=1789944 (CGC))

**

EMERGING TECHNOLOGY: NEW DVD PLAYER FILTERS OUT BAD WORDS

Wal-Mart is selling the world's first DVD player that can seamlessly skip over violence,

swearing, nudity and other potentially offensive movie content. The $79 unit features
technology by ClearPlay and is manufactured by Thomson Inc. under its RCA brand.

The DVD player is the latest development in a legal battle between the Salt Lake City-based
software company and Hollywood. Members of the Directors Guild of America filed suit
against ClearPlay in September 2002, when the filtering product was available as a
computer program claiming it impinges on intellectual and creative rights. Those legal
proceedings are still under way in Colorado's 10th District Court. Both sides currently
are waiting for a ruling on a summary judgment filed by ClearPlay.

**

WORLDBEAT - SLOVAKIA: FIRST CELLPHONE VIRUS ANNOUNCED

On the international scene word that a group of underground virus writers have announced
what is believed to be the world's first worm that can spread on advanced mobile phones.
According to news reports, the worm named Cabir, was sent to security software firms in
the United States and Russia by a member of 29a.

29a is described as a group of virus writers from the Czech Republic and Slovakia who
pride themselves in creating proof of concept malicious viruses. Thankfully, Cabir has
been found to have no damaging code attached that might destroy files or execute other
harmful operations.

**

WORLDBEAT – UK: RSGB QSL BUREAU CHANGE

On a more positive note, word that Marc Litchman, G0TOC is the new RSGB QSL Bureau
Sub-Manager for the G7AAA through G7ZZZ series of callsigns. Litchman can be reached at
26 Oak Tree Close, Loughton, Essex IG10 2RE, in the U-K.

**

WORLDBEAT – NEW ZEALAND: ZL1AN HONORED FOR EDUCATIONAL WORK

And a word of congratulations to New Zealand’s Dr. Gary Bold, ZL1AN. Bold is a physics
lecturer at the University of Auckland and he has been awarded the Prime

Ministers
Supreme Prize based in part on his 43 years of dedication to teaching.

Bold has taught every course in the physics department, all courses in geophysics signal
processing and network theory. He has also devised and revised experiments and designed
the curriculum for many second and third year physics courses. A dedicated C-W enthusiast,
in his spare time he writes the NZART Break-In Magazine column "The Morseman."

The presentation was made at the recent 2004 Tertiary Teaching Excellence Awards.
ZL1AN was one of 12 academics from nine institutions presented with awards, each of which
brings with it a $30,000 prize.

**

DX

In D-X, word that several O-H prefix operators will be operational from Aland Island as
OH0I during the CQ Magazine and RTTY Journal RTTY DX Contest. This, from September 25th
to the 26th. They will operate as a Multi class 2 entry using multiple beams and vertical arrays on the low bands. QSL via OH3BHL.

And keep an ear open in September for RA3AMG from Cyprus. He will also be active in the
same contest signing P3B. QSL via his home callsign.

Lastly, ST2DX will be active from the Sudan until the 10th of July. Look for him mainly
on SSB, with some CW, on all bands between 30 and 6 meters. QSL this one as directed on the air.

**

THAT FINAL ITEM – HAMMIN’ OLDIES ON WBCQ

And finally this week… who says hams and short wave listeners are nothing but a bunch of
stuffy old geezers?

The Peacock Project is a group of Internet broadcasters that have banded together to
present a variety of music eras, styles and talk over WBCQ on Saturday nights at 8PM
Eastern time, which is Midnight Universal Time, Sunday. Named in tribute to one of their
group, Rob Peacock, who suddenly passed away in January, the show features a different
host each week with a program that is unique to his own musical preference and

personal
presentation.

The first weekend of every month will feature Dave Kirby's look back at
Old Time
Radio and some non-English language versions of American songs. The second
weekend is
The Voice of Savage Henry, a 1960's and 70's "Garage Band" rock show hosted by
Steve Evanchuck,
KG8KO. Tim Gaynor is heard directly from Australia on the 3rd week and the 4th
week is S
teve Coletti, aka “Big Steve Cole”. Four times a year there is a 5th
Saturday to the month
and on those weekends it is time for "Hollow-State Hound", a show scheduled to
feature
big band music with Mike "The DX Hound".

The broadcasters got together in an odd way, and going on WBCQ's 7415
kHz frequency
is like going home to where it all started. A few years ago there was a group
of ham radio
operators who were also listeners to shortwave broadcasters and utility
stations. Under the
umbrella organization of the Association Of North American Radio Clubs,
(ANARC), they would
join into a ham traffic net every Sunday morning on 7240 kHz to compare their
station
loggings. While the net still has a lot of good memories for those who joined
in or only
listened in, the group eventually disbanded. The net then moved to an Internet
Relay
Chat channel that was already in existence.
To a few die hard members like Dave Kirby, N1DK, the discontinuance of
the radio
net was only a minor setback. Dave began doing weekly reports by way of the
Cyber
Shortwave real audio file that was available for download by anyone. It was at
the suggestion
of member Pete Costello that Dave began doing his presentations as a live
interactive program
by way of sending sound via live365.com and receiving typed comments back from
listeners via
the IRC chat channel.

As loggings and SWL news tapered off, Dave began doing more music and
off topic bantering.
This led the powers that be at the chat room to ask Dave to create his own chat
room for the show.
The kick in the butt turned out to be a blessing as now the door was opened for
others who wanted
to do interactive radio using Dave's chat room

We hope that you will enjoy the diversity of programming that these enterprising hams and
SWLs have created. The Peacock Project begins July 3rd on WBCQ at 7415 kHz and your fellow
broadcasters, hams and SWLs at the Amateur Radio Newsline wish you the best.

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the
Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's Q-News, that's all
from the Amateur Radio Newsline(tm). Our e-mail address is newsline @arnewsline.org.

The cards were printed just in time for Friedrichstafen and we gave out
cards to people who were there. I brought home the envelopes for all
the cards to US destinations, and am expecting a shipment of the
actual corresponding cards, with labels attached verifying the contacts.

So, some people in Europe have their cards, but no one has received
one in the US yet.
But soon-

73, doug

An older NG post stated that 5 USA Hams have worked all states on 2M - not
EME or satellite and maybe just the continental 48.
Any one know who these 5 folks are or where the list can be found.
Guess I cud write the ARRL but thought I'd check here first.

Seems like an arduous task -- maybe best accomplished from the center of the
country rather than the east or west coasts.

I read a NG post where a W9 had all of the 48 states except California.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 4th/July, through Sunday, 11th/July there were 212 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4W, 4X, 5A, 5B, 5H, 5N, 5R, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9V, 9Y, A4, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE0Z, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E3, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EZ, F, FG, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J7, J8, JA, JD/o, JT, JW, JY, K, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP5, VP8, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4S7, SRI LANKA (Ham in need!). Rohan, 4S7RO, is urgently wanting someone to scan the wiring diagram of a TS-850S for the page that contains the RF Board X44-320-00. He has a manual for it but has left it in Jamaica and is now back in Sri Lanka for a few months of R+R... If someone

has an 850S and has the capability to scan the necessary diagram page, please send it to Rohan. He would be very grateful. His E-mail address is: sparkrohan@yahoo.com

9A, CROATIAN ISLANDS (Hungarian IOTA/Contest Activity).....
Feco, HA8KW, will be active as 9A/HA8KW from the Island of Rab (IOTA EU-136, IOCA CI-096), July 19-26th. He will participate in IOTA Contest (Low Power, 12-hour). After his activity from the Island of Rab, he will activate the Island of Brac (IOTA EU-016, IOCA CI-010) from July 26th to August 2nd. After August 2nd, Feco will go to Pag Island (EU-170, IOCA-082). Activity from all locations will be on 30-10 meters. QSL via his home callsign either direct or through the bureau.

Look for Laci/HA6NL to be active as 9A6NL and Zsolt/HA6PS, Tibor/HA6ZV, Al/HA7JJS to be active as 9A/homecall, from the QTH of Branko/9A2ZD at Maly Pasman, Pasman Island (IOTA: EU-170, IOCA: CI-085) between July 20-30th (IOTA Contest included). They will build up a portable contest station with Yagis, TEN-TEC radios and so on. QSL via their home callsigns either direct or through the bureau. They are expected to do some 2 meters operations also.

Aniko/HA5TAA (XYL) and Feri/HA5AAZ have plans to activate different Croatian islands between July 19th and August 1st. They will use 9A/homecall from the IOTA EU-016 group, near Rogoznice, including CI-171, CI-187 and CI-193 for IOCA. QSL via their home callsigns either direct or through the bureau.

C3, ANDORRA. Reports indicate that the hams in C3-land are now authorized to use 6 meters. Johan, ON4IQ, reports that Jordi, C31JI, near Andorra La Vella, has become active. Also, Fred, C31HK, is still active on the bands but keeps a low profile and prefers to listen a lot.

CFT PARTY POSTPONED. To avoid interferences with the Scandinavian Activity Contest (CW) and the 2004 High Speed Telegraphy Championship, the first EUCW Belgian Society CFT (Club Francophone de Telegraphie) Party which was scheduled for September 19th has been postponed. This Party is still on the agenda, and the new date will be published in the near future.

CN, MOROCCO. Look for Andre, HB9HLM, to be active again this week as CN2DX until August 8th. Activity will be on 6 and 2 meters, possibly from either grid IM63 or other grid locators. QSL via his home callsign.

CT3, MADEIRA. Operators EA2RU, EA2BXV and EA2RY will heading to this island of the Atlantic September 20-30th, to participate in the 2004 CQ WW RTTY Contest as CT9R. Activity will be on 80-10 meters with 100w and wire antennas. They will be on SSB, but operations will be mainly on the Digital modes. QSL via the Bureau or direct to EA2RY. Visit their Web page at: http://www.rtty.org/madeira2004

FP, ST. PIERRE AND MIQUELON ISLANDS. Pete, NN9K, will be on Miquelon Island, September 10-18th. He will use the callsign FP/NN9K. Pete states, "My operating goal is to make FP as available as possible on 30-meters especially for Asia and the Pacific Rim amateurs. This will be a CW only

expedition and although the plan is to spend as much time as possible on 30-meters I may be found on other bands as well." For more information please visit the Web page at: http://nn9k.home.mchsi.com/

FP, ST. PIERRE AND MIQUELON ISLANDS (Update to OPDX.666). Due to numerous requests, the FP/VE7SV team going to Miquelon Island (NA-032) between October 23rd to November 2nd have added the RTTY, PSK31 and Satellite modes to their operating plan. For more updates and details, please visit their Web page at: http://www.bcdxc.org/fpve7sv_daily_updates.htm Or the DXpedition's Web page at: http://www.bcdxc.org/st_pierre_miquelon.htm

HA, HUNGARY (Update to OPDX.667). It seems Nilay (XYL), TA3YJ, will be joining Berkin, TA3J, to operate from different locations in Hungary, and will sign HA(?)/TA3YJ between July 18-21st. Look for activity on 160, 80, 40, 20, 15, 10, 6 and 2 meters (including the WARC bands) on SSB and FM. QSL via her home callsign, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. SWL QSL cards are OK.

HB0,LIECHTENSTEIN. Geza/HA4DX will operate from Masescha (1350m ASL) as HB0/HA4XG between August 28th and September 4th. He will be active on 30-10 meters (CW, SSB) with GP antennas and on 2 meters with a 8 element Yagi and also on WSJT. QSL via their home callsign either direct (QRZ.com) or through the HA Bureau.

IOTA NEWS.....
AF-018. Operators IK2JUB, IZ2ABI, IZ2ABZ, IW2HAJ and IH9GPI will activate IH9/IQ2CJ from Pantelleria Island during the RSGB IOTA Contest (July 24-25th) as a Multi-Op entry. QSL via the Bureau.

AF-018. Operator IT9BLB and an international team will be active as IH9P from Pantelleria Island (IIA: TP01, WAIP: TP and ITU Zone: 37) during the CQ WW DX SSB Contest (October 30-31st) as a Multi-Single entry. This is another Tikirriki Contest Club's Multi/Op. operation. QSL via KR7X.

AS-017. Look for JH1MUK to be active as JH1MUK/6 from Ie Island (JIIA-017-011) on July 22nd and then from Iheya Island (JIIA-017-012) on July 23-24th. QSL to this home callsign either direct or via the JARL bureau.

AS-079. Seiji, JH6RTO, will sign JH6RTO/6 from Miyako Island on July 16-20th, using his IC-706 and R7000. Activity will be on 40-6 meters, CW and SSB. QSL via the bureau.

AS-147. Takeshi, JI3DST, will be active as JI3DST/8 from Okushiri Island from about 0700z on July 24th through about 0000z on July 27th. He is expected to be active during the IOTA Contest. QSL via JI3DST by the bureau.

EU-064. Jerome, F5ASD, will be active from Noirmoutier Island (AT 020) between August 2-15th. Activity will be on SSB for the most part, and on 80-2 meters. QSL to his home callsign, either

direct (SASE + 1 IRC or 1 USD for Europe; 2 USD outside of
Europe) or via the French REF Bureau.

SA-045. Operators PQ8KGB, PQ8VA and PT7BI will activate Maraca Island
(DIB 39) as ZX8M from July 21-25th. Activity will be on all
bands CW/SSB (possibly RTTY). QSL via PT7BI. The DXpedition's
Web page is at: http://geocities.yahoo.com.br/ilhademarac

IOTA SPECIAL EVENT OPERATION. To celebrate the 2004 Olympic Games in
Athens, look for a group of Greek amateurs to be active as SY2004KF now
through September 15th, from Kefalonia Island (IOTA EU-052) in the Ionian
Sea. Operators mentioned are: SV1BJW (Vasilis or Bill), SV8CKJ (Panayiotis)
and assisted by SV1DPI (Costas) and SV1CIB (Dimitris). Activity will be
on 160-10 meters (including the WARC bands) and probably some 6 meters.
Modes will be: mostly CW, SSB, RTTY and PSK31. Antennas are: Long wires,
Windoms, G5RVees, Verticals, Tribander yagis and Quads. Power is be within
legal Greek State limits. Simultaneous multiband operation is expected.
The CW operators are expected to transmit as : SY2004KF or SY2TT4KF or
SY04KF. The recommended split frequencies are 1-5 kHz UP on the CW mode.
The recommended split frequencies are 5-10 kHz UP on the SSB mode. Listen
for QSL instructions. QSL can be either by the operator's instructions
or via SV1BJW, by the Bureau or the address at QRZ.com (provided that
the other operator encloses a SAE + IRC or equivalent for the postal fee).

J45, DODECANESE. Anton, PA7DX, informs OPDX that he will be on his first
"DXpedition" on his own for the 2004 IOTA Contest (He was on Malta as
9H3UJ with a group some years ago.), and states this is "so very exciting".
Look for him to be active as J45C from Kos Island (EU-001).

OJ0J, MARKET REEF (Party at Sea Wrap-up!). A press release from Martti,
OH2BH (via Jarmo, OH2BN), states: "The weather was calm this morning
(Monday, July 5th) and the party at OJ0J had no difficulty departing
Market Reef. They have now returned safely to Aland Islands. Due to bad
weather, dipole radiators had to be used most of the time while a beam
was hoisted only on the last day of operations. Total time on the reef
was 84 hours, and 12,414 QSOs were made with two radios, resulting in
150 QSOs per hour for the entire stay. Only 30, 40, 20 and 17M bands
were activated. QSL via OH0RJ."

QSL INFO AND NEWS.....
Laci/HA0HW (CTC 264) and Tomi/HA4DX (CTC 192) were active as 9A/HA0HW
and 9A/HA4DX from Silo, Krk Island, in the North Adriatic (IOTA: EU-136,
IOCA: CI-046) between July 2-12th. This was a family holiday. QSL via
their home callsigns either direct (QRZ.com) or through the HA bureau.

9K2ZZ ON LOTW! Ray, W8CNL, has uploaded all 253,600 plus contacts with
9K2ZZ to the "Logbook of The World" (LoTW). He states, "I am very sure
there will be some missing QSOs due to broken calls, etc. If you are
one that needs the card, please send a SASE or SAE and postage, with
all the details you can come up with and I will try every means to find
you in the logs."

QSL B4HQ via BA4RD (P.O.Box 538 Nanjing, China). This activity was by the Chinese Radio Sports Association (CRSA)> They had 5 stations set up for the IARU HF World Championship, and all the stations were located in Nanjing.

Operators JA4BBP/4 and JA4TI/4 were expected to be active from Mu Island (AS-117 and JIIA AS-117-073) (QTH Okayama) over the past weekend. QSL to their home callsign either direct or via the JARL bureau.

Operators JE4TST/4,JE4WIP/4 and JE4QIG/4 were expected to be active from Mutsure Island (AS-117) (QTH Yamaguchi) over the past weekend. QSL to their home callsign either direct or via the JARL bureau.

Operators JA5BEX/5 and JA5BQX/5 were to be active from Ibuki Island (AS-076) (QTH Kagawa) over the past weekend. QSL to their home callsigns either direct or via the JARL bureau.

QSL OY1CT via the CBA or the address on QRZ.com. Activity was during the IARU HF World Championship Contest as the official station of the Foroyskir Radioamatorar [FRA].

QSL P40HQ via Mario, I2MQP. Activity was during last weekend's IARU Contest. Jacobo (Jacky), P43P, states that since Aruba is celebrating its 50th Carnival this year, they will be printing full color conmemorative QSL cards that are sure to become collector's items. He also mentions that a special P40HQ team T-Shirt and a small surprise sponsored by ACOM will be given to the first Single Op or Multi Single station to work them on 6 bands (SSB, CW or mixed).

The special callsign YT80HQ commemorating 80 years of ham activity in Serbia and Montenegro was active over the past weekend during the IARU HF Championship as a SCG Multiplier. Special YT80HQ QSL cards confirming all contacts will be sent automatically via the bureau. In case you need it, their mail address is: Savez radioamatera Srbije
Trg republike 3/6
11000 Beograd
Serbia & Montenegro

OE, AUSTRIA (Update to OPDX.667). It seems Nilay (XYL), TA3YJ, will be joining Berkin, TA3J, to operate from different locations in Austria, and will sign OE(?)/TA3YJ between July 21-23rd. Look for activity on 160, 80, 40, 20, 15, 10, 6 and 2 meters (including the WARC bands) on SSB and FM. QSL via her home callsign, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. SWL QSL cards are OK.

OK, CZECH REPUBLIC (Update to OPDX.667). It seems Nilay (XYL), TA3YJ, will be joining Berkin, TA3J, to operate from different locations in the Czech Republic, and will sign OK(?)/TA3YJ between July 23-25th. Look for activity on 160, 80, 40, 20, 15, 10, 6 and 2 meters (including the WARC bands) on SSB and FM. QSL via her home callsign, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. SWL QSL cards are OK.

P4, ARUBA. Look for John, KK9A, to be active as P40A in the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/Single-Band (20m) entry. Activity

will be from the Iguana Villa [http://www.iguanavilla.com]. QSL via WD9DZV.

SI9, SWEDEN (Special Event). Look for SI9AM to be active now and then, July 17-19th (Open House) on HF CW/SSB. SI9AM is located close to the King Chulalongkorn Memorial in Utanede, Sweden, the largest Thai Pavilion in the world outside Thailand. The radio shack can be rented by worldwide radio amateurs, and it is very popular because of its very attractive callsign. QSL via SM3CVM CBA or via bureau. For more information about this station, please the following Web page at: http://www.qsl.net/si9am

SILENT KEY. David A. Whitaker, BRS 25429, informs OPDX that his brother Mike, G3IGW, became a Silent Key on June 29, 2004, after a short illness. Mike was very well known throughtout the world for his CW transmissions, especially on the LF Bands. Besides being a member of the RSGB for over 50 years, he was a highly respected member of the FOC for his superb operating on the key. OPDX and its readers would like to send out our deepest sympathy to Mike's family and friends.

SPECIAL EVENT. From July 22nd to August 1st, look for the special callsign LX8LGS (Luxembourg Guides and Scoutes) to be active from an International Scout Camp from Lasauvage (South of Luxembourg). Activity will be on all bands and modes (especially the Scout frequencies). Operators are Tobias/ DL4KBS, Dan/LX1JU, Mike/LX1KQ, Gilles/LX3GR and Philippe/LX2AJ/LX7I. QSL via LX2AJ (by the Bureau or direct). Visit the camp's home page at: http://4u.lgs.lu -or- http://www.qrz.com/lx8lgs

SPECIAL EVENT. Look for the following French activities to celebrate the 60th anniversary of the Allied Forces landing in Provence, August 1944. From various locations on Provence landing Coast, the following stations will be active as:
TM3ID - August 7-21st, under Patrick, F4TXE, leading, and also from Cavalaire on August 15-16th. Activity being part of the Official commemoration. QSL via F4TXE, either direct or via the French REF Bureau.

TM6ANV - Activity will take place during the same period (August 7-21st). Also look especially on CW. QSL Manager: Guy, F5MNW, either direct or via the French REF Bureau.

ST2, SUDAN. QSL Manager Dennis, PA7FM, informs OPDX that ST2DX has gone QRT on the afternoon of July 9th. Online logs, audio files and some photos are available on the following Web page at: http://www.pa7fm.nl
Dennis states, "The QSL design will go to the printer as soon as possible now....and will try to answer all direct QSLs before the end of August (off course depending on the card delivery from the printer)." He also wants to remind those who still need the Sudan, ST2T is active inbetween work from the same QTH, and in a few weeks LA5PN is expected in Sudan (Who also works for the World Food Program of the UN). His callsign is unknown yet. ST2T was heard on 15 meters over the past week and weekend (in the contest). QSL via S57DX.

SY2004, GREECE. Look for Nikos, SV2WT, to be active as SY2004WT now through September 15th. Activity will be on 160-10 meters, SSB, CW, RTTY, PSK and SSTV. QSL via the Bureau. The SY2004 and SX2004 are two special prefixes that can be used by Greek radio amateurs for the period before and during the Olympic Games in Athens. For more details and information, please visit the Web page at: http://www.raag.org

XU, CAMBODIA. Claude, XU7ABN, has been active over the past week on 20/15 meters RTTY. Watch 20 meters between 1830-2230z and after 0600z. On 15 meters, watch after 1000z.

YJ0, VANUATU. Franz, DK1II (ZL2III), will be active from Port Vila, Vanuatu (IOTA OC-035), from August 6-15th. He plans work mainly on CW on 40-10 meters, depending on propagations. Franz has applied for the callsign, YJ0II, but this is not confirmed yet. Please QSL via DK1II.

ZP, PARAGUAY. Look for Tom, ZP5AZL, to be active as ZP0R in this year's CQWW SSB DX Contest as a Single-Op/All-Band entry. QSL via W3HNK.

Quite a few hams in the midwest worked 46 states without
using EME ... by the mid-70s at the latest ...

From Minnesota, CA and NV were the tough ones.

When I lived there, at least two hams had worked 48,
thanks to a couple Es openings from the midwest to
the Mohave area ... but not me, I was at work, and thus
missed CA *and* NV.

Bummer about the virus aspect... probably a good idea to stay away from
these titties.

At first glance the message seemed rather off-topic for radio
newsgroups. However, I suppose this unconventional use of silicon could
make it slightly on-topic. Silicone is certainly a more common material
for boob work. Silicon seems a bit hard and brittle for the task. The
new knockers must have been expensive, though.

Does anybody recognize the closing word? Looks vaguely Eastern-European.
How does one pronounce it? (I know... "just like it's spelled.")

Feh...solid state. REAL women get vacuum tube implants!! Is that
Svetlana? Check out HER 3-500s! (And it won't take a half-dozen 807s
to lower her resistance, either!)

Maybe she's just looking to -ahem- rectify the mistaken spelling?

I think I can just hear the pickup line now..."nice diodes! What's the
peek-to-peek rating?"

...and are they configured for push-pull?

Is her name Milli Henry? A real cute littel coil? If it is, I think I
saw her the other day down near the Wheatstone Bridge, but that's
another story, I suppose.

I sent along $2 and an SAE a couple of months ago and received a
surprisingly-fast reply. I think $1 may do it, but for Mount Athos and
Monk Apollo, I really didn't want to take the chance on fluctuating
exchange rates or the ease of converting US currency in his part of
the world.

You would likely be quite successful witha Greek mint stamp as well.

Congrats.

Congrats, Doug, well done,

It is one of the rare times, he is active AND conx are ok.

As Mt. Athos is part of Greece, and Greece is member of the European Union, their currency is EURO. As you might not get EUROS in your neck of the wood, two bucks will do. The regular airmail fee from EU to US is 1,12 Euros, which is converted by todays exchange rate 1.4 US Dollars. He will not have any problems to get the money changed, as there will be thousends of foreign people visit Greece next month, and I am sure they are prepared to receive foreign currency.

Good luck and good DX

The problem with sending a Euro thrugh the mail is it's a coin, not a
bank note, and one runs the inherent risk of having the letter
pilfered.

>The regular airmail fee from EU to US is 1,12 Euros

Remember, though, each nation in the EU sets its own postage rates
(for now, anyway). Spain is a low 0,77 Euros and Germany is 1,55 Euros
(to North America).

I just looked at the envelope I received from Monk Apollo a couple of
months ago and it was posted with a 0,65 Euro stamp, so, in threory,
$1 would do fine.

** SPECIAL ADVANCE NOTICE BY EDITOR (by KB8NW): There will "NOT" be an OPDX bulletin for August 2nd. I know, you heard this before, but it is true this time. My wife (chief proof-reader), daughter and I will be going to Las Vegas to visit my dad and step-mother (who we haven't seen in 2 years). Besides, I can really use the break! However, PLEASE continue to send your DX info to me.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 11th/July, through Sunday, 18th/July there were 213 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9U, 9V, 9Y, A3, A4, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE0A, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D6, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EZ, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J6, JA, JD/o, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV/a, SV9, T33, T5, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VP2E, VP2M, VP5, VP8/h, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD8, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2/R, ROTUMA. Reports indicate that Christian, 3D2EA, is expected to operate as 3D2EA/R for one or two weeks starting around July 26-27th. His plans of activity were not provided. QSL via EB2AYV.

3Y0, PETER I ISLAND. Another press release was posted July 11th on the 3Y0X DXpedition Web page by Bob/K4UEE and Ralph/K0IR. The DXpedition, which is scheduled to take place between January 20/21st and February 5th, is planning to a have multi-national team of twenty operators. The current list of operators are: K0IR, K3NA, K4SV, K4UEE, F2JD, HB9AHL, HB9BHW, LA6VM, NP4IW/6, N2WB, N4GRN, N6OX, UA3AB and W0RUN. Several invitations are pending that will complete the team. A backup list is also in place, and they are seeking potential team members who might want to go in the event of a cancellation. If interested, please contact Bob, K4UEE, via E-mail at: mallphin@aol.com
Also, the press release lists the team's scheduled itinerary and states they expect to be active with 4-6 high power stations operating around the clock for about 2 weeks. Operations will be on 160-6 meters CW, SSB, RTTY and PSK31. The team still needs funds, as well as additional financial sponsors for this DXpedition. This is a very expensive DXpedition. The Web page states, "Fundraising is continuing with the addition of several area fundraisers: W3WL (North/South America), JA1ELY (Asia), F2JD (Europe and Africa) and ZL2AL (Pacific). For more details and updates, please visit the DXpedition's Web site at: http://www.peterone.com

7P, LESOTHO. John, G4IRN, is planning a DXpedition to here and will be active as 7P8RN from September 3-12th. This will be mainly on CW on 160-10 meters. QSL via G4IRN; bureau, E-mail requests, or direct cards with $ plus a SAE is accepted. The station will be comprised of a 4 element tribander at 80 ft plus 2 element on 12/17 and slopers on the low bands. Further details are available at: http://www.qrz.com
Also, on-line logs will be available after his operation at: http://www.qsl.net/g4irn

C5, THE GAMBIA. Josep/EA3BT and Nuria/EA3WL will be active from July 29th to August 4th. Their expected callsigns will be C56BT and C56WL (not yet confirmed). They will operate during their spare time only on SSB, on 40-6 meters. QSL via EA3BT.

CO5, CUBA. Juan, CO8TW, will be active in the IOTA Contest as a Mixed-Mode entry. QSL via IZ8CCW, and the log will be available after the contest at: http://www.qsl.net/co8tw/

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports that the following are approved for DXCC credit:
3DXQZ - Republic of Guinea - April 20-30th, 2004
5V7AD - Togo - June 12-22nd, 2004
HZ1AN - Saudi Arabia - All operations
HZ1IZ - Saudi Arabia - All operations
YA7X - Afghanistan - March 1st through April 30th, 2004

YI9MC - Iraq - Current operation effective March 23rd, 2004

HI3, DOMINICAN REPUBLIC. Mark, KB2MS, will be active as HI3/KB2MS from July 29th-August 15th. Activity will be mainly on 20 and 6 meters. QSL via his home callsign. By the way, Mark is the QSL Manager for HI3NR.

IOTA CONTEST REMINDER. Don, G3XTT, IOTA Contest Manager, sent out the following reminder: "With the IARU contest out of the way, the next 'big one' is the IOTA Contest on 24/25 July (1200z to 1200z). There should be plenty of island activity, as always, with lots of island expeditions already announced. This year it's also a great opportunity to work islands towards the IOTA 2004 40th Anniversary Award (for details go to the Chiltern DX Club (CDXC) Web pages at: http://www.cdxc.org.uk
Many European islands count for premium points for the award during July. An up-to-date list of expected operations appears on NG3K's Web site at http://www.cpcug.org/user/wfeidt/Misc/iota2004.html
and on DL2VFR's Web page at
http://www.iota-post.de/iotatest/hauptteil_iotatest.html
- thanks to both of these supporters.
The contest rules are unchanged from 2003 and can be found on the RSGB HFCC Web site at: http://www.rsgbhfcc.org
If you take part, we are very keen to receive your log. Logs go to iota.logs@rsgbhfcc.org (not rsgb.org - this was an error on the Web site and has been corrected). This year you will get an acknowledgement E-mail, asking you to visit a Web page to complete your submission. This way we can ensure that we will not need to get back to you to check on the exact category you have entered, etc. My thanks to Marios 5B4WN/G0WWW for helping to write the scripts for this. It will save a lot of post-contest correspondence with entrants. E-mail logs should be sent with a single (ideally, Cabrillo) attachment. There is good news if you are a CT user, which is that Ken K1EA has now implemented Cabrillo for the IOTA contest. Please ensure you are using the latest version of CT, and you will be able to send in a conformant Cabrillo log. Most other logging programs (SDI, Writelog, N1MM, TR, LuxLog, etc.) already support Cabrillo for the IOTA contest. A reminder, if you are deciding what category to enter, that Braco, OE1EMS, has kindly compiled a list of records for the contest, and they appear on the IOTA Contest pages on the RSGB HFCC Web site (see above). We look forward to receiving your IOTA contest log. If you have any queries, you can contact us at: iotacontest@rsgbhfcc.org ..."

IOTA NEWS .....
AF-014. Some operators of the Agalega team that activated the Lighthouse Ilheu de Cima (AF-014, LH. numbers: LH 0830/FMA01) as CT9P this past weekend are planning a second operation and will participate in the IOTA contest from Porto Santo Island as CT9X. Porto Santo is a small island 50 km away from Madeira. Activity will be July 24-25th from the shack of CT3BX as a Multi-Single on CW/SSB. Operators mentioned are: CT1EPV/Antonio, CT1AGF/Luis, CT3EE/Luis, CT3FN/HB9CRV/Hermann, CT3MD/Jose, HB9EBV/Toni, DJ2VO/Juergen and VA2AM/Rejean. QSL Manager is Kim (daughter of Steve N3SL) via N3SL CBA or QRZ.com.

AS-108. Operators Alfeo/I1HJT, Tony/IK1QBT and Claudio/I1NVU will be active as OD5/homecall/P starting July 24th. They will be joined by Naim/OD5LN and will participate in the IOTA Contest from Ramkin Island. They will have two stations active on all bands (160 meters excluded) SSB and CW, with at least one power amplifier and verticals. Expect activity from the island until July 26th in the local afternoon, then operations will continue from the mainland until the 29th. QSOs are also valid for "The ARLHS - Lighthouse Awards" ref. LEB 001 and "The WLHA - World Lighthouse Award" ref. AS0020. QSL via I1HJT, direct or via the Italian Bureau. On-line logs and further information will be available at: http://www.qsl.net/ik1qbt/ramkin_index.htm

AS-117. Kenji, JA4GXS, will be active as JA4GXS/4 during the IOTA Contest this weekend from Yashiro Islands (JIIA-117-118), July 24-25th. Look for him on CW and SSB on 21260, 14260 and 10117 kHz. QSL to his home callsign either direct or via the JARL bureau. JA4GXS's address is: Kenji Sasaki, 2-15 Ishikannon-cho,Yamaguchi,753-0038 Japan.

EU-028. Marco, IZ2DVI, will be on a work trip to Montecristo Island (IIA LI-015) and will be active on SSB in his spare time as IA5/IZ2DVI/p. Dates were not provided. QSL via his home callsign by the bureau or direct.

EU-040. A Hipano-Belgium-Portuguese team will activate CS7T from Berlenga Island during the IOTA Contest as a Mixed-Mode/Low-Power entry July 24-25th. Operators mentioned are: CT1CJJ, CT1ILT, CT1EEB, CT1APE, CT2GLO, EA1CA, EA1OS, EA1DKV, EA4ST and ON5NT. QSL via CT1ILT. For more inforamtion, please visit the Web page at: http://www.qsl.net/ct1eeb/cs7t/

EU-048. Oleg, ES1RA, will be on the Island of Saaremaa now through July 24th. His callsign will be ES1RA/0. Oleg will use 500w, a 20m Loop, vertical and a 30, 40, 80 meter dipole. QSL via the Bureau or direct.

EU-110. Look for Emir/9A6AA, Zoli/HA1AG, Peti/HA1TNX, Lacy/HA3NU, Anti/HA3OV and Zoli/HA6OI to be active as 9A0CI in this weekend's IOTA Contest from Sveti Nikola Island (IOCA CI-118) as a Multi-Op category. QSL via HA3KNA (for this operation only!) Before the contest all the operators will be active as 9A/homecalls. QSL via the operator's home callsign to the HA QSL Bureau, or direct. More information is available at: http://www.inet.hr/9a6aa/IOCA_IOTA_LH/next.htm

EU-111. Look for MM0CWJ/p to be active from the Monach Islands during July 22-26th, including the RSGB IOTA Contest. Activity will be on 80-6 meters, SSB only. QSLs should be sent via WA3RHW: Bruce T. Carroll, 529 Charleston Rd., Mount Laurel, NJ 08054, USA.

EU-123. GM2Z will operate from the Isle of Bute during the RSGB IOTA Contest [1200z, July 24th until 1200z, July 25th]. Administratively, the Isle of Bute is in Argyll and Bute Council Area [CAOSA: AB]. Reference numbers for other awards are: IOSA CL02, SCOTIA CS19, WAB NS05. Co-ordinates are: 55°46'48"N and 05°06'30"W [QRA Locator IO75KS]. Pertinent equipment available to the station is Icom IC-706 transceiver and a number of portable antennas. Contacts will be carried out on all HF bands, CW only. It is also planned to take numerous pictures of the island. All the pictures and further information will be presented as an addition to the publications on the Scottish HAM Portal - http://www.scotham.net
QSL cards for contacts with GM2Z should be sent via RSGB QSL Bureau or direct to MM0DFV: Jurij Phunkner, P.O. Box 7469, Glasgow, G42 OYD, Scotland, U.K. ADDED NOTE: A second station on SSB will be active as GM4TOQ/p, also from Bute Island in the IOTA Contest.

EU-132. Zick, SP3BJK, will be active from Wiselka on Wolin Island (SPIA- SZ02) between July 20-27th as SP3BJK/1. Activity will be on SSB and CW on the HF bands. He is expected to be active during the IOTA Contest. QSL to his home callsign via bureau or direct.

EU-136. (Correction to OPDX.668) Laci, HA0HW, informs OPDX that he provided the wrong month on his upcoming operation. So, Laci/ HA0HW (CTC 264) and Tomi/HA4DX (CTC 192) are expected to be active as 9A/HA0HW and 9A/HA4DX from Silo, Krk Island, North Adriatic (IOCA: CI-046) between August 2-12th. This is a family holiday, but they will be active during the early morning and later evening hours on all HF bands (depending on the free space available for all of the antennas). Activity will mainly be on CW and PSK31, RTTY and SSB. QSL via their home callsigns, either direct (QRZ.com) or through the HA bureau.

EU-149. Oskar, ES7NY, will be on the Island of Naissaar for about 2 months. His callsign will be ES7NY/2. Oskar will use 100w and a Delta Loop antenna. QSL via the Bureau or direct.

EU-172. Axel, DL7VEA, will be active as OZ7VEA from the islands of Fyn (DIA FY-001) and Langeland (DIA FY-019) now through August 6th. Activity will be on 80-10 meters SSB and PSK31. QSL via his home callsign, direct or by the bureau.

EU-176. Operators SM3CXS, SM3EVR, SM3GSK, SM3JGG and SM3XGV will participate in the IOTA Contest (July 24-25th) as SM3S on CW/SSB from Grimskar. QSL via SM3GSK, by the bureau or direct. For activity outside of contest, please QSL via operator's home callsign.

EU-177. (Attention Prefix Hunters!) Kjell, SM4DDS, will be active as 7S5A from Stora Alo Island, July 21-28th. His activity will included the IOTA Contest (July 24-25th). Operations will be

on 80-10 meters CW/SSB. QSL via SM4DDS, direct or by the bureau.

EU-181. Boyan/LZ1BJ and Ely/LZ1JB will be active as homecall/1 from Sveta Anastasiya Island, July 23-31st. They plan to operate on 80-10 meters SSB and CW using 1 Kw, 10 element logoperiodic ACOM LS108 antenna and vertical antennas. The aim of this activity is to give opportunity to all IOTA chasers who still need EU-181. QSL via operator's home calls, preferably through the bureau.

NA-061. Hillar/N6HR and Elsie/N7YX will be active from the QTH of Ron/VE7EDZ on Kaien Island (BC) during the IOTA Contest. Callsigns most likely will be just homecall/VE7. QSL to N6HR.

NA-067. (UPDATE) Jon, WB8YJF, will be active as WB8YJF/4 from Ocracoke Island, NC, now through July 25th. His grid square will be FM25ac. Jon states he will be using an IC-551D and a whip antenna mounted on the SUV. Hopefully, running the full 100 watts on CW and SSB (hopefully some RTTY too!).

OC-237. Dudy/YB0DPO and possibly others will go to the Peucang Island near the Ujung Kulon Banten Province. They will be there from July 21-25th, and will enter the RSGB IOTA Contest as YE1P. QSL via YB1TC, either by the Bureau or direct to: Soekardi, P.O. Box 151 BSD, Serpong 15330, Indonesia. More info on the Island can be found on: http://www.peucang.org

KH2, GUAM. Tack, JE1RXJ, and his wife will be going here for a holiday to do some sightseeing and diving. However, Tack informs OPDX that he will operate only during the weekend as NB6A/KH2 from Guam (OC-026) between August 6-8th. Activity will be on 160-6 meters CW/SSB/RTTY. He does state that he will mainly operate 6m, 160m and the WARC bands. QSL via his homecall, JE1RXJ, either direct (15-11 Saiwai, Hiratsuka-City 254-0804 Japan) or through the JARL Bureau.

M, ENGLAND. Bob, W3YY, informs OPDX that he "is in London and active as M/W3YY/P through July 20th. Even with a barefoot FT-897D to a random wire inside his hotel, room he reports working stateside and many European DX stations."

OY1, FAROE ISLANDS. Look for Carsten, OY1CT, to be active from Stroemoy in the RSGB IOTA Contest (July 24-25t) as Single-Op/All-Band CW entry. QSL via direct. Logcheck or questions can be sent to: oy1ct@post.olivant.fo

PJ4, BONAIRE. Fred/WW4LL and John/K4BAI will be active as PJ4Z during the ARRL 10 Meter Contest December 11-12th. They will be active as PJ4/WW4LL and PJ4/K4BAI on both SSB and CW beginning December 8th through December 15th. QSL both via the Bureau and/or K4BAI.

QSL INFO AND NEWS.....
3B8MM/3B9MM QSLS. Mart, DL6UAA, informs OPDX that all direct QSL requests for the 3B9MM and 3B8MM (Paradise on Air Mission 2004) are answered. He also mentions that the first batch of incoming bureau

QSLs are answered. Mart does provide an online log on his homepage at http://www.dl6uaa.com and http://www.hamraido-mauritius.com for his "P.A.M." activities. He does not accept eQSLing because he is a QSL collector.

Ray, W8CNL, reports that the logs for 9K9Z (all 14,000 QSOs) and 9K2ZZ/NLD (8295 QSOs) have been uploaded to the LoTW. He has also uploaded 7703 QSOs for 9K2USA. Again, Ray states, "I DO NOT HAVE ANY QSL CARDS FOR THIS OPERATION (9K2USA) !! You must go to 9K2RA for cards." This completes the loading of all of Bob's, (9K2ZZ) logs from his stay in Kuwait. Ray will continue to answer card requests for 9K2ZZ, 9K9Z and 9K2ZZ/NLD. A SASE or SAE and postage is a must!! Cards received without SASE or SAE and postage will be destroyed.

NEW MANAGER. Pepin, CO2TK, informs OPDX that he has a new QSL Manager as of July 15th. His new Manager is F5CWU: Flo Moudar, 25 rue du castel salis, 37100 TOURS, FRANCE.

AK0A, reported last week (Sunday, July 11th) that all direct QSLs for T30WB were mailed.

ONLINE LOGS FOR OExxxx/90KK STATIONS. Peter, OE3EPW, President of the AMRS, informs OPDX that "the 'AMRS' now provides an ONLINE LOG for all those friends being interested in knowing whether or not they are in the log of one of those "90KK" stations. The update is usually made within 6 to 10 hours." The Web address is as follows: http://www.amrs.at After being connected to the Web page just click on the "90KK / Info & Logs" button.

NEW QSL MANAGER. Mike, K3AIR, announces to please update your databases to show that effective August 1st, he will be assuming the QSL Manager duties for Pri/YB0ECT and Dudy/YB0DPO. K5ZE has managed these stations for the last 5 years but has had to step down due to a job relocation. Mike will respond to both bureau and direct cards. Direct cards, of course, must have the appropriate return postage, IRC or GS.

SILENT KEYS.....
Bob, W5KNE, informs OPDX that Morris Guzick, W5IO, of Sherman, Texas, became a Silent Key July 8th and was laid to rest July 12th in Sherman. Bob states, "He was a well known DXer with 385 countries confirmed. I have placed his obit (from the funeral) on my Web site and added some DXCC data at the end", at: http://www.dxer.org

Dave, VA3RJ, reports that Ronald ("Ron") Mervin Brown, VE3WZ, of Pickering, Ontario, became a Silent Key Thursday, July 15th, at the age of 72. He was an avid QRPer and Contester.

OPDX and its readers would like to send out their deepest sympathy to the families and friends of both W5IO and VE3WZ.

SPECIAL EVENT. In commemoration of the 60th anniversary of the Liberation of the Town of Saint Lo, by the 29th American Infantry division, Major Howie (killed on July 17th, 1944), the Manche area hams will air the

special callsign TM6SLO now through July 25th. QSL via F9CH. Suggested frequencies are: 3644, 7074, 14174, 18160, 21174, 24940 and 28574 kHz. For more info on the Battle of Saint Lo, please visit the following Web page at: http://www.normandie44lamemoire.com/version%20anglaise

SV8, GREECE (Maritime Mobile Op). Pietro, IZ2ELA, informs OPDX that he will be active between August 7-21st, during his holiday on a boat sailing from Corfu Island to Zante Island. His callsign will be SV8/IZ2ELA/MM. Look for activity on 10/15/17/20 meters, CW-SSB. No IOTA activity is possible. QSL via his home callsign, direct ONLY (SAE only, 1 IRC is appreciated..., no green stamps please). IZ2ELA's address is: Pietro Volpi Longari, Via M.Buonarroti 7, 20149 MILANO, ITALY.

TJ, CAMEROON. Operators Manfred/DK1BT, Wolf/DL4WK, Reiner/DL7KL, Sigi/DL7DF, Frank/DL7UFR and Les/SP3DOI will be active from Kribi as TJ3SP and TJ3FR, October 6-20th. Sigi, DL7DF, informed OPDX they received their license on March 23rd. They plan to have 4 stations (3 w/amps) active. Their radios and antennas are: IC735, IC706, PA's, Vertical Titanex V80E, Vertical for 40m, Vertical for 30m, Beam A3WS and a Beam for 20, 15, 10m. Activity will be on 80-10 meters and the WARC bands. There will be no 6m and 160m (NO LICENCE/AUTHORIZATION in CAMEROON). Most of the activity will be on the low bands and on RTTY, PSK31 and SSTV. They are looking for some support for their DXpedtion because of some problems with transportation of oversized and extra baggage. The operation's Web page is at: http://www.qsl.net/dl7df

VQ9, CHAGOS ISLANDS. Larry, VQ9LA (N0QM), has been QRT for a couple of months and has been on vaction back in the states. He is presently in the Philippines. He informs OPDX that he will be back in VQ9-land on July 26th and will start operating again. Larry states that he has taking another year contract with his company, so VQ9 will be active again when he arrives at Diego Garcia. His plans are to operate a lot on the low bands this season for those who need 160 meters to 30 meters on all modes. He hopes to confirm as my QSOs as possible. QSL via the address on QRZ.com.

YV0, AVES ISLAND. Word out of Japan reports that Mike, K6MYC, (via Lance, W7GJ) states, "We leave Venezuela on July 28th on a 24 hour boat ride to Aves. We may get on the air late on July 29th but don't count on it. I'll try to have 14.345 com set up immediately with Quad loop and 100W. We should have GPS timing working so we can take skeds for JT65A and should be operational some time on July 30th. Best guess is we tear down on August 7th or 8th. We are there for ten days, but I believe that includes the two travel days. Keep an eye out for the official announcement on the DX sites. To repeat, earlier equipment I will have: 1 KW (8877) on 6M and 2 x 41 feet yagis (M2 specials) (no elevation) and 350W on 2M and 15.7 dBd yagi with elevation to about 45 degrees. Martti, OH2BH, is going and will be taking his two, now famous, solid state HF KW amps, and at his request were made special to get about 500W on 6M so we have a backup amplifier if 8877 has problems. Please pass this message to all 6M friends and all 2M EMEr friends. Gary/KB8RQ and Dave/W5UN will probably have most consistant comm to me on 14.345 and can handle questions and sked times. Try to make

2M JT65A skeds after my moon is over 25 degrees on my rise and before 25 degrees on my set. My above the noise random frequency will be 144.080 Xmit, and I will listen up 2 to 5 KHz for randoms. Grid square for YV0 is FK85eq."

Amateur Radio Newsline™ Report 1405 - July 16, 2004

Here's a brief message from Amateur Radio Newsline's Support Fund Administrator Andy Jarema, N6TCQ:

"The following is an advisory. This is Andy Jarema, N6TCQ, Newsline Support Fund Administrator.
We'd like to thank everyone who helped us during our campaign in June, and we'll have the on-air
thank-yous in the next week or so. Don't forget that the Young Ham of the Year Award is coming
up in the next few weeks, so try to note our support address at the end of the newscast, as we're
not out of the woods, yet.

And now, as every week, the latest breaking news of Amateur Radio follows"

Amateur Radio Newsline report number 1405 with a release date of Friday, July 16, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T.

The ARRL board of directors discuss BPL and other hot issues, it's still a go with ECHO and a
satellite TV company makes a costly move. The details are coming up on Amateur Radio Newsline
report number 1405 coming your way right now.

**

BPL AMONG HOT TOPICS FOR JULY ARRL BOARD SESSION

The American Radio Relay League's board of directors sits down for a weekend of critical meetings.
Amateur Radio Newsline's Mark Abramowicz NT3V has the preview...

--

Broadband Over Powerline internet access is one of the hottest topics on the ARRL board agenda.
It is likely BPL has been the subject of committee meetings leading up to the weekend board sessions.

Dealing with BPL issues is priority No. 1 for ARRL President Jim Haynie WB5JBP. Haynie tells Amateur
Radio Newsline in a recent interview, he expects the Federal Communications Commission will act soon

on the matter. While it's difficult to put a timetable on how soon, Haynie tells us he wouldn't be surprised to see the panel come out with a decision before the presidential election.

President Bush is solidly behind BPL as part of his broadband-technology initiative - this despite Haynie and the ARRL's plea for him to reconsider. Democratic challenger John Kerry's campaign position speaks of a variety of technologies for broadband but does not directly mention BPL.

Haynie concedes the way the political winds are blowing, some form of BPL activity is likely to be approved.

But the 64-thousand-dollar questions are: How much and where?

With the National Telecommunications and Information Administration already raising red flags about interference, and a BPL industry spokesman throwing verbal missiles at the amateur community, Haynie tells us here at Amateur Radio Newsline he's hoping some FCC commissioners might re-examine their BPL positions.

Haynie calls the recent suspension of the Alliant Energy BPL project in Cedar Rapids, Iowa, an important step. And, Haynie says, he suspects the electric utility industry will have to consider any fallout and who could be next to answer an interference complaint at the FCC.

As to complaints, Haynie says the ARRL will be especially vigilant if BPL becomes a reality. He says the organization will be before the FCC to press interference issues with those who are cause them.

And, he has told Amateur Radio Newsline, he will also press the FCC to fully empower those charged with enforcement issues in the agency to go after BPL providers who fail to resolve any interference complaints.

Among the other items on the board agenda, the status of amateur license restructuring which includes provisions for a "no-code" HF license for entry-level hams.

The July board meeting also is where the announcement of the winner of the Hiram Percy Maxim award comes along with host of other ARRL awards.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

Check next week's Newsline for a report on the ARRL board happenings.

(ARRL, NT3V)

**

HAMSATS: ECHO TESTS CONTINUE

Testing of the newest ham radio satellite, ECHO, continues and all is, as they say in the space biz…
nominal. The remainder of this week is expected to be spent loading some new code, testing the S
downlink and the UHF B transmitter. Note that the S downlink, when in digital mode, will always be
at 38.4 kilobits or higher. It is not capable of 9.6 kilobits due to limitations involved in making
it work properly at speeds up to 76.8 kilobits. AMSAT is pleased so far with the strength of the
2.45W S downlink. At times the UHF A transmitter will be off or at very low power. They will also
be testing transmitters at higher data rates. Listeners should not be surprised or alarmed if the
UHF A transmitter is not on or if they are unable to copy it at 9.6k during some orbits.

The Command Team is carefully checking off the tests and measurements that are part of the commissioning
process. They ask everyone to be patient. And again, AO-51 is not yet open for use. Any transmissions
aimed at AO-51 by other than command stations will slow down the process and delay the day when it is
open for all to use.

The coloradosatellite.com/echo web site was off line for a few hours last weekend due to a data center
move. Stations who want to upload telemetry should find it on line now.

(WD0E, AMSAT)

**

SPACE: ARISS SCHOOL CONTACT LIST UPDATED

While we're on the subject of ham radio in space, the list of Amateur Radio on the International
Space Station, or ARISS, school contacts has been updated. To check if a school in your area is on
the list or to find out how to schedule a contact at your school please visit www.amsat.org or

http://ariss.gsfc.nasa.gov. There is no "www" in that last URL. Of course, these addresses will
be in the print edition of this week's Amateur Radio Newsline report.

(ARISS)

**
Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations
around the world including the Los Angeles Unified School Amateur Radio Association Network serving
the students in Los Angeles, California.

**

RADIO LAW: MDS & ITFS SPECTRUM RECHANNELIZED - MDS BECOMES BRS

Big changes are coming to the Multipoint Distribution Service and the Instructional Television Fixed
Service. These are better known by the acronyms M-D-S and I-T-F-S.

As part of its ongoing effort to promote the deployment of wireless broadband services, the FCC has
adopted a Report and Order and Further Notice of Proposed Rulemaking dramatically changing the rules
governing MDS and ITFS operations in the 2500-2690 MHz band.

For starters, the Order renames the M-D-S service the Broadband Radio Service or B-R-S. It does
however maintain the I-T-F-S label for Instructional Television Fixed Service licenses and operations.
The newly rechannelized I-T-F-S slash B-R-S band will group high and low power operations together
in spectrum chunks. This, the agency says, will make low power two-way data communications possible
in some parts of the band.

Finally, to make all this happen the band will soon become 5 MHz larger. This, as restructuring of
other services in the adjacent electromagnetic spectrum permits the FCC to extend the low end of
this band down to 2495 Mhz. (CGC)

**

RADIO LAW: FCC CLARIFIES ITS ROLE REGARDING INTERFERENCE AND CUSTOMER EQUIPMENT

The FCC has clarified its role regarding interference issues, consumer antennas and Part 15 unlicensed

equipment. Regarding antennas, we all know that consumers have the right to install and operate -
on property they control - antennas for over-the-air broadcast, terrestrial and satellite reception.
Now the regulatory agency has added license-free Wi-Fi antennas of one meter or less to the list of
what may be installed. The same one meter size limit also applies to antennas used in conjunction
with fixed wireless services that are licensed by the FCC.

In the area of radio frequency interference or R-F-I, the FCC says that it and it alone holds exclusive
jurisdiction over the regulation and resolution of R-F-I issues. It adds that regulation of R-F-I
phenomena shall be imposed only by the Commission noting that both the FCC and the federal courts
have overturned attempts by third parties to regulate RFI matters. This, in light of the FCC's
exclusive authority in this area.

To read more go to:
http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-1844A1.doc
(CGC)

**

ENFORCEMENT: CATV LEAK RESULTS IN $6400 FINE

A cable TV system in Cornersville, Tennessee has been fined for excessive signal leakage in the
aircraft communications band. Small Town Communications Partners has been ordered to pay $6,400
for excessive leakage on 121.2625 MHz.

At that frequency a maximum leakage of 20 microvolts per meter at a distance of at least three
meters from a CATV cable is allowed. The FCC says that the measured leaks in this case ranged
from 255 microvolts per meter to 2080 microvolts per meter.

The Commission notes that excessive cable TV leakage can interfere with a wide variety of communications.
This can include emergency services, aviation, and Amateur Radio.

More is on-line at
http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-1751A1.doc
(CGC)

**

ENFORCEMENT: DIREC-TV FINED FOR UNAUTHORIZED SATELLITE MOVE

The Commission has proposed an $87,500 fine against DIRECTV, Inc.
This for repositioning its

DIRECTV 3 satellite without FCC authorization.

DIRECTV had filed a request with the FCC for special temporary authority to relocate the DIRECTV 3 bird, but admits that its employees began repositioning the satellite the next day, without waiting for Commission approval.

In setting the amount of the fine, the FCC noted that strict adherence to the rules governing modification of satellite authorizations is critical to minimizing the risk of collisions between satellites. (CGC)

**

FCC INTRODUCES NEW EXHIBIT ON HISTORY OF THE INTERNET

The FCC has introduced the third in a series of exhibits on the history of various communications technologies. The latest presentation focuses on the history of the Internet, including the communication technologies used to access the World Wide Web. More is on line at www.fcc.gov/omd/history (CGC)

**

ON THE AIR: THE .275 YOUTH GROUP NET

Timothy Little, W-8-L-B-O has announced the start-up of a new 40 meter 275 Youth Group. According to his posting on the Q-R-Zed dot com super site, this is an informal ragchew group that meets every Saturday at 9:00 P.M. Eastern time on 7 point 275 MHz, +/- 10 KHz.

Little says that the main purpose of the net is to promote the use of HF by younger hams so that they can get to know one another. The net also tries to help them perfect their operating skills including Morse code operation and D-Xing.

Anyone young or young at heart is invited to take part. More information about this net is on line at www.275youthgroup.4t.com)QRZ.com)

**

THE SOCIAL SCENE: NORTHERN ALABAMA DX BANQUET

The North Alabama DX Club has announced that its annual DX Banquet will be held in conjunction with this year's Huntsville, Alabama hamfest on August 21st. The

guest speaker will be Jess
Lewis, K-R-4-O-J, from the T-33-C 2004 Banaba Island DXpedition.
Tickets are $25 each and available
from the NADXC in care of Vic Holland, 219 Cedar Pond Drive,
Madison, Alabama 35757-7633. For
additional information phone 256-721-9106 or E-mail k4rvh@arrl.net.
(E-Mail)

CHANGING OF THE GUARD: ASCII DEVELOPER NOW S.K.

Bob Bemer, a computer pioneer who published warnings of the Y2K
problem in the early 1970s and
helped invent a widely used coding system, has died. This,
following a battle with cancer.

While not a radio amateur, Bemer played a major role in how the
world's computers operate and,
indirectly, in how hams communicate today. He began his career in
1949 working at companies including
Rand, IBM, and Honeywell. He also helped develop the ASCII coding
system that is used to represent
letters, numbers and other characters in the data world. He also
contributed the escape key and the
backslash to the computer language.

Bemer first published warnings of the Y2K computer problem in 1971
and again in 1979. He also made
several public appearances to discuss the issue in the years leading
up to the millennium.

Bob Bemer died Tuesday, June 22nd at his home some 120 miles west of
Dallas, Texas. He was 84. (Published news reports)

**

EMERGING TECHNOLOGY: FEW KNOW ABOUT DIGITAL TV

The General Accounting Office says that more than 80 percent of
Americans are either unaware or only

"somewhat aware" of the transition to digital television signals. But federal officials have
expressed shock and indignation at the survey results.

Congress plans to sell the analog spectrum that will become available when TV stations convert from
analog to digital. Lawmakers are counting on the money to help balance the budget. However, the
digital transition may be years away unless more consumers start buying digital TV sets and most
are not willing to pay the additional cost. (TechBriefs)

**

EMERGING TECHNOLOGY: CELL PHONE "WAITING LOT" IN OPERATION AT LINDBERGH FIELD

Following the lead of several other busy airports around the nation, officials at San Diego's
Lindbergh Field have opened a convenient "cell phone waiting lot." This is a place where drivers
can park for up to an hour while awaiting phone calls from arriving passengers. Airport managers
hope that the new lot will cut down on the congestion caused by vehicles circling the airport loop,
waiting to pick up passengers. More is on-line at http://tinyurl.com/yplws (CGC)

**

ON THE AIR: 6 METERS ACROSS THE ATLANTIC POND

It's looking like it could be a big DX season for hams and SWLs on both sides of the Atlantic.
GB2RS reports that during a Sporadic E opening on June 19th a path opened from Europe to North
America. The Maximum Usable Frequency rose at least as high as the FM broadcast band. A North
American station was received on and recorded at 88.5 MHz between 13:10 and 13:30 UTC. During
the event, trans-Atlantic television carriers were also received on 55.25, 61.25, 67.25 and
83.25 Mhz. (VHF reflector)

**

50 & ABOVE: 144 MHZ QSO DATA WANTED

If you've made any long distance 2-meter contacts in excess of 1,600 miles, or 2,600 kilometers,
Volker, DF5AI wants to know the details of your contacts. He's interested in the frequency, the
UTC time & date, and particularly the grid square locator. He's

also quite intrigued in double-hop
sporadic E skip. He can be contacted via his website. It's in
cyberspace at www.df5ai.net (VHF Reflector)

**

WORLDBEAT - ISRAEL: NEW SIX METER BEACON IN ISRAEL

4X4SIX is the new 6 meter Israeli beacon operating on 50.080 MHz.
4X6ON and 4Z5AY built the
station which announces its call sign on CW around the clock. The
beacon is located in grid
square KM72JB running 5 watts out to a J-Pole antenna. (Hagal)

**

DX

In D-X, the Ohio Penn D-X Newsletter reports that DL3PS and VE3ZIK
will be active on 40-6 meters
from Bilice, Croatia through July 31st. The call signs being used
are 9A slash VE3ZIK and 9A slash
DL3PS. While VE3ZIK is one of the Web Administrators for the
www.contesting.com info website, there
will be no QSL information there until August 3rd.

Meantime word that D-H-9-Y-A-T will be active portable CU7 from the
Azores. Listen for him from
August 3rd to the 20th. Activity will be on 40, 20 and 15 meters
QRP on CW. QSL this operation
via the bureau. (Various DX sources)

**

THAT FINAL ITEM: MUSEUM SHIPS CASTING FOR CONTACTS

And finally this week, dozens of ships from around the world
get "radio-active" July 17th and 18th
for the annual Museum Ships Weekend Event. Amateur Radio Newsline's
Mark Abramowicz, NT3V is back
with us and he checks in on preparations being made about the U.S.S.
New Jersey....

--

Dave Burgess, WA2TVS, is chief engineer for the Battleship New
Jersey Amateur Radio Station aboard
the New Jersey. Look for NJ2BB (New Jersey 2 Big Battleship) to be
very active during the event.

Burgess says the weekend was the brainchild of the USS Salem Radio
Club, K1USN, in Salem, Mass.
He says it actually started in 1997 as a way to get museum ships at
dry-docks around the world to

get on the air by way of amateur radio.

Burgess says it's the New Jersey's third year taking part.

"Last year, the number grew to about 87 or 88," Burgess says. "Right now I think the pre-registration right now is about 77. But seems like there's always a half a dozen or so right at the last minute that get their act together and get on the air."

Burgess says the event gives radio operators around the world a chance to contact a variety of these special ships and their volunteer crews.

"One is just to have fun and a reason to get the ships on the air," Burgess says. "Of course, whoever is in charge of taking care of the ship gets some PR out of it, we hope.

"They have an opportunity for the public to see amateur radio which is new to a lot of people. But to advertise the ships worldwide. I never knew there were so many ships out there. Just museum ships that is. It's amazing how many there are out there and what their diversity is."

Burgess says there are tugboats, river boats, submarines and even a midget German submarine left over from World War II. All are part of the museum ship flotilla.

He says there's no contest exchange involved in this one. Ship operators get on the air and look to contact land-based stations as well as other museum ships. It's a chance, Burgess says, to showcase a ship and its history. And, of course, there's an exchange of QSL cards and you can be guaranteed some pretty impressive history and photos of the ship you contact.

For the New Jersey's part, Burgess says he's planning an active weekend with operations through the evening of July 18th.

"We'll be on all HF bands, probably concentrating on 20 (meters), but we have capabilities (with the) ship's antennas to do 160 through 10 meters," Burgess says. "We'll be on all modes. This year we'll be introducing true, green-key operation for teletype. We'll be using the ship's old mechanical teletype machines to get on the air."

Look for NJ2BB, Burgess says, for a memorable QSO and QSL.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Camden, New Jersey, the home of the

Battleship New Jersey.

--

Thanks Mark. This sounds like a great opportunity to collect some very interesting "wall paper" for
the ol' shack.

From a personal standpoint, this is the one time I wish it WAS cancelled! I have non-refundable tickets to Europe leaving the day before it's scheduled to start and lasting longer than they'll be on Aves. Triple-Damn! I seriously looked into postponing my vacation but no-go :-(

Oh well, at my age, ten years will go by pretty quick, so I hope I'll snag them then :-/

Amateur Radio Newsline™ Report 1406 July 23, 2004

Amateur Radio Newsline report number 1406 with a release date of Friday, July 23, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. Two important youth awards are made and one Georgia ham shares in both of them. Find out who on Amateur Radio Newsline report number 1406 coming your way right now.

(Billboard Cart Here)

**

ANDREA HARTLAGE, KG4IUM, NAMED ARNEWSLINE(TM) YOUNG HAM OF THE YEAR

Andrea Hartlage, KG4IUM, has been named 2004 Young Ham of the Year by the Amateur Radio Newsline. And since this is a story about the success of the younger members of the hobby we asked our 2002 Young Ham of the Year, Josh Abramowicz, KB3GWY, to bring us the rest. Josh:

--

It was only a few years ago that I got a call at the Hawk Mountain Scout Reservation in Schuylkill County, Pennsylvania, telling me to call someone from Amateur Radio Newsline. It was during that phone call, that started out as an interview, I learned of my nomination and selection as the Young Ham of the Year.

Andrea, it turned out, was with her grandparents on vacation in Florida at the time she got the call on a cell phone from Amateur Radio Newsline's Bill Pasternak, WA6ITF. Here's her first reaction after getting the news:

"I'm very happy and excited."

Andrea, who earned her Extra Class license at the age of 14 - less than a year ago , was first licensed in 2000. She's 15 years old and going into her sophomore year at Grayson High School in Grayson, Georgia, north and east of Atlanta, where she's an honor student.

Andrea has been quite active since getting her ticket just four years ago.

"I do a lot of public service with parades and different types of marathons and things like that," she says. "I write the youth column for ARRL website. The Youth@HamRadio.Fun column. I'm assistant section manager for youth of the Georgia section and I'm a member of several local radio clubs."

Andrea is proud of her ham radio activity and is promoting the Amateur Radio service among youth.

"I spoke briefly at the Youth Forum in Dayton and I also led a Youth Forum at the hamfest, the local Rockville hamfest, and I also helped put hamfests on with the Alford Memorial Radio Club," she says.

She's also part of the ARRL's Big School Project and serves as a leader and teacher at the Richards Middle School Amateur Radio Club. There, she teaches electronic theory and has come up with a series of fun games to help reinforce the lessons.

So how did Andrea get started in Amateur Radio? She credits her father with kindling her interest.

"My dad interested me, he introduced it to me, Scott Hartlage, KF4PWI and he introduced me to Amateur Radio - I guess it was four years ago," she says. "I just sort of got interested in the public service side and I also serve as net control and I enjoy doing that and all the other things."

Andrea says Amateur Radio and all the opportunities it has given her, also has opened her eyes to some career possibilities.

"I'm possibly thinking about some kind of journalism and writing these (ARRL) columns helps me develop writing skills," she says. "And, I'm also thinking about some type of communication field that I really enjoy, like, for example, serving as net control and learning how to communicate effectively."

Andrea has made quite an impression on hundreds and hundreds of people already. You can bet it won't be the last time we'll hear from her, now and in the future.

From the 2002 award winner - Congratulations, Andrea, the 2004 Young Ham of the Year.

For Amateur Radio Newsline, I'm Josh Abramowicz, KB3GWY.

--

Andrea Hartlage, KG4IUM, will get her award at a special ceremony on Saturday, August 21st at the Huntsville Hamfest. In addition to a plaque from Amateur Radio Newsline Andrea will receive a gift of Yaesu brand ham radio gear from Vertex Standard and a week at Spacecamp courtesy of CQ Magazine. Vertex Standard and CQ are both major corporate underwriters of the Young Ham of the Year Award program. (ARNewsline (tm))

**

ANDREA HARTLAGE, KG4IUM AND JAY THOMPSON, W6JAY, NAMED TO RECEIVE HIRAM PERCY MAXIM AWARD

At almost the same time that Andrea Hartlage was getting word that she had been named as Amateur Radio Newsline's Young Ham of the

Year
she was also hearing good news from the American Radio Relay League.
So was our 2003 Young Ham of the Year Jay Thompson, W6JAY.
Here's
Amy Abramowicz, KB3IJW, with more:

--

Both Andrea and Jay learned the ARRL's board of directors had selected them to receive the coveted Hiram Percy Maxim Memorial Award.

The ARRL board was so impressed by the nominations for each that they decided to give both of them the award. That means a cash prize of $1,500 each and a special plaque.

Amateur Radio Newsline spoke with ARRL President Jim Haynie, W5JBP. He says there's no doubt Andrea and Jay are the brightest stars among the young hams today.

"Both are just absolutely stellar examples of Amateur Radio and the young crowd that we're trying to encourage at the League," Haynie says. "You couldn't pick anybody any better than these two. And, I'm just amazed at their accomplishments and how they've managed to be so professional in all the things they've done.

"I've read some of their papers and when we chose them as the HPM award winners, what they had accomplished in their brief careers as amateur radio operators. The only thing I would say to young people is use these two people as examples because they are the best. They are the best of the best. And, speaking as president of the League, I congratulate them both and I admire them both because of what they've managed to do."

Mister Haynie also tells us the 1997 Amateur Radio Newsline Young Ham of the Year, Brian Mileshosky, N5ZGT, is in the same class. Brian was the 1999 Hiram Percy Maxim Award winner. He's now 24, married, heading to grad school in the fall, and still very active in Amateur Radio activities in New Mexico.

"All his work in Scouting and DFing and things of this nature that are the epitomy of Amateur Radio again for young people," Haynie says. "When I first met Brian, I was just blown away by his professionalism and how he handled himself as a young amateur. These three young individuals I think set the example and set the standard which we would like to see Amateur Radio go toward."

Mister Haynie says now that the Hiram Percy Maxim selections have been made for 2004, it's soon time to begin identifying candidates for 2005. You can find out more about the award, the qualifications, and the nominating process at www.ARRL.org.

To learn more about Andrea and Jay's accomplishments, you can also check out our website at www.arnewsline.org

For Amateur Radio Newsline, I'm Amy Abramowicz, KB3IJW.

--

We know that all of you join us in congratulating Andrea Hartlage, KG4IUM and Jay Thompson, W6JAY, on being selected top receive these very special awards. (ARRL S.W. Division Newsletter, ARNewsline (tm))

Break 1

More in a moment. Right now its time for you to identify your station. Tom Warrenbuerg if you please: "From the United States
of
America, this is the Amateur Radio Newsline, heard on bulletin stayations around the world, including the KA9EKG repeaster serving Delavan, Wisconsin."

(5 sec pause here)

**

HAM RADIO POLITICS: ARRL BARD MEETING

The naming of Andrea Hartlage, KG4IUM, and Jay Thompson, W6JAY, as winners of the Hirum Percy Maxim Award was only one of many decisions made at the recent meeting of the ARRL Board of Directors. Many of the Boards actions will impact on all of ham radio for years to come. Here's another Abramovich clan -- Mark Abramovich, NT3V,
with
that part of the story.

--

In an historic step, the ARRL's board approved the launch of a grassroots lobbying campaign designed to raise awareness among legislators and government agencies about the Amateur Radio service.

ARRL President Jim Haynie, W5JBP, says there was careful deliberation before the board decided to launch the campaign.

"With all the things we have going on right now, such as BPL, our CC&R bill, our Spectrum Protection Act and even the restructuring program that we have it's time to raise our level of visibility," Haynie says.

Haynie says the ARRL board put the directors in charge of appointing volunteers to staff three positions in each division to work as Congressional Action chair, coordinator and assistant.

He says the chair would be someone who has had some experience in lobbying. A coordinator, with the blessing of section managers, would be selected for each state to work with the chair. And, he says, that coordinator would seek assistants to help spread the ARRL's message to congressmen and senators.

"This is a very orchestrated effort and I'm happy to see it happen," Haynie says. "It's something that's been needed to be done for a very, very long time. And it's a good thing, Mark. It really is. It's something we should have done years ago, actually."

Haynie says recent pronouncements by the FCC's chairman clearly pose a threat to the Amateur Radio service.

"I heard Michael Powell say at the NAB (National Association of Broadcasters) conference in Las Vegas this year that everything was on the table," Haynie says.

"All frequencies were on the table for various types of services. "So, Amateur Radio has got to get in there and make sure that it's voice is heard and its importance of the communities that they serve and the people that like to do volunteer work."

Haynie says the league will also ask members to get more active in contacting their representatives in the U.S. House and U.S. Senate to express their views or simply introduce them to the value of the Amateur Radio service in their communities.

"And I'm not asking the league members to do too much, actually, but sit down and write their representatives," Haynie says. "And you don't have to complain about anything. Just tell them about Amateur Radio. Tell them how much it's meant to you and your life and how it may have shaped it or changed it.

"I've said for years some of the finest people I ever met have been through ham radio. But there's many hams out there that have whole careers based on it. And this is too important not to bring the level of visibility to a higher plain."

In other board business, Haynie says there was considerable discussion of Broadband over Power Line internet access and the pending FCC action. Haynie says the board was encouraged that the Alliant Energy BPL trial in Cedar Rapids, Iowa was terminated early because of interference complaints.

He says that move sent a message to other electric utilities exploring BPL.

"It's several dozen utilities now that have looked at BPL and said that it's not something they want to get involved with," Haynie says. "And our message is not economic because they can figure that out for themselves. Our message is the fact that under Part 15, there are certain rules that have to be abided by and we want to make sure that they do that."

Haynie emphasizes the league's position on BPL is clear and consistent and can't be perceived as denying people access to technology.

"We're not against people having broadband access, we're really not," Haynie says. "It's the fact that the interference that this

particular technology would bring to the HF bands is going to be a real problem and we've got to hold people's feet to the fire when they say that they're going to mitigate interference. That goes from the White House all the way down."

Finally, Haynie says he is growing cautiously optimistic about the BPL fight and the impact the ARRL's position is having on the industry and some in government agencies.

"I think that our message is beginning to get out, and, like I say, we're not confrontational" Haynie says. "We're just trying to say look at the facts, look at the engineering studies, look at the NTIA studies and draw your own conclusions. If you've got engineers on your staff, they're quite clear."

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

A more in-depth report on the actions of the ARRL Board will appear in an upcoming issue of QST Magazine. (ARNewsline (tm))

**

RADIO RULES: VANITY CALL SIGN FEEE GOING UP

The FCC regulatory fee to obtain an Amateur Radio vanity call sign will rise from $16.30 to $20.80 later this year. According to the ARRL Letter, the FCC announced the new fee in a Report and Order in MD Docket 04-73. Thats also known as the "Assessment and Collection of Regulatory Fees for Fiscal Year 2004" and the FCC says it anticipates 7800 applications for that time frame. The FCC expects revenue collected from the vanity call sign regulatory fees in Fiscal Year 2004 to rise by more than $2100. The Report and Order becomes effective 30 days after it's published in The Federal Register. (ARRL)

**

ENFORCEMENT: CBS SAYS IT WILL NOT ACCEPT SUPER BOWL INCIDENT FINE

CBS says that it will fight any fines leveled against its television stations over Janet Jackson's startling Super Bowl performance. This, according to a top executive with parent company Viacom Inc. on July 19th.

An FCC staff recommendation did not call for fining CBS affiliates that aired the Super Bowl halftime show but are not owned by Viacom. But CBS itself could face a fine of $550,000 or of $27,500 for each of its 20 owned and operated stations that asired the so called Janet Jackson wardrobe malfunction.

Now, in a recent talk before the Television Critics Association, Viacom co-president and co-chief operating officer Leslie Moonves criticiszed any fine as being grossly unfair. He said that CBS considers the idea of a fine as patently ridiculous and that the company will take the matter into court if such a penalty is imposed. (Published news reports)

**

ON THE AIR: SAN DIEGO'S 96.9 MHZ PIRATE REACTIVATES

According to a news bulletin from Chris Carmichael, San Diego's 96.9 MHz pirate is back on the air. No news on the location ofthe transmitter site. (CGC)

**

RADIO LAW: HAWAII'S GOVERNOR VETOES AMATEUR RADIO ANTENNA BILLS BUT OVERICDE MIGHT BE ATTEMPTED

The ARRL Letter reports that Hawaii Governor Linda Lingle has vetoed two Amateur Radio antenna bills. Both pieces of legislation would have provided limited opportunities for amateurs living under private deed covenants, conditions and restrictions to erect antennas.

HB 2773 would have opened the door for amateurs living in condominiums to make arrangements with the homeowners' association board to install an antenna without having to change the CC&Rs. HB 2774 would have granted similar rights to the relatively few amateurs who live under CC&Rs in agricultural-zoned property.

Lingle, a Republican, invoked the same reason for refusing to sign both bills into law. She said that the bills were objectionable because they amount to an inappropriate and unacceptable governmental intrusion into the contractual affairs of the property owners.

But it may not be over yet. According to word from former Westlink News Production Coordinator Bill Orenstein, KH6QX, there is a move afoot to overide the Lingle veto in the Hawaii State legislasture. Orenstein, who now lives in Hawaii could not say when the overide action might take place or if it had any chance of success. (ARRL with additional information by KH6QX)

**

HAM RADIO ON THE NET: HAMBLOG.COM

www.hamblog.com is a new weblog host exclusively for amateur radio operators.

What is a blog you ask? Simply, its a spot in cyberspace where people post their thoughts and ideas on just about any subject. Some blogs let you do just that while others like hamblog.com are targeted to a particular subject. In the case of hamblog.com its our hobby of

Amateur Radio.

Charles Brabham, N5PVL, who administers hamblog.com says that hams have a lot of information to pass on to each other but traditional information systems such as magazine articles or speaking engagements at fests have proven to be unsuitable for. He says that Weblogs are highly flexible and highly individualistic and they hope that hamblog.com will provide a wellspring of knowledge about Amateur Radio that would be impossible to access or distribute by traditional methods.

Oh yes. Charles says that the service is free of charge so go check it out. The URL is simply www.hamblog.com (Via e-mail)

**

HAM RADIO CONFERENCES: THE DCC IN IOWA IN SEPTEMBER

On the ham radio social scene, the 2004 joint TAPR and ARRL Digital Communications Conference will be held September 10th to the 12th. This, at the Airport Holiday Inn in Des Moines, Iowa.

As part of the program, confereence planners are now accepting papers for the published proceedings. Submission are due by August 10th and should be sent tyo Maty Weinberg, ARRL, 225 Main Street, Newington, Connecticut, 06111. You can also e-mail them to maty@arrl.org

And very important. You can even take part even if you cannot be there in person. Thats because you do not have to be present at the conference to have your paper included in the proceedings.

Again, thats the 2004 joint TAPR and ARRL Digital Communications Conference fropm September 10th to the 12th at the Airport Holiday Inn in Des Moines, Iowa. More information is on-line at www.tapr.org/dcc (VHF Reflector)

ARNEWSLINE™ SUPPORT FUND REPORT WITH N6TCQ

Ladies and gentlemen, once again with some thank-you's, here is Amateur Radio Newsline's Support Fund Administrator, Andy Jarema,

N6TCQ.

--

We'd like to take a moment to thank everyone who helped us during our June
campaign. We heard from Brian Boccardi, N2MPM of North Brunswick, NJ; Lloyd Smith, WA9NLA and the Peace River Radio Association of Port Charlotte, FL; Billy Bryant, Jr., of Harvey, LA; The Reading, PA Radio Club, W3BN; Eric Olena, WB3FPL of Mohnton, PA; monthly contributor Joseph Bartzi, Jr., KC8DKF of Columbus, OH; our friends at the Dayton Amateur Radio Association; Mark Otspaih, also from Dayton Ernest Clark in Greenwood, IN; and C. Mark Burlingame, KB9TVD of Northlake, IL

The boss said I only have about a minute, so we'll have to do the rest of the list next week. Thank you to everyone. A reminder that Newsline is a 501c 3 California non-profit corporation. Information on how to support us is on our website at www.arnewsline.org. That address will be repeated at the end of the newscast.

I'm Andy Jarema, N6TCQ.

--

Thank you Andy. Now back to the news. (ARNewsline (tm) Support Fund)

**

RADIO SAFETY: CELLPHONE TAKES BULLET AIMED AT SUBSCRIBER

A South African merchant says he owes his life to the Nokia cellphone he was holding to his ear when he was ambushed by someone in a passing car. Andre Steyn felt the bullet penetrate his hand, only to be stopped by the phone before it could penetrate his head. The entire story is on-line at www.mobilemonday.net/mm/story.php?story_id=3653 (CGC)

**

RADIO ON THE ROAD: THE SHRINKING SYNDROME

If you are finding the size of your car and your mobile rig shrinking, you are not alone. According to Lee Cobb, W6TEE, writing in Worldradio Magazine, the actual size of automobiles has not changed much ion recent years, but the competition for space in front has. As a result, under dashboard mounting of gear is almost out of the question due to such amenities as consoles and such.

But fear not. Lee has some interesting notes on how to conquer the new car lack of space syndrome and ways her has found to get around the problem. You can read all about it on Lee's H-F Mobile column on
Page 31 of the August issue of Worldradio on newsstands right now.

(ARNewsline (tm))

**

HAM CONFERENCES: AMSAT-UK SPACE SYMPOSIUM

And AMSAT - UK is holding a Space Symposium at the University of Surrey from Friday the 30th of July to Sunday the 1st of August. On the Saturday there will be special beginners sessions run by Howard Long, G6LVB, aimed at those wishing to get into the fascinating world of amateur satellite communications. The RSGB GB4FUN van will be on site throughout the event. For booking information and full program details take your web browser to www.uk.amsat.org or contact Jim Heck by e-mail to g3wgm@amsat.org (AMSAT-UK)

**

WORLDBEAT: DXPL NOW ON WRMI

Turning to news from around the world, this item for hams and SWL's
who listens to the D-X Party Line show. Allan Graham, who hosts the DX Party Line has announced that the show will now be carried by WRMI each Sunday at 0300 U-T-C. That's 11 PM Eastern and 8 PM on the West Coast on Saturday here in the U-S-A. The frequency to listen on is 7.385 MHz.

WRMI is oned by the Florida based Radio Miami International and is heard throughout the Americas -- from Alaska to Tierra del Fuego -- in English, Spanish and other languages. The new schedule for the DX Party Line was slated to begin on July 24th. (ASWLC)

**

WORLDBEAT: SAQ NAMED WORLD HERIRTAGE STATION

SAQ, the Alexanderson alternator VLF transmitter at Grimeton in Sweden has been declared a World Heritage site by UNESCO. According to the RSGB News, the decision was made by the World Heritage Committee of UNESCO at a meeting near Shanghai in China on the 2nd of July.

S-A-Q continues to make occasional transmissions on 17.2 kHz on CW. The last one was on the 4th of July. (RSGB)

**

ON THE AIR: NEW PROPAGATION BEACONS IN CM88

Some new propagation beacons to report. K7XC reports over the VHF Reflector that as of 05:00 U-T-C on July 19th the KJ6KO 2 meter, 1 and 1/4 meter and 70 centimeter beacons in grid square CM88 are all clearly audible at his home in Fallon Nevada. Thats grid DM09.

The new beacons operate on 144.282 at 40 watts into a pair of loop antennas. The 1 an d 1/4 meter unit is on 222.014 with 25 watts into two stacked loops and the 70 centimeter beacon runs 100 watts into four stacked loops on 432.292 Mhz. KJ6KO says that he would apreciate any Q-S-N reports. Send them to his Callbook address. (VHF Reflector)

**

DX

In D-X. word that members of the United Kingdoms Wrexham and District Amateur Radio Society will be operating from the Isle of Man froom September 1st through the 8th. The exact operating location will be Scarlett Point which isd a decomisdsioned Coast Guard look out tower, approximately 1.5 miles South of Castletown, Isle of Man. Operation will be on all High Frequency Bands, plus 50Mhz, 70Mhz, and 144Mhz, at full UK Power. The team is expected to operate on at least 2 H-F Bands simultaneously, and will be running CW, SSB, RTTY, PSK and some SSTV. More is on the teams website at www.gb4iom.co.uk (GB2RS)

Also word that Andorra is now on 6 meters. According to ON4IQ, Andorra has released the 6 meter band to all resident amateurs. He reports that C31JI and C31HK are both already active on the band. (GB2RS)

**

THAT FINAL ITEM: SOMALIA GIVES HAM RADIO INCREASED POWER LIMITS

And finally this week, the ARRL Board Meeting was not the only place where things were ham radio changes were happening last week. Another was the nation of Somalia which has acted to grant its ham radio population a power increase to 3 kilowatts. Thats right. We said 3000 Watts and thats 3000 P-E-P for SSB and 3000 watts average for other modes. Somalia is also letting hams use of the 88 to 108 Mhz band for F-M and permitting Amateur Television broadcasts to be conducted on any unoccupied standard VHF or UHF television channel. WIA newscaster Graham Kemp, VK4BB, has more:

--

Yes the Ministry of Information, Telecommunication and Culture in Somalia has made these changes and more as part of action to implement the W-R-C 2003 accords.

And the Ministry has also made additional frequency allocations for amateur radio experimenters in Somalia. Radio Amateurs in that nation can operate on additional bands including Zero to 9 Kilohertz, from 70 to 90 Kilohertz and 130 to 190 Kilohertz. On Medium Wave frequencies include 495 to 526 Kilohertz, while on the High Frequencies the hams of Somalia get 5.060 to 5.450 MHz and 26.100 to 29.700 MHz excluding 27.995 the sliver band from to 27.999.

This Ministry is promoting Somalia as the best holiday and research destination for visiting radio amateurs. This, as a way of attracting skilled people to help the local Somali people become ham radio operators. Abdikariim Ali Sulatn in Puntand State Somalia confirmed again that Aussie Amateur Sam Voron, 6OA, will continue to conduct ham radio license qualifying courses and issue amateur radio licenses free of charge "in the name of this Ministry" until a national Somali Amateur Radio Society is formed.

And, oh yes. If you are planning to go there, a Somali Visitors Amateur Radio License is now issued to any class of overseas amateur radio license holder as a courtesy. It is free of charge and issued for life unless canceled by the Somali Government. Talk about an inducement to visit a far off land.

Reporting for the Amateur Radio Newsline, I'm Graham Kemp, VK4BB, for
the WIA News, in Brisbane, Australia.

--

According to a Somali spokesman, as of now, no other country provides radio amateurs with more frequencies or a higher transmitter power output. He added that Somalia welcomes visiting radio amateurs from throughout the world. (WIA News)

** SPECIAL NOTICE BY EDITOR (by KB8NW): This week's bulletin was sent out earlier than normal to accommodate the late IOTA Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the IOTA Contest participants.

Also, there will "NOT" be an OPDX bulletin for August 2nd. I know, you heard this before, but it is true this time. My wife (chief proof-reader), daughter and I will be going to Las Vegas to visit my dad and step-mother (who we haven't seen in 2 years). Besides, I can really use the break! However, PLEASE continue to send your DX info to me.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Saturday, 17th/July, through Saturday, 24th/July there were 204 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9V, 9Y, A3, A4, A6, A7, A9, AP, BV, BY, C3, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H3, H4, HA, HB, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J8, JA, JD/o, JT, JW, JY, K, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2M, VP5, VP9, VR, VU, XE, XT, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD8, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5X, UGANDA. Jay, K4ZLE, will once again return here and be active (as time permits while there) as 5X2A from August 3-21st. Some effort will be made to operate on the lower bands this year, mostly CW. Activity is also planned for PSK31. QSL direct via K4ZLE.

A35, TONGA (Update/Change In Plans/Rotuma - Possibly Later). Aisea, 3D2AA, informs OPDX that Christian, 3D2EA, has changed his plans and is now active from Tonga instead of Rotuma. Christian was first heard active as A35EA, but now it seems he is signing A35DX. He is expected to be active until July 29th. Activity will be on 40/17 meters and mainly on 20 meters. Christian is still hoping that when he gets back from Tonga he shall reconsider his Rotuma trip. QSL via 3D2EA.

AFRICA TRIPLE HOP DXPEDITION 2004. Dave/K4SV and Neil/VA7DX return to Africa July 28th and will be active from three DX locations through August 17th. Dave and Neil will operate from Lesotho, July 29th to August 6th, Swaziland, August 7-11th and Mozambique, August 12-17th. Activity will be on CW, SSB, RTTY and other digital modes, with operations planned for 160-10 meters; subject to daily propagation conditions, with focus on the low bands nightly. Special effort will be made to work the general portion of the bands. Equipment has been provided by ZS6WB for meteor scatter and EME operation on 2m and 6m using FSK441 and JT65. Patience will be required because neither operator has much experience in either mode. Verticals will be used on 160 to 30 meters with 4 element A4S and WARC beams at 75 feet for the higher bands. Towers, antennas, logistical support, licensing and all in-country arrangements have been handled by African DX Safaris - ZS6WPX. They suggest that anyone needing these countries get your antennas ready to go now. Last year's callsigns will be reactivated with Dave using 7P8DA, 3DA0SV and C91DA. Neil will use 7P8NK, 3DA0WC and C91NK. Information on how to QSL and online logs will be available at: http://www.k4sv.com
Logs will be uploaded daily and will be updated with the date of any QSL requests received and sent. QSL Manager for the entire operation will be: Stephen K4YL, PO Box 183, Flat Rock, NC 28731-0183 USA.

IOTA NEWS.....
AS-147. Taka/JR3TVH and Natsu/JJ3NAW will be active from Rishiri Island and Rebun Island, the northern most islands in JA-land, as JR3TVH/8 and JJ3NAW/8 through July 25th. Activity will include the IOTA Contest, and they plan to operate on HF to 6m on SSB, CW, RTTY, FM, AM and PSK31. QSL to their home callsign via the bureau (ref.QRZ.com).

AS-169. Operators VU2UR and VU2NXM will activate this IOTA starting July 23rd for about a week. Activity will include the IOTA Contest. Call will be AT0BI. Please follow the operator's instructions to make contact. Last time only few QSOs were made due to huge pileups.

AS-NEW. Joel, F5PAC, was expected this past week to operate as 4S7PAG
from Barberen Island (which is an unnumbered Sri Lanka's
Coastal Islands group). ADDED UPDATE. This new IOTA is now
listed as AS-171.

EU-010. Dennis, M0LSB/MM0LSB, is currently on an Outer Hebrides,
"Grand Tour" - currently on Lewis (SCOTIA HI21). He will
activate the following island in the EU-0101 group using
the schedule below (approximate dates):
July 24-25th Great Bernera (HI27)
July 25-26th Harris (HI21)
July 26-27th Berneray (HI15)
July 28-29th North Uist (HI13)
July 30th Grimday (HI10)
July 31st Baleshare (HI11)
August 1-3th Benbecula (HI08)
August 3-7th South Uist (HI06)
August 7-11st Eriskay (HI05)
August 11-18th Barra (HI02)
August 11-18th Vatersay (HI01)
Dennis says this is a holiday, so don't expect a "round the
clock" operation. Visit Dennis's Home page at:
http://www.gm3vlb.com

EU-064. Some members of the past 5V7C crew, namely Gunther/F5VHQ,
Pascal/F5JSD and Frank/F4AJQ, will go to Noirmoutier, with
Bernard/F9IE and will be active during for the IOTA Contest
as F6KOP/P. Outside of the contest they will use their own
callsign/p except Bernard/F9IE who lives on the Island. QSL
via operator's instructions.

EU-124. The Barry Amateur Radio Society will participate in the
IOTA Contest (July 24-25th) as GW8K from Flatholm Island.
They will be on the island from now through July 26th
inclusive; outside the contest expect activity as GB5FI
also on PSK31 and SSTV. QSL via GW0ANA, direct or by the
bureau.

P40, ARUBA. Ken/K6TA and Kay/K6KO will be active from here as P40TA and
P40K, respectively, from November 30th to December 21st. Both operators
plan to be active as P40K in the ARRL 10 Meter Contest (December 11-12th)
as a Multi-Single/High-Power entry. Also, look for P40TA in the ARRL
160m Contest. QSL both callsigns via WM6A.

QSL INFO AND NEWS.................
Andy, DJ7IK, informs OPDX that the 3V8 QSL Bureau is now working.
The Bureau is located in Tunis at the headquarter of the Tunisian
Scouts. The address: Scouts Tunisiens, Amateur Radio 3V8ST,
Avenue Juguartha, P.O. Box 339, Tunis Mahrajene 1082, TUNISIA

Mac, W3HC, informs OPDX that he is now the QSL Manager for 9A6DR.
He also mentions that the new cards are being printed for PS2T at
this time.

SILENT KEY. The ARRL Web page and W1AW Bulletins report that "radio astronomer, antenna designer, cosmic explorer and author John D. Kraus, W8JK, of Delaware, Ohio, died July 18th. He was 94. While he enjoyed a worldwide reputation, Kraus is perhaps best known in Amateur Radio circles for his bi-directional wire beam antenna--often dubbed the '8JK array. Other important Kraus designs include the corner reflector and helix antennas. The Michigan native was a pioneer of radiotelescope design and the father of the 'Big Ear' radiotelescope." For more information about John, W8JK, please read ARRL Special Bulletin ARLX006 or visit the ARRL Web at: http://www.arrl.org/news/stories/2004/07/21/1?nc=1 OPDX and its readers would like to send out their deepest sympathy to John's family and friends.

T6, AFGHANISTAN. Henry, F6EAY, is currently assigned in Kabul, Afghanistan, and is active using the callsign T6RF only on PSK31. Henry states, "The propagation is not very good and the signals are weak." QSL via his manager, Jean Pierre, F6ITD.

TWLHF (The World Lighthouse Foundation). Charles, M3ZYZ, Founder and President of TWLHF, provides the following information about the TWLHF: "This foundation was established as a result of great appreciation for lighthouses and lighthouse keepers of whom there are ever fewer in the world. All people of good will from any part of the world can become members of this foundation, independent of whether they are radio amateurs or not. TWLHF will closely cooperate with associations of similar stand, attitude and interests by assisting and honouring one another as equal partners connected amicably and by a mutual love of lighthouses. The Foundation was the idea of Kresimir, 9A7K, along with other persons from across Europe including myself Charles, 'M3ZYZ'. I have been interested in Lighthouses from an early age and to combine them along with radio also, was a dream come true. The Foundation, of course, is not mainly aimed at Radio Amateurs but also SWL's and any other person who shares in the passion for seeing Lighthouses for whatever reason. The membership fee is €5 euros or equivelent in US Dollars, GBP etc and for this the member will recieve a beautiful full colour certificate bearing their name and unique member's number. In addition to the above, their are many Medals, Diploma's and Trophies all available, but moreso, they are achievable even to the SWL or Qrp station." For more information and details about the TWLHF, please visit their Web page at: http://www.twlhf.com

XU7, CAMBODIA. Jaak, ES1FB, will once again be active as XU7ACE starting around October 15th and end November 5th. QSL via ES1FB.

YV0, AVES ISLAND. The official YV0 DXpedition announcement was finally released this past week by the RCV. The press release states: "The Radio Club Venezolano (RCV) is celebrating the 70th anniversary and would hereby announce an expedition to Aves Island - one of the top ten most wanted DXCC entities.

Aves Island (NA-020) is located at 15 40' 33" North 63 36' 27" West (FK85eq) which is around 600 kilometres north of mainland Venezuela.

The island is about 580 meters long and 150 meters wide. The highest point on the island is only about 3 meters above sea level. Aves Island was claimed by Venezuela in 1865.

On August 23, 1972, the island was declared a wildlife sanctuary. In 1978 the Venezuelan Navy established a garrison in Aves called the Simon Bolivar = Scientific-Military Base. Now a new garrison has been installed this month, and this expedition will be there at the time of its inauguration. Last DXpedition to YV0 was in 1994.

Dates: From July 28th until August 8th. (on-the-air period depends on voyage to Aves)

Operators: K4UEE, K6MYC, OH2BH, OH0XX - as invited guest operators. The host group is YV1AVO, YV1DIG, YV4BOU, YV5AMH, YV5IVB, YV5JBI, YV5KM, YV5KXE, YV5OIE and YV6BTF. Also YY5FRD will be part of the crew.

Antennas: Sigma & SVDA vertical monoband antennas for HF provided by FORCE 12, the leading edge antennas for many successful DXpeditions and contest operations. On VHF M2 2x 41 ft. boomers on 6m and a 15.7 dbd yagi for 2m will be used. Crossed yagis for UHF and VHF will be used in satellite operation.

Modes: SSB, CW, RTTY, PSK, SSTV, FM and some other digital, many modes for the 1st time from YV0.

Bands: 75cms thru 160m including WARCs and satellite.

EME: Moon bounce operation for the 1st time from YV0.

Suggested Frequencies:
CW - 1823,3503/3523, 7003/7023, 10103, 14023, 18073, 21023, 24893, 28023, 50103, 144100 and 432100

SSB - 1843, 3795, 7055, 14195/14260, 18145, 21295/21195*, 24945, 28480/28905*, 50103 and 144200

RTTY - 3580, 7035, 10133, 14083, 18101, 21083, 24920 and 28083

SSTV - 14233, 21343 and 28683

PSK - 3580, 7035/7080, 10143, 14071, 18101, 21071, 24920 and 28120

FM - 29600 and 146520

* only for Novice (please do not call if you are not a Novice)

Follow up operator instructions for split range and frequencies. Plus 50103, 144080 for EME operations.

RIGS: 4x Yaesu's FT1000MP Mark-V and 2x FT847's, 2x FinnFet HF amplifiers by MA-FET among others rigs & amps, also a 1kw (8877) on 6m and 350w on 2m (EME).

Online Logs: If a good communication can be established, a query for daily uploaded logs will be on the radio club (RCV) Web page.

Logs will be on ARRL's LOTW (Log of the World) but the expedition will NOT load logs into EQSL but right QSO's on the InBox will be honored.

QSL Manager is KB6NAN 'OK' on QRZ.com, (1 IRC or 1 USD is 'OK' worldwide, SASE is 'OK' for USA). QSLs (most probably full colour folded cards) will be printed after the Dxpedition. QSLing thru bureau are 'OK'.

Sponsors: FORCE 12 (www.force12inc.com) for all HF antennas and AMSAT-YV (www.amsat-yv.org) for the satellite operation.

Pilot for Asia and Oceania: ZL2AL, America: K6GNX and Europe: OH2RF.

Anything extra sent as contribution will be gratefully welcome to cover the expenses of the DXpedition and printing the QSL cards.

Profile: 6 HF stations plus a 6m/2m EME and a satellite station for (AO7-FO29-SO50-AO51...).

Trip to the island is expected to be a 24 hours or less depending on the ship. The set-up period after arrival will be some hours in the Caribbean heat.

Such as antennas and tents, in a high heat would take its toll. And thereafter... be our guest!

The main antennas will be taken down day before the ship arrival while a modest signal may be kept on the air until 8th of August.

At the hour (00 minutes) operators will ask for only AF/AS/OC, be polite and stop calling if you are not in this areas, just wait until the next general QRZ.

At half hours (30 minutes) operators will ask for short skip stations only, it means Caribbean & North SA, again please follow the previous lines instructions.

If the ship commander would allow operations on the ship, keep your ears on 6m for some Caribbean sea grids.

As you have noticed there are real good operators in the crew, so just follow their instructions.

WEB Page: www.radioclubvenezolano.org and follow Aves link on the left menu, then choose 2004 (will be active soon).

You can enjoy some info on all the RCV's DXpeditions to Aves Island."

The following stations are expected to be active in the RSGB IOTA Contest (July 24-25th, 2004)

Thanks to Bill, NG3K, for providing OPDX readers the following
consolidated listing of the participants in the 2004 RSGB IOTA Contest. For
a more detailed listing in HTML format, please visit the Web page at:
http://www.cpcug.org/user/wfeidt/Misc/iota2004.html
To get the list in order by Entity and IOTA, see:
http://www.ng3k.com/Misc/iotad2004.html

1009. Octavia QSL's Reliable Outfit?

Newsgroup: rec.radio.amateur.dx
Date: 2004-07-24 02:54:47 UTC
From: DOUGLAS SNOWDEN <SNOWDEN@peoplepc.com>
Message-ID: <XbkMc.11580$f4.9818@newsread3.news.atl.earthlink.net>
Source record: 7000

I ordered 1,000 qsl's from a Russian outfit (Octavia) more than 2 months ago. Send a bank check. They confirmed receipt.
I have sent them several E-nmails asking about my order status and all I get is "I will check on it". Anybody have positive or negative experiences with them? I asked for my money back, only because I can't get an answer from them.

Doug N4IJ

I emailed them for quotes a couple of times and got no replies to any
emails (or the requested sample pack).

Went to UX5UO print in the end and will definately be using them again -
their service and quality of the cards was excellent.

Octavia is good quality cards but they take a long time plus
the shipping takes time too.

while back the site that he used for payment scammed him and customers
but he made good on all orders.

1017. Andrea Hartlage (KG4IUM) named 2004 Amateur Radio Newsline™ Young Ham Of The Year

Newsgroup: rec.radio.amateur.dx
Date: 2004-07-25 18:05:39 UTC
From: radionews@aol.com
Message-ID: <20040725140539.26512.00002191@mb-m03.aol.com>
Source record: 7008

Andrea Hartlage (KG4IUM) named 2004 Amateur Radio Newsline™ Young Ham Of The Year

(Los Angeles, CA) She is 15 years old, about to become a sophomore in Grayson High School in Grayson, Georgia where she holds a 96.41 Grade Point Average and has dedicated the last four years of her young life to serving the needs of her community and its youth through Amateur Radio. For that reason and many others, Andrea Hartlage (KG4IUM) has been selected to be the recipient of the 2004 Amateur Radio Newsline™ Young Ham of the Year Award.

Andrea was first licensed in 2000 and currently holds the Amateur Extra class which is the top of the line. She credits her father with kindling her interest.

"My dad interested me, he introduced it to me, Scott Hartlage, KF4PWI and he introduced me to Amateur Radio - I guess it was four years ago," she says. "I just sort of got interested in the public service side and I also serve as net control and I enjoy doing that and all the other things." (A "net control" is the person in charge of a group of ham operators performing emergency or public service communications.)

Andrea has been quite active since getting her FCC license just four years ago.

"I do a lot of public service with parades and different types of marathons and things like that," she says. "I write the youth column for ARRL website...I'm assistant section manager for youth of the Georgia section and I'm a member of several local radio clubs." The ARRL is the American Radio Relay League, the National Association for Amateur Radio, based in Newington, Connecticut.

Among her many achievements, Andrea has served as an instructor at J.E. Richards Middle School Amateur Radio Club as part of the "ARRL Amateur Radio Education & Technology Program." The program's goal is to improve the quality of instruction by providing an educationally sound curriculum focused on wireless communications. The project emphasizes integration of technology, math, science, geography, writing, speaking and social responsibility within a global society. Andrea's instructional work at the J.E. Richards Middle School Amateur Radio Club was part of the pilot program.

But Andrea's work in the area of recruiting youngsters into the Amateur Radio hobby goes far beyond her local community. She is an

internationally known writer with a monthly on-line column titled "Youth@HamRadio.Fun" and also authors a similar bi-monthly column for the Young Ladies' Radio League (YLRL) Newsletter, YL-Harmonics. As a public speaker she has appeared at the Dayton Hamvention Youth Forum in Ohio and continues to promote the hobby to youngsters at local hamfests, club meetings, and other public events.

In the area of public service, Andrea has already completed the ARRL Emergency Communications training course and serves as the network control station for several regularly scheduled on-the-air emergency communications training sessions. These include networks sponsored by the Gwinnett Amateur Radio Society and the Gwinnett County Amateur Radio Emergency Service (ARES). Andrea also was the control station of the GEMA/ ARES Net for activation during the G8 Summit Conference. On the technical side, Andrea has already used the skill she learned through Amateur Radio to build communications gear for the September 2003 World Canoeing and Kayaking event.

Andrea is a member of several prestigious hobby radio organizations including the ARRL and YLRL mentioned above, the FISTS Club (an international organization dedicated to the preservation of the historic Morse Code), the Gwinnett County Amateur Radio Emergency Service, the Gwinnett Amateur Radio Society (GARS), the Alford Memorial Radio Club, the A-1 Operator's Club and scouting Venture Crew 73.

As to her future, Andrea says Amateur Radio and all the opportunities it has given her, also has opened her eyes to some career possibilities.

"I'm possibly thinking about some kind of journalism and writing these (ARRL) columns helps me develop writing skills," she says. "And, I'm also thinking about some type of communication field that I really enjoy, like, for example, serving as net control and learning how to communicate effectively."

At the end of her freshmen high school year, Andrea had all A's, placed 7th in her class of 664,. She takes all "Gifted Level" courses and will be taking "Advanced Placement" next year.

The Amateur Radio Newsline™ Young Ham of the Year Award will be presented to Andrea Hartlage on Saturday, August 16th, 2003 at the Huntsville Hamfest in Huntsville, Alabama. The award ceremony will be co-hosted by Bill Pasternak (WA6ITF) of Amateur Radio Newsline™, and YHOTY Award Committee Chairman Mark Abramowicz (NT3V). Also present at the ceremony will be representatives of corporate underwriters Vertex Standard USA, Inc. and CQ Magazine. The presentation of the award as a regular feature of this prestigious Amateur Radio convention has been made possible through the generosity of the Huntsville Hamfest Planning Committee and its Chairman, Walter "Scotty" Neustadter, (W4WW).

As "Young Ham of the Year," Andrea Hartlage, will receive -- courtesy of Vertex Standard USA -- an expense-paid trip to the Huntsville Hamfest, along with a gift of Yaesu ham radio equipment. CQ magazine will treat Andrea to an expense-paid week in Spacecamp Huntsville, and will present her with a variety of CQ products. Amateur Radio Newsline™ will provide Andrea with a commemorative plaque at the award ceremony. The cost of year's plaque has been underwritten by Dave Bell (W6AQ) - President of DBA Entertainment Inc., Hollywood California.

The corporate underwriters of the "Amateur Radio Newsline™ Young Ham of the Year Award" are world leaders in their respective areas of Amateur Radio product support. Vertex Standard USA, Inc. is a trailblazer in the design, manufacture and distribution of high quality YAESU Amateur Radio and commercial two-way radio equipment. CQ magazine is considered the trend-setting publication serving today's modern radio amateur.

The Amateur Radio Newsline™ Young Ham of the Year award program, (formerly the Westlink Report Young Ham of the Year) now entering its 20th consecutive year, is presented annually to a licensed Radio Amateur (Ham) who is 18 years of age or younger and who has provided outstanding service to the nation, his community or the betterment of the state of the art in communications through the Amateur Radio hobby/service.

Past recipients of the Young Ham of the Year Award, all of whom epitomize the heart of dedication to their nation include:

Shawn Alan Wakefield, WK5P, of Bartlesville, Oklahoma (1986)
David Rosenman, KA9PMK, of Muncie, Indiana (1987)
Jonathan Binstock, NK3D, of Potomac, Maryland (1988)
Erin McGinnis, KAOWTE, of Topeka, Kansas (1989)
Mary Alestra, KB2IGG, of Staten Island, New York (1990)
Richard S. "Sammy" Garrett, AAOCR, of St. Louis, Missouri (1991)
Angela (Angie) Fischer, KBOHXY, of St. Louis, Missouri (1992)
Kevin Boudreaux, N5XMH, of New Orleans, Louisiana (1993)
Allison Zettwoch, KD4CKP, of Louisville, Kentucky (1994)
Adam Weyhaupt, N9MEZ, of Alton, Illinois (1995)
Toby Metz, KB7UIM, of Boise, Idaho (1996)
Brian Mileshosky, N5ZGT, of Albuquerque, New Mexico (1997)
Richard Paczkowski, Jr., KF4BIA, of Edgewater, Florida (1998)
Michelle Swann, KE4EZI, of Warner-Robins, GA (1999)
Christopher Arthur, KT4XA, of Russellville, AL (2000)
Patrick Clark, KC8BFD, of Charleston, WV (2001)
Josh Abramowicz, KB3GWY, of Reading, PA (2002)
Jay Thompson, W6JAY, of Santa Ana, CA., (2003)

The award sponsors wish to also thank CQ magazine, Worldradio magazine, QST magazine, the ARRL Letter, and the Radio Amateur Information Network for their generosity in assisting in soliciting nominations for the 2004 award.

Source record: 7009

This was also batted around on the QSL e-mail reflector of which I'm also a member, and I'll repeat the same thing here and add a few comments as well.

First off, just do this. Get out your shoe box full of QSLs. Pull out the first 20 or so that catch your eye the most. Don't necessarily choose your most memorable contacts in this case, just look for the twenty best-lookoing, best-feeling cards. Doesn't matter if it's a DXpedition you remember or something that just came in the bureau two shipments ago. Just take the 20 best looking ones you can find.

Now, turn them over and look at who did 'em. Many great looking cards bear the logo of the shop where they were done. I'm willing to bet you'll see three or four shops more than any others in that list.

Fred Atkinson <fatkinson@mishmash.com> said :

>http://www.w4mpy.com

<snip>

Joe <joe@nospam.com> wrote:
>>Octavia is good quality cards but they take a long time plus

>>w4mpy is good

W4MPY's print quality is OK, but it absolutely can NOT compete with price and quality from the big guns in Europe. For a full-colour card (front) with a custom design on the back Wayne (W4MPY) is charging $195 *PLUS* postage per thousand. If you go by the post office's calculations for a 10 pound package (roughly the mass of 1000 QSLs in a shipping carton), that's another $15 or so by Priority Mail or around $10 by Parcel Post. Total about $210 or so.

Not just that, but frankly, in the eyes of this former professional graphic designer, their stock designs are really *really* kitsch. Dogs Playing Poker kitsch. Velvet Elvis kitsch. State outlines. Morse Code keys. Towers. Maps. Helvetica and some other horribly overused fonts. ZZZZZZZzzzzZZZzzzzZZzzBORING! Granted, his simple no-nonsense no-graphics bureau cards are fine, but at $52/k (single-sided) are also terribly overpriced. $100 if you want 'em printed TWO sided!! PuhLEEZE.

Last December I ordered 1,000 full-colour cards from WWW.QSLSHOP.COM in Berlin, and was charged $120 USD, *including shipping from Germany* and the order was delivered in five weeks (including the Christmas

holidays). Quality and card stock were perfect, but file formats proved to be a little troublesome - they're a MAC shop and I'm a PC designer. Nevertheless, I would not hesitate to recommend them STRONGLY. Communication was great, and I received an absolutely *superb* product -- MUCH cheaper than the American alternative! If you're planning to go with them (and you're not a designer and don't work with Photoshop, QuarkXPress, Illustrator, etc), I'd suggest letting them do the design for you at no extra cost.

My next order will be with ELLI Print in the Czech Republic (http://www.qsl.cz/qsl/english/ham.html), based on the glowing recommendations I've seen on eham, from their product in my shoe boxes and from just about everywhere. Their price for 1000 full-colour front/monochrome back is $100.00 SHIPPED from the Czech Republic (+7% if you pay by credit card), so $107 total -- about half of what it costs from W4MPY. Reports from others indicate friendly fast service, excellent communication and a tremendously good finished product.

I would also strongly consider Alfio, IT9EJW (www.printed.it) as well. They charge 75 Euros for 1,500 cards plus 40 Euros for shipping to the United States, which is the equivalent of $140 US with the exchange factored in.

Frankly, these three represent the best value for the ham Dollar/Pound/Euro/etc, and I can see no logical reason why folks would choose any other printer in this day and age. Your QSL is a how the ham world sees you and is generally their lasting impression. If you're going to spend good money on cards, you should consider mailing out something that a foreign ham would be proud to put on their wall, not toss in an old shoe box, or worse, in the bin!

I wouldn't deal with Octavia based on numerous reports of problems, despite their finished product looking pretty decent. Thank goodness that Star went pointy-ends-up. I made the stupid mistake of ordering from them TWICE (thinking the first curled lot of cards was just a fluke). Gaaah. Good riddance.

Yes, I purchased 1000 QSL cards from them I waited 2 1/2 months from the time my order was received and OK'ed for press and they say your order was sent, well the cards were lost in mail. So they reprinted my order and the cards I received (now 3 1/2 months later) were inferior to there samples. VERY POOR QUALITY! I CANNOT recommend them to anyone. I hope you get the cards you ordered!!! GOOD LUCK.

1022. Questions about WIRES II

Newsgroup: rec.radio.amateur.dx
Date: 2004-07-26 15:04:06 UTC
From: demysaid@yahoo.com
Message-ID: <b76a669.0407260704.5d6ff26b@posting.google.com>
Source record: 7013

I've been looking at the WIRES II technology and trying to understand it more and more. I see that the new Yaesu HT's have 'WIRES II' capability. I would like to set up my own WIRES station here at home but I'm not sure what the configuration would be. I understand the HRI-100 and computer with soundcard and software are needed. The part I don't get is the radio gear needed and what are the possible configurations for a home station (non-repeater) user. In the diagram they have a mobile (base) station hooked up to the HRI-100 interface. Does this mean that you then can take a portable, walk around your neighborhood and talk to hams around the world by transmitting on the portable which is received by the mobile at home connected to the WIRES II setup? Do I just choose a non-interfering frequency for communication between the portable and mobile? Sri about the rant but it's the only way I can't explain the question. Basically, it's a question of 'real life scenarios.'

Thanks

Does anyone know whatever happened to the Little Print Shop?
They had a card I fell in love with while I was still working towards
my novice license.

Some time after I became a ham, I sent them an order for that
card. They had discontinued it and I've never found anyone who could
do that card for me for a reasonable price.

They disappeared some years ago and I don't know what happened
to them. They were a very popular QSL vendor as I remember. I got a
lot of QSLs from other hams who had used their services.

Yes, of course the QSO is the most important bit. I'm talking about a *visual* reminder to the station you worked. I have cards from some hams showing either them, their shacks, their houses, views from atop their towers, etc, that whenever I hear them on the air, that's the picture I will remember and that's how I'll see them.

My own card is a photograph I took of a disused subway station in New York City (it's also the image that's the cover of a book I wrote), and IMHO, it's a visually interesting card that will stick in people's memory.

> Isn't that what ham radio is all about? Or are we all
>just cardboard collectors?

Walt, we know you're not a QSL collector, and that's all fine and great. But many of us *are* QSL collectors, both for awards qualification and for the sake of having wonderfully unique snippets of the lives of othes with whom we happen to come in contact (literally). I have several linear feet of QSLs now, and I regularly look through them, not to count contacts for awards (my software does this), but to remind myself of some memorable conversations AND to see some unique images, even if I've completely forgotten the contact itself. These are the thousand-plus people I've come in contact with, and each card is unique in some way or another.

I am hoping some DXer in a foriegn land has my card on his wall or prominently in his collection of nice looking cards (though I realize that many are probably in landfills by now, especially DXpeditions).

Just recently I worked Robert, 3B9FR on 20 Metres. I'd worked him on 15 months before the big 3B9C DXpedition, and we exchanged cards. He wrote me a nice little note about my picture on his return card. Well, during the 20 Metre card I mentioned the contents of that note and he remembered me through that visual. He's never been on a train in his life and the image on the card was interesting to him. I will remember

THAT contact for a long time.

The topic at hand isn't whether QSLing is good or bad, just about printers of said cardboard, and whether one is, or isn't, reliable.

Don't bother.

http://www.echolink.org

Software is free, and with a simple sound card interface, yes, you can

walk around the neighborhood and talk to hams all over the world.
There are about 31,000 active users of EchoLink that have been on the
system in the last month.

There's a brief article about it here:

http://kh2d.net/echolink/

At the current time, there are a couple hundred stations listed as
active on the Wires system, and most of them are in Japan.

There are over 2,000 nodes connected to the Echolink servers right
now, and the average number connected goes from 1,900 to 2,200
usually.

Have you checked out echolink -- tis free

EchoLink® software allows licensed Amateur Radio stations to communicate with one another over the Internet, using voice-over-IP (VoIP) technology. The program allows worldwide connections to be made between stations, or from computer to station, greatly enhancing Amateur Radio's communications capabilities. There are more than 130,000 registered users in 150 nations worldwide!

Boy does that bring back memories. I remember the LPS and their cards. Also I got my 1st ham ticket (WN5PMR/1966) back when it was a race between LPS and the FCC. Did you get your sample cards from LPS with your call on the mailing lable. . . or did the FCC win and get to you 1st. In 1966 shortly after passing my novice I joined the Army. In that case the FCC won the race. How ever in 1969 I again got a Novice and this time the LPS won. What did happen to them if any one knows.

I got the sample cards first. So I called the FCC and asked them why my license was taking so long, and told them I wanted a temporary license. The lady said she'd like to issue me one, but she was really sorry, she couldn't because she had no way to figure out what my call sign was. I asked her if she knew what it was, would she issue me a temporary license, and she said "Sure I would." So I told her my call and she asked "How do you know that?" and I said "The Little Print Shop told me".

The temporary license came in the mail the same day that the permanent license did......

>Also I got my 1st ham ticket (WN5PMR/1966) back when it was a race
>between LPS and the FCC.

They sent me their samples very quickly, back in 1987, but in
their blurb they referred to "amatuers" throughout, so I decided
not to trust them with such an important task.

Someone mentioned W4MPY - he is a great guy (although a Repug,
but I can almost forgive that), printed 10,000 cards for HC8N,
then found that the person to whom he outsourced some of the
work had printed a "one" instead of an "L" in the grid location
and made them do 10,000 new ones, at no expense to me. His only
condition was that I destroy the 10,000 cards he had already sent
me, which I did.

I don't think you would get this sort of treatment from other
printers, and sometimes you do get what you pay for.

Do I need a mobile/base rig at the home (connected to interface) if I want to walk around the neighborhood and talk through Echolink with my HT?

Example:
Set mobile/base to rx 438.000

set portable to transmit simplex on 438.000

Yep, that'll work. Or it you don't need much range, just use two HT's.
Or if you want the other kids in the neighborhood to play too, use a
VHF radio and an antenna up 50 feet.

Simple, inexpensive radio to sound card interface here:

Thank you for taking the time to read this.

Your Freedoms are in jeopardy! RadioShack Corporation has filed an injunction in a Texas Court that has shut down an opinion website, http://www.radioshacksucks.com, in direct violation of the Freedoms of Speech, Expression and Peaceful Assembly, as guaranteed to us by the Constitution of the United States. If other companies learn of this, they will use it against any website that speaks out against that company. This is extremely dangerous, as it will change the face and scope of the Internet.

If Big Business continues to dominate our lifestyles, we will lose our freedom to worship as we see fit. We will lose our freedom to vote for the candidate that we think will do the better job. We will lose our freedom of the press to accurately report on current events. We will lose everything we have fought and died for in the past 228 years Do not tell this to the descendants of those that have bravely fought in previous battles and wars, for their ancestors would have died in vain. The Constitution will have been overruled by Big Business.

RadioShack is on a vicious witch hunt and will not stop until they dominate our lives. RadioShack must be stopped now, before it gets any later or any worse.

Here is what you can do to help: copy this letter and add your signature to the bottom. Mail it to the following people:

Leonard H Roberts
CEO RadioShack Corporation
100 Throckmorton Plaza
Ft Worth, TX 76102

The Honorable Kenneth Curry
401 W BELKNAP
153RD DISTRICT COURT
FORT WORTH, TX, 76196-0225

Thank you for your help and support.

(from alt.tasteless:)

"...you'll feel a slight pressure"

Saddam needs a urologist:

http://www.cnn.com/2004/WORLD/meast/07/29/saddam.ap/index.html

"Deposed Iraqi dictator Saddam Hussein suffers from a chronic prostate
infection and has refused to have a biopsy to rule out any chance he has
cancer, an Iraqi official said in an interview Thursday on Al-Jazeera
television."

--------- cut -------

Uhhhh, gee ... why would Saddam possibly object to a prostate biopsy if
he's having problems? Wouldn't *you* want a prostate exam from a
coalition forces doctor? Hey, I wonder if Lynndie England is available
with her big industrial rubber gloves?

Amateur Radio Newsline™ Report 1407 July 30, 2004

Amateur Radio Newsline report number 1407 with a release date of Friday, July 30, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. The ham bands get clobbered by the sun and some of the results are amazing. Find out the details on Amateur Radio Newsline report number 1407 coming your way right now.

(Billboard Cart Here)

**

ON THE AIR: GEOMAGNETIC STORM AND HAM RADIO

A huge geomagnetic storm has hit the Earth, wiping out a lot of High Frequency communications. At the same time its making the VHF and UHF bands a veritable D-X playground. Bill Pasternak, WA6ITF, has more:

--

According to a propagation bulletin issued on July 25th by CQ Magazine's Tomas Hood, NW7US, the estimated planetary K index reached a level of 8, with the Bolder, Colorado K reading a level 7. Translated into everyday talk, that's one heck of a solar storm and it does odd things to radio communications. All you need do is turn on a 6 or 2 meter CW or SSB radio to hear it for yourself.

Solar storms bring with them an increase in Aurora and Aurora based communications. Reports over the VHF Reflector say that this one was no exception. According to Dave Wenner, K3KEL, in Benton, Pennsylvania, his 150 watts to a homebrew 9 element Quagi antenna made it possible for him to make dozens of 144 Mhz contacts. These ranged from Maine across to Missouri plus Nova Scotia, Quebec, and Ontario Canada. Dave's posting said that he did not work any stations to the South but that they were there. He says that he heard K4QI in North Carolina's grid FM06 very strong toward the end of the session.

Wenner's was typical of the reports posted to the VHF Reflector. Many of them said that this was the best Aurora session heard in years.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, in Los Angeles.

--

How long does a solar storm like this last? NW7US reports that as Saturday, July 25th progressed, the geomagnetic field again became highly active and reached storm levels. He says that it has continued to get more intense, reaching very high storm levels. As the week progressed more Aurora contacts were reported world -wide with some on the 222 Mhz band and above. (NW7US via VHF Reflector)

**

PROPAGATION: IS THE SUN HARMING EARTH

Meantime the CGC Communicator cites an interesting propagation report. One that says Greenland's ice cores indicate that the sun is more active now than it has been at anytime in the past 1,000 years.

That report also says this has caused a warming trend here on Earth. As a result of this and other solar observations the pseudo-science doomsayers have been quick to jump on the gloom and doom bandwagon. They are out there predicting dyer consequences for those of us living here on the surface of our home planet Earth. But is any of this based on reality? That's what RAIN's Hap Holly asked CQ's Thomas Hood, NW7US:

--

Audio report only. Hear it in the MP3 version of this newscast downloadable at http://www.arnewsline.org/quincy

--

Hood says that you should enjoy the radio talk about the phenomena but not to take it seriously. (CGC, RAIN)

**

ON THE AIR: THOMAS HOOD ON RAIN

By the way, you can learn a lot more about radio propagation and the effects of solar radiation on communications from Thomas Hood on this weeks RAIN Report. Its available right now on-line at www.rainreport.com or on the phone at 847-827-7246. You can read the article referred to by the CGC Communicator at http://news.bbc.co.uk/2/hi/science/nature/3869753.stm (CGC, RAIN)

**

VHF AND ABOVE: ARRL MULLS CVHF/UHF CONTEST RULES CHANGES

ARRL Director Tom Frenaye, K1KI, has also posted some interesting information to the VHF Reflector. He says that says that the work done by the VHF-UHF Contests/Awards Subcommittee has been completed. That the written report and along with some in-person additional comments were given during the ARRL Board's Program & Services Committee meeting on July 15th. That's just before the ARRL Board meeting that began on July 16th.

Frenaye says that the Program & Services Committee did not take action on the report and will study it during the next several weeks. In the mean time, the committee agreed with him that the report should be posted to the VHF reflector public consumption. It will also be sent to the Contest Advisory Committee for information and possible comment.

What will happen from here? Frenaye says that the Program & Services Committee will work with the Membership Services Department in Newington to take the recommendations any further. He says that some rules may changes and some may not. Except for possible changes to the 2004 E-M-E contest, K1KI does not believe you'll see any major contest VHF changes until 2005. He also notes that some recommendations may have to wait until budget resources are made available. The full ARRL Board does not normally get directly involved in contest rules issues as contest rules are usually not policy matters. (K1KI via the VHF Reflector)

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the K8KZO repeater serving Portage Michigan.

(5 sec pause here)

**

HAM RADIO IN SPACE: ECHO ON THE AIR

I'm Bruce Tennant, K6PZW, with some breaking news that hams worldwide have been waiting to hear. This, as AMSAT announces that its new Echo satellite, now renamed AO-51 will be turned on for general use in FM repeat mode on July 30th at about 02:15 UTC.

Echo will be on for a trial period of about three weeks. During that time command stations will be watching the power budget and adjusting the UHF transmitter output as needed for management of the battery supply. Initially, the transmitter will be running at about 1 watt but if all goes well it will be slowly increased during the trial period.

Echo's uplink is 145.920 MHz using FM voice with 67 Hz PL tone (CTCSS) required. The downlink is on 435.300 Mhz, also FM voice. And like many terrestrial repeaters the downlink transmitter will only come on when it hears an uplink signal with a 67 Hz PL tone for about 1 second. After the uplink signals drop away the downlink transmitter stays on for 10 seconds. After that, the downlink signal goes away. You might say that the operation is just like a terrestrial FM repeater with a 1 second kerchunk filter and a 10 second hang time. The only difference is that this one is circleing the Earth in space.

Norm. (AMSAT)

**

RESCUE RADIO: UK FIRE EVACUATION BRINGS OUT HAM RADIO

RAYNET, the United Kingdoms version of RACES was recently called out during a very hazardous materials fire. Jeramy Boot, G4NJH, has the details:

--

On Monday the 5th of July at 19.55 BST Lancashire Emergency Planning called-out Rossendale Raynet to attend a Rest Centre in Colne. A fire at a building that contained an acetylene cylinder meant that local residents had to be evacuated.

About 40 people went to the Rest Centre but the majority were able to find accommodation for the night with friends or relatives. Social Services arranged accommodation for the remainder. Rossendale Raynet was stood down at 22.08 when the Rest Centre closed for the night.

Im G4NJH in Nottingham.

--

There were no injuries reported and the ham radio system worked flawlessly. (GB2RS)

**

ENFORCEMENT: FCC INVESTIGATING 1999 EXAM SESSIONS

The FCC has ordered thirty-seven hams to sit for retests. This, as part of an ongoing investigation of ham radio examination sessions held in Yucaipa, California, back in 1999.

The tests under government scrutiny were administered by a W5YI exam team. The exact test dates involved are those held on February 27th, March 27th, April 24th, May 22nd, June 26th, and July 31st of 1999.

This is one of the largest retest orders issued since the all volunteer testing program got underway in the early 1980's. (FCC)

**

ENFORCEMENT: HAM SURRENDERS LICENSE

A now former ham involved in a licensing investigation has turned in his ticket to the FCC. The Agency's Daryl Duckworth, NN0W, explains:

--

Frank C. Richards of Moers, New York, submitted his license KG2IJ for cancellation. In November of 1995 he had requested that the call sign KB4VU be changed to the next availlable and that the address be changed to Plattsburg, New York.

--

The FCC says that the call KB4VU actually belongs to one Frank C. Richards of Ft,. Meyers, Florida. It says that this Richards has never lived in New York and never requested that his callsign or address be changed.

After an investigation that lasted almost five months the New York Richards surrendered his ticket to the FCC on June 23rd. The FCC acknowledged receipt on July 6th noting that the Wireless Telecommunications Bureau has canceled that license and no further enforcement action is contemplated at this time. (FCC, RAIN)

**

ENFORCEMENT: $11,000 FINE AFFIRMED AGAINST CALIFORNIA HAM

The FCC has affirmed an $11,000 fine issued to a California ham. One whom the agency says caused deliberate interference to repeaters and then refused to accept several certified letters from the Commission.

The target of the now affirmed fine is Daniel Granda, KA6VHC, of Whittier California. As previously reported, back on March 31st the District Director of the Commission's Los Angeles Field Office issued a Notice of Apparent Liability for Forfeiture alleging that Granda deliberately interfered with two different repeaters. It said that when FCC notices were sent by Certified Mail, they were returned as unclaimed. But the FCC says that copies sent by regular first-class mail were not returned by the post office.

The fine is $7,000 for the alleged interference and $4,000 for not responding to FCC notices. Granda was given the usual 30 days to pay or to file an appeal. (FCC)

**

HAMVENTION: ARRL NATIONAL AND HAMVENTION COMBINE FOR 2005

Turning to the ham radio social scene, word that the ARRL has accepted an invitation from planners of Hamvention 2005 to bring the society's national convention back to Dayton.

According to General Chairman Gary Des Combes, N8EMO, ARRL Great Lakes Director Jim Weaver, K8JE, called shortly after the recent Board of Director's meeting. Weaver told Des Combes the League had accepted the invitation to hold the next ARRL National Convention at the 2005 Dayton Hamvention.

The combined show will take place next May 20th to the 22nd at its longtime home. That of coarse is the Hara Arena in suburban Dayton. (Hamvention©)

**

CONVENTIONS: K7UGA ON THE AIR FROM ARRL SW DIV CON

And the call sign of the late Barry M. Goldwater will soon be heard again. This, as special events station K7UGA takes to the air from the Southwestern Division Convention in Phoenix, Arizona from August 27th to the 29th.

This will not only be a chance for convention attendees to operate Goldwater's original Collins S-Line equipment but also to take part in an oral history project about Senator Goldwater that will begin recording at the show. Also, Goldwater impersonator Ben Tyler will attend the convention on Saturday afternoon to present his Goldwater "Autobiography".

Again. it all takes place August 27th to the 29th in Phoenix, Arizona. We will see you there. (SW Division Communicator)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

**

ARNEWSLINE™ SUPPORT FUND REPORT WITH N6TCQ

Ladies and gentlemen, once again here is Amateur Radio Newsline's Support Fund Administrator, Andy Jarema, N6TCQ.

--

Continuing with our thank-you for June, we heard from Tim, N9TO and Carol Toman, WD9CNW of Westmont, IL; Ted Tsucalas, W0RMJ of Littleton, CO; Turning to CA, Leo Halog, KR6EG of San Francisco; Doug Cannon of Livermore; Monthly contributor William Walters, WA2IBM, of San Jose; monthly contributor Scott Hensley of the Area Communications Team, also in San Jose; Art Protas, KG6AY of West Covina; John Rice, KE6YFV of San Pedro and the Rio Hondo ARC of Whittier.

Thank you to everyone, and we promise to do our best to continue to earn your care and support.

A reminder that Newsline is a 501(c)(3) and California non-profit corporation. FCC regulations prohibit us from telling you exactly how to support us, but that information is on our website at www.arnewsline.org. That address will be repeated at the end of the newscast.

I'm Andy Jarema, N6TCQ.

--

Thank you Andy. (ARNewsline™ Support Fund)

**

CHANGING OF THE GUARD: JOHN KRAUS, W8JK - SK

Some sad news to report. Word that noted astronomer and antenna designer John Kraus, W8JK, has become a Silent Key. According to reports from the ARRL and CQ Magazine, Kraus died on July 18 at age 94.

John Krasus was a member of the inaugural "class" of the CQ Amateur Radio Hall of Fame, a world-renowned radio astronomer and the father of the "Big Ear" radio telescope at Ohio State University. In the world of Amateur Radio he was perhaps best known as an antenna designer. His designs include the famous W8JK bi-directional wire beam as well as the helix and corner reflector antennas often used at UHF frequencies. (ARRL, CQ)

**

KAHN STILL TRYING TO TEST CAM-D

Broadcast entrepreneur Leonard Kahn opposes the AM HD Radio IBOC system and has long promoted his Cam-D system as an alternative. In his latest filing with the FCC for the IBOC proceeding, Kahn reveals he tested his Cam-D system on Nebraska's 50 kilowatt KRVN at 880 kHz. However, he told Radio World Online that, some employees found the sound unacceptable and the tests were discontinued. For more on this story, see http://www.rwonline.com/dailynews/one.php?id=5511 (CGC)

**

HAM RADIO IN SPACE: NEW KENWOOD ISS RADIO PROVES OUT FINE

The Amateur Radio on the International Space Station USA team has successfully completed a comprehensive checkout pass of the new Kenwood D700 radio system with Astronaut Mike Finke, KE5AIT. Utilizing ground stations in Greenbelt, Maryland, Orlando, Florida and Houston, Texas and linking team members in Kansas, Colorado, Maryland, Florida and Texas, the ARISS USA team performed voice and packet radio uplink tests to fully validate the Kenwood D700 system for future school group operations.

During the East Coast pass, the ARISS team were able to perform signal strength measurements and voice quality checks on 2 meters and 70 centimeters using the Kenwood D700 radio and the ARISS-built W A One antenna system. Mike Finke provided the on-board feedback to the team to help them understand how the
radio sounds on-orbit. Finke said that the signals from the 70 centimeter uplink signals were especially loud. (ARISS)

**

WORLDBEAT - CANADA: RESTRUCTURING ON ITS WAY

Back on Earth, Canada appears ready to restructure its Amateur Radio service and work is well underway.

Following extensive discussions with Industry Canada, on July 23rd, Radio Amateurs of Canada formally submitted its Proposal on Morse Code and Related Matters to that regulatory agency. According to an Radio Amateurs of Canada press release, little changed from the draft proposal that was posted on the society's web site back in 2003.

Radio Amateurs of Canada says that it is now up to Industry Canada to respond to the proposal. The current version is on line in both English and French at www.rac.ca (RAC)

**

WORLDBEAT - MEXICO: ALL N.A. ADOPTS U.S. HDTV STANDARD

Mexico has formally adopted the U.S. ATSC Digital Television Standard based on 8 VSB technology. This, for terrestrial broadcasting in that nation.

Canada adopted the same standard in 1997. The decision by Mexico to go along with the U-S and Canada means that ATSC is now the North American Digital Television standard. ATSC was also adopted by South Korea in November of 1997 and Argentina in October of 1998. More is on the web at http://www.atsc.org/news_information/press/2004/PR_Mexico_7-7-4.pdf (CGC)

**

DX

In D-X, word that husband and wife team EA3BT and EA3WL will be active from the Gambia through the 4th of August. They plan to operate as C56BT and C56WL on 40 to 6 meters SSB. QSL as directed on the air.

And Steve Burrows, M5BXB, will be on from the Czech republic as OK8XB until the 6th of August. The OK8 prefix is quite rare, and Steve will be attempting to make at least 1,000 QSOs on the HF, 6 meters and on 2 meter's from a portable location on Lysa Hora. Thats site is 1,324 metres above sea level in grid square JN99FN.

**

THAT FINAL ITEM: THE PHYSICS OF M&M'S

And finally this week the story of how a researcher with a sweet tooth has changed science. Amateur Radio Newsline Henry Feinberg, K2SSQ, has the rest of the story:

--

Princeton physicist Paul Chaikin's passion for M&M candies was so well known that his students played a sweet practical joke on him. The left a 55 gallon drum of the candies in his office. Little did they know that their prank would lead to a physics breakthrough.

The journal Science says that the barrel full of the oblate little candies made Chaikin think about how well they packed in. A series of studies have shown they pack more tightly than perfect spheres. This is something that surprises many physicists and Chaikin himself. So Chaikin and his colleague, chemist Salvatore Torquato, used the candies to investigate the physical and mathematical principles involved when particles are poured randomly into a vessel.

The report in Science says they found that oblate spheroids like plain M&Ms pack surprisingly more densely than regular spheres when poured randomly and shaken. That spheres occupy about 64 percent of the space in a container. M&Ms manage to pack in at a density of about 68 percent.

But one of the researchers had a more philosophical view of the experiment. Salvatore Torquato said that to him it is remarkable that you an take this simple system with common candies and probe one of the deepest problems in condensed matter physics.

For the Amateur Radio Newsline, I'm Henry Feinberg, K2SSQ, not to far from Princeton, New Jersey.

--

According to news reports, Mars Inc., which makes M&Ms, did not help sponsor the research although it donated 125 pounds of M&Ms to the two scientists. (Journal of Science, Science Online)

Usually when I see someone bitching about Radio Shack it's from one of
the small brained no-lifers who get their kicks from going to Radio Shack
and trying to show off how much more technically intelligent they are than
the clerks behind the counter.

Unfortunately, I can't make an assessment of your web site to see if it's
of the same ilk, because it appears to be shut down.

Awww.....

Let's all say 'Too F...in Bad" in unison. Doesn't seem like you're getting
the
internet support you wanted!

If you don't like Radio Shack, why do you go there? Unless, of course,
you like the abuse you think you get, and go just to get more ammo!

Wait, I didn't come here for abuse, I came for an argument! Arguments
are two doors down on the right.

Well, I find it hard to believe that, in a weak moment, I visited the site mentioned below. It is obvious that a great deal of time and effort has gone into this thing, and to what cause? To save our rights? Me thinks not. What rights are we having trampled? You're right to slander RadioShack? That right is only in your mind. You are most likely a relatively well educated individual with many personal conflicts in his life and I feel deeply for you, but mostly your parents and family members. They most likely put up with your drivvel year after year and detest the site of you.

Why don't we just cut to the chase, and you explain, in a very short sentence or a very, very short paragraph what caused you to create this Radio Shack site that you claim sucks so bad that it has obviously destroyed your life and those of your loved ones? When They haven't harmed you. You are harming them by saying to the world that they suck.

I have enjoyed Radio Shack for many years. I was there when they became RadioShack, and I became a valued customer (I believe that because I still get free catalogs in the mail, not many do anymore 'ya know) to them and grew through the whole gammit of stuff they have added over the years and I must say that when I had a problem with a product, and that was extremely rare, they took care of it. In one case the manager returned my money because it was a last item and he couldn't replace it. A few years later when computers came along if this had happened, they could check all the stores in their system to see who still had it on the shelf and that store would mail it to me at my home. Is that cool? I say "Yea Verily".

I love Radio Shack. This little reply is probably enough to get you to open up KF5DEsucks.com I won't sue you unless you get nasty. All my friends will check in and post there I'm sure they will have comments to make there, they have a lot of freee speech to use 'ya know. I have a friend that can enlist, in moments hundreds of hackers that believe in not only free speech but free hacking tooo!! Free viruses', free wurmzs, 'n free other stuff too.

After that you can open up another site, KF5DEreallysucks.com

Or, you can channel your efforts into something productive and usefull and possibbly profitable for yourself and your suffering family which will no doubt heal many open wounds.

> 9V1GO G4VGO EI7IU

You're doing all you can. Some people don't figure out the meaning of
life, ever. After waiting a while for the card they will complain
about sending money and never getting a qsl. The ones who eventually turn
into dx'ers will learn to check the manager lists.

When I started in this game, the only way to find managers was to
subscribe to the newletters. I'd dig through the fine print every week,
comparing the list with my log.

It's so easy now, it amazes me anybody witha technical hobby can miss
this stuff. But they do.

enjoy.

Source record: 7049

Anyone have any info on YV0D? I caught the tail end of it yesterday after work, while trying to find them on 30m. I saw a couple of posts on the cluster mentioning that they were QRT early for some reason. Someone posted a website to visit for info, www.ce1rkv.tk/ , but I can't get it to work, either.

Thanks in advance,

Dave

They're QRT. I heard them Tues - they were saying a big storm was moving
in and the Venezuelan Navy would take them off the island Wed. According
to ARRL web site, they shut down 1045 UTC on Wed.

Amateur Radio Newsline™ Report 1408 August 6, 2004

**

A WORD FROM THE ARNEWSLINE (tm) SUPPORT FUND

The following is not necessarilly for retransmission. I guess you already know that if you are hearing my voice on a closed-circuit advisory it means that Newsline is again facing a financial crisis. Well, you're right.

The solution to the problem really lies with you. Our world-wide all volunteer staff produces these newscasts for you. The all volunteer Young Ham of the Year Committee labors tirelessly each year to select a youngster to receive the Award. Joe Eisenberg, K0NEB, oversees the Newsline sponsored Roy Neal, K6DUE, Amateur Radio Mentoring Project database, doing so at no cost. The list goes on and on.

I too am a volunteer, but I have to be the realist. I'm the accountant who has to look at the bottom line and when it turns red, I have to say -- hold on -- there is no more money to continue. And that's about where we are right now.

So, here's the bottom line. If you want the newscasts to continue. If you want the mentoring program to continue and the Young Ham of the Year Award to continue, we need you to show it now -- right now -- through your financial support of Amateur Radio Newsline.

Remember that Amateur Radio Newsline is a federally chartered 501(C)(3) and California state not-for-profit corporation. This makes your donations tax deductible, whether you're an individual or a club. The address to send them to is the Amateur Radio Newsline Support Fund, Post Office Box 660937, Arcadia California 91066. If you missed the address don't worry. It will be repeated at the end of this week's report.

For now I thank you for listening, for responding and offer you this weeks newscast which follows immediately. (ARNewsline Support Fund)

**

Amateur Radio Newsline report number 1408 with a release date of Friday, August 6th, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. The B-P-L battelground expands in California and Texas while a U-K repeater is ordered off the air. Find out the details on Amateur Radio Newsline report number 1408 coming your way right now.

(Billboard Cart Here)

**

THE BPL FIGHT: SAN DIEGO CA. UTILITY REPORTEDLY CONSIDERING BPL

San Diego California could be the next B-P-L battleground. This, as an informed source tells the CGC Communicator broadcast industry newsletter that San Diego Gas & Electric is considering the deployment of Broadband over Power Lines in its service area. Bill Pasternak, WA6ITF, is here with the specifics:

--

According to Gonsett's CGC newsletter, an informed source has told him that San Diego Gas & Electric's communication systems planners met recently and are seriously considering endorsing and sponsoring B-P-L on the unility's power distribution system. The newsletter also says that San Diego Gas & Electric is considering entertaining proposals to partner with vendors for one or more field demonstrations of B-P-L technology.

CGC says that these plans should be of concern to all users of the High Frequeny and low band VHF spectrum. This includes TV Channels 2 through 5 and possibly even Channel 6. The latter because spurious and harmonic energy could reach these higher frequencies.

According to CGC and its unnamed source, San Diego Gas & Electric is aware that deployment of B-P-L in its service arera could cause considerable radio frequency interference. Even so, planners at the utility still appear ready to proceed.

More on this as it develops. I'm Bill Pasternak, WA6ITF, in Los Angeles.

--

Bob Gonsett is known on the ham bands as W6VR. He says that he has a call pending with San Diego Gas & Electric corporate communications department to determine the company's official position on BPL. Bob also says to stay tuned for updates. (CGC)

**

THE BPL FIGHT: A TEXAS TRYOUT

Meantime, Larry Pollack, of the W5YI VEC reports that Central Texas-based Broadband Horizons has launched B-P-L operations in three Texas communities. The pilot projects were launched in mid-June in the towns of Blanco, Burnet and Weimar. According to Mike Steele, Burnet's City Manager, the community has had great success with the initial start-up. He says the city plans to expand B-P-L service it to additional parts of the municipality. (W5YI VEC)

**

THE BPL FIGHT: A BIG WIN IN PEN YAN NY

Meantime the B-P-L test is over in Pen Yan, New York and it appears as if ham radfio has won this round. This,, with word that the broadband provider that's been testing B-P-L in Penn Yan reportedly plans to "move away" from that technology.

According to the ARRL Letter, the Western New York community of some 5000 residents has been considering various proposals with Data Ventures to offer broadband service. A B-PL trial had been underway in Penn Yan for several months.

The village reportedly would get 10 percent of the generated revenue. Now, according to an article in the July 28th edition of the Finger Lakes Times Online, the provider is now proposing to employ wireless mesh "WiFi" technology instead of BPL and ARRL C-E-O Dave Sumner, K1ZZ, has already congratulated Penn Yan Mayor Douglas Marchionda Jr and DVI for going with wireless broadband instead of B-P-L. (ARRL)

**

THE BPL FIGHT: SPOKANE GOES WIDE AREA WI-FI

Spokane, Washington has also opted for Wi-Fi over B-P-L. This as that city inaugurates a wireless Internet access system covering 100 blocks of downtown Spokane.

The wireless zone uses new technology that allows Internet signals to be transmitted more than a mile. This is far beyond the traditional 200- to 300-foot range of previous Wi-Fi systems.

The Wi-Fi area is divided into a private network for use by the city and an open network for the public. Public users can connect for two hours a day at no charge, and subscription plans are in the works for extended use. One Eighty Networks provided the networking for the project. (Published reports)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world WR6ABD repeater serving Aptos California.

(5 sec pause here)

**
RADIO RULES: NO MORE "GROUP X" CALLSIGNS

The ARRL reports that the FCC is no longer issue 2 by 3 format vanity call signs that begin with the prefixes WC, WR, WK and WT. The Commission has acknowledged that it erroneously granted more than 150 WR and WC prefix 2 by 3 vanity call signs from 1997 through September 2003, when it began rejecting such call sign requests.

In the late 1970s, the FCC announced a new Amateur Service call sign assignment system. It provided four standard call sign groups, designated Group A, B, C and D, delineated by license class and issued sequentially with no backfilling. The FCC's Bill Cross, W3TN, recently told the nation's volunteer examiner coordinators that the FCC also had a "Group X." These included WC or RACES, WR repeater, WK and WT-prefix 2 by 3 format call signs reportedly reserved for special-use licenses.

The FCC stopped issuing repeater call signs in 1983 and ceased renewing RACES licenses in 2000. After the current vanity program began in 1996, several ham clubs sought new and formerly held repeater and RACES-type call signs. When the Universal Licensing System came along in August 1999, however, the FCC encountered some licensing system programming shortcomings, including the anomalous assignments of WC and WR prefix 2 by 3 call signs as acceptable formats.

When the FCC implemented programming corrections that halted the issuance of Group X call signs in September 2003, it did not advise the amateur community. As a result, several amateurs who filed for 2 by 3 WC or WR prefix call signs had their applications dismissed without any explanation beyond saying that the applicant's call sign choice was unavailable. That remains the case. The FCC has not indicated whether it plans to address the WC and WR prefix 2 by 3 call signs it's already issued.

In a related matter, the FCC's new Amateur Radio vanity call sign regulatory fee of $20.80 for the 10-year license term goes into effect Friday, August 6. All applications received at the FCC on or after that date must be accompanied by the new, higher fee. (ARRL)

**

ENFORCEMENT: RIS ORDERS REPEATER OFF THE AIR

A 2 meter repeater in the United Kingdom has been ordered off the air after it was involved in an interference issue. The Leicestershire GB3CF system which operates on 145.600 MHz, was closed down on Sunday the 25th of July following a request by the Radio Investigation Service due to an alleged incident of interference.

Service will be resumed as soon as investigations have been completed. The report did not say if the repeater was causing interference to other operations or if it was being interfered with. (GB2RS)

**

RADIO LAW: FEDERAL COURT RULES AGAINST CALIFORNIA CITY

Meantime, on this side of the Astlantic a big win for radio operations but another major loss for a city in its fight to restrict towers and antennas. Bruce Tennant, K6PZW, reports:

--

The attorney for a Rancho Palos Verdes California antenna owner says that his client won a clear victory against the city. This, following a recent federal district court decision requiring Rancho Palos Verdes to allow him to operate a broadcasting business from his unoccupied home. The judge also ruled that the plaintiff, James A Kay. Jr., may seek damages and legal costs.

And this is not the first major loss for the city. Earlier this year, the U.S. 9th Circuit Court of Appeals ruled that another Rancho Palos Verdes antenna owner could seek compensatory damages against the city. As previously reported, Mark Abrams, WA6DPB, said he will file a claim for damage to his two way radio business while he and the city fought numerous court battles over the right to regulate commercial radio frequencies.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

Abrams has a 52 foot tall antenna tower in his backyard. The city has appealed the case to the U.S. Supreme Court. The full story is on-line at
http://pvnews.nminews.com/articles/2004/07/26/local_news/news1.txt

**

RADIO LAW: AN ANTENNA FREE ZONE

A real estate developer in Australia has come up with some of the toughest property use restrictions ever dreamed of. W-I-A Newscaster Graham Kemp, VK4BB, joins us with the details:

--

VK2WI have reported on a story that the Albury-Wodonga Development Corporation has set some restrictions on its new 40 block Thurgoona subdivision, near Albury.

Listeners to this WIA National News service through the 146.75 repeater can shed any thoughts of establishing a shack in the backyard, as the corporation has banned the erection of free - standing garages or sheds. One may also forget about erecting any antenna arrays as the corporation has also banned external TV antennas, any TV antennas should be placed under the roof or be internal.

Satellite dishes are also under scrutiny; you can have one, as long as no one can see it!

For the Am ateur Radio Newsline, Im Graham Kemp, VK4BB.

--

With these restrictions in place the potential amateur radio activity, using external antennas, is virtually impossible. (VK2GJH via WIA News)

**

RESCUE RADIO: WX4NHC ACTIVATED FOR HURRICANE ALEX

WX4NHC, the Amateur Radio Station at the National Hurricane Center in Miami was activated on August 3rd. This, in anticipation of the arrival of the first major tropiocal storm of the 2004 hurricane season.

Named Alex, the storm was a catigory one hurricane when the WX4NHC came to life at about 10 a-m Eastern on Tuesday morning. Catigory one means the storm had sustained winds of 75 MPH. It was forecast to strengthen before tracking just off the coast of North Carolina on Tuesday afternoon.

The WX4NHC Group monitored the Hurricane Watch Net on 14.325 Mhz. It also took part in EchoLink and I-R-L-P Skywarn Nets that were operational during the approach and departure of the storm.

WX4NHC has maintained an active Amateur Radio Station at the National Hurricane Center for the past 24 years. Please visit www.wx4nhc.org/WX-form1.html www.voipwx.net for details. (CQ)

**

RADIO LAW: IMPROVING AIRSPACE SAFETY

Garmin, Inc. has been conditionally granted its request to use 978 MHz as an aircraft radio datalink frequency. The idea is to enhance flight safety by enabling aircraft in the same airspace to precisely track each other's movement, reducing the risk of mid-air collisions. Datastreams containing location, velocity, altitude and heading are valuable commodities in the arena of air safety. More is o-line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-1871A1.doc (CCG)

**

ON THE NET: TEENS SET WIFI RECORD

A group of teenage hamss from the Cincinnati area got an ovation at the recent Las Vegas DefCon hacker conference. This, after organizers announced that the winners of this year's Wi-Fi shootout might have broken a world D-X record for ground distance in establishing a 55.1-mile Wi-Fi connection.

Ben Corrado KC8RKO, Andy Meng N8MX, Justin Rigling KC8OIO and Brandon Schamer KG4NVK won the prize for greatest distance achieved for an 802.11b network.

The teens, all 18 and 19 years old achieved the record using an amplifier and homebrewed antennas on both ends. This exceeded last

year's distance winner by 20 miles. Then, when they established that record, they turned off their amplifiers and broke the record for an unamplified connection at the same distance.

DefCon, in its 12th year is a gathering of hackers, security professionals and intelligence agents from around the world. The Wi-Fi shootout, held for the second time, is among the most popular contests. Six teams participated but it was ham radio know-how that came in number one. (N0AX)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

NAMES IN THE NEWS: GEORGE DILLON NAMED ASSISTANT CHIEF OF THE FCC ENFORCEMENT BUREAU

Some names in the news. Word that George R. Dillon has been named Assistant Bureau Chief of the Enforcement Bureau. Dillon most recently served as the Bureau's Engineering Advisor, assisting the Bureau Chief on a wide range of public safety, technical and management projects. He also represents the Bureau on the Commission's "Engineering-in-Training" Board, for which he received the Chairman's Special Achievement Award, and was the principal leader of the Knowledge Sharing Program, which permits field engineers and headquarters engineers to exchange information and expertise. He is also a member of the Spectrum Policy Task Force. FCC)

**

NAMES IN THE NEWS: G4IDE NAMED WINNER OF TAPR LIFETIME AWARD

And Tuscon Amateur Packet Radio has presented its Lifetime Achievement Award to Roger Barker G4IDE, of Lincolnshire, in the U-K. Barker was honored for his work over the years in providing quality software for Amateur Radio operators that allows them to operate advanced digital modes without the difficulties once associated with these operations. T-A-P-R says that Baker's UI-View program is the benchmark by which all other A-P-R-S mapping software is compared to. (VK2TDS)

**

HAM RADIO IN SPACE: NEW U-K HAM TRANSPONDER IN SPACE ANNOUNCED

AMSAT-UK has announced a new amateur band transponder project. One to be launched as part of the European Space Agency's S SETI Express satellite.

The project was announced at the opening of the 2004 AMSAT-UK Colloquium by Dr. Martin Sweeting, G3YJO. Sweeting expressed his delight that AMSAT-UK has been able to work with the European Space Agency to provide, at very short notice, an S band 2.4ghz transmitter.

The SSETI Express project is believed to be the first ever pan-European student satellite with over 100 students from more than nine different countries working on it. The project is being coordinated and managed buy the Education Office of the European Space Agency. (AMSAT-UK, GB2RS)

**

SPACE SCIENCE: SMALLER ISS PRESENCE ANNOUNCED

NASA and its space partners have approved a scaled-down International Space Station with fewer astronauts and less science. This, so the United States can meet a 2010 deadline for ending shuttle flights.

According to news reports, the space agencies of Russia, Europe, Canada and Japan gave unanimous approval to a NASA plan that means the orbiting platform, now about half completed, will never become the beehive of scientific and commercial research once envisaged. In exchange, NASA will continue with plans to launch research modules owned by its partners, some of them already built.

The agreement means the station will never support long duration crews of seven astronauts, as originally planned. It will however be able to house at least four astronauts starting in 2009.

Phase one of the space-station was put into orbit in 1998. The first astronauts took up residence in 2000. (Published reports)

**

ON THE AIR: OH2B BEACON IS BACK ON THE AIR

Finland's OH2B beacon is back on the air after an absense of two years. OH2B is one of the eighteen stations in the world-wide five-band International Beacon Project network. It has already been heard in the UK on 14.100, 18.110, 21.150, 24.930 and 28. 200 Mhz. (GB2RS)

**

DX

In D-X, word that K4ZLE is returning to Uganda. He plans to operate as 5X2A through the 21st of August. Some effort will be made to operate on the lower H-F bands this year, mostly on CW. Activity is

also planned for PSK31. (GB2RS)

And F6EAY is in Kabul, Afghanistan and has been issued the callsign T6RF. At present he is active only on PSK31. QSL as directed on the air. (GB2RS)

Closer to home K-7-B-V reports that he will operate portable VP5 from the Turks and Caicos Islands from August 9th to the 16th. The trip will have focus on 6 and 2 meter WSJT work during the Perseid Meteor shower that peaks around August 12. H-F will, of course, get plenty of attention as well. QSL direct to K7BV. (VHF Reflector)

**

THAT FINAL ITEM: THE BIRDS ARE BACK

And finally this week, have you ever tuned in an owl? Yes, we said an owl. You know, tne find that go hoot in the night. Newsline's Joe Moell K0OV will tell you how.

--

It's been several months since I've advised you of opportunities for hams and scanner fans to help wildlife researchers tracking radio-tagged creatures. You can monitor these signals from your home or car. If you have direction finding gear, you might make a positive sighting. Right now, there's a need for ham help in the Denton and Collin County areas of Texas, where researcher Jennifer Johnston is releasing rehabilitated orphan Great Horned Owls into the wild. Six birds are on the air near 150 MHz as I speak, and more are expected to follow. We're also standing by for the departure of some young Burrowing Owls from their nesting places in Florida. A biologist from the University of South Florida wants know where they will end up. Nobody knows, but maybe you can help find out.

For all the details, including frequencies and ideas for equipping yourself for this project, go to www.homingin.com. That's HomingIn, as one word, homingin.com.

Thanks for your help. From southern California, where Burrowing Owls are raising their young in our own Imperial Valley, this is Joe Moell, K-zero-oscar-victor, for Amateur Radio Newsline.

--

Again that website is www.homingin.com (K0OV, ARNewsline(tm)

Ohio/Penn DX Bulletin No. 671

The Ohio/Penn DX PacketCluster
DX Bulletin No. 671
BID: $OPDX.671
August 9, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Letter, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N4XP, W4WX, K5KV, KG6AR, K7BV, K8YSE, KB8UYZ, KC8FS, N0VD, CT1EEB, DJ5JH, DL1EK & The DX News Letter, DL6UAA, DL7JAN, DS4DLK, EA5RM, F5CWU & La Gazette du DX, F5NQL & UFT, GM4SUC, HB9AFI, I1JQJ/IK1ADH & 425 DX News, IZ0FKE, JI6KVR & JA-IOTA Islands News, LA6LHA, LU5WW, LU8XW, M3ZYZ, MM0DGR, PA7FM, SP2BIK, SP2OVN, UA6MF, UA0FZ, UT3UZ, VA3RJ & ICPO, YT6A and ZL1CT for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 1st/August, through Sunday, 8th/August there were 212 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5R, 5V, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9N, 9V, 9Y, A4, A6, A7, A9, AP, BV, BY, C3, C5, CE, CE0A, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HC, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, J8, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S0, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VP5, VP6, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, YV0, Z2, Z3, ZA, ZB, ZC4, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS (Also Possibly 3B9). Mart, DL6UAA (aka 3B8MM and 3B9MM), will once again head here for several weeks to be active as 3B8MM. He is calling it his 10 YEARS in "Paradise on Air Mission" (1994-2004). His activity will take place between October and November. An operation from Rodrigues Island (3B9MM) is possible, but it depends on the demand of

the HAM community. If you need 3B9, please cast your vote at the following Web link at: http://www.dl6uaa.com

3D2, FIJI. Operators K2KW, N6BT, KE7X and possibly others will be active from Taveuni during the CQ WW DX CW Contest (November 27-28th) as a Multi-Multi (Lite) entry. QSL via WA4WTG. Activity outside of the contest will be on 160-10 meters, mainly CW.

6O0, SOMALIA (Good News/Bad News). Good News First! Sam, VK2BVS, is currently active as 6O0A from Galkayo, Central Somalia, until September 30th. Reports indicate that he has established two club stations (the first at the Radio Galkayo ARC and the second at the Radio Daljir ARC) which are being used for amateur radio training courses. The "425 DX News" states, "Those stations are also available for the use of foreigners". Details on getting the Somalia Visitors ham radio license can be found at: http://www.radiogalkayo.com/banner/radio_school3.php
It seems 6O0A likes working 15/17 meters SSB. Look for him on/or around 18155 and 21295 kHz between 0500-0600, 1100-1400 and 1800-1900z. Now for the "BAD News"! Sam will not send out 6O0A QSLs. Sam is not interested in QSLing and states, "I am leaving the QSLing for the hams who may mount future DXpeditions or when the locals can do it."

8Q, MALDIVES. Jan/DL7JAN and Andreas/DL3GA will be active from August 26th to September 7th from Kandooma Island (South Male Atoll - IOTA AS013) as 8Q7JF (DL7JAN) and 8Q7GA (DL3GA). They will be active on 80-10 meters on CW/SSB and RTTY! There may be some PSK31. QSL via their home callsign, either direct or through the bureau is OK.

BALTIC TOUR 2004. By the time you read this Vincenzo, IZ0FKE, will be starting his "IOTA Microlite Baltic Tour" and will be active from Bjorkoby Island (EU-101 - Vaasa Group, Finland) until August 10th. He will then move to Parainen-Pargas Island (EU-096 - Turku Group, Finland) and be active from August 11-13th. After EU-096, he will then activate Finstrom Aland Main Island (EU-002) from August 14-18th. Vincenzo states, "All the places are located very close to sea, I rented cottages in special locations trying to install some vertical antenna very close to salt water. As usual I receive a massive support from the Alandia Contest Team OH0AZ (Mr.Peter OH0JFB). The microlite setup is based on Yaesu FT-857. Meanwhile the antennas are Atas100 plus homemade verticals and multiband sloper solutions." For live pictures and updates from the DXpedition, visit the Web page at: http://www.iz0fke.com
QSL to IZ0FMA, Alberto (Roma DX Dream Team), direct or via the bureau. Vincenzo states, "I will test some digital stuff during the tour, a PDA Pocket PC equipped with Wifi and GPS....." Anyone that wants a sked for some new ones from the Baltic Sea, you can write him for more details at: iz0fke@arrl.net

EA8, CANARY ISLANDS. Hans, ON6ZK, will be active from Gran Canaria as EA8/ON6ZK, August 11-19th. His activity will only be on 17 meters. Watch 18155 kHz for SSB and 18080 kHz for CW (+/- depending on QRM). He will use a TS-50 with 50 watts and an inverted dipole. Look for him mainly during his evening hours. QSL is OK via the bureau or direct.

EI, IRELAND (Also IOTA/Lighthouse Activity). Hal Turley, KC8FS, West Virginia ARRL Section Manager, will be traveling to Ireland and will operate August 13-23rd as EI/KC8FS/p from the western and southwestern coast of the Emerald Isle. He will operate both SSB and CW with 100 watts and "modest" wire and vertical antennas. Hal plans to operate from Clifden, the site of Marconi's phenomenal wireless station used during the early 20th century and the Aran Islands (EU-006). Hal has also received permission to operate from the Mizen Head Signal Station (IRE 053) during the International Lighthouse/Lightship Weekend and will be active during this event on Saturday, August 21st, from the country's most southwesternly point. QSL via his home callsign or via the bureau.

ES, ESTONIA (Special Callsign). Oleg, ES1RA, from Tallinn, will use the special callsign ES1924J now through September 4th. Activity is valid for the "Estonia Award" (2 points) and the "DIG Award" (DIG 2512). QSL via ES1RA: Oleg Mir, Box 806, 11702 - Tallinn, Estonia. Activity is to celebrate 80 years of ham radio in Estonia. Also, heard is ES1924L. QSL via ES6PZ.

FRENCH DX MEETING (Special Event Station). The annual meeting of the French DX Club, "The Clipperton DX Club " (CDXC), will be held in Malataverne, (South of Lyon, SE of France), the 18th of September. The morning meeting will continue into the afternoon with numerous DXpedition programs (scheduled presentations are: T33C Banaba, TO4E/TO4WW Europa 2003, 5V7C Togo, Mexican Islands and IOTA). This will be followed by the usual "Doctorate of DX" examination and the Pile up CW and SSB Contest. Awards, Diplomas and other certificates will be given at the end of the meeting. The special callsign TM8CDX will be aired for that event from September 4-18th. QSL via Rafiq, F5CQ. For more information, please visit the following Web page at: http://www.cdxc/

GB8, SCOTLAND (Special Event). Members of the West of Scotland ARS [GM4AGG] and Scottish-Russian ARS [MM0DGR] will be active as GB8RU before and during the Scottish-Russian Marathon 2004 (See SRM 2004 below). The station's QTH is: Hardgate, Clydebank, West Dunbartonshire. QRA Locator IO75TW, WAB: NS47. Dates of activity: August 7-15th. Pertinent equipment available to their station is: Transceiver Kenwood TS-940S, Amplifier SB-220. Antennas are: Cushcraft X7, Delta Loop 80 m, Delta Loop 40 m, and a number of portable antennas. Contacts will be carried out on all HF bands, CW, SSB and Digital Modes. Special QSL cards will be issued. Any operator is welcome to the club shack to operate as GB8RU, just let them know via "feedback" connection. Further information will be presented on the Scottish HAM Portal. QSL cards for contacts with GB8RU should be sent via RSGB QSL Bureau or direct to P.O. Box 7469, Glasgow, G42 0YD, Scotland.

HH, HAITI. Jan, K4QD, a member of the Florida DXpedition Group, will be active as HH4/K4QD from August 16-27th. Jan is traveling to the Northwest Haiti Christian Mission where he will operate as time permits. He will be active on most bands on SSB and CW. QSL to K4QD via his new CBA (January 2004) or via the bureau. UPDATE: Jan announced that he will be taking a 6 meter station and antenna with him. He will leave the station monitoring 50.125 MHz for openings and activity while working on other projects.

The NW Haiti Christian Mission is Grid Square FK39.

IOTA NEWS.....
AS-NEW. Arasu, VU2UR, reports that Raman, VU3DJQ, from New Delhi, has received permission for an operation at Rameswaram with the callsign AT0RI. Activity will be between August 23-31st, from Rameswaram, Pamban Island, Tamil Nadu State. There will be 13 permitted operators working from there for demonstrations and also DXing. They hope to have a 3 element beam and will use several wire antennas.

EU-025. Albert, IT9MRM, will be active as IT9MRM/p from Isola delle Palme (I.I.A. SR-010, M.I.A. MI-266), August 18-20th. Activity will be on 40/20/15/10 meters SSB between 0600-2200z daily. For more information, visit Albert's Web page at: http://www.mondoradiomania.tk

EU-064. Jerome, F5ASD, is now active as F5ASD/p from Noirmoutiers Island (DIFM AT-020) until August 15th. Activity will be on 80-10 meters, using a Yaesu FT-100 and 100 watts. QSL via his home callsign, direct or by the bureau.

EU-064. Franck, F4AJQ, will be active as F4AJQ/p from Noirmoutier Island, August 14-28th. Activity will be on HF and VHF. QSL either direct or via the French REF bureau.

EU-067. Mike, G8VHB, a member of the "International Short Wave League" (ISWL: G-14020), will be active as SV8/G8VHB from the Cyclades from September 14-30th. He states, "It would be nice to work a few more ISWL members from another location." Mike will be active on 40 and 20 meters using 100w on SSB and using vertical antennas from the the Island of Thira (Santorini). He might also be able to make some short 1 day excursions by ferry to activate some of other nearby islands, depending on band conditions.

EU-123. Look for Gigi, IK2UVR, to do a one operation from Great Cumbrae on August 9th. QSL via the Bureau or direct (QRZ.com).

NA-112. Look for Steve, W3HF, to be active as W3HF/4 from Bogue Banks Island (USI NC-010S, Grid Loc. FM14, Carteret County), North Carolina, from August 9-15th. Operations will be QRP on 40-15 meters. Equipment will be a vertical and a Yaesu FT-817. Primary mode will be PSK, with some SSB possible. This operation qualifies for the APE (August PSK Expedition) endorsement from the PODXS 070 Club: http://www.podxs.com/html/070_club.html
There is also a possibility of 6m (PSK and/or SSB) operation, from either Steve or his ten-year-old son Matthew (KB3JJV). QSL via his home callsign, direct or by the bureau, or via W3HF/4 on e-QSL.

J43 & SV0, GREECE. Wolff, DJ5JH, informs OPDX that he will be active as J43J in both WAEDC in August/September from the Peloponnese peninsula in Greece. QSL go via the bureau to his home callsign DJ5JH. QSOs count 10 points between May and September 2004 for the current "Olympia Award" by the RAAG. Outside the contests, look for him to use his new Greek callsign SV0XAO (this counts only 5 points).

J7, DOMINICA. Five members of the Florida DXPedition Group, Bill/W4WX (J75WX), Clarence/W9AAZ (J79AA), Larry/W1LR (J79LR), Cory/N1WON (J79CM*) and Vance/N5VL (J79VL*) will be on Dominica October 26th-November 2nd (* callsigns requested). They will operate from the Picard Beach Resort Cottages using only vertical antennas. Look for them during the CQWW DX SSB Contest as J75J. They will be on all bands and modes prior to and after the contest. QSL J75J via their manager KR4DA and all others via their home callsigns.

JW, SVALBARD. Harald/LA6LHA and Roger/LA4GHA are doing a mini DXpedition to Svalbard JW. They will operate from August 13-15th. Their callsigns will be JW6LHA (Harald) and JW4GHA (Roger). Activity will be on HF and 6 meters. QSL via bureau or direct to their home callsign as per the callbook address.

KEWEENAW PENINSULA ON THE AIR! Matt/KB8KNM and Dan/KB8UYZ will activate the rare Grid EN67, from Michigan's Keweenaw Peninsula, September 5th. And for the county hunters, that's Keweenaw County. Listen for K8C on 80-2 meters SSB. Dan informs OPDX that this is just a one day operation. He states, "It's about an 8 hour drive from our QTH, and the spot we have chosen is about another 1 hour out in the woods (taking Jeeps to get back in there). We'll be operating from a cliff overlooking Lake Superior. Nice spot. This will be our first trip to EN67, and if all goes well, we do plan additional (operations), longer ones in the future. QSL direct via Dan, KB8UYZ. All QSLs will be answered. A S.A.S.E. is appreciated, but not required.

KG4, GUANTANAMO BAY. Bill/W4WX (KG4DX), a member of the Florida DXPedition Group, will be at Guantanamo Bay, Cuba, August 10-14th. Bill will operate from the GTMO club station. Look for him on SSB, RTTY, and PSK-31 on most bands. QSL with SASE via his home callsign.

KH7K, KURE ATOLL. The Pacific DX Group is planning a DXpedition to Kure Atoll starting in mid-October for a 10 to 11 day operation. The team leaders are Kimo/KH7U and Patrick/NH6UY. They will be joined by an experienced international team of operators. The team consisting of about 15 operators will be active on 160-6 meters on SSB, CW, RTTY and with some PSK31. Operators mentioned so far are: KH7U, NH6UY, N4XP, WB4JTT, KO4RR, AA7A, N6MZ, DJ9ZB, I8NHJ, AH9B, N0AX, RZ3AA and JH7OHF. Kure is number 29 in North America and number 17 overall in the DX Magazine's "Most Wanted" for 2003. There has not been activity from here since 1997 and that operation resulted in a limited number of QSOs. Currently it is a wild life refuge normally closed to entry, and they are very lucky to be able to gain permission to land there. They want to give KH7K to as many North American DXers as they can on as many bands as possible. However, their primary target will be Europe. They also hope to provide a daily

report and pictures while the DXpedition is in progress via the team's Web site. The Web page is currently under construction and can be found at: http://www.dxpedition.info
The cost to make Kure available is very high even though the team members are absorbing a large portion of the expenses. They must first fly to Midway Island and then sail to Kure, so they are experiencing both plane and boat expenses. The trip will take a total of one month with an estimated 11 days on the Atoll for operating. Elliott, K7ER, is their NA point of contact for funds. His E-mail address is: funds-NA-SA-kure@inix.com
It was mentioned that there will be no online logs. More information will be forthcoming.

LIGHTHOUSE ACTIVITY.....
International Lighthousre/Lightship Weekend 2004 - Mike, GM4SUC, Organizer and Coordinator, reminds us that the ILLW is August 21-22nd. They have 250 stations in 37 countries confirmed. A full list can be found at: http://illw.net/2004_list.htm
If you have not registered your lighthouse or lightship station with Kevin, VK2CE, could you please fill in the entry form at: http://illw.net/2004.htm
All they need is some good propogation for the weekend. Enjoy the weekend and have fun working all the lighthouses and lightships.

Francis, F6HKS, will be active in the ILLW from the Port Leucate Lighthouse (Languedoc-Roussillon, Province in South France - PB 147 and FRA230) as F6HKS/P between the evening of August 20th until 1000z on August 22nd. Activity will be on 80/40/30/20/15 meters mainly CW, but SSB upon request. QSL direct to home callsign (SAE+Postage) or via the French Bureau.

The F6KUM ARS team will be active in the ILLW from the Cap d'Ailly Lighthouse (PB 009 and FRA 012).

Jean, F5IRC, will be active in the ILLW from the Antifer Lighthouse (PB 050 and FRA 220). This activation on HF is the first time.

The "Grupo Titan", LT7W (http://www.lt7w.tk) will operate during the ILLW from Faro "Golfo Nuevo" ("Golfo Nuevo" Lighthouse) ARG-038. Their Web page is under construction, and in few days it will put the info in English. QSL information is: P.O.Box 4, 9120-Puerto Madryn, CHUBUT, ARGENTINA. DX station send S.A.S.E. (w/2 IRC - NO GREEN STAMPS). PLEASE DON'T SEND QSLs VIA BUREAU. Also, they we will confirm the QSOs via the system "e-qsl.cc " (e-QSL).

Jakob, OZ7AEI, will be active between August 13-15th from Sjaelland Island (IOTA EU-029, DIA SJ-001, WLH LH-1867) as OZ7AEI/p. He will also activate 3 lighthouses in the area of Stevns, namely Stevns GL P (ARLHS DEN-042), Stevns NY (ARLHS DEN-123) and Rodvig East Mole (ARLHS DEN-175). QSL via his home callsign, direct or by the bureau.

Operators RW6CT, RA6AU, RA6AX, UA6LGR and UA6MF will try to be active (third attempt) from the "Centre Caviar Mafia " on Tyuleniy Island (last activity 1992) in the Caspian Sea, Republic Dagestan, August 13-16th. This activity is valid for RRA RR18-01 and RDA DA-30. Also, the Lighthouse "Tyuleniy" is a NEW ONE for the ARLHS, RLHA and WLHA. The callsigns will be UE6WTI/p and the operator's homecalls/6. Activity will be on 40-10 meters, CW and SSB. QSL UE6WTI/p via UA6MF: Ivan A. Gudima, P.O. Box 4102, Zip 344103 RUSSIA.

Jurek, SP2BIK, informs OPDX that the radio station SN2NP located at the Old Lighthouse at Gdansk-Nowy Port will be operating during the period of August 20-22nd.

PJ4, NETHERLAND ANTILLES. Look for Bill/N2WB, Bob/K9MDO and John/W9ILY to be active as PJ4/homecall from Bonaire (SA-006), September 22-29th. Activity will be on 80-10 meters CW/SSB/RTTY. Also, look for PJ4/W9ILY to be an entry in the CQ/RJ DX RTTY Contest. QSL PJ4/K9MDO via W9NJB (direct) or via his home callsign by the bureau. QSL PJ4/N2WB via N2OO. QSL PJ4/W9ILY via his home callsign. More details are available via Bob's Web page at: http://n2wb.tripod.com

QSL INFO AND NEWS.....
QSL 6L0NJ/4 via DS4AEN. A group of Gwangju Dx Club (6L0NJ) members activated Oenaro Island (IOTA, AS-060) over the past week and weekend. Operators were HL4SF, HL4UV, HL4XM, HL4CBI, HL4CEL, HL4CFN, HL4CFU, HL4CGB, HL4CJG, HL4CRO, HL4RBR, DS4BGR, DS4CMY, DS4DBF, DS4DEV, DS4DJC, DS4DLK, DS4DRE, DS4EOI and DS4FMG. Logs will be available at: http://www.dx.or.kr/

CS7T LOG AND VIDEO. The Web page for the Berlenga Island DXpedition (to IOTA EU-040) is now complete with online logs, photos, AVI videos and stories (even the story of a survey trip to the famous Estelas Islets). Have a look at: http://www.qsl.net/ct1eeb/cs7t
They are producing a DVD Documentary. The team's professional Film Director Jose Alberto, EA1OS, will make it available to the public in October. It will document all details of this HAM Radio operation as well as the beauty of this Islands (a candidate to become Patrimony of Humanity by UNESCO).

QSL EM0U/p via UT3UZ (P.O. Box 240 , Kiev-232, 02232, Ukraine). This activity was by the EM0U team (Club station of Ukrainian State Centre of Radio Frequencies and ITU Centre of Exellence). Operators were UT3UZ, UT4UO, UT2UB, UY2UA, UY2UZ, UT7UW, UX3UN, UT5UOC, UT4UAA, UT4UAY and UT4UBJ. Operations were from CHERNOBYL (URDA award: KO-26 and QTH-Loc: KO51CG), district's of Kiev region.

Benny, K5KV, reports that he is NOT the QSL Manager for: FS5UQ or any FS station except FS/K3LP and FS/N3KS.

Chris, KG6AR, reports that he is no longer the QSL Manager for the following stations: UU2JZ, EM3J, EO58JM, EO57JM, EO56JM, EO55JM and EO10J.

Hugo, LA5YJ, informs OPDX that all cards for XU7ACW, 9N7YJ and his homecalls (LA5YJ & MI0YJR) have been answered. This includes all Bureau cards as well. ADDED NOTE: Hugo informed OPDX that he will be in South-East Asia again. He does not know for how long, but he will keep us informed as soon as he obtains a license.

Press release by the Radio Club Ushuaia, LU8XW, states: "To clear up any confusion, the QSL Manager for LU8XW is Patrick, WD9EWK. We thank Jose "Pepe" (EA5KB) for handling QSL cards received by Jose Manuel (EA5BD), our previous QSL Manager who passed away last year, ensuring those stations received their LU8XW QSL cards. We thank EA5BD for his fine work as our QSL manager in the past, and EA5KB for his efforts after the death of EA5BD."

Toni, EA5RM, announced that the S05X and TZ6RD logs were uploaded to the LoTW around July 29th.

Dennis, PA7FM, informs OPDX that he received the ST2DX QSLs from the printer on August 5th. Look for all direct QSL requests to be answered in the upcoming week. The online log is still available at: http://www.pa7fm.nl

Chris, ZL1CT (GM3WOJ), reports that he has uploaded a total of 159600 QSO records to the "Logbook of the World", generating 10000 QSL matches, for the following personal, club and contest callsigns: GM3WOJ, GM3WOJ/MM, GM4DMZ, GM2MP, GS2MP, 2S2MP, GM6V, GM7V, 2S7V, GM8V, GZ7V, ZL1CT/MM, ZL1CT/4, ZL1CT and ZL1V. Another 10000 QSO records will be uploaded soon.

SPECIAL EVENT. Look for special callsign HE5IBC to be active on the HF bands during the month of August to honor the "10 GHZ ATV World Record of 1564KM" made on July 1st, 2004, between I8/HE5IBC (JM89AD) and EA7/F4CXQ (IM97CP). Activity this past week was on 20 meters CW/SSB on or around 14020 or 14215 kHz. QSL via HB9MM.

SPECIAL EVENT. Operators F5ASD, F8KFK and members of the F6KQA ARS will air the special callsign TM5BDM, September 4-5th, to commemorate the 90th anniversary of the First Battle of River Marne during WWI. Activity will be on HF, VHF and UHF. QSL via F5ASD, either direct or via the Bureau.

SRM 2004. The Scottish-Russian ARS introduces Scottish-Russian Marathon to encourage activity by all radio amateurs worldwide to contact areas of Scotland and Russia. This is purely an activity week and will enable participants to pursue the CAOSA Award Scheme, WAB Scotland Award Scheme, IOSA and SCOTIA Award Scheme, SOTA Award Scheme, ARLHS Award Scheme, RDA Award Scheme, RRA Award Scheme, RIIA Award Scheme, RMA Award Scheme, RFFA Award Scheme, RLHA Award Scheme, RABA Award Scheme, and provide an interest in contacting different areas of Scotland and Russia. The event is to be held on the full second week in August each year. The 2004 Marathon will start at 0000z on Monday, August 9th, and last until 2400z on Sunday, August 15th. Activity is encouraged on all HF bands by individual licensees and club stations or the use of a special event call sign from radio amateurs in Scotland and Russia. For more info:

http://www.srars.org/srmee.html
http://www.scotham.net

ST2, SUDAN. QSL Manager Dennis, PA7FM, informs OPDX that Paul, ST2PN, is now active. Paul is also in Khartoum for his work for the "World Food Program" (WFP) of the UN and will be active now and then in his spare time. He will be out in the field, in Darfur (the problem area in Sudan), most of the time where radio operations are not allowed. ST2PN was heard this past week on 18122-18130 kHz between 1230-1500z. QSL direct to PA7FM (bureau not possible for now). For more information, please visit the Web page at: http://www.pa7fm.nl

TK, CORSICA. Christophe, F4DZY, will be active as TK/F4DZY, between August 8-22nd. His activity will be mainly on HF and SSB. Christophe is in Corsica (EU-014) for his job, so his activity will be limited to only his spare time. A special QSL card will be printed for this activity. QSL either direct (SAE+Postage or IRC) or via the French REF Bureau.

TWLHF CORRECTION. Charles, M3ZYZ, a "The World Lighthouse Foundation" (TWLHF) member and one of the executive comittee members of TWLHF, informs OPDX that he would like to clarify that he is not the President of this Foundation and that role belongs to Kresimir Juratovic, 9A7K, and no one else.

UB40, ASIATIC RUSSIA (Special Activity). Vlad, UA0FZ, is currently active as UB40FSU to celebrate his 40th anniversary of his first amateur radio activity. The callsign UB5FSU was his first license given to him in 1964 in the Ukraine. His activity has been mostly on CW on 40/30/20/17 meters. QSL via UAOFZ "ONLY" (NOT W3HNK).

V47, NEVIS ISLAND. Larry, KJ4UY, will be active as V47UY from August 20-28th. Activity will be on all bands and modes, including 6 meters. QSL via KJ4UY, direct or by the bureau.

VP5, TURKS AND CAICOS ISLAND. Dennis Motschenbacher, K7BV, will operate from here as VP5/K7BV, August 9-16th. He will be at the "Rent-A-QTH" (visit at: http://www.vp5jm.com/). The trip will be focused on 6 and 2 meter WSJT work during the Perseid Meteor shower that peaks around August 12th. HF will, of course, get plenty of attention as well. QSL to K7BV.

VP5, TURKS AND CAICOS ISLAND (Expense paid trip to VP5X for CQWW Phone!). Kelly, N0VD, team member of VP5X, announced the following: "Once again David, KY1V (the 2004 Radio Amateur of the Year), is putting together the team of operators for the 2004 CQWW Phone Contest operating from VP5X. As a member of the VP5X team, we have started soliciting essays from young hams around the world under the age of 21 to apply to join us for an expenses paid DXpedition to North Caicos Island. The Young Ham Contest Program was developed by KY1V in 2003 to encourage teen and pre-teen hams to tell their friends about the fascinating possibilities associated with Amateur Radio with regards to contesting and DX-peditions. Young hams worldwide can apply for the Young Ham Contest Program by sending a 500+

word essay describing how he/she got started in ham radio, naming his/her elmer (mentor), and telling why he/she should be selected this year's CQWW Phone Contest operation. One winner will be selected from the many world-wide entries to join us as VP5X. With the contest just about 90 days away, we would like to begin the selection process soon. If you are a young ham that would enjoy an expense paid trip to VP5, please submit your essay soon. We are trying to spread the word as much as possible, so if you could pass this along to any clubs/associations/reflectors that you may be part of, that would be great. The more the word is out, the more of a chance some young ham could be enjoying a 'dream come true DXpedition'." For more information on VP5X and how to submit your essay, please visit the VP5X Web site at: http://www.vp5x.com

VP9, BERMUDA. Operators K4UU, K6CT, K9VV, KI4CCO, W4OV, WD4R and W4OV will be active during the CQWW SSB Contest this year as a Multi/? entry. Callsign and QSL route will be announced later.

YI9, IRAQ. Marek, SP2OVN, informs OPDX that Ryszard, SP8HKT, is operating as YI9KT (as of July 25th) and will be there for 5 months. He uses 100 watts into a vertical antenna and is expected to be active on 40-10 meters plus the WARC bands, mostly CW but also SSB if you ask. Marel states that you can search for him between 0730-930z and 1630-2030z, usually on the first 15 kHz of each band. Over the past week, OPDX spotted Ryszard on 40m around 1753z, 30m around 1731z, 20m around 1948z, 17m between 1300-1430z and again between 1845-2030z, and on 10m after 0930z. QSL via the bureau or direct to his home callsign.

YU6, SERBIA AND MONTENEGRO (Special Prefix and Award). Montenegrins radio amateur stations have been using a special prefix which started July 1st and will end August 31st. They are adding the number "100" after their regular prefix (ex. YT6A - YT6100A and YU6RKB - YU6100RKB etc.). Activity is for celebrating 100th anniversary of Marconi's first commercial radio relay on the MF band between Montenegro (City of Bar) and Italy (City of Bari). QSL information for all special prefixes is via YT6A. Also, a special "MARCONI MONTENEGRO 100 Award" is available to all amateurs worldwide who submit three QSL cards as confirmation of having contacted three Montenegrins radio amateur stations with the special prefixes during the activity period, or one QSL card as confirmation of having contacted the memorial radio station 4O6100BB. In addition, endorsement stickers are available as listed below:
Endorsement stickers for the basic mixed mode/band award are available for SSB, CW any single band . The GOLD endorsement is available for the applicant who has worked 10 stations with special prefixes, including memorial station 4O6100BB. QRP is defined as 10 watts input (or 5 watts output) of the applicant only and is affirmed by signature of the applicant on the application.
Applications with QSL cards and 10 IRCs or 10E have to be sent to the Award Manager YT6A: Ranko Boca, Nikole Ljubibratica 78, Herceg Novi 85340, Montenegro, Serbia and Montenegro. For each endorsement sticker you have to send 3 IRCs or 3E. A list of all applicants will be updated daily on the We page at: http://www.yt6a.com

YV0D DXPEDITION QRT. Yes QRT! This is a big disappointment for DXers as well as the YV0D team. This rare one (in the top 10 most wanted DXCC entities) had to go QRT a few days early due to bad weather heading toward Aves Island. YV0D went silent August 4th at 1045z. Despite the short operation, YV0D logged some 18,500 QSOs -- including a number of 6-meter QSOs during an opening -- in around 59 hours of operation, according to The Daily DX <http://www.dailydx.com>. The QSL Manager for this DXpedition is KB6NAN: Dianna Killeen, POB 911, Pescadero, CA 94060-0911. Please include a SASE (U.S. stations) or a SAE and the appropriate return postage (non-US stations) with QSLs. They will also accept cards via the bureau. The YV0D team expects to upload its logs to ARRL's "Logbook of the World" (LoTW) at: http://www.arrl.org/lotw

Why. You have to run the thing to catch it. I have the defaults
turned off, I use Agent as a news reader, and Firefox as a Browser..

You should see the code in some of these. They are adding Netscape as
well as Explorer.

The 1st Amendment guarantees only that the Government won't imprison,
torture, or otherwise go after you for voicing your opinions. It makes
no guarantee that
someone ELSE might not kick your ass for it. I hear all this whinning
all the time regarding the 1st Amendment. Linda Ronstadt found out
about the 1st Amendment when she got kicked out of a venue in Las
Vegas a few weeks ago for voicing her opinion. Whoopi Goldberg (is she
a Jewess ? Is her name really Whoopteesha ?)learned about it, too, as
did Mike Moore. Sure , you can say whatever you want, but be prepared
to pay the consequences.

Yep you is right

DX shud be at rec.radio.amateur.dx

There are guidelines as to what Ham topics go where -- at URL:
http://faqs.jmas.co.jp/FAQs/radio/personal-intro

But being NG's are mostly unmoderated -- folks put their for sale items on
all of them.
As well as the OT political rants. Oh well.

Playing NG cop will do little good -- at least it hasn't for the past 4
years (;-(

The US T33C cards are coming along. Due to some miscommunication, I
ended up with everything excapt the cards themselves.
But the cards have arrived, and are being worked on now.

They'll be a little slower then I'd wish, since my back has decided to
go into spasms, and I have to be flat on my back a lot.

But they are coming along!!!

Like our friends from Nomandy, we will celebrate this year the 60th anniversary of allied forces landing in Provence. Appearing less on medias than the main landing in Manche, this landing is still a key point on Europe 's realese from the nazi's yoke that we must commemorate in the memory of all soldiers from all countries whom helped us to be free.

We will operate TM3id from 7th to 21st August from Cavalairemer dragon op�ration

QSL manager F4txe, direct or via bureau

Amateur Radio Newsline™ Report 1409 August 13, 2004

Note: Ladies and gentlemen This weeks newscast is dedicated to the memory of the late Roy Neal, K6DUE who passed away a year ago on August 15, 2003, following heart surgery. Roy was our friend, teacher and served as the first elected vice-president of Amateur Radio Newsline after it became a 501(c)(3) nor-for-profit corportation. We miss him very much. "So Roy old buddy: This one is for you."

de WA6ITF

Amateur Radio Newsline report number 1409 with a release date of Friday, August 13th, 2004 to follow in 5-4-3-2-1.

The following is a QST. Australian hams ask for a new ham band at 500 kilohertz, lots of news world wide on the B-P-L front, and the FCC talks about license processing. Find out the details on Amateur Radio Newsline report number 1409 coming your way right now.

(Billboard Cart Here)

**

RESTRUCTURING: AUSTRALIA TO SEEK NEW 500 KHZ HAM BAND

The old 500 kHz the international maritime distress frequency could become part of a new ham band down-under. This if the Wireless Institute of Australia has its way. W-I-A News anchor Graham Kemp, VK4BB, joins us from Brisbane with the details:

--

The WIA will shortly be writing to the ACA to request the establishment of an experimental amateur allocation at 500 kHz. Thats the 600 meter band.

WIA Director Glenn Dunstan VK4DU said "500 kHz was the international maritime Morse code distress frequency for most of the 20th century."

"It was the frequency used by the RMS Titanic to send her plaintive cries for help that April night in 1912. It was the frequency used by thousands of merchant ships to signal their plight in times of peace

and war."

"More often than not, 500 kHz was witness to a ship's Radio Officer's last moments. Many Radio Officers literally died at the key as their ship fell victim to enemy action or was overwhelmed by the forces of nature".

Glenn, himself an ex ship's Radio Officer, said. 500 kHz was replaced in 1999 by the Global Maritime Distress and Safety System (GMDSS), which uses a combination of automated terrestrial and satellite communications.

"Since the introduction of the GMDSS in 1999, 500 kHz use has declined rapidly. The last official users of the frequency, China, plan to discontinue operation in 2005. The frequency is no longer used in Australia, New Zealand, the Pacific or the US."

500 kHz has been instrumental in saving tens of thousands of lives in the last 100-odd years. It is thus fitting that the frequency be preserved as a 'spectrum national park' to commemorate those who paid the supreme sacrifice in its use.

"The best way to do this is to establish a small slice of spectrum around 500 kHz - probably 495 to 510 kHz - as an amateur radio band. The band would also provide a unique opportunity for experimentation with antennas, propagation, advanced narrow band modulation techniques and receiver digital signal processing." Glenn said.

--

It should be noted that 500 kHz is still allocated to the maritime service so any permanent amateur access in Australia or elsewhere is some way off. It is worthy of note that the I-A-R-U Region 1 and various United States Amateur long wave groups are actively pursuing an experimental allocation at 500 kHz as well. (WIA News)

**

HAM RADIO IN SPACE: ECHO ON THE AIR

AMSAT has announced that the F-M voice repeater on the Oscar-51 Echo satellite is on for a trial period. The transponder was turned on the 30th July for about three weeks during which command stations will be watching the power budget and adjusting the transmitter power for good management of the battery.

For those wanting to give Echo a try, its uplink is on 145.920 MHz F-M, with 67 Hz CTCSS tone. The downlink is on 435.300 MHz.

A reminder that this is a trial of the F-M voice repeater only. Please do not send any data through it. AMSAT says that the digital portion of Echo is not yet ready for use. (ANS)

**

THE BPL FIGHT: ZS AMATEURS SHOULD REPORT BPL TESTING TO THE SARL

Turning to news on the B-P-L front, South Africa AMSAT President Hans van de Groenendaal, ZS6AKV, has now spoken out. He is urging amateurs and short-wave listeners in that nation to report any unusual but consistent interference to the South African Radio League. This as the rollout of Broadband over Powerline continues in that country.

ZS6AKV says that South African hams must continue to be vigilant about any B-P-L testing taking place in their neighborhoods. Hans says that following Pretoria's example several other metropolitan areas have shown an interest and may soon be starting trials. (SARL)

**

THE BPL FIGHT: FOLLOW-UP ON SAN DIEGO GAS AND ELECTRIC

Back here in the USA, San Diego Gas & Electric has confirmed that it is considering entering the Broadband Over Powerline business, but for now that's about all the utility will say.

As reported last week, San Diego Gas & Electric planners are reported to be seriously considering endorsing and sponsoring Broadband Over Powerline data transmissions on the company's power distribution system. The story went on to state that San Diego Gas & Electric is also considering entertaining proposals to partner with vendors for one or more field demonstrations of BPL. This, this despite being advised that B-P-L will cause considerable interference.

Bob Gonsett, W6VR, whose CGC Communicator newsletter was first to break the story put in a call to the utility to try and get a bit more information. San Diego Gas & Electric response was brief and far from insightful. All that the utility would tell Bob is -- and we quote: "Like many utilities, San Diego Gas & Electric is assessing B-P-L technologies."

W6VR says that while we are all temporarily left in the dark as to San Diego Gas & Electric plans, those plans will eventually surface. As soon as they do, we will let you know. (CGC)

**

THE BPL FIGHT: NORTH CAROLINA UTILITY ENDING BPL FIELD TRIAL

Meantime, North Carolina's Progress Energy Corporation says it's completed Phase II of its B-P-L field trial in the Raleigh, and will be closing down the experiment. In an August 4th internal memorandum reported by the ARRL Letter, the company said its program to test the viability of providing broadband service to communities it serves will wrap up by the end of August. The company reportedly will shut down the system once it's able to move its BPL customers to other broadband providers. Progress Energy's decision comes on the heels of announced shutdowns of B-P-L field trials in Penn Yan, New York, and Cedar Rapids, Iowa. (ARRL)

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the Broward Amateur Radio Club net serving Ft. Lauderdale Florida.

(5 sec pause here)

**

RADIO LAW: HAM RADIO EXEMPT FROM CONTROVERSIAL SAN DIEGO WIRELESS SITING ORDINANCE

Wireless communication antennas would be allowed in San Diego, California's residential areas only as a last resort under a new policy recently approved by the City Council. By a vote of 7 to 1, the council has approved a new policy governing the design and placement of wireless antennas, making it more difficult for cellular carriers and others to erect towers in or near residential areas.

Under the new regulations, the process will differ according to location. Some approvals would be made at the staff level, while others would require an okay from a planning group, a hearing officer or the full Planning Commission.

In the past 20 years San Diego has processed over 1,400 applications for cellular telephone towers but the the city has not tracked how many were actually built but there is some good news for hams on this one. ARRL Southwestern Division Vice Director Tuck Miller, NZ6T, reports that amateur radio is specifically exempted from the terms of this new ordinance

More about the ordinance itself is on-line at http://www.signonsandiego.com/uniontrib/20040728/news_1m28wireless.html (CGC with further information from NZ6T)

**

RESCUE RADIO: COMMISSION SEEKS COMMENTS ON RULE CHANGES FOR EAS

The FCC has issued a Notice of Proposed Rulemaking concerning possible revisions to the Emergency Alert System or E-A-S system. The agency is seeking comment on how E-A-S can become a more effective tool for warning the American public of an emergency. It is also a chance for radio amateurs to suggest new ways that the E-A-S might be interfaced with our hobby to better serve the public in time of need. More information is at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-250534A1.doc (CGC)

**

WITH THE FCC: MANAGING THE DATA PROCESSING OF LICENSES

The FCC has a lot to say about the Universal Licensing System and some of the problems it faces in administering it. Especially those dealing with paper filings from the ham radio community.

Donna Scott, a Program Analyst with the Wireless Telecommunications Bureau in Gettysburg, Pennsylvania. And in a recent interview with Rain, he outlined just one of the most common situations that her office runs into. This one dealing with applicants who faili to provide their FCC Identification Number better known as an F-R-N:

--

Scott: "I believe that one of the biggest problems that we encounter are paper filings coming here to Gettysburg with no F-R-N on the application. The F-R-N is mandatory. This is the registration number that you obtain through the CORES database and without that number wee really can't accept that application. And we do have a high volume of paper applications that still come in without that number."

--

Probably the second highest volume of amateur applications that need to be returned are those from hams who do not read what's right in front of them. These are hams who insist on sending form 605 V-E-C to the agency. This even though the form 605 V-E-C is only for use by those who give the tests and not for the ham in the street filing paperwork with the agency:

--

Scott: "It clearly states that it is a 605 VEC form. It says do not send to the FCC on the top and on the bottom. Yet amateurs continue to send them here to Gettysburg and we cannot accept them."

--

According to Scott, the only version of Form 605 the FCC will accept from the ham community is the one that contains the approval statement from the governments Office of Management and Budget and that carries a current issue date.

This is only a fraction of the information that Donna Scott described about managing the nuts and bolts of the FCC's licensing system. There's lots more with her on this weeks RAIN Report. Its on line right now at www.rainreport.com or on the phone at 847-827-7246. (RAIN)

**

ENFORCEMENT: ELECTRIC UTILITY WARNED AGAIN ABOUT INTERFERENCE TO HAM RADIO

A Tennessee power company has been told that its response to an earlier RFI complaint is inadequate. The FCC's Daryl Duckworth,

NN0W, explains:

--

Audio report only. Download the MP3 newscast audio file at
www.arnewsline.org

--

The FCC told the utility that the it knows of no powerline noise problem associated in any way with guy wires. (FCC, RAIN)

**

ENFORCEMENT: $3000 FINE FOR UNLICENSED OPERATION

The FCC has issued Donald Donovan Jackson of St. Petersburg, Florida a monetary forfeiture in the amount of $3,000. This, for operating an FM broadcast station on the frequency 102.1 MHz without Commission authorization.

On November 23, 2002, agents from the Tampa Office observed a broadcast station operating on the frequency 102.1 MHz. A search of Commission records revealed no FM radio station licensed to operate on 102.1 MHz in that area. The agents then used direction-finding techniques and determined that the broadcasts originated from a commercial office building located in St. Petersburg. Field strength measurements taken near the sight of the broadcast indicated that the signal strength exceeded the permissible limits for a non-licensed station.

The agents interviewed the owner of the building who provided them with a copy of the lease for suite. He also informed them that a person named Donald Donovan Jackson operated the radio station from the premisis.

On January 15, 2003, agents from the Tampa Office interviewed Jackson and conducted an inspection of the station after again observing a radio station operating on 102.1 MHz. During the interview, Jackson admitted to leasing the property and operating the radio station from that location. He was given the usual 30 days to pay the fine or to file an appeal. (FCC)

**

RADIO LAW: DOJ WANTS MANDATED DIGITAL WIRETAP ABILITY

The Department of Justice says that technology companies should be mandated to ensure that law enforcement agencies can install taps on Internet traffic and new generations of digital communications devices. This as the D-O-J and other agencies press for a digital expansion to the Communications Assistance for Law Enforcement Act.

The Communications Assistance for Law Enforcement Act is a 1994 law that requires the telecommunications industry to build into its

products tools that U.S. investigators can use to eavesdrop on conversations with a court order. The investigatory agencys are worried that federal agents would not be able to install court ordered wiretaps against criminals who communicate using the latest digitally encrypted technologies. Lawyers for the Justice Department, FBI and Drug Enforcement Administration say that this need requires immediate attention and resolution by the Federal Communications Commission. (Published news reports)

**

RESCUE RADIO: HAM RADIO AT THE DEMOCRATIC CONVENTION

Eastern Massachusetts ARES was activated to support Public Service Agencies during the Democratic National Convention which concluded Friday, July 30th. The ARRL reports the Salvation Army, that the American Red Cross, and the Massachusetts Emergency Management Agency all helped out. ARES was ready to provide any needed support in case of catastrophic loss of the communication infrastructure that had been installed for the event. (ARRL)

**

RADIO IN SERVICE: FITTEST SEEKING ASSISTANCE

Those involved with Rescue Radio may find some appeal in this. The United Nations World Food Program's FITTEST operation is currently seeking Telecommunications Specialists for 3 to 6 month contracts.

FITTEST stands for the Fast Internet and Telecoms Emergency Support Team and it offers constant travel, constant pressure, constant challenges in a job that still allows you to combine a family life and a professional life in a two or three months on one month off duty regime.

Typically, FITTEST hires people with non-conventional career paths to provide emergency deployment of VHF and HF networks, Satellite and Telephone systems. They are looking only at people with direct hands-on experience willing to work under harsh circumstances.

To get an idea of the work they do in Iraq and Afghanistan have a look at their web sites. They are in cyberspace at http://www.hiciraq.org/mediacentre/gallery/FITTEST/ http://www.qsl.net/ya5t. Applications to mark.tell@wfp.org and martin.kristensson@wfp.org (WIA News)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio

amateur:

**

ON THE WEB: BIG CHANGES AT THE QRZ.COM WEBSITE

Some major changes are taking place at the very popular QRZ.com ham radio website. We have more in this report:

--

Fred Lloyd, AA7BQ, who runs the QRZ.com website has announced major changes in access to posting access site. This, for registered users whose login user name is not the same as their ham radio callsign.

Basically, Lloyd says that only contributors who have legitimate ham radio calls will be permitted to post material to most areas of the website. To accomplish this Llloyd says that he has created two levels of membership. One called Ham is for those who want to use their call sign as registration login. The other will be the Guest member for those who may not have a call or who simply prefer not to use it.

Those who have a call and use it for login purposes will have full read and write access to all public Q-R-Z forums, plus the ability to make changes and/or additions to listings in the callsign database. Guest level members will be limited to posting on the sites Help Forum, the For Sale Forums, and the Questions and Answers Forum. These people will have no access to callsign database editing functions.

QRZ.com has also instituted several rules to help keep order and decorum at the site to make it enjoyable for the majority of those signing on. Among these are the right to terminate the current and future membership status of any user who engages in the harassment of any other user, staff member, or volunteer of this system or the use of any information derived from the website that contributes in any way to unsolicited e-mail of any kind. Also banned is the posting of obscene or offensive material on the site and QRZ managers say that they reserve the sole right to determine what is either offensive or obscene.

Lloyd says that the site will shortly begin converting current members to the new system. If you are currently signed up using your call sign as your logon I-D you need do nothing. For those who are not, QRZ we will be assigning new login names to those current members who are apparently licensed amateurs. The new logon name will be the same as the callsign that is listed in the QRZ call sign database as the 'Primary Callsign' for that account. Each user who is subjected to a name change will be notified via e-mail at the address we have on file for that user. Names that cannot be

associated with a callsign will be assigned to the Guest level of membership.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

Lots more about the changes are on the QRZ.com website under the title QRZ System Announcement. Lloyd and the managers at QRZ say that they hope that these hanges will improve the website for everybody. (QRZ.com)

**

HELPING HAND: THE AUDIO NETWORK

The U-K Audio Network is a website for the blind using audio web pages, controlled by standard keyboard navigation. It is the first site in the world that needs no adaptive technology to be accessible by blind and partially sighted users.

There are many resources on the Audio Network. For example, it is the only place on the Internet where you can listen to BBC Radio schedules for the forthcoming week in audio. And speaking of radio, there is a whole section of radio stations where you can change channels at the touch of a button, without having to worry about annoying pop ups or filling out a registrations.

Best of all this website is free. Its located in cyberspace at http://www.yrguk.com (RSGB)

**

THE SOCIAL SCENE: DENVER IN AUGUST

Turning to the ham radio social scene, the Denver Radio Club Hamfest is scheduled for Sunday, August 22nd at the Jefferson County Fairgrounds in Golden. Doors open at 8:30 AM with door prizes awarded throughout the fest. For more information contact Bryan Steinberg by e-mail to kc0cua@arrl.net or visit the clubs website at www.qsl.net/q0tx (KCØCUA)

**

THE SOCIAL SCENE: CFMC IN ILLINOIS IN SEPTEMBER

And the Chicago F-M Club will hold its annual Hamfest and Flea Market on the weekend of September 18th and 19th. The venue is the Lake County Fairgrounds in the city of Grasyslake, Illinois. More information is on-line at wwwchicagofmclub.org. (E-mail)

**

HAM RADIO IN SPACE: ARISS AT HAM FAIR JAPAN

Amateur Radio on the International Space Station will be represented at the upcoming Ham Fair 2004 on Saturday and Sunday, August 21st and 22nd in Tokyo, Japan. The ARISS U.S. team provided photographs of the radio equipment in the Service Module to J-J-one-L-Y-U. He will display some of them along with a modified Kenwood D 700 E transceiver which looks like the flight radio. Other photos will be used in a slide show as part of an exhibit in the Kenwood Booth. Ham Fair is sponsored by the Japan Amateur Radio League with about 28,000 people is expected at the event. (ARISS)

**

SPACE: NASA APPROVES NEW DESIGN FOR SHUTTLE EXTERNAL TANK FITTING

NASA is moving ahead with plans to redesign a part of the Space Shuttle external fuel tank that investigators believe played a critical role in the Space Shuttle Columbia accident.

The Space Shuttle program will soon begin installing an improved bipod fitting that connects the external fuel tank to the Shuttle during launch. Investigators believe that during Columbia's launch in
January 2003, insulating foam from the bipod area fell off the external tank and damaged the left wing of the Space Shuttle. (NASA)

**

WORLDBEAT - BELGIUM: GALILEO GPS SYSTEM APPROVED BY EU

Officials in Brussels, Belgium say the satellite navigation system the European Union is planning will not clash with one already in operation by the United States. This, as an agreement signed in that European nation will make sure that the proposed Galileo system will be compatible with the U-S owned Global Positioning System.

Galileo is slated to begin operation 2008. Together the two systems are expected to become a single world standard for positioning and radio navigation. (ANS)

**

DX

In D-X, keep an ear open for GB6LOG. This is a special events station on the air through August 18th to celebrate the 60th anniversary of the Liberation of Guam during World War 2. The station will operate on all modes. QSL via the RSARS QSL Bureau to receive the special QSL from this station. For further information contact G0SWY by e-mail to G0SWY@aol.com (GB2RS)

And hams on Gibraltar have been granted permission to use the special prefix ZB300 during the month of August. This to celebrate the colony's three hundred years of British sovereignty. If you work ZB300, QSL as directed on the air. (GB2RS)

**

THAT FINAL ITEM: SIGHTLESS UK NEWSREADER TAKES TO THE AIR

And finally this week the story of a U-K ham who has overcome physical disability to become a news anchor for the Radio Society of Great Britains GB2RS News. Jeramy Boot, G4NJH, in Nottingham has the rest of the story:

--

Now news about a new GB2RS newsreader. Annick Morris, M0HDE, of Wigan, Lancashire, became a GB2RS newsreader two when she read the news through the GB3MR repeater. What makes this special is that 18-year old Annick has been blind from birth.

She has a specially-adapted laptop computer which accepts Word files, and which has a single-line display consisting of raiseable dots which form characters in Braille. Annick can read Braille fast enough to read out loud from this, although she can only 'see' one character at a time.

In the future Annick will be newsreading on 6 metres, 2 meters and 70 centimetres and it is hoped that she may also transmit on two bands at once.

Jeramy Boot, G4NJH.

--

This is not the volunteer first job that M0HDE has been successful in. At age 14 Annick attended the "Child of Achievement Awards" in central London after impressing organizers with her determination to overcome obstacles presented by her disability. This award recognizes the efforts of young people under the age of 16 who make special efforts to overcome personal disability or illness while also managing to help others. We at Amateur Radio Newsline welcome Annick Morris, M0HDE, to the worlds ever growing ham radio news reporting teams.

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's W-I-A News, that's all from the Amateur Radio Newsline(tm). Our e-mail address is newsline @arnewsline.org. More information is available at Amateur Radio Newsline's(tm) only official website located at www.arnewsline.org. You can also write to us or support us at Amateur Radio Newsline(tm), P.O. Box 660937, Arcadia, California 91066.

And this note. Because our staff will be in Huntsville to present the Young Ham of ther Year Award there will be no update on the 661-

296-2407 line on Friday, August 20th. Phone users are asked to utilize another of the automated phone lines operating in other regions. Our 661-2407 line will update to the latest newscast on Monday, August 23rd.

For now, with Bill Pasternak, WA6ITF, at the editors desk, I'm Jim Damron, N8TMW, and I'm Jeff Clark, K8JAC, saying 73 and we thank you for listening. Amateur Radio Newsline(tm) is Copyright 2004. All rights reserved.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 672
BID: $OPDX.672
August 16, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, AA1M, K1XN & GoList, NC1L, KE2LJ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4WX, W5BOS, K8YSE, N8MR, DL1EK & The DX News Letter, DL2FAG, EA8CAC, F5CWU & La Gazette du DX, F5NQL & UFT, G0IAS, GM4SUC, HA9SU, HP1AC, I1JQJ/IK1ADH & 425 DX News, IN3VZE, JA1ELY, JI6KVR & JA-IOTA Islands News, LA9VDA, LU5WW, LU9ESD, M0BBB/5B4AFM, OH2HAN, OK1MU, PS7AB, SP5XSD, VA3RJ & ICPO, VK2CE, VK2XQ, YL1ZF and ZS4BS for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 8th/August, through Sunday, 15th/August there were 209 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J6, J7, J8, JA, JT, JW, JX, JY, K, KH0, KH2, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T2, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VP2E, VP2M, VP5, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YJ, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

7Q, MALAWI. Ely, IN3VZE, will be active once again from the west shore of Lake Malawi using the callsign 7Q7CE from September 9-23rd. Activity will be on all band 160-10 meters. QSL via his home callsign IN3VZE, direct or by the Bureau.

7Q, MALAWI. Allen, G0IAS, reports to OPDX that, "The dulcet tones of 7Q7HB, Harry, will once again be coming from Club Makokola, on the South West shores of Lake Malawi as from about the 12th August... length of stay not known at this time... but at least 6 weeks." QSL ONLY DIRECT to G0IAS (NO BUREAU cards accepted). Return stamp/postage is needed (DO NOT bother about envelopes.... G0IAS will supply). Allan also informed OPDX that he is hoping to go down to Malawi before the year's end and be active as 7Q7RM.

AT0, INDIA. Binu, VU2NGB, will be active as AT0B from Vypin Island (no IOTA number), near Kochi City in India, during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Low-Power entry. Look for him on 7009 and 14019 kHz. Please QSL direct to: GPO Box 2235, Sydney, NSW 2001, Australia.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX of the following Somalia 6O/T5 operations: "Effective immediately, the ARRL DXCC Branch will accept QSLs for operation taking place in the Somaliland (northwestern Somalia) and Puntland (northeastern Somalia) autonomous areas as well as the southern and central areas of Somalia. Operations possessing written permission from any recognized authority that is acknowledged to be in control of a particular region will be accredited. These QSLs will count for the Somali Democratic Republic (Somalia). QSLs for past operations will be accepted where proper documentation has been submitted. This is subject to change based on future developments in Somalia."

E2, THAILAND. Look for Champ, E21EIC, to be active during the CQ/RJ DX RTTY Contest (September 25-26th) as a Single-Op/All-Band/Low-Power entry. QSL via E21EIC.

FK, NEW CALEDONIA. Eleven operators/members from the Mitsubishi Electric Tokyo ARC (JM1YGG) will be active as FK/JM1YGG and FK/homecall between September 16-19th. Operators mentioned are: JA1BAB, JA1IWP, JA1RNO, JA1RTG, JR1KHM, JI1EOP, JJ1EWN, JK1EBA, JA3RAF, JR3OET, and JF3IPR. They plan to operate on 80-10 meters CW, SSB and FM. They are not sure about the digital mode at this time. QSL via JM1YGG, direct or by the bureau. The JM1YGG, Mitsubishi Electric Tokyo Amateur Radio Club's, address is: 2-1-1 Marunouchi, Tokyo, 100-8310 JAPAN.

HH4, HAITI (Update). Just a reminder that Jan, K4QD, will be here for two weeks and will be active as HH4/K4QD during his spare time (See OPDX.671). He states that he will upload his log to LoTW when he returns.

IOTA NEWS.....
EU-056. Operators Bjorn/LA5UKA and Trond/LA9VDA will be active as homecall/p from Gossen Island, August 20-25th. QSL via their home callsign per QRZ.com.

OC-155. Lanny, W5BOS, will activate Pulap (Pollap) Island, West Chuuk, Fed. States of Micronesia, October 18-23rd. His callsign will be V6O. QSL via N6AWD.

J3, GRENADA. Operators AC8G, K8LEE, KC8JAY, W8GEX, W8ILC and possibly others will be active during the CQ WW DX SSB Contest (October 30-31st) as a Multi-Multi entry. Callsign will be announced later. Look for activity on various modes and bands a day or so before and after the contest.

J42. GREECE (Also IOTA Op.) Stavros, M0BBB/5B4AFM, will be active as J42004A from Skopelos (EU-072) and Athens, between August 17th and September 1st. Activity will be on 20 meters (and possibly 30m) using 100 watts and dipole. By the way, this is a special callsign to help celebrate the Olympics in Athens. QSL via M0BBB via the Bureau or direct.

KG4, GUANTANAMO BAY (Cancelled Trip!). Bill/W4WX (aka KG4DX), member of the Florida DXPedition Group, was expected to be active here last week, but his trip was cancelled. He states, "No seats available for Space A Cat VI.. Sorry, will try again later on."

KH9, WAKE ISLAND. George, AH8H, is now active as KH9/AH8H through the end of the month. His activity has been limited due to his work. Most of his activity has been on 40 and 30 meters CW between 0800 and 1030z.

LIGHTHOUSE ACTIVITY (The ILLW is this coming weekend!).....
* Mike, GM4SUC, Organizer and Coordinator of the International Lighthouse/ Lightship Weekend, stated last week that "We now have over 314 confirmed stations in 42 countries..... All we need is some propogation to go with the fun of the weekend." A full list can be found at: http://illw.net/2004_list.htm

* The Gozo Amateur Radio Society will be active again in this year's ILLW as 9H4GRS/P on Sunday, August 22nd, from Jordan's Lighthouse (MLT03). Activity will be on 20 and 15 meters.

* Members of the Gran Canaria DX Group will be active in the ILLW as ED8FLH from Punta de Jandia Lighthouse (Fuerteventura Island - AF-004, CAI-040, D2790, S006 and DME35015). Activity will be on CW/SSB. The operators mentioned are: EA8DP, EA8CAC, EA8AJW, EA8AZM and EC8ABT. QSL via EA8AKN.

* Jurij, MM0DFV, provided a list of Scottish Lighthouses to be active in this weekend's ILLW. For pictures and detailed information on the following lighthouses, please visit the Scottish Ham Portal at: http://www.scotham.net
SCO-NEW GM3TKV/p - Kingston Beacon QSL via GM3TKV
SCO-015 GB2LBN - Barns Ness Lighthouse QSL via GM4UYZ
SCO-064 GB2DL - Dunollie Lighthouse QSL via MM1AVR
SCO-075 GB2ELH - Eshaness Lighthouse (EU-012) QSL via WA7OBH
SCO-089 GB2GNL - Girdle Ness Lighthouse QSL via GM4JLZ
SCO-103 MM0MWW - Hoxa Head Lighthouse (EU-009) QSL via MM0EAX
SCO-113 GB2MSL - Kinnaird Head Old Lighthouse QSL via GM1JNS
SCO-151 GB2NCL - North Carr Lightvessel QSL via GM3NHQ
SCO-191 GB2RRL - Rubha Reigh Rua Reidh Lighthouse QSL via GM4CHX
SCO-226 GB2SHL - Stoer Head Lighthouse QSL via GM8UPI
SCO-245 MM1HMV - Toward Point Lighthouse QSL via MM1HMV

SCO-248 GB2LT - Turnberry Lighthouse QSL via GM0JHF
SCO-317 MM3STM - Ardrossan Pier Head QSL via MM3STM

* The Panama Canal Amateur Radio Association (PCARA) will operate as HP2L from the Gamboa Lighthouse in the Panama Canal (ARLH No. PAN-027) in the International Lighthouse/Lightship Weekend, August 21-22nd. Activity will be on all modes CW, SSB and PSK31. QSL via HP1IBF or by the Bureau.

* Look for Eagle Harbor, Michigan's (Keweenaw County), Eagle Harbor Lighthouse (USA-253) to be activated in the ILLW, August 21- 22nd, using the special 1x1 callsign K8E. Modes of operation include HF/VHF, CW/SSB, FM Satellite and possible HF digital. Collectors of ARLHS numbers can get credit for three upon request: Eagle Harbor Lighthouse USA-253, Front Range Light USA-254 and Rear Range Light USA-255. QSL via the bureau or direct to N8MR with #10 SASE. The Web page is: http://www.kc8nah.com/Interests/illw04.htm

* The "Grupo Titan" (LT7W) will be active in the ILLW from Faro 'Golfo Nuevo' ('Golfo Nuevo' Lighthouse) ARG-038. QSL information is: P.O.Box 4, 9120-Puerto Madryn, CHUBUT, ARGENTINA. Send S.A.S.E. (w/ 2 IRC - NO GREEN STAMPS). Also, they will confirm the QSOs via the e-QSL system. PLEASE, DON'T SEND QSLs VIA THE BUREAU.

* Emmanuel, LU9ESD (Founding member of th BBDX), informs OPDX that members of the Bahia Blanca DX Group (http://www.grupodxbb.com.ar) will again take part in the International Lighthouse/Lightship Weekend (August 21-22nd). This year they will activate three different lighthouses at the same time. As usual, no special callsign will be used, only their personal callsigns / provincial letters (depending on the lighthouse). All three lighthouses will be active during the 48 hour event on all bands (including the WARC bands) and modes. Here are the Lighthouses with the respective reference numbers and operators:
Recalada Lighthouse: ARG-009, Lat. 39° 00° S and Long. 61° 16° W, Grid FF91ia and Buenos Aires Province "/D").
Operators/Stations are: LU6EPR/Ricardo, LU7EVP/Vernon, LU8EHQ/Carlos, LU8EBK/Marcos, LU4DRH/Dario, LU5DEM/Eduardo, LU6DRD/Diego and LU5DRV/Walter.

El Rincon Lighthouse: ARG-036, Lat. 39° 23° S and Long. 62° 01° W, Grid FF80xo and Buenos Aires Province "/D").
Operators/Stations are: LU9ESD/Emmanuel LU4ETN/Carlos, LU8EBJ/Gabriel, LW3DKC/Sebastan, LW9EVA/Hugo and LW8DMK/Marcelo.

Segunda Barranca Lighthouse: ARG-067, Lat. 40° 46° 34" S and Long. 62° 16° 27" W, Grid: FE89uf and Buenos Aires Province "/D"). Operators/Stations are: LU7DSY/Carlos, LW8EAG/Gabriel, LU1EUU/Gerardo, LU7AC/Marcelo and LU8DWR/Osmar.

QSL Manager for BBDX ILLW activity is LU7DSY: Carlos Almiron,
P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina.

* The Grumman Amateur Radio Club will participate in the International Lighthouse/Lightship Weekend August 21st, from the Nantucket Lightship in Oyster Bay, NY. This is the LV112 ship built in 1936 and stationed at Nantucket Shoals from 1936 to 1942, 1945 to 1958, and 1960 to 1975. Callsign will be WA2LQO/LS. QSL to the CBA.

* Simo, OH2HAN, informs OPDX that the Finnish radio club "Kissen Kipina", OH2ET, will be active from a working sea and air Lighthouse, which is also a church at the same time! During their operation, there will be several marriage ceremonies in that church. The Lighthouse is actually situated at the top of the church - at the height of 54.2 metres from the sea level - the highest in Finland. The church is located on Suomenlinna Island in front of Helsinki City. The Lighthouse number is FIN063, and they will be using the callsign OH2ET/LH. QSL via the bureau. They are expected to be on SSB at least on 20 and 80 meters.

* Kevin, VK2CE, informs OPDX that there will be some rare Australian lighthouses in the ILLW event August 21-22nd. Look for the following:

VI7CL is a special event callsign that has been issued for activation of the Currie Lighthouse on King Island in Bass Strait. There is a team of 5 going there from mainland Australia. The callsign celebrates the centenary of the discovery and mining of Scheelite on the island.

VK9MI will be activating Macquarie Island Lighthouse, a very rare IOTA location.

* LIGHTHOUSE ACTIVITY FROM SOUTH AFRICA. Dennis, ZS4BS, provides the following list of South African lighthouses that will be activated during the International Lighthouse/Lightship weekend, August 21-22nd:

The Adventure Radio Club of Cape Town will be active as ZS1ARC from the Cape Columbine Lighthouse near Paternoster on the west coast.

The Boland Amateur Radio Club will be active as ZS1BAK from the L'Agulhas Lighthouse. L'Agulhas Lighthouse is the most southerly lighthouse on the African continent.

The Overberg Amateur Radio Club will operate from the Danger Point Lighthouse using the callsign ZS1OAR.

The Hibiscus Coast ARC will activate the Port Shepstone Lighthouse using the callsign ZS5HAC.

The Durban ARC will activate the Cooper Lighthouse with callsign ZS5D.

ADDED NOTE: There may be activity from Port Elizabeth and East London.

* Look for the PS7AA group to be active as ZV7AA in the ILLW from a lighthouse (ARLS-BRA-161, DFB-RN-07). Activity on CW/SSB/RTTY/PSK31. QSL via PS7AA.

MIA CONTEST. The Mediterranean Islands Contest, which is organized by the Mediterraneo DX Club, will take place from 1200z, September 18th to 1200z, September 19th. The rules can be found on the following Web page at: http://www.mdxc.org/contestmia/rules.htm

OH, FINLAND (IOTA and LH Op!). A group of Latvian amateurs (YL2FB, YL2CI, YL2GQG and YL1ZF) will be active from the Etela-Suomi(Uusimaa) Province Group (EU-097) using callsign OH/YL2FB, August 15-19th. On Friday, if weather/wind condition are good enough, the group will move to Soderskar, an off-shore lighthouse FIN-057, to take a part in ILLW on August 20-21st. Operations from both locations are planned to be on all HF bands, including the WARC bands, CW/SSB/RTTY and utilizing wire antennas and GPs for the lower bands. They will also use multiband beams for 20 to 10 meters. They also plan VHF/UHF operation on 6m, 2m and 70cm as well. QTH locators are KO19JN and KP20QL, respectively. QSL via YL2FB.

QSL INFO AND NEWS.....
* Closing Pacific DX Logs. The following Pacific DX logs will be closed on the 1st of October 2004:

3D2JH (Fiji) From June 27, 1997, to August 3, 1997
C21JH (Nauru) From August 16th to September 4th, 1998, and from June 28, 1999, to December 17, 2000
T30JH (Western Kiribati) from February 21, 1998, to September 25, 2000
T33JH (Banaba) From July 20, 1997, to July 26, 1997.

So, if you need any cards for the above operations, now is the time to make your move before October 1st. QSL requests may be directed to VK2XQ (formerly VK2GJH): Mr. Jack D.Haden, PO Box 299, Ryde, NSW 1680, Australia. As Jack is not a member of the VK QSL bureau, all requests are to be direct only with sufficient funds for return postage.

* Pavel, OK1MU, informs OPDX that he still has about 500 full-colored QSL cards for his previous callsigns 5N0/OK1MU and 5N35/OK1MU. If someone still needs these QSL cards, requests can be sent via the OK Bureau or direct to OK1MU: Pavel Prihoda, Okruzni 331, Solnice 517 01, CZECH REPUBLIC.

* Bela, HA9SU, states that he now has his log online at: http://www.starjan.hu/~ha9su

* YV0D LOGS. The YV0D online log search is now up and running at: http://dx.qsl.net/cgi-bin/logform.cgi?yv0d
Also, visit the following Web page for pictures and logs at: http://www.radioclubvenezolano.org

S7, SEYCHELLES. All arrangements have been made for Willi/DJ7RJ and Klaus/DJ4SO to be on the air from Seychelles beginning October 3th, for 2 or 3 weeks. They will be operating as S79RJ (DJ7RJ) and S79SO (DJ4SO) on 40-6 meters, CW/SSB/RTTY/PSK31. Use of the 80 meter band

has not been authorized, but they will be requesting permission to operate on 80 meters during the weekends (3505 kHz +/-). QSL via their home callsigns.

SV5, DODECANESE. Wojtek, SP5MXZ, is active as SV5/SP5MXZ from Rhodes Island until August 20th. Activity will be on 20 meters CW/SSB. QSL via his home callsign. During this past weekend, he was expected to operate as SX5A (from a local club station), but as this was being typed we saw no QSNs. Also, look for him to be active later in the week as J42004/SP5MXZ. QSL via his home callsign.

T98, BOSNIA AND HERZRGOVINA. Babs/DL7AFS, Lot/DJ7ZG and Chris/Z31GX will be active as T98LBC from September 2-12th. Activity will be on CW, SSB, RTTY and PSK31, on 160-6 meters. QSL via DL7AFS, by the German Bureau or direct. More information and pictures are availabe on their Web page at: http://www.qsl.net/dl7afs

VP5, TURKS AND CAICOS ISLANDS (Update). Operators KY1V, WA2PGM, K0RAY, N0VD and possibly others will be active as VP5X during the CQWW DX SSB Contest (October 30-31st) as a Multi-Single entry. QSL route is via OH3RB or W2GB. ADDED NOTE: KY1V is sponsoring another free trip for a young ham (See OPDX.671). For more details, please visit: http://www.vp5x.com

Z38, MACEDONIA. Before their T98 DXpedition (See T98 above), Babs/DL7AFS and Lot/DL7ZG will spend some holiday time in Macedonia. They are expected to be active as Z38Z for some days from there. Dates were not provided, but look for activity (soon) before September 2nd. If you had no luck to work them as Z38Z during May 2003, here is your chance to look for them again on the usual DX frequencies.

ZX35, BRAZIL (Special Callsign). Look for Orlando, PT2OP, to be active as ZX35O (Zulu, X-ray, Three, Five, Oscar), between August 16th and September 16th, to celebrate his 35th anniversary as an amateur radio operator. Activity will be on all bands CW/SSB. QSL via PT2OP (direct or by the Bureau).

1095. Orkney Islands IOTA EU-009

Newsgroup: rec.radio.amateur.dx
Date: 2004-08-16 14:42:10 UTC
From: "Mark Simpson (O.A.R.C)" <junk@noaggro.com>
Message-ID: <cfqh2klhr1@news7.svr.pol.co.uk>
Source record: 6886

I am submitting this post on behalf of Orkney Amateur Radio Club.

We are trying to establish which of the Orkney Islands are "most wanted" by island chasers (so that we can plan our future activations around this).

If you have ever had a QSO with someone in the Orkney Islands (IOTA EU-009) we would be very grateful if would fill out our short survey on the club website www.eu009.com This will literally take only one minute of your time, and you can remain anonymous if you wish.

Thanks in advance...

Mark Simpson

1096. Gene Scott, satellites and MW

Newsgroup: rec.radio.amateur.dx
Date: 2004-08-16 19:49:00 UTC
From: Honus <honus1@earthlink.net.is.invalid>

I'm new to the hobby, so please bear with me.

I picked up a Gene Scott broadcast last night on MW at 1615 KHz. Here's the info I found at his website:

http://www.drgenescott.com/swave.htm

THE CARIBBEAN BEACON
Anguilla, British West Indies
24 hours a day - 7 days a week

690 KHz AM

1610 KHz AM

I'm listening in Seattle, and I really don't think that I've DX'd the guy all the way from the Caribbean. The signal isn't constant; it faded out just like SW reception does. So my question is, just how did I hear this broadcast? Scott uses satellites, but I imagine they're geo-synchronous and so (I assume) the signal wouldn't fade. Is that true? Is retransmitting of MW or FM band signals ever even done in the first place? And why did I receive the signal at 1615 instead of 1610? Did I pick up a repeater of some sort? I have more questions, but I think that from the ones I've just posed that everyone can imagine what they are. Thanks in advance for your replies.

FWIW I'm using a Grundig S350, grounded, with a 75' random wire antenna.

I wouldn't rule it out. Especially as particularly good east-west conditions were reported that night.

> The signal isn't constant; it faded out just like SW reception does.

Long-distance MW fades pretty much the same way.

> So my question is, just how did I hear this
> broadcast? Scott uses satellites, but I imagine they're geo-synchronous and

The satellite transmissions would be on microwave frequencies; MW transmissions from space wouldn't penetrate the atmosphere to be received on earth.

> And why did I

My bet is that you were getting a spurious response to a powerful shortwave broadcast. Your receiver will pick up signals on frequencies other than the one to which it's tuned, if they're strong enough. I'd bet you'd find Scott was broadcasting over a shortwave station somewhere in the U.S. at that time.

1100. Wire antenna

Newsgroup: rec.radio.amateur.dx
Date: 2004-08-17 21:29:09 UTC
From: Tim Boyd <timboyd@tds.net>
Message-ID: <41227a88$1_3@newspeer2.tds.net>
Source record: 6891

I have installed a inverted V wire antenna. I have it connected with a 1:1 balun at 30 feet from the ground. The center wire is 66 ft 6 in long. The end is 8 feet from ground. The other leg is 28 ft long and attached to the roof of my house (appox 20 feet). I am getting started in MARS and need to transmit around 3.350 MHZ. What can I do to this antenna to tx around that freq ? Right now the antenna works from 40 meters to 6 meters with my MFJ 945 tuner. I was thinking I could make a wire trap for it. Thanks for any ideas.

I know. That's why I figured that it couldn't be a satellite transmission,
before I knew that MW doesn't come the atmosphere from space.

This is a response that I received when I posed the same questions over in re.radio.shortwave:

<quote>

Looks like a spurious response caused by your oscillator's third harmonic and the radio's poor RF selectivity.

Assuming an IF frequency of 455 kHz, when the radio is tuned to 1615 the local oscillator is running at 2070 kHz (1615 + 455).

The third harmonic of 2070 kHz is 6210 kHz.

With an IF of 455 kHz and an oscillator frequency of 6210 kHz, there will be a response at both 6665 kHz (6210 + 455) and 5755 kHz (6210 - 455).

KAIJ carries Dr. Scott on 5755.

<quote>

I've also been picking up more than my share of images in the shortwave ranges, so this seems to make some sense to me despite the jargon. <g>. I'm ready to mail my Grundig back to China with a letter enclosed telling them where they can send it from there. ;) This whole shortwave/AM DX experience has been extremely frustrating.

I might suggest you'll have more luck lower in the AM band. There's
more interference between stations but all the signals are stronger and
chances are anything you hear will actually be broadcasting on the
frequency you hear it on.

The spurious receptions are, I'm afraid, generally a function of the
quality of the receiver. An inexpensive receiver is going to have more
of these. Scant comfort, I know...

<gbg>

That's okay. I can face reality. It's funny, though. I did a lot of research
into SW radios before I went with the S350, and I don't remember anyone ever
complaining about images, etc. Now I almost wish I'd gone with the YB400 as
I'd originally intended. Oh well....live and learn. ;)

Mid-'80's ICOM R71A for sale. Recently removed from sailboat as I am looking for RX/TX capability and this SSB is RX only. It works. It shows no outward signs of any abuse. It comes with owner's manual and some schematics. No AC power cord.

Since anyone interested in such a machine knows its value, I'll ask that you simply make me an offer that will satisfy both of us.

I'll assume this last one was directed at me. I'll also assume that you didn't bother to follow the entire thread, because otherwise your post today makes little sense as regards myself. Maybe you ought to go back and read it, or re-read it if I'm mistaken.

As it turns out, the unusual signal that I was getting in the MW band (that's the part that you need to pay attention to) was an image or spurious signal resulting from a SW band transmission, and was caused by an inferior receiver. I didn't know that when I posted here, but thanks to in part Doug Smith I now understand what's going on. If I had posted my "Why am I receiving at 1615 MW?" question in the shortwave group, no doubt your doppleganger over there would have jumped my ass for an off-topic post since -clearly- it was a MW question. I can continue, if you'd like.

Oh yes, please do go on.
Was it a spur, was it the actual signal?
Have you heard it again? At what times?
Did you get station ID?
What were you hearing on 160 at the time?

Technically, the SWL question did belong over there.

It didn't seem so far away from topic as to justify not answering an
honest question from a newbie who might well not know the difference
between SWL DX and ham DX.

> Oh yes, please do go on.

Only since you've asked so nicely, Hank.

> Was it a spur, was it the actual signal?

Gee. I answered that question already. How'd you miss it? Being new, I'm going to have to trust everyone that tells me that even though I received it on MW that it was in actuality an SW transmission, and not the actual MW after all, espacillay since what I'm being told makes sense. (Darn.) The whole point of this thread is that I didn't knowingly make a post to an inappropriate newsgroup. I believed that I was receiving an MW broadcast, and so I came to the dx group to verify that. It turns out that I was wrong. I didn't post my questions to the SW group because based on the evidence at hand, -that- would have been an off-topic post. I generally try pretty hard to follow netiquette.

> Have you heard it again? At what times?

I heard it again the following night at 0650 UTC. It's about that time now, and I'm not receiving anything on 1615.

> Did you get station ID?

I'm afraid I didn't. As I pointed out, the signal faded before I could. You must have missed that statement as well. ;/

In spite of the lack of an on-air ID I was able to tell that it was Gene Scott based on several statements that he made, and some research on the web.

> What were you hearing on 160 at the time?

If you mean 1600 (remember, I'm new) I was probably receiving KVRI out of Blaine. I don't recall specifically. I checked the band on either side of 1615, though, which is where I think you're heading. Whatever I found on either side, it was different than what I heard on 1615. Otherwise, I wouldn't have come here in the first place. I'm not -that- much of a newbie. And let me thank you for the help you've offered me, Hank. You've made this poor rookie feel right at home.

It was an honest mistake, and I'm pretty surprised (and dismayed) at the way this dead horse is being beaten.

Digging deeper, though, I do think I see the cause of the problem since you said "ham dx". (I failed to notice the word ham in the thread title. Most definitely my fault.) I didn't realize it was for hams...amateur dx sure sounded appropriate for an MW DX question. The newsgroup name is a bit misleading, IMO. I'm an amateur, and I'm trying to dx. <g> I'd have thought that the name for a ham group would have been more specific, like rec.radio.ham.dx. <shrug> If rec.radio.amateur.dx is just for -ham- comms, then it would seem that there just isn't a group for MW DX questions, at least carried by my news server. Saying that an MW post didn't belong in the dx group but belonged over in the shortwave group threw me, especially since I lurked here for awhile before posting, and saw numerous posts about dxing in general. Go figure. Oh well...live and learn. So, mea culpa in spite of IMO understandable mistakes. <g>

I'm sorry for the hassle, and I'll be sure to wipe the dust off of my shoes as I leave.

You just said it above...your antenna is ~66 feet in length, about right for 40 metres. If you need to transmit around 3.5 MHz, you will need to double the size of the antenna at the very least. You will probably need somewhere around 128 feet of antenna, though it varies a little depending on numerous factors specific to your installation.

However...

> The end is 8 feet from ground.

That's another problem entirely. The idea is to keep your antenna roughly 1/4 wavelength above terra-firma. Easy to do at 20 metres, harder at 40 and very hard to do at 80. My own 80M dipole is only about 45 feet above ground level and even with 600W, getting a signal out is a chore at times on that band. If you can, you would do very well to get the entire thing up as high as you can.

You may also face space problems with an antenna of that length. If your property size won't allow you to put up a high 128'-foot-long antenna, there are electrically shortened antennae out there that might work acceptably for you, but will offer you greatly reduced bandwidth. If you're also a licensed amateur in addition to MARS operator, and you want to use that antenna for 75M phone, you'd have a problem with one of these shortened dipoles.

Good luck.

Key word: Center Wire.

"The other leg is 28 ft long and attached to the roof of my house
(appox 20 feet)".

I'm assuming the "center" wire is the center wire cuz it's hooked
to the center conducter of the coax? If that's the case, he doesn't
have a "dipole". He has what is closer to a Windom, with a 1:1 balun
(which doesn't work, on most Windoms anyway).

But you're right - if he's trying to make a Windom, and he wants
it to work on 80 meters, it's going to have to be at least as long
as an 80 meter dipole.

Then he's gonna have to lose the 1:1 balun and get a 4:1 balun,
and then he's gonna have to lose the tuner......

So I think the technical name of what he has now would probably
be "An Off Center Feed Dipole With A 1:1 Balun That's Really A
Dummy Load But It Works OK Until The MFJ Tuner Melts Or The
Balun Saturates". Or something like that :-)

Here's a picture of a Windom, Tim.

http://kh2d.net/windom.cfm

It presents a decent SWR on 80 meters, but at 30 feet high it's
virtually useless as an antenna on that band.

You'd probably be better off with a center fed dipole, cut to the
frequency you want to operate on, if you can't get it any higher
than 30 feet up.

73, Jim KH2D

You should try to understand the concept of a Reply-To: header.

Really.

I have been using antenna's fed with ladder line recently and I have had a lot of success.
You will need to get a different tuner, a tuner that accepts balanced line such as ladder line. There are some good ones out there but they arent exactly cheap.
I am using the MFJ-986.
(this tuner also accepts coax as well)...
With the ladder line and tuner you do not need to worry about SWR or the coax loss with high swr.

You can try this antenna with your coax and your tuner right now and it might work better.

You could put up something like a 40 meter 1/2 wave sloper. Just a wire about 65' long (468/freq in mhz), going from your support at 33' down to your lower support. Then just use an egg insulator and connect one end of the coax to one side and the braid of the coax to the other side (or the ladder line like this).
Make sure the connections are soldered good.
This antenna should work very well on 40 meters and with your current tuner it should work okay for 80 meters. At least stateside if the tuner can handle it.

The ladder line would tune this fine with a different tuner.

But this would be a fine dipole on 40m and other bands with the tuner. its worth a try I think.

Another antenna I have used on 80 and other bands is a 1/4 wave inverted L. Yours would be a little short and sloping, but take a wire up your 33' support and then down to your lower support. This would be almost 100' about 23' short of a 1/4 wave on 80m but the tuner will help.
Connect the center wire of your coax to this wire and the braid of the coax to a ground rod and a radial system. You will need to lay down some radials in your yard for this antenna. Whether it was fed with coax or ladder line. But either feedline with a tuner should work pretty good on 80M.

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N2YO, W2SN, K3GV, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, K9RJ, DL1EK & The DX News Letter, F5CWU & La Gazette du DX, F5NQL & UFT, G3UML, HA0HW, HS0ZDZ, I1JQJ/IK1ADH & 425 DX News, JA0SC, JI6KVR & JA-IOTA Islands News, PA7FM, VA3RJ & ICPO and VK6HZ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 15th/August, through Sunday, 22nd/August there were 211 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9U, 9V, 9X, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J5, J6, JA, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YJ, YK, YL, YO, YU, YV, Z2, Z3, ZB, ZC4, ZD7, ZD8, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B9, RODRIGUES ISLAND. Robert, 3B9FR, has been very active on RTTY lately. Watch 15/17/20 meters between 1400-1700z and after 0230z (on 20 meters). He has NO QSL MANAGER. QSL direct to: Robert Felicite, P.O. Box 31, Citronelle, Rodrigues Island, VIA MAURITIUS ISLAND, INDIAN OCEAN.

3DA, SWAZILAND (Also C9). Look for Joe/AA4NN and Chuck/W4GMY to be active as 3DA0NN and 3DA0CG, respectively, November 17-22nd. They plan to have two separate CW stations active on 160-10 meters including the WARC bands. The duo plan to set up a contest in Mozambique (C9) beginning November 24th in preparation for a Multi-Single entry in the CQ WW CW Contest. The callsign has not yet been assigned. Also, they are interested and looking for two additional CW operators for this contest effort. If interested, please contact: aa4nn@earthlink.net or w4gmy@msn.net

5U, NIGER. You have less than a week to work Michael, PA5M (aka 9U5M/ST2DX), as 5U7DX from Niamey, Niger. He'll be leaving the country and heading for Mali (TZ) on August 27th. He will only be active in his spare time. Most of his activity has be on 17 and 30 meters CW, but there has been QSNs on 20 meters CW and 17 meters SSB. Watch these bands between 1230-1330z and 1930-0000z. His QSL Manager Dennis, PA7FM, informs OPDX that online logs and all information on Michael can be found on: http://www.pa7fm.nl
Dennis also mentions that for Michael's trip to Mali (and after that Ghana and Benin), the licence is not in hand yet, but they are working on that. QSL via PA7FM. ADDED NOTE: All direct ST2DX QSLs have been answered now, and new requests will be answered as soon as they arrive.

7Q, MALAWI (Update). Allen, G0IAS, reported to OPDX last week that he was hoping to go down to Malawi before the year's end and be active as 7Q7RM. This week Allen states that he will hopefully be going down to see Ron, 7Q7RM, and has received his Malawi callsign which is 7Q7AH. Also, he reports that Les (original callsign not provide) will be going to Malawi and be active again as 7Q7LA. Les was the first 7Q callsign to be issued with an OFFICIAL licence after 16 years of non OFFICIAL transmission between 1974 and April 19th, 1990. His length of stay is to be around 12 weeks. Allen will provide more info as he gets it.

A6, UNITED ARAB EMIRATES. Operator Abdullah, A61Q, has been quite active over the past couple of weeks on 80/20/17/15/12/10 meters CW. Activity seems to take place at various times during the day. Watch clusters for QSNs. QSL via EA7FTR.

HB0, LIECHTENSTEIN. Geza, HA4XG, will operate from Masescha (1350m ASL) as HB0/HA4XG between August 28th and September 4th. Activity will be on 40-10 meters CW/SSB, using 100 watts into a GP antenna. For the first time, he will be on 2 meters with a 8 element Yagi on WSJT and tropo (w/120 watts on VHF). His main activity time will be in the mornings and evenings because this is a family holiday (which comes first). QSL via his home callsign either direct (QRZ.com) or through the HA Bureau.

IOTA NEWS.....
AS-103. The CTARL DX group lead by Paul, BV4FH, will activate Peng Hu Island from August 27-29th. Callsign will be BV9A and activity will be on 40/20/15/10 meters CW/SSB. QSL via BV4YB.

NA-026. SPECIAL EVENT. The Kings County Repeater Association and The Metropolitan 222 ARS will co-sponsor the activity of KC2RA, a Memorial Station on Governors Island, NY, September

11th. Operations will take place between 11:00 AM and 4:00 PM
EDT (1500-2000z) on 28340 kHz, 21340 kHz, 14250 kHz and
7250 kHz (+/- QRM); also VHF/UHF if possible.

OH0, ALAND ISLAND. A group of Latvians will be active as OH0I during
the CQ WW DX SSB Contest (October 30-31st) as a Multi-Single entry. The
operators mentioned are: YL1ZF, YL2KL, YL2LY and YL3CW. QSL via OH3BHL.
Also, operator YL2KL will return to be active as OH0I in the CQ WW DX
CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry.
Also, QSL via OH3BHL.

OH0, ALAND ISLAND. Ari, OH5DX, will be active as OH0Z in both CQ WW DX
SSB Contest (October 30-31st) and CQ WW DX CW Contest (November 27-28th)
as Single-Op/All-Band/High-Power entry. QSL via OH5DX (ex-OH1EH). Also,
visit the OH0Z Web page at: http://www.qsl.net/oh0z

OHIO QSO PARTY. The OQP is next weekend August 28th between 1600-0400z.
Join the fun and work many Ohio counties (maybe your editor!). For more
details and rules, visit the Web page at: http://www.oqp.us

QSL INFO AND NEWS.....
By the time you read this, John, VK6HZ, who was active as YJ0AHZ from
Vanuatu (OC-035) this past week will be QRT. QSL via his home call,
VK6HZ.

QSL VI2MI via VK2XNF (See instructions below). The previous callsign
was to be VK9MI, but was changed. Activity was from Montague Island
during last weekend's International Lighthouse Weekend. Montague Island
is located on the south coast of New South Wales, Australia, about 12km
off the coast from the town of Narooma. The island is a nature reserve
managed by the NSW National Parks and Wildlife Service. The operators
for the weekend were: VK2XNF/Neil Fallshaw, VK2CWI/Ken Carey, VK2KEV/
Kevin Purves, and VK2HAK/Justin Rumsey. QSL instructions are:
* Direct, No card - SASE w/info including 1 IRC
* Bureau, No card - E-mail for Bureau card. E-mail address
is: vk2xnf@yahoo.com.au

R1MV, MALYJ VYSOTSKIJ ISLAND. A group of operators are planning to
activate MV Island as R1MVI next weekend betweem August 27-29th. Their
expected activity will be on 80-10 meters (160m will depend on their
opportunity to install an antenna during the short stay). Operations
are expected to be RTTY, PSK31, CW and SSB. Radio equipment mentioned
are: FT-1000, FT-990, Acom-1000 and Acom-2000A. Antennas are: ��-3MK4
and G5RV. Station's power is: Honda EM-20 generator. Operators mentioned
are: RA3CQ, RA3AMG, UA1CKC, RA1CD, RA1AR and ES4RZ. QSL Manager is RA3AMG.

UPCOMING CONVENTIONS.....
* W9DXCC CONVENTION 2004 - The Northern Illinois DX Association is pleased
to announce the 52nd annual W9DXCC Convention to be held September
17-18th. The 2004 convention will be at a new location, the Holiday Inn
in Elk Grove Village, IL, conveniently located by Chicago O'Hare
International Airport, Woodfield Mall and other suburban attractions.

Banquet speaker is: John Devoldere, ON4UN. The many forum speakers are: John Battin/K9DX, Jerry Rosalius/WB9Z, Eric Scace/K3NA, Jay Terleski/WX0B, Scott Robbins/W4PA, Lee Finkel/KY7M and Carl Luetzelschwab/K9LA. The ARRL Forum features Central Division Director Dick Isely/W9GIG, Vice Director Howie Huntington/K9KM, DX Advisory Committee Chairman Jim O'Connell/W9WU, and Membership Service Chairman and Logbook of the World Guru Wayne Mills/N7NG. For the IOTA fans, Mike McGirr/K9AJ, Jim Model/K9PPY, and Gordon Bazsali/WB9EEE will have the latest Island News. There will be prizes! For more complete details, please visit the W9DXCC Web page at: http://www.w9dxcc.com/
You can register on-line or request more info via: w9va@aol.com

* THE SEANET CONVENTION 2004 - BANGKOK, THAILAND: "This year's convention which will be held in the Arnoma Hotel, in the city-centre of Bangkok from Friday 19th to Sunday 21st November 2004. The hotel is close to most of the City's attractions, and is within short walking distance of the new Sky Train which links with most important destinations in the City. Some major shopping destinations are within walking distance, such as the World Trade Centre, Pratunam Market, Prantip Plaza, Naripan Plaza, Central Stores, Sogo etc.... All the usual popular SEANET social and sightseeing events will be arranged, plus something new, and of course the SEANET special event radio station HS72B (all bands). We will also organise a CQ WW CW Contest team entry the following weekend from HS0AC (HS72B) Club Station, and suitably licensed members are welcome to join in. More details, including a registration form are available from the Convention Web-site <http://www.seanet2004.com>, or please contact Ray Gerrard, HS0ZDZ, PO Box 69, Bangkok Airport Post Office, Bangkok 10212, Thailand, E-mail <seanet@RAST.or.th> for brochures and information. Sawadee Khrap!" -- Mayuree Chotikul, HS1YL, President of RAST (Under the Royal Patronage of His Majesty the King)

VK9L, LORD HOWE ISLAND (DXpedition Update). Longtime English DXer Laurie Margolis, G3UML, is joining the October operation on Lord Howe Island, organized by VK4FW and the Oceania DX Group. A team of Australians, Italians, and now one Englishman, will arrive on Lord Howe on October 9th for a well-equipped two week operation. Full details to follow later. G3UML has been active since 1965 and holds DXCC completed and full 5BWAZ, as well as much contest experience.

VY2, PEI, CANADA. George, K3GV, will be active between August 29th and September 12th as K3GV/VY2 from Prince Edward Island (IOTA NA-029, CIA PE-001). Activity will be on 15 and 20 meters around the usual IOTA frequencies. QSL via his home callsign, direct or by the bureau.

XX9, MACAO. Hiro, JA0SC, will be going to the Island of Coloane, and will be there between August 24-31st. He will receive his callsign after his arrival there. Activity will be on the digital modes especially on SSTV. Operating bands are 20-10 meters, using 200 watts and a 2 element HB9CV antenna. QSL to his home callsign (OK at QRZ.com).

YO DX HF CONTEST (ed. And I Don't Mean YAO!). Chip, N2YO, wants to remind everyone that on August 28-29th, to please consider participating in the

YO DX HF 2004 Contest (24 hour contest) which is held on the last weekend
of August every year. Rules can be found on the following Web page at:
http://www.hamradio.ro/contests/yodx_eng.htm
Compatible YO DX HF Contest software is listed here:
http://www.hamradio.ro/contests/yodxhf-software.htm

ZK3, TOKELAU ISLANDS. Atsu, 5W1SA, must be active again as ZK3SA. Activity
was heard on Friday, August 20th, on 40 meters CW and 20 meters SSB. His
length of stay is unknown. QSL via JH7OHF.

Hi,

I just finished to review shortly my 37th propagation software.
You will find all reviews accompanied with screen dumps (and links to
in-depth reviews too) at
http://www.astrosurf.com/lombry/qsl-review-propagation-software.htm
More to come.

Due to the number of reviews, very soon the document will be split and the
layout improved as well.

Amateur Radio Newsline™ Report 1410 - August 20, 2004

Amateur Radio Newsline report number 1410 with a release date of
Friday,
August 20th, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. Ham radio is ready as Hurricane Charley
comes
ashore. Find out the details on Amateur Radio Newsline report number
1410 coming your way right now.

(Billboard Cart Here)

**

RESCUE RADIO: HAM RADIO AND HURRICANE CHARLEY

Packing 145-mile per hour winds Hurricane Charley slammed into west-
central Florida, ravaging oceanfront homes and trailer parks, tearing
apart small planes and inundating the coast. More than a half million
customers were left without power or telephone service statewide.
Damage
was especially heavy in downtown Punta Gorda on Charlotte Harbor.
Warren Elly, W1GUD, is a Tampa based TV reporter sent to cover the
aftermath of Charley coming on shore:

--

Audio report only. Hear it in mp3 audio in the current newscast
posted
at http://www.arnewsline.org/quincy

--

Warren's report was filed early Monday the 16th. Since then
President
George Bush has declared some sections of Florida as a major disaster
area. His brother, Florida Governor Jeb Bush, projected damage from
Charley could exceed 15 billion dollars, but that estimate was
preliminary. (ARNewsline(tm))

**

RESCUE RADIO RULES: FCC CLARIFIES EMERGENCY DECLARATIONS

The FCC has issued what amounts to a white paper to clarify the
rules
hams must follow when providing communications during an emergency.

Amateur Radio Newsline's Mark Abramowicz, NT3V, is here to sort it all
out:

--

With the hurricane season upon us and wildfires and other severe weather
hitting various parts of the nation, the Federal Communications
Commission believes now is the time for a clarification on Emergency
Communications Declarations.

What is an Emergency Communications Declaration or ECD?

When a natural disaster or accident interrupts or disrupts normal
communications systems in a particular area, the FCC - at the request of
emergency management officials or an amateur radio operator acting on
behalf of emergency officials - issues an Emergency Communications
Declaration.

Essentially, the order defines special conditions and special rules to
be followed by amateur radio stations providing service during the
communications emergency in that particular area.

The FCC says occasionally, it receives requests for Emergency
Communications Declarations before a hurricane or tropical storm hits.
The FCC says such requests generally arrive anywhere from 24 to 72 hours
in advance of weather predictions citing potential damage to a
particular area.

But under Section 97.401(a), emergency communications before an event
CAN be established to meet essential needs of a community or to help
prepare relief activities. The commission acknowledges preparations to
meet a disaster may overload or damage normal communications systems so
it allows amateur stations to make emergency transmissions at any time
prior to or even during a disaster.

In essence, the FCC says there's no need for an ECD because the actual
event disrupting communications has not occurred.

So, the FCC says such declarations WILL NOT be issued until AFTER the
disaster disrupts normal communications in a geographic area subject to
FCC regulation.

Speaking of emergencies, it doesn't necessarily have to be a weather-related incident, as we found on September 11, 2001. It can also be a transportation accident such as a railroad incident or a fire or explosion.

Whatever the emergency, once communications are disrupted, the FCC says
there are only two sources from which it will accept an application for
an ECD. The first is an emergency management official responsible for communications in the affected area. The second is an amateur radio operator acting at the request of an emergency management official.

The FCC says such applications must contain very specific information such as:

- The date the event has taken place.
- The nature of the disaster.
- A description of the communications system disrupted and a contact
person who can verify the damage.
- The geographic area affected - city, county, state or region.
- Listing of the VHF/UHF, MF or HF frequencies to be used during the
emergency.
- An estimated time the disruption of normal communications is expected to last.

The FCC says an Emergency Communications Declaration will contain an expiration date. However, the commission says that date can be extended
at the request of the emergency official or authorized party making the
original request.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

The FCC's Communications and Crisis Management Center is the place where
Emergency Communications Declaration requests are sent. You can reach
them by phone at 202-418-1122, that's 202-418-1122. FAX requests are handled at 202-418-2813, 202-418-2813. Or, you can make the filing by e-
mail to comm(hyphen)ctr@fcc.gov. (ARNewsline (tm))

**

EMERGING TECHNOLOGY: AUTOMATING EMERGENCY ALERTS

A new technology soon to debut in 12 states will significantly extend Amber alerts, reaching cell phones, e-mail and handheld computers. It could also be used to transmit weather and terrorism alerts.

According to news reports the system uses a simple broadcast technology that takes the information from a Web portal and reconfigures it for different types of broadcast. By way of example, a state department of transportation might receive it in one format for its road signs and another for its information number.

More important, people with cell phones can sign up to receive Amber alerts with their local county or with state authorities. The text of an alert can be sent immediately to local TV news stations and Web sites.

RADIO RULES: INTERNET LINKING IN THE UK

Telecommunications regulators are about to make ham radio internet linking a lot easier on the other side of the Atlantic. This, as Ofcom which is the U-K equivalent of our FCC issues new and more liberalized rules. RSGB news presenter Jeramy Boot, G4NJH, has more:

--

Ofcom has announced the decisions it has taken about changes to the procedure and terms of issuing Notices of Variation (NoV) for Internet Linking Gateways.

Ofcom proposes to pass the Internet-linking NoV process to the RSGB to issue NoVs on behalf of Ofcom. The RSGB will be announcing procedures for NoV renewal shortly and queries on the renewal process should be directed to the Society.

Ofcom's decisions were made following the notification of four proposals
which gave those holding an NoV the opportunity to make representations.

Jeramy Boot, G4NJH, in Nottingham.

--

For those interested the complete set of new U K Internet linking rules
is on line at http://tinyurl.com/4LE8P (GB2RS)

**

RADIO RULES: VANITY FEE REMINDER

Back here in the USA, a reminder from the FCC that the new Amateur Radio
vanity call sign fee of $20.80 for the 10-year license term became effective on Tuesday, August 10th. Not on Friday, August 6 as we and and others had announced.

The reason for the last minute change? A management-level staffer in the FCC's Office of Managing Director explained to the ARRL that the Commission was not necessarily bound by the August 6 effective date The
Federal Register indicates. That date was 30 days after publication of
the order containing the new fee schedule. (ARRL, FCC)

**

ENFORCEMENT: NO LICENSE - STAY OFF THE AIR

Meantime the FCC has written to a pair of unlicensed operators telling
them to stay off the air. The agency's Daryl Duckworth, NNZ0W, explains:

--

Duckworth: A warning notice went to Rick Shepherd of Crescent City, California for unlicensed operation on 146.515 MHz along the Oregon/California border aboard the fishing vessel Sunset.

David Shoemaker of Sebina, Ohio, also apparently not in the FCC Licensing Database was issued a warning notice for unlicensed operation
from a vehicle with license plates registered in his name. The transmissions were on 28.085 MHz near the intersection of I-71 and U.S.
36.

--

Shepherd and Shoemaker were both told that operation of radio transmitting equipment without a license is a violation of Section 301
of the Communications Act of 1934. They were also informed that continued operation could lead to fine or imprisonment, as well as seizure of any non-certified radio transmitting equipment that they own.
Monetary forfeitures for unlicensed operation normally range from $7,500
to $10,000. (FCC, RAIN)

**

RADIO RULINGS: FCC PERMITS SAN JOSE STATION TO BUILD SAN FRANSCISCO TRANSMITTER

The San Franscisco Chronicle reports that thousands of people in and around San Francisco will be able to watch NBC television over the air
again. This, courtesy of a Federal Communications Commission ruling on
Thursday, August 12th, that will let KNTV build a new transmitter to cover the area.

According to the news story, the San Jose based station will be permitted to construct a new transmitter atop San Bruno Mountain which
overlooks San Francisco. The station claims this site will reach 400,000 people who lost service when KNTV became the Bay Area's NBC affiliate in 2001. (FCC, San Franscisco Chronicle and other published
news stories)

**

NAMES IN THE NEWS: ANOTHER OPERATION FROM IRAQ

Even as the military action in Iraq continues another ham radio stAtion
has come on the air from that war torn region. This, word that Ryszard
Nowakowski, SP8HKT has been licensed to operate as YI9KT.

Ryszard will be there for five months. He uses a 100 watt radio into a
vertical antenna on all bands from 40 to 10 meters. He operates mostly
on C-W but will come onto SSB if you make the request. (GB2RS)

**

NAMES IN THE NEWS: NEW QCWA OFFICERS ELECTED

Former FCC rules man John B. Johnston, W3BE, is the new President of the

Quarter Century Wireless Association. Also elected are Vice-
President
Bob Roske, NOUF: Secretary Alan Pickering, KJ9N and Treasurer Frank
Harris, WA4PAM

Elected to serve as QCWA Directors are Tom Atkins, VE3CDM: Harold
Chase,
W1EES: Lew Gordon, K4VX: Jerrel Jones, W5TUU; Ray Minichello, W1BC:
Len
Nathanson, W8RC: Blanche Randles, W4GXZ, and Ed Yoder W3YMB.

Both Gordon and Nathanson are former Directors of the ARRL. 2307
QCWA
members returned ballots in this years election. (QCWA)

**

EVENTS: 2004 QCWA NATIONAL CONVENTION IN OTTAWA

And speaking about the QCWA. word that the organization will hold its
2004 international convention in Canada. The dates are October 15th
through the 17th at the Lord Elgin Hotel in Ottawa.

This years gathering is hosted by the National Capital Chapter 70.
More
information is on line at www.qcwa.org/2004convention.htm (QCWA)

ON THE NET: LINUX CONTINUES TO GROW

The use of the Linux operating system especially among experimenters
including ham radio operators is quietly growing. One in five
servers
sold last year to handle Internet traffic and corporate networks ran
on
Linux.

Observers say that the economic downturn may be responsible for the
Linux move. The Linux operating system was created as the people's
software, free and open for everyone to use in an attempt to thwart
the
commercialization of all Internet technology. Amateur radio was

among
tgher first to truly embrace it and may ham radio applications are
written for Linux based operation. (Published news reports)

HAM RADIO IN SPACE: NASA CELEBRATES ISS AT MARINA AIR FAIRE

Scott Avery, WA6LIE, reports over the AMSAT mailing list that NASA
will
have a booth set up at the Marina Air Faire in Marina, California
on
October 16th. Scott says that the plan is to make a live I-S-S voice
contact and to also have a video of Q-S-O's made with the space
station
playing for passers by to see. Scott adds that any help in getting
video files of school contacts with the I-S-S would be appreciated.
For
more information please contact him by e-mail to wa6lie@msn.com
(WA6LIE)

**

WORLDBEAT: LIGHTHOUSES OF AUSTRALIA 2004 ANNUAL DINNER WEEKEND

Turning to news from around the world, word that this year's
Lighthouses
of Australia Dinner will be held in Launceston, Tasmania Saturday,
October 2nd. The dinner will include a tour to the National Archives
Office Exhibition on Australian Lighthouses titled "Beacons by the
Sea."
Also scheduled is a visit to the Low Head Light and the Pilot Station
Maritime Museum also at Low Head the same weekend. (WIA News)

**

WORLDBEAT: RADIO CLUB GETS GRANT TO TEACH THE HOBBY

The Thornton-Cleveleys Amateur Radio Society in the United Kingdom
has
recently received a grant of close to 5,000 British Pounds. This, to
help in the promotion of amateur radio. Over the past two and a half
years the club has held 18 examination classes with 150 passing the U-
K
Foundation class ham radio license exam. (GB2RS)

**

WORLDBEAT: GB4WTA COMMEMORATING THE UK WIRELESS TELEGRAPHY ACT

GB2RS reports that Ted Moore, G7AIR, and members of the Eddystone
Users
Group will operate as GB4WTA on Sundays and some Saturdays through
the

28th of August. The station commemorates the centenary of the United Kingdoms Wireless Telegraphy Act, which came into effect on the 15th of
August 1904. GB4WTA will operate from Wireless Hill in the Rutland area. (GB2RS)

**

DX

In D-X word that K4QD will be QRV August 16 to 27 portable HH4 from. This, from the Northwest Christian Mission in Haiti. Activity will be
on most H-F bands plus 6 meters, using CW and SSB as time permits. QSL
to his home call. (K5SW via VHF Reflector)

And GB6LOP is a special events station that will take to the air to celebrate the 60th Anniversary of the Liberation of Paris during Word War 2. The station will operate on all modes, starting August 25th and
will be on for 4 weeks. Your QSL card will be required beforehand in order to receive the special QSL from this station. Please QSL via RSARS
QSL Bureau. For further information contact G0SWY by e-mail to G0SWY@aol.com (G0SWY)

And also listen for HS7-B on from Thailand. This special event call sign has been issued to celebrate the Queen's 72nd birthday. The call sign will be in use during any SEA NET activities. QSL via operators' instructions. (RSGB)

**

THAT FINAL ITEM: THE BIG T-HUNT: HOW THE U.S. NAVY KEEPS TRACK OF EARTH
ORBITING SATELLITES

The U.S. Navy has built an exotic radar system to track earth orbiting
satellites, and the system has been in place for many years. Now, thanks to a couple of sleuths, details of the Navy's system have been posted on the web. Amateur Radio Newsline's Bruce Tennant, K6PZW, has
the details:

--

The Navy's satellite tracking system appears to consist of multiple transmit and receive sites across the U.S., and one of the receive sites
just happens to be located in San Diego County a few miles north of Brown Field. This, according to web-published coordinate data as

reported in the CGC Communicator broadcast industry newsletter.

And if think UHF moon bounce antennas have gain, wait until you see the
giant array built near Lake Kickapoo, Texas. This two mile long antenna
transmits continuously on 216.98 Mhz with an unmodulated carrier and has
a beamwidth of only 0.02 degrees in one plane. So powerful is the
transmitted signal that when the moon passes through the beam, the
return echo is said to be detectable on earth with only a dipole antenna
attached to a receiver. Talk about the ultimate E-M-E.

For the Amateur Radio Newsline, Im Bruice Tennant, K6PZW, in Los
Angeles.

--

If all this is fascinating and you want to learn more, take your web
browser over to:
http://www.gate.net/~tomk/navspasur/navspasur5.html
and
http://www.jump.net/~crossley/NAVSPASUR/index.html (CGC)

**

NEWSCAST CLOSE

ALL POINTS BULLETIN: ARSONIST BURNS DOWN HAMS HOUSE

An arsonist with a grudge against radio has burned down the home of a Vancouver, Washington ham. Amateur Radio Newslines' Mark Abramowicz,
NT3V, has the details:

--

A $10,000 reward is posted and the Clark County Fire Marshal's office is tracking any and all leads it hopes help them capture someone who has been setting fire to communications towers in the Vancouver area since the beginning of the month.

Until recently, investigators say the targets have primarily been state government, telephone company and cellular telephone towers. But it was an Aug. 20 fire at the home of John Stein AB7F that now has alarmed the ham radio community in Vancouver.

The fire marshal's office says Stein's amateur radio tower was apparently targeted. It believes the fire was set at the base and spread upward along the feed line. Flames fell from the melting cables and spread to Stein's home.

Fortunately, authorities say, Stein was awake when the fire broke out about 11:30 p.m., got out, called 9-1-1 and tried to get a start on putting the fire with a garden hose. But the fire took off quickly and, unfortunately, the home sustained extensive damage in excess of $50,000.

The fire marshal's office says Stein told them he spotted somone running away from his home and he gave them a description.

Clark County Deputy Fire Marshal John Dunaway is leading the investigation into the communication tower fires.

At this point, the fire marshal's office will confirm basic details about the fires. But the fire marshal's office says there is certain information it cannot release at this time because it doesn't want to jeopardize the case it hopes to eventually bring against the arsonist.

Stein's home was not far from the fires at the other communications towers, the most spectacular of them on a more than 200-foot tall tower in Vancouver. That's shared by the Washington State Patrol and the Washington State Department of Transportation headquarters.

Officials say while the state patrol's communications in Clark County were disrupted by the fire, 9-1-1 communications were not affected. Damage in that fire was estimated at more than $100,000.

That blaze prompted the $10,000 reward offer from a foundation. Ham operators in the Vancouver area are very concerned and fear anyone with a tower could become the next victim. They've been transmitting word about what's been happening via repeater, HF radio and the internet across the region. They're urging hams with towers to be especially vigilant and take precautions to protect their feedlines, but more importantly their homes and their lives.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

There is general agreement that this anti radio fire bug has to be stopped before someone to loose their life in one of his blazes. If any one has information regarding these fires or the person setting them please call the Crime Information Tip Line at 877 - 274 - 6311 or the Clark County Washington Fire Marshal's Office at area code 360 - 397 - 2186 and ask for extension 3396. You may remain anonymous on either line. (ARNewsline ™, CGC, others)

**

ENFORCEMENT: FCC WARNS NEIGHBOR OF HAM OVER INTERFERENCE

A neighbor of a ham radio operator who refuses to clean up interference he is causing could now face a stiff fine. The FCC'as
Daryl Duckworth, NN0W, says that the agency is giving the neighbor one last chance to comply:

--

Duckworth: "A follow-up warning letter went to a resident in Friendwood, Texas, concerning interference to William Cooper, W5ZAF, from a battery charger. The amateur had supplied ferrite beads earlier to the resident which did solve the problem. Evidently, the

resident changed his mind and tossed the ferrites back over the fence."

--

The FCC says that if the interference is not corrected by September 15th, it will have its Field Office investigate the matter and possibly issue the uncooperative neighbor a hefty fine. It also suggested that he consult an attorney regarding the FCC rules that control radiation from unlicensed devices like the battery charger that's causing the problem to the ham next door. (FCC, RAIN)

**

THE BPL FIGHT: ARRL ASKS FCC TO CLOSE DOWN AZ. BPL TEST

Some important developments on the B-P-L front. First to Arizona where the ARRL is calling on the FCC to immediately shut down a Broadband Over Powerline field trial in the Cottonwood. This, because it's causing severe interference to Amateur Radio communication in the area.

The ARRL Letter says that Electric Broadband LLC and utility A-P-S have been operating the B-P-L experiment at two sites since June under a Special Temporary Authorization the FCC granted Electric Broadband in March. Michael Kinney, KU7W, filed the first Amateur Radio complaint in June. It cited testing by the Verde Valley Amateur Radio Association in the 1.8-30 MHz range to show that B-P-L interference made attempts at ham radio communication useless. The interference on typical Amateur Radio equipment shows received undesired signal levels in excess of 60 dB over S9.

According to the ARRL, both the utility and Electric Broadband were contacted, and no response was received. The ARRL says that both companies are aware that the B-P-L field trial has been causing harmful interference and neither has taken any steps to either resolve it or terminate the test. (ARRL)

**

THE BPL FIGHT: BAD NEWS FROM DOWN UNDER

Meantime, Broadband Over Powerline and its introduction in Australia has that nations hams on the alert. This, because little has been known about what has been occurring behind the scenes as power companies prepare to adopt the B-P-L technology and the Australian Communications Agency considers rules to govern it. Now, WIA Newsman Jim Linton, V-K-3-P-C has uncovered an almost terrifying development. One that could mean the end of H-F operations down-under for many V-K hams.

--

The future introduction of Broadband Powerline Communications (BPL) in Australia could be on the condition that "less significant" HF radio users such as radio amateurs and four wheel driver clubs would not be protected from any interference it causes.

The Australian power industry has a real concern about the added expense required to address interference that could affect amateur radio stations and other recreational radio users. Its arguments include that to remove amateur radio frequencies from a BPL system will add cost and reduce the capacity and potential data rate. The power industry is requesting that the Australian Communications Authority (ACA) outweigh the concerns of recreational or "less significant" HF radio users with the higher community benefit of providing greater access to broadband-enabling technology.

The ACA, in response to the power industry concerns, is now examining the legal possibility of allowing BPL networks to cause substantial interference to "less significant" radio services, while other radio services would continue to be entitled to interference protection. Presumably if this becomes reality the Amateur Service could lose its protection against harmful powerline interference too. After all, were are in the eyes of some just a "less significant" radio service.

This has been Jim Linton VK3PC for WIA National News.

--

If this does happen it could mean a lot fewer V-K callsigns will be heard on the Hiugh Frequency and low VHF bands. (WIA News)

RESTRUCTURING: ARRL PROPOSES BANDWIDTH DEFINED HAM SERVICE

The ARRL has released a synopsis of its petition to the FCC aimed at restructuring the Amateur service along bandwidth defined lines. While what has been made public is highly abreviated, a drafted, the ARRL's bandwidth petition would preserve double-sideband AM and would stop short of opening the phone bands to digital and other modes of the same bandwidth.

The ARRL's petition also proposes to limit bandwidth in the CW subbands to 200 Hz, which also will accommodate data modes such as PSK31. It also suggests to limit bandwidth in the

existing "RTTY/data subbands" to either 500 Hz or 3 kHz, with phone emissions specifically prohibited in certain subbands where 3 kHz would be permitted.

Obviously this will be an ongoing story. More on this next week as reaction comers in. (ARRL)

**

HAM RADIO IN SPACE: HURRICANE CHARLEY WRECKS AMSAT LAB

Hurricane Charlie has also taken its toll on the Amateur Radio space program. This, with word that the storm destroyed the building housing the lab used to assemble the latest series of ham radio satellites.

Hurricane Charlie hit Orlando, Florida at about 8 p m Eastern on Friday, August 13th packing sustained winds estimated at close to 100 miles per hour. One of the places sustaining damage was Orlando Executive Airport. This was home of the AMSAT Laboratory. The place where ham radio satellites have been assembled and tested prior to launch.

Rick Hambly, W2GPS, reports that AMSAT members in the area survived with relatively minor damage but the building that houses that AMSAT Lab suffered severe structural damage from Charley's onslaught.
It
has now been condemned and will have to be torn down.

W2GPS says that the equipment and parts inventory at the lab are in good shape but AMSAT was given less than two weeks to move out and find temporary storage for its equipment. The Amateur Radio space agency also must begin a search for a new building to support development of the Eagle ham radio satellite and future projects.

Complicating matters is that AMSAT's insurance does not cover the costs of temporary storage or of moving to a new facility. So, they are asking the Amateur Radio community to keep ham radio space projects alive by sending a donation to AMSAT's Hurricane Fund. Hambly says that the money collected will be used to get the lab back in operation as soon as possible.

AMSAT North America is a federally charted 501(c)(3)not for profit organization. Any donation should be tax deductible in the United States. Information on the fund and how to donate is in cyberspace at www.amsat.org. (AMSAT-NA, W2GPS, W5DID)

**
RESCUE RADIO: RADIO STATIONS GET PRAISE IN CHARLEY AFTERMATH

Broadcasters in Florida have been getting involved as the clean-up following Hurricane Charley. One has taken on being the voice of the storm ravaged area.

According to the CGC Communicator, FM radio station Seaview-104.9 in Punta Gorda, Florida and four of its sister stations are all owned by Clear Channel Communications. Seaview-104.9's studios were damaged and the station was knocked off the air by Hurricane Charley, but service was restored within hours. According to a report in the St. Petersburg Times, once the storm had passed, General Manager Mike Moody returned to the building housing his station. The roof was shredded and the ceiling collapsed. But one studio, no bigger than a walk-in closet, was in working order.

Moody said that there was no power but using a generator he got the studio on the air. He also found a phone outlet reserved for a FAX machine operating so he plugged in a phone, put the receiver to the microphone and then let callers unravel their tales of storm survival.

The studio is the only one based in Charlotte County. Because of this it has become a lifeline for residents searching for information to help them cope with the storm's aftermath and listeners like Ron Hall, KP2N, have rallied around the station in support of its vital post storm activities. (CGC)

**

RESCUE RADIO: UK GROUP ACTIVATES FOR FLOODS

Meantime, over in the U-K, a ham radio emergency communications unit was activated. This, after severe rains caused flooding near the town of Boscastle. Jeramy Boot, G4NJH, is in Nottingham with more:

--

Cornwall Raynet Groups were put on standby by their Emergency Planning Unit on the evening of Monday, 16th August, following communications difficulties resulting from the massive flooding at Boscastle. Eleven volunteers were available to proceed to the emergency, but were stood down later as the communications difficulties had been resolved.

Jeramy Boot, G4NJH

--

For those not aware, RASYNET is the U-K equivalent of ARES and RACES here in the U-S-A. (GB2RS)

**

HAM RADIO ON THE NET: MORE CHANGES AT QRZ.COM

More changes have come to the QRZ.com super site. This, as its owner Fred Lloyd, AA7BQ, announces some policy changes regarding the callsigns that are listed in the QRZ Callsign database.

--

According to QRZ's Lloyd, the site will no longer accept callsign designators, prefixed or suffixed, as independent callsigns. This would include reciprocal calls such G 3 slash K6PZW -- a call I might be assigned if I were visiting England.

Lloyd says that these listings were problematic for both the QRZ website and the QRZ CD ROM, and they were of questionable value to begin with. As of the latest software update, the server will no longer accept or record such entries. The logic is that anybody wanting to contact the callsign holder could just as easily look them up by their primary callsign.

Also gone will be non ham call signs such as those self issued by individual SWL's, Weather watchers, and others. Lloyd says that Q-R-
Zed will continue to accept SWL listings as long as they are issued by a formal body, and so long as they have an alphanumeric format. But Lloyd says that an SWL callsign cannot be a primary login account name to a website that manages amateur radio callsigns.

The bottom line: Non-amateur callsigns will continue to be excluded from the QRZ CD ROM and will take last priority with server management resource. In other words, they will be listed on a time and space available basis, only.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, reporting.

--

These changes are in addition to the posting policy changes that Lloyd announced two weeks ago. (QRZ.com)

**

RADIO LAW: SENATE WARNING ON CABLE RATES

The Senate says that it will consider new regulations for cable television unless the industry addresses soaring prices and allows consumers more channel choices. Members of the Senate Commerce Committee said pressure from angry constituents is leading them to look at ways to hold down cable rates and let subscribers choose individual channels rather than packages set by operators.

Since Congress deregulated the industry in 1996, cable rates have increased by 53 percent while inflation has risen 19 percent. Cable operators said the jump reflected higher programming costs, more channels and system improvements such as rewiring to provide digital TV. (Published reports)

**

RADIO LAW: BETTER CELLULAR SERVICE

The government says wireless companies are doing a better job of switching customers who want to keep their cell phone number. In the first month after the change took effect, the Federal Communications Commission received 24-hundred complaints. Most were from people who said the transfers were taking too long. In the past month, the number of complaints has fallen to 400. Customers have had the option of keeping their phone numbers when they switch to a new carrier since November. (Science OnLine)

**

EMERGING TECHNOLOGY: PERSONALIZED PHONE MUSIC SERVICE FROM SONY

Meantime Sony Corporation has announced what it called the first personalized radio service for mobile phones. Under the still-unnamed music streaming service, subscribers would not own any of the songs but could create a customized channel to listen to the music they want, storing favorite tunes in personal playlists. Users would also be able to listen to music from a collection of predefined channels. A "smart personalization" feature could also keep track of the subscriber's music preferences and make song suggestions. (Sony)

**

THE SOCIAL CIRCUIT: TENNESSEE IN AUGUST

Turning to the ham radio social calendar, word that Tennessee's Short Mountain Repeater Club will be sponsoring the Cedars of Lebanon Hamfest on August 28th. This, at the Gladville Community Center in the town of Gladville Look for vendors, a large tail gate sales area and lots more. For more information e-mail keharris@netc.com or take your web browser to www.qsl.net/smrc (E-mail)

**

THE SOCIAL SCENE: LIGHTHOUSES OF AUSTRALIA 2004 ANNUAL DINNER WEEKEND

And if you want to travel a bit, this year's Lighthouses of Australia Dinner will be held in Launceston, Tasmania on Saturday, October 2d. The event will include a trip to the National Archives Office Touring Exhibition on Australian Lighthouses known as "Beacons by the Sea." It will also include visits to the Low Head Light and the Pilot Station Maritime Museum also at Low Head the same weekend. (GB2RS)

**

THE SOCIAL CIRCUIT: GERMAN VHF CONVENTION HAS NEW DATE

And from Europe word that Germany's Weinheim VHF Convention, which
had originally been scheduled for August 28th and 29th will now take place on 11th and 12th of September. The new venue is Bensheim which is 10 kilometers north of Weinheim. Full details are on the web at

www.ukwtagung.de (DARC)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United
States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

WORLDBEAT: CB SPECTRUM SHARING IN THE UK

There may soon be some new sounds on 27 MHz C-B in the United Kingdom, and they won't be saying 10-4 Good Buddy. In fact they may
be very formal sounding. This, as British telecommunications regulator Ofcom proposes to allow local religious and community organizations to operate one-way low power broadcast stations within the U-K Citizens' Band allocation. Our producer, Bill Pasternak, WA6ITF, has more:

--

No. Its not a joke. And Great Britain's Office of Communications --
Ofcom -- says that this is how the new shared C-B service will work.

At first a small number of organizations will be licensed to transmit religious services in a limited number of pilot areas. These would be called Community Audio Distribution Systems or C-A-D-S. Their specific purpose will be to allow house-bound religious congregation members -- people unable to travel to a house of worship but who wish to hear local religious community services -- the ability to do so.

If proven effective, Community Audio Distribution Systems would be expanded as a short-range and inexpensive wireless public address systems. The U-K radio regulator says evidence of demand for such arrangements has arisen primarily from within religious communities and this is where Ofcom expects the majority of use to be. But its not making this a religious-only radio service. In fact it is encouraging other community groups could also use the system for other similar purposes.

To test these plans, Ofcom is proposing a closely monitored year-long pilot program in the areas where interest has been most widespread and sustained. This includes West Yorkshire in England and all of

Northern Ireland. In those regions C-A-D-S users will share spectrum with the Citizens' Band users in a way that Ofcom says will provide the flexibility required to transmit religious and community service material while protecting other spectrum users from harmful interference. At least it will try its best to do so.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, reporting.

--

Can something similar happen here in the U-S-A. Not likely. At least not very soon. C-B is still to crowded, unruly and unstructured a band to effectively share. But it is expected that other administrations world-wide will be watching this United Kingdom C-B sharing experiment with an eye to introducing similar services in their nations as well. (RSGB)

**

WORLDBEAT: BIG VHF TECH SYMPOSIUM DOWN-UNDER

The Wireless Institute of Australia's Central Region is holding a Technical Symposium Saturday October 2nd. Rex Moncur VK7MO will discuss Digital enhancement of VHF signals, Doug Mc Arthur VK3UM EME Techniques, Joe Kasser VK5WU Computers for Amateur Radio and David Giles VK5DG will explain that Amateur Satellites are really only high tech repeaters on orbit. The venue is the Modbury Heights School with talk-in on 148.850 MHz. (WIA News)

**

HAM RADIO IN SPACE: INDIA'S HAMSAT READIED FOR LAUNCH

A Dutch student is helping India put its first Amateur Radio satellite in orbit. Willian Lijenaar, who has graduated as an electronics engineer, has provided a transponder to the satellite.

According to the W-I-A News, the Indian project is called HamSat and is scheduled for launch in four or five months. Reportedly, the coordinator of HamSat had asked the young Dutch engineer to design and build the transponder. Along with Lijenaar's unit an Indian built transponder will be part of new bird as well. (WIA News)

**

RADIO SCIENCE: NASA TO SAVE HUBBLE

NASA has decided to try to save the orbiting Hubble Space Telescope. Possibly by sending a Canadian made robot to fix it.

Nasa Administrator Sean O'Keefe told researchers at the agency's Goddard Space Flight Center in Maryland about the plan. He also has instructed engineers to begin work to put the robotic mission into orbit by 2007. (NASA)

**

DXCC: SOMALIA NOW ACREDITED

Some good news for D-Xers. Effective immediately, the ARRL DXCC Branch will accept QSL cards for operations taking place in Somalia using the 6O / T5 prefix and suffix. This includes the Somaliland which is north-western Somalia and Puntland in north-eastern Somalia. These are autonomous areas but will be accepted along with the southern and central areas of that nation.

The DXCC will also accredit operations possessing written permission from any recognized authority that is acknowledged to be in control of a particular region of Somalia. All cards will count for the Somali Democratic Republic. And says the DXCC, QSL's for past operations will be accepted where proper documentation has been submitted.

Of coarse this is subject to change based on future developments in Somalia. We quill have more D-X news a bit later on. (ARRL, GB2RS)

**

DX

In D-X, word that Kris Partridge, G8AUU, is working in Baghdad and has received the callsign YI9AU. Kris is reported to be active on the High Frequency bands using 100 watts to a long wire but hopes to improve his antennas soon. He is also hoping to become active on Echolink and says that he be in Iraq until early or mid-September.

And G0JMU is again active from Malawi as 7Q7HB. Reports say that he will be there until at least the 22nd of September.

Also, news that 5B4AFM will operate as J42004A from Skopelos and Athens through the 1st September. The island of Skopelos counts as EU-072 for the RSGB Islands on the Air award program.

Lastly listen for the Cook Islands to be on 6 meters with a better signal in coming weeks. This as KC5YKX reports over the VHF Reflector that he has shipped a 5 element beam there for ZK1CG to use. ZK1CG should be on the Magic Band as soon as the antenna arrives. QSL all of these operators in these stories as directed on the air.

(All aboveDX from various DX sources)

**

THAT FINAL ITEM: ECHO - THE TONE ACCESS HAM RADIO SATELLITE

And finally this week a rhetorical question. Why use continuous tone coded squelch access to talk through a ham radio satellite? AMSAT says that there are several very good reasons and Amateur Radio Newsline's Norm Seeley, KI7UP, has them in this report:

--

Continuous tone coded squelch is better known in ham radio circles under its Motorola trade name of P-L or Private Line. And AMSAT says that there are several good reasons to use it on the new Echo ham radio satellite.

First, and simply, is on orbit power management. The ability to minimize the amount of power used by the satellite.

Recent data collection shows that on average, Echo's tone access FM repeater transponder is on for less than 40% of an orbit. There are orbits where that number is as high as 65%, but the average is below 40%. That means the satellite is conserving over 60% of the power that would have been consumed by the transmitter if it were being keyed up by every random signal passing through its receiver. Since you cannot easily change rechargeable batteries on a satellite like you can on a terrestrial H-T, power management is crucial to the long term stability of Echo or any man made satellite.

The second reason kind of tag's onto the first. Its the idea of minimizing the three letters dreaded by hams world wide: Q-R-M.

In the tone access mode Echo does not have to listen to other traffic on the Amateur bands or any other signal not intended for the satellite to relay. While the satellite still has to compete with these R-F sources to capture the receiver, they are not retransmitted downlink. This means you do not have to listen to taxi cabs being dispatched in some third-world nations where the V-H-F Amateur bands have more business going on than ham radio contacts being made. A problem that the world wide Intruder Watch program has been fighting for years.

Yet another reason for tone access on Echo. By closing the audio path when no access tone is present the ground based user hears a short unmodulated carrier for the duration of the squelch tail. This can be used as a good measure of how well you are actually hearing the satellite.

Without tone access filtering, uplink band noise is heard. And, any ham who has heard a carrier access repeater where the squelch is open knows what that sounds like. Amplified noise that is sometimes difficult to differentiate from the actual band noise. In the case of a ham radio satellite it means not knowing if you are hearing the bird at all.

For the Amateur Radio Newsline, I'm Norm Seeley, KI7UP, in Scottsdale, Arizona.

--

After Echo's launch there was talk on some terrestrial repeaters that
AMSAT had put a private P-L repeater in space. This is far from the

case. Without tone access, the lifespan of Echo would be significantly reduced and fewer hams would have their chance to make contacts through it. (ANS)

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's W-I-A News, that's all from the Amateur Radio Newsline(tm). Our e-mail address is newsline @arnewsline.org. More information is available at Amateur Radio Newsline's(tm) only official website located at www.arnewsline.org. You can also write to us or support us at Amateur Radio Newsline(tm), P.O. Box 660937, Arcadia, California 91066.

For now, with Bill Pasternak, WA6ITF, at the editors desk, I'm Don
Wilbanks, AE5DW, saying 73 and we thank you for listening." Amateur Radio Newsline(tm) is Copyright 2004. All rights reserved.

With apologies to Scott Adams, it has become obvious that amateur radio has three distinct classes of people, each with its own evolutionary destiny:

1) Knowledgeable and Deserving DXers who will evolve into godlike non-corporeal beings who rule the universe (except those who are attached to a DXcluster under a club call sign). These are called "Hard Core".

2) DXers who try to pass as Knowledgeable and Deserving but secretly monitor 14.247 for new-new-1's. This group will gravitate toward jobs as elementary school principals and operators of pet crematoriums. Eventually they will become extinct.

3) Non-DXers who will grow tails, sit in zoos and fling dung at tourists while screaming GOOD ONE! GOOD ONE! UP! UP!

SPECIAL NOTE FROM EDITOR (KB8NW): SSSSSHHHH!!!!!!! You did not hear this from me. My wife Linda (OPDX's Chief-Proof Reader) has a birthday today (August 30th) and hits the "BIG FIVE O" (50th). I still think she looks like 29. Birthday wishes can be sent to: lmsm54@hotmail.com
Remember, you did not hear this from me. (I will deny it!)

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 22nd/August, through Sunday, 29th/August there were 216 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4X, 5A, 5B, 5N, 5R, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J5, J6, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZF, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

135th HPM BIRTHDAY ANNIVERSARY. Many stations will be active on the air to help celebrate the 135th birthday anniversary of the League's co-founder and first president Hiram Percy Maxim, W1AW, who was born September 2, 1869. Look for ARRL Life members and League's elected and appointed volunteers and officials to append /135 to their callsigns. The HPM/135 event begins at 0000z on Thursday, September 2nd, and concludes at 2400z on Sunday, September 12th. To find out if you are eligible to sign /135, please see September's QST (page 40) or visit the following Web page for details at: http://www.arrl.org/qst/2004/09/field-positions-135.html
The Maxim Memorial Station W1AW will be on the air for the 135th birthday anniversary event. While W1AW has been appending "/90" to its callsign to mark the ARRL's 90th anniversary, it will go with the /135 identifier during the birthday celebration period. A certificate is available by working at least 25 HPM/135 stations and submitting a log extract including date, time, band, callsign worked and exchange for each /135 contact. This certificate is endorsable in increments of 25 contacts up to a maximum of 100. Details are also available on the above mentioned Web site and QST.

3D2, FIJI. Mark, KM6HB (ZK1AHB) will be active as 3D2HB from Viti Levu (OC-016) from August 30th to September 7th. Activity will be on 40-6 meters with 30 meters RTTY as a priority. Operations will only be 100 watts into a vertical. QSL via his home callsign direct or by the Bureau.

4S, SRI LANKA. Masa, JQ3DUE/4S7DUG, will lead a group of Japanese operators to Sri Lanka between September 18-23rd. Activity will be on 160-6 meters with emphasis on the lower bands. They plan to have four stations active all day long. QSL via operator's instructions.

5U7DX IS NOW QRT. QSL Manager Dennis, PA7FM, informs OPDX that after just 8 days of operations with almost 1000 QSOs made in his spare time, Michael, PA5M, is now in Mali (TZ). He will try to get a licence, although chances look small that he will get one in the short term. On the 16th of September Michael will go to Ghana (9G). A licence there shouldn't be a problem. In the meantime, Dennis states that the design for the 5U7DX QSL is almost ready to go to the printer (full color photo QSL again). The final logs for 5U7DX are on: http://www.pa7fm.nl

5X, UGANDA. Graham, 5X1GS, was pretty active over the past weekend on 20/15 meters SSB. Watch around on 14156 kHz after 2000z and 21215 kHz after 1230z. QSL via WB2YQH.

7X2ARA CQWW CW CONTEST STORY. Con, DF4SA, reports, "Since the CQ magazine with the CQWW CW results is out, I have received several E-mails regarding my operation from 7X2ARA in the 2003 CQWW CW Contest. For those who like reading the long story and see some pictures, have a look at my website. You will find the 7X2ARA story PDF file among others at:
http://www.qsl.net/df4sa/dxped.htm
It's more like a traveling story, not only a contest story. Once again thanks to the 7X hams for making this adventure come true.."

9U, BURUNDI. Pierre-Marie, F6FLN/HB9DTM, is in Bujumbura for two months with the United Nations High Commission for Refugees (UNHCR). He has gotten

his licence (9U6PM) valid through next February. He has a TS450 and will be active on SSB. However, he is waiting for his keyer to be sent to him. His activity over the past week has been on 15/12/10 meters between 0800 and 1530z. Watch around or on 21242, 21270, 24948 and 28505 kHz.

9Y, TRINIDAD AND TOBAGO. Bernd "Ben", DL6FBL, will be active as 9Y4ZC during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/ High-Power entry. QSL via DL6FBL. He will use two Tribanders, a 2-element 40m beam and verticals for 80/160m. For updates, watch his Web page at: http://www.dl6fbl.de/9y4zc

A5, BHUTAN. A group of French operators from the Clipperton DX Club (CDXC) that include Gerard/F2VX, Jean-Louis/F9DK, Vincent/G0LMX and Alain/F5LMJ will in Thimphu from October 24th to November 11th. During the 1st week from Thimphu they will participate in the CQWW SSB Contest and after that they will move to Jakar for building a new club station. All QSLs are via F9DK and all QSOs will be confirmed via the bureau.

A NEW AWARD FROM BARTG! The Britis Amateur Radio Teledata Group (BARTG) is pleased to annouce the last in its series of continental awards. The OCEANIA award completes the continental awards from BARTG. The award is available in three classes: Class 3 is for 10 countries; Class 2 is for 25 countries; and Class 1 is for 45 countries. The claim can be endorsed as ALL RTTY, or ALL PSK, or can be mixed digital modes. You can also claim single band or mixed bands. There are three methods of claiming: 1) Submit the relevant QSL cards. 2) Submit a list of countries worked, endorsed by TWO officials of a recognized club or organisation. 3) For countries worked in one of the BARTG RTTY contests. Awards cost £6.00, USD 10.00, or 10 Euros. For the full rules, please see the awards pages on:
http://www.bartg.demon.co.uk
Applications should be sent to Phil Cooper, GU0SUP. Queries can be E-mailed to: pcooper@guernsey.net

C5, THE GAMBIA. Jef, ON4ACA, will be active from here for 2 weeks starting October 27th. His callsign was not provided, but his activity will be on all bands (possibly 160/80m) CW/SSB and a Single-Op/Single-Band (20m) entry in the CQ WW DX SSB Contest (October 30-31st). QSL via ON4ACA.

DXCC NEWS.....
Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit: OJ0J - Market Reef July 1-4, 2004

WORD THROUGH THE GRAPE VINE (InterNet Mailing Lists) states the following have and have not been accepted for DXCC:
HP1/DJ7AA is NOT BEING ACCEPTED for DXCC by the ARRL due to the lack of documentation.
FO/ON4AXU operation IS BEING ACCEPTED for DXCC.

FM, MARTINIQUE. Laurent, F5MUX, will return here for the next CQWW SSB Contest (October 30-31st) as a Single-Op/All-Band entry. He hopes to get his previous callsign as FM2GO, if not he will get a TO prefix. QSL via F5MUX, QSL Bureau or direct to his new address: P.O. Box 42, 29950 BENODET

Cedex, FRANCE.

FW, WALLIS AND FUTUNA ISLANDS (Also 3D2). Nob/JA7OV and Hiro/JA7AQR will operate as FW7OV and FW7AQR, respectively, from Wallis Island (OC-054) between October 9-15th. They will be active on 40-10 meters SSB and RTTY with a 15 meter 2 element Yagi and multiband dipoles with 100 watts. They state, "Sorry there will be no CW activities." One or two days before and after their FW operation, they will be operating as 3D2TY (JA7OV) and 3D2YT (JA7AQR) from Fuji. QSL to their home callsigns via the bureau or direct to the following addresses:
JA7OV - Yoshinobu Takahashi, 4-9-36 Emata, Yamagata, 990-0861 JAPAN
JA7AQR - Yoshihiro Tanaka, 1-10-6 Minamihara, Yamagata, 990-2413 JAPAN

IOTA NEWS.....
AS-134. After 4 years of silence, the Hebei/Tianjin Province Group will be activated by Fan Bin, BA1RB, from September 18-20th, as BA1RB/3. Activity will be on 20-10 meters including the WARC bands. Modes will include RTTY and PSK31. Operations will be 40-48 hours depending on the weather and tide conditions. Antennas will be two sets of 2 element yagis (for 20-10 meters. w/WARC bands), a vertical and dipole. BA1RB's planned schedule (may vary due to propagation) is:

Local Time	Band
Evening, 18th	17m
Morning, 19th	12m and 10m
Evening, 19th	20m
Morning, 20th	15m

ADDED NOTE: If possible, they may test 160/80m at sunset.
QSL via EA7FTR.

AS-173. NOW QRT! Raman, VU3DJQ, who received permission to operate as AT0RI from Rameswaram on Pamban Island in the Tamil Nadu State South Group (India), has gone QRT earlier than planned on August 28th. QSL via: P.O. Box 6073, Bangalore 560060, India.

EU-054. Alberto, IT9MRM, will be active as IF9/IT9MRM from Favignana Island (IIA TP-001, MIA MI-025), September 7th from 0900-1700z. Activity will be from Punta Sottile Lighthouse (ARLHS ITA-145 and WAIL SI-024) on 40/20 meters SSB. QSL direct or via the bureau.

EU-124. Look for the Barry Amateur Radio Society to activate GB5FI from Flatholm Island now through and September 1st. QSL via GW0ANA, direct or by the bureau.

EU-136. Operators OE1CIQ, OE8YDQ and OE6CAG will be active from Krk Island (CI-046, MC-185) as 9A/homecall, September 7-11th. If the weather permits, they will also try to activate the following islands: Plavnik Mali Islet (EU-136, CI-225, MC-225), Kormati (EU-136, CI-178, MC-165) and Cres (EU-136, CI-012,

MC-056). QSL via operator's instructions.

NA-066. Tom, WA6WPG, will be operating from Santa Barbara Island (WLH-0258), September 25-26th. He will be using solar panels and 2 large batteries, and expects to be able to run 100 watts both days on 80-10 meters, CW/SSB. The callsign will be WA6WPG/P. QSL direct or by the Bureau via WA6WPG.

ILLW 2004 UPDATE/WRAP. Mike, GM4SUC, Organizer and Coordinator of the 2004 International Lighthouse/Lightship Weekend, states that there were over 360 stations active in 51 countries from lighthouses and lightships during the event. New countries were SV9, YB, GJ, OA and HB9. Overall most countries had the same number of stations as last year except Wales who went from 1 to 8 stations while the USA went from 72 to 45 stations. Next year's weekend will be from 0001 UTC on Saturday, 20th August until 2359 UTC on Sunday, 21st August 2005. Any comments on the weekend would be appreciated to either Kevin/VK2CE or Mike/GM4SUC.

JW, SVALBARD. Operators JW5NM, JW7FD and possibly others will be active as JW5E during the CQ WW DX SSB Contest (October 30-31st) as a Multi-Op/ Single-Transmitter entry. QSL via JW5NM. The groups Web page is: http://www.mamut.com/polarpost

KL7, ALASKA (Special Event). Now through September 6th, look for the special event station KL7AA from the Alaska State Fair. QSL via AC7DX with a SASE #10 envelope for a certificate. No postcard style please. No Bureau QSLs.

QSL INFO AND NEWS.....
QSL ROUTE CHANGE. The QSL route for FP/KT1J has changed effective immediately. K1WY is not the QSL Manager for this station at this time. Send your QSL requests for a contact with FP/KT1J to KT1J for all contacts. QSL direct (w/SASE) or by the Bureau.

LX5, LUXEMBOURG. Look for LX5A to be active in two upcoming contests:
CQWW RJ RTTY Contest (September 24-25th) - Operators LX1ER and LX1RQ.
QSL via the LX Bureau or LX1RQ.
ARRL 10m Contest (December 11-12th) - Entry mix mode (Multi/Single).
Operators are: KT8X (CW); LX1ER and LX1RQ (SSB).
QSL via the LX Bureau or LX1RQ.

R1, MALYJ VYSOTSKIIJ ISLAND (POSTPONED!). Reports indicate that the R1MVI operation scheduled for August 27-29th, has been postponed due to technical reasons. New dates are expected to be announced later.

RARE GRID TO BE ACTIVATED. Just a reminder! Look for Matt/KB8KNM and Dan/KB8UYZ to activate the rare Grid EN67 from Michigan's Keweenaw Peninsula as K8C on September 5th. For the county hunters, that's Keweenaw County. Activity will be on 80-2 meter SSB for just a one day operation. For more details refer to OPDX.671. QSL direct via Dan, KB8UYZ. All QSLs will be answered. A S.A.S.E. is appreciated, but not required.

SOUTH AMERICAN TRIP. Look for Tono, EA9CP, to activate a few South American countries over the next month and a half. His schedule is as follows:
Peru - Active from Punta Hermosa from September 9-15th. His callsign will be OA4/EA9CP.
Ecuador - Active from Quito from September 19-21st and October 3rd. He will be active as HC1/EA9CP or HC1CB.
Ecuador - Active from Isla San Cristobal (IOTA SA-004) from September 22nd to October 2nd.
Costa Rica - Active from San Jose from October 4-11th. His callsign will be TI1/EA9CP.
Colombia - Active from Isla San Andres (IOTA NA-033) from October 11-13th. His callsign will be HK0/EA9CP.

SPECIAL EVENT. Operators Jerome/F5ASD and Gerald/F4ASA will be active using the special callsign TM5BDM to commemorate the 90th anniversary of the First Battle of the River Marne (1914-2004) during the WWI, September 4-5th. Their QTH will be 40 km east of Paris Villeroy (Dpt 77), Charles Peguy Memorial. Activity will be on 80-10 meters using a TS-140 and FT-100 into a G5RV. QSL Manager is F5ASD; QSL direct or via the Bureau.

TA, TURKEY (IOTA Ops). Operators Thierry/F5SNY and Christian/F8BOD are in Turquie up to September 10th, and will be active as TA/homecall. They will try to activate some of Turkey's islands such as AS-115, AS-123 and AS-098 for the IOTA program.

TK, CORSICA. Christophe, F4DZY, will be active from here as TK/F4DZY from September 8-22nd. Activity will be on the HF bands on SSB. QSL via operator's instructions.

TX/C, CHESTERFIELD ISLAND (Update). The German group who plans to go here in October will be active on 160-6 meters CW/SSB/RTTY. Their callsign will not be announced before their operation. Operators will be Chris/DL5NAM, Jan/DJ8NK, Hawa/DK9KX, Dieter/DJ9ON, Dieter/DL3KDV and Heye/DJ9RR. Activity will begin on October 15th or 16th, and last for 8 days. For more info and pictures, please visit their Web page at: http://www.df3cb.com/chesterfield

V63, MICRONESIA. Kaz, JA0VSH, informs OPDX that he and wife Miyuki, JG0PBJ will be active from Micronesia as V63KZ and V63MP from September 17-26th. Activity will be SSB and CW on 160-10 meters. QSL via their home callsign. His NEW home address is as follows: Miyuki Maruyama / Kazuhide Maruyama, 1-25-49, Irima-cho, Chofu, Tokyo 182-0004 Japan.

V63, MICRONESIA. Sho, JA7HMZ, will be active as V63DX from Pohnpei (OC-010), October 29th through November 3rd. Activity will include a Single-Op/All-Band entry as V63B in the CQWW SSB Contest. QSL via JA7HMZ. ALL QSOs are OK via the ARRL/LoTW.

VP8, FALKLAND ISLANDS. The Group Tomball DX'ers (GTDX) has announced their second annual DXpedition. This year the group consisting of Cal White/WF5W, Keith Dutson/NM5G, Madison Jones/W5MJ and Paul Frantz/W5PF, will visit the Falkland Islands. They will arrive on Saturday, November 20th, and

leave on Saturday, December 4th. Activity will include an entry in the CQWW DX Contest as VP8WWW. During the rest of their stay the group will be active on all bands from 80-10 meters with the possibility of 6 meters depending on conditions. The WARC bands will be emphasized, and there will be activity on RTTY and PSK. Individual callsigns will be issued upon arrival in Stanley. QSL all callsigns via W5PF. The group will have two Kenwood TS-480HX tranceivers. Amplifiers are not permitted, so this will be a low power operation. Operation will be on or near the following frequencies:
CW - 3503/3523, 7003/7023, 10103, 14023, 18073, 21023, 24893, 28023, 50103
SSB - 3795, 7055, 14195/14260, 18145, 21295, 24945, 28480, 50103
RTTY - 7035, 10133, 14083, 18101, 21083, 24920 and 28083
PSK - 7035/7080, 10143, 14071, 18101, 21071, 24920 and 28120

For the latest information, please check their Web site at:
http://www.gtdx.com

WRTC 2006 NEWS. Oms, PY5EG, has informed the contesting community that the next World Radiosport Team Championship (WRTC in July 2006) will be in Florianopolis, and the WRTC2006 Committee has started the activities to organize the event. The initial Committee has been formed and include the following: PP5JR/Sergio, PP5WG/Walter, PP5UA/Pedro, PT2ADM/Gustavo, PY0FF/Andre, PY1KN/Marcelo, PY2EMC/Eric, PY2YP/Cesar, PY5CC/Peter, PY5KD/Luciano and PY5EG/Oms. More individuals will be added to the Committee later. A WRTC 2006 Web page has been set up, but still under construction at: http://www.wrtc2006.com
On the Web page, Oms advises, "You can see our preliminary rules and also the criteria selection and something about our beautiful Florianopolis. From time to time we will incorporate new information on our page, and we kindly invite you to continuously visit the WRTC 2006 page." They also invite the Ham radio community to subscribe to their reflector via their Web page in order to receive all news about the event at:
http://maresia.onda.com.br/mailman/listinfo/wrtc2006

XX9, MACAO. It has been announced that Hiro, JA0SC, has been forced to cancel his August 24-31st operation. No other details were given.

Phil

Me too. I believe he will be addressing his QSL commitments over the coming months. I just wish that he'd put a note on QRZ.com or such like to tell us his plans. It would have saved a lot of bother and hot air.

Now.. what about .. D88S ? and EZ8BO..?

John, G4IRN.

Does anyone here have any information on the T55FO operation for 1993
and who might have the logs for it at this point?

Inquiring mind wants to know, ;)

The only reference which google finds is to Paul, W4PFM, who apparently
held this callsign once. He is listed at qrz.com with his email-address.

Maybe that helps...

Thank you so much for your ssugestion Fabian. You know I should be
ashamed! Even after 30 years at this computer game I didn't think to do
a Web Search on the call sign.

Hi all

TM6OLH will be on the air from 5th sept to 19th sept 2004 to commemorate the Liberation of LE HAVRE (Normandy FRANCE) on 12th september 1994 by the british troops.

60 years in the past, LE HAVRE was liberate after strong fightings around "Festung Le Havre" LE HAVRE (fortified town LE HAVRE) . 80% of the City was destroyed by airplain bombing and 2500 people died on 5th and 6th sept 1944.

The special event station will be active in a british camp reconstitution on 11th of september 2004. We will transmit on HF, phone, CW, SSTV and Hellschreiber mode. Please, watch 20m and around.

On 12th sept 04, two convoys of old WW2 vehicles will drive in LE HAVRE by two different routes (North East and East) like in 1944. We expect two tanks, a Paton and a Churchill armoured vehicles. Photo pictures of this event will be sent in SSTV the days after.

Thanks for your attention and receive our best regards.

Gilbert RATS F4ASK
Vice-chairman F6KOH, LE HAVRE radio-club
LE HAVRE WIRELESS SOCIETY (Oldest radio-club in FRANCE, founded in 1921)

Bonjour tous

TM6OLH sera actif du 5 au 19 septembre 2004 dans le cadre de la comm moration de la Lib ration du HAVRE (Normandie FRANCE) le 12 septembre 1944 par les troupes britaniques.

Il y a 60 ans, LE HAVRE a t lib r apr s des combats tr s importants autour de la "Festung Le Havre" (Forteresse du Havre). 80 % de la ville a t d truite par des bombardements a riens et 2500 personnes on trouv la mort les 5 et 6 septembre 1944.

La station sp ciale sera active depuis la reconstitution d'un camps militaire britanique le 11 septembre 2004. Nous transmettrons en HF, phonie, CW, SSTV et Hellscheiber. Veuillez veillez le 20 m et les bandes l'entour.

Le 12 sept 04, deux convois de v hicules militaires de la Seconde Guerre Mondiale entreront dans LE HAVRE par l'Est et le Nord Est de la ville comme le 12 septembre 1944. Nous esp rons deux chars Paton et Churchill dans les convois. Des photographies de cet v nement seront envoy s par SSTV les jours suivants.

Merci de votre attention

Gilbert RATS F4ASK
Vice-chairman F6KOH, LE HAVRE radio-club
LE HAVRE WIRELESS SOCIETY (Oldest radio-club in FRANCE, founded in 1921)

Bonjour tous

TM6OLH sera actif du 5 au 19 septembre 2004 dans le cadre de la comm moration de la Lib ration du HAVRE (Normandie FRANCE) le 12 septembre 1944 par les troupes britaniques.

Il y a 60 ans, LE HAVRE a t lib r apr s des combats tr s importants autour de la "Festung Le Havre" (Forteresse du Havre). 80 % de la ville a t d truite par des bombardements a riens et 2500 personnes on trouv la mort les 5 et 6 septembre 1944.

La station sp ciale sera active depuis la reconstitution d'un camps militaire britanique le 11 septembre 2004. Nous transmettrons en HF, phonie, CW, SSTV et Hellscheiber. Veuillez veillez le 20 m et les bandes l'entour.

Le 12 sept 04, deux convois de v hicules militaires de la Seconde Guerre Mondiale entreront dans LE HAVRE par l'Est et le Nord Est de la ville comme le 12 septembre 1944. Nous esp rons deux chars Paton et Churchill dans les convois. Des photographies de cet v nement seront envoy s par SSTV les jours suivants.

Merci de votre attention

Gilbert RATS F4ASK

From the war, old man, from the war, only !

The Brits and the Yanks (Headquater officers, of course) decided to destroy
Le Havre with a big carpet bombing.

The german commander of Festung Le Havre asked an evacuation of civilians and
allieds refused.

We know the r&#65533;sult : 2500 civilians died and 30000 people without a roof
above the head, 10 years to rebuild the city... etc.

Don't worry, Peter, the war is over and, I hope, for a very long time.

Amateur Radio Newsline™ Report 1412 September 3, 2004

The following is a message from the Amateur Radio Newsline Support Fund. Here's the funds administrator, Andy Jarema, N6TCQ.

--

Well, here I am again, so theres obviously another financial crisis that Amateur Radio Newsline is facing. And this time its a real doozie. Let me explain it to you.

During the summer many of you are away and donations dwindle to a mere trickle. At the same time, some of our biggest yearly expenses occur during July and August. This includes the Young Ham of the Year Award presentation that we host every year in Huntsville, Alabama. While we had planned ahead, we did not know exactly how much we would need and we were caught short. The price of airfares was up as was the cost of hosting the mini banquet for our recipient, her family and friends.

Added to that were higher than anticipated telephone costs to cover the breaking news stories we brought you over the summer. And right now that leaves us with less than $50 in the bank and several hundred dollars in outstanding bills that must be paid right now to keep Amateur Radio Newsline coming your way.

As we have said before, Amateur Radio Newsline is a federally charted 501(C)(3) and California state not-for-profit corporation. For most United States residents it means that your donation is tax deductible.

So please help keep the news on your local net, on your repeater and on your computer by making a donation to the Amateur Radio Newsline Support Fund. Its address is Post Office Box 660937, Arcadia, California. The zipcode is 91066.

Again that's the Amateur Radio Newsline Support Fund at Post Office
Box 660937, Arcadia, California, 91066.

On behalf of the entire all volunteer world-wide Amateur Radio Newsline team, I thank you for listening to this appeal and for your ongoing support that keeps the news of Amateur Radio coming your way.

I'm Andy Jarema, N6TCQ. Now Amateur Radio Newsline report 1412.

--

Thanks Andy. Now Amateur Radio Newsline report number 1412 with a release date of Friday, September 3rd, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. The ARRL bandwidth based restructuring proposal causes controversy and maybe some reconsideration. Find out more on Amateur Radio Newsline report number 1412 coming your way right now.

(Billboard Cart Here)

**

RESTRUCTURING: REACTING TO THE ARRL BANDWIDTH PROPOSAL

An ARRL proposal to restructure Amateur Radio along bandwidth lines has caused a lot of discussion in the nations ham community. And it may cause the League to rethink its position. Amateur Radio Newsline's Mark Abramowicz, NT3V, is in Philadelphia, and has the rest of the story:

--

Shortly after the ARRL began circulating the proposal and posted it on its website, the e-mails, phone calls, HF, VHF, and digital-mode traffic took off.

And now, Amateur Radio Newsline has learned the bandwidth proposal may be tabled for more study when the ARRL's executive committee meets next month.

That confirmation comes from W6OBB in Nevada. If the call sign isn't familiar, the name behind it might be. He's Art Bell, host of the weekend edition of "Coast to Coast AM" heard on more than 500 commercial radio stations across the nation.

Bell, who joined the fight against Broadband Over Powerlines several months ago, and featured the subject on his radio program, expressed concern about what he called a Draconian proposal that would over-regulate the ham bands. Bell tells me he relayed that concern in a phone call to ARRL President Jim Haynie W5JBP.

Bell characterizes the discussion as cordial and at the end, he says Haynie related he was re-evaluating the proposal based on many comments he had received.

"He indicated to me and told me I could pass on to you that they're looking into pulling this whole thing back and taking a harder look at it," Bell says.

While Bell says he believes the ARRL had good intentions with the proposal, it may have gone too far.

"What began as an examination by the League of how we could possibly encourage the digital mode, it went a little too far and began to over-regulate," Bell says. "I'd kind of like to see it go the other way and I'd like to see our bands freed up."

Haynie says he's gotten a lot of feedback on the proposal. He says it came from the League's desire to promote - not restrict - innovation and experimentation. He says it was also a response the Federal Communications Commission's desire to see more innovation from the ham community.

"I think we rose to the challenge," Haynie says. "We have demonstrated Software Defined Radio that just knocked their socks off, in my view.

"We have come up with some other stuff - Joe Taylor and some of his things for moon bounce. And I think the Amateur Radio community needed a wake-up call is what they needed and I think that's what we've gotten and were given."

Haynie says it's clear the digital modes like RTTY and PSK 31 need attention.

"Where do we want to go to the future?" Haynie asks. "And, as I mentioned a couple of years ago, I took my model 28ASR and took it to the scrap man. But that's the standard that's used today is 850Hz shift at 45 baud.

"Well, we don't do too much of that. I'm not saying there's not RTTY enthusiasts out there, there are and I appreciate that and I know that and I want to protect their rights to do those things."

Art Bell says he and others don't object to digital innovation. But he doesn't think the proposal hits the mark.

"There are many with differing interests who are not too pleased with the proposal and, on the face of it, it simply does not make sense," Bell says. "I agree that we should encourage the digital modes and development, but we shouldn't try to push something into place that is not techincally ready to happen yet."

Restricting bandwidth, Bell says, won't promote innovation.

"Why do we have to cut and slice and dice and regulate," Bell says. Why not just let anybody virtually go anywhere and let all of us just live together with some gentlemen's agreements which we have now and which work very, very well on most bands?

"So with that in mind, look at the Canadians. The Canadians have a 6khz limit and they can go anywhere on the band they want from the bottom to the top. And I don't see why that would not apply and work well in America."

Haynie says he wants to hear more from hams and he's encouraging all of us to get into the FCC's Part 97 rules and share input on the proposal at the ARRL's website, that's ARRL-dot-org.

"Look at the rule book and see what's there now, "Haynie says. "And, is there something that could be changed that would allow a new technology to be developed, then that's what we want to know."

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

More on the ARRL proposal and reaction to it in upcoming Amateur Radio Newsline reports. (ARNewsline(tm))

**

RESTRUCTURING: DROPPING CW TESTING IN CANADA

Meantime, to the north, another form of restructuring proposal is being considered by hams in Canada. This as telecommunications regulator Industry Canada publishes a Gazette Notice called "Recommendations from Radio Amateurs of Canada to Industry Canada Concerning Morse Code and Related Matters".

The Radio Amateurs of Canada proposal deals with the WRC-2003 decisions concerning Morse as a compulsory qualification for High Frequency operation in the Amateur Service. Radio Amateurs of Canada has recommended that Industry Canada delete the mandatory aspect of the requirement for Morse testing but leave it as a voluntary qualification. This, because knowledge of code may be required for reciprocal operation in those countries retaining a Morse requirement.

The notice was published on Saturday, August 28th and gives Canadian radio amateurs sixty days in which to respond. Radio Amateurs of Canada recommends that the nations ham community endorse this proposal. (RAC)

**

ENFORCEMENT: 10 METER INTRUDER WARNED

Here in the United States a commercial business has been warned to stay of the 10 meter ham band. The FCC's Daryl Duckworth, N-N-Zero-
W, explains:

--

Duckworth:"Dandy Service Corporation of Warrendale, Pennsylvania, was
issued a warning notice fot unlicensed radio operations on 28.085 Mhz. Two of their vehicles were the source of transmissions on August 5th of this year in Michigan on Interstate 94 at mile-marker 262."

--

Dandy Service was told to advise its drivers that operation of radio transmitting equipment without a license is a violation of the Communications Act of 1934. That it could subject the operator to fine or imprisonment, as well as an seizure of any non-certified radio transmitting equipment. Monetary forfeitures normally range

from $7,500 to $10,000. (FCC, RAIN)

THE BPL FIGHT: IT MAY BE COMING TO SO. CAL.

A heads up warning to hams living in the California counties of Los Angeles, San Diego and Riverside. According to ARRL officials in the Southwestern Division, Broadband over Powerline may be coming your way.

Writing in the latest issue of the division electronic newsletter, Director Art Goddard, W-6-X-D, and Vice Director Tuck Miller, N-ed-6-T, say that power companies in these areas may be considering BPL as a new business venture. The two officials add that the regions Amateur community needs to work together to see if they can head off these B-P-L flirtations before they become entrenched on the ham radio bands.

The report goes on to say that local ARRL Section Managers are already on top of the situation. The S-M's are reportedly forming Local Action Teams to work on all levels in handling the B-P-L threat to the area. (ARRL Southweestern Divisioon Communicator)

**

OPERATIONAL NEWS: TO PL OR NOT TO PL - THATS THE SERA QUESTION

Repeaters in eight states and the hams that operate through them may soon face mandatory use of continuous tone coded squelch. Then again, they may not. Amateur Radio Newslines Gary Pearce, KN4AQ, is in Raleigh, North Carolina, trying to sort it all out:

--

SERA, the SouthEastern Repeater Association, ignitied a furious debate when its Board of Directors voted to require the use of tone as a condition for frequency coordination for all repeaters in its territory. SERA is the frequency coordinating group for eight southeastern states: Georgia, Kentucky, Mississippi, North and South Carolina,| Tennessee, and parts of Virginia and West Virginia.

The SERA Board voted at its June meeting that some form of tone access will be a condition of coordination for all new repeaters effective immediately. Existing repeaters will need to adopt tone

within two years, by July 2006. The board was acting on a motion by Steve Grantham AA5SG, the Director from Mississippi. The goal of the policy was to reduce the number of complaints that SERA coordinators receive from repeater owners whose carrier access repeaters are keyed up by users of a co-channel neighbor.

In discussion at the meeting, the new policy was softened some when coordinators asked if this meant that repeaters would be automatically decoordinated if they decided not to use tone. The answer, according to an article in SERA's magazine the Repeater Journal, was "no, but…" SERA would not entertain an interference
complaint from repeater owners who remained carrier access.

The debate began in earnest when the August issue of the Repeater Journal began arriving and the ARRL published a story about it on their web site. Repeater owners argued the merits of tone itself, along with complaints that SERA didn't poll its members, and non-member repeaters, before making the decision.

The decision may not be final, according to SERA President Roger Gregory W4WRG:

--

Gregory: I've received, and we have received a lot of comments pro
and con about this policy. And all I can say right now is that we're
taking a second look at it and it's not really written in stone at
this time as to what kind of decision we're going to make one way or
the other."

--

SERA's next Board meeting takes place in January, but the group can
reach an earlier decision at any time through an e-mail ballot.

Reporting for Newsline, this is Gary Pearce KN4AQ in Raleigh, North Carolina.

--

So will the hams in SERA coordinated states have to use tone access on every repeater? Right now, the answer seems up in the air. (KN4AQ, ARNewsline(tm))

**

HAM RADIO IN SPACE: ISS GOES CROSS-BAND REPEAT

Speaking of repeaters. there's a new cross-band F-M system in space
and its home is on the International Space Station. This, as the ARISS program announces that the amateur radio equipment aboard the orbiting outpost is now on the air in repeater mode.

The downlink frequency remains 145.80 MHz. The new uplink frequency is 437.80 MHz and all frequencies are subject to Doppler shifting.

ARISS leaders say that they realize that many hams will miss the packet station that the cross-band F-M voice repeater replaces. Burt the groups leaders say that the cross-band repeater will allow further experimentation of the ISS amateur radio system.

For further information on working satellites and adjusting for Doppler shift, please review Emily Clark's (W0EEC) excellent presentation on AMSAT's website, http://www.amsat.org/amsat-new/information/faqs/Intro_sats.pdf (ARISS)

**

RADIO LAW: FCC ADOPTS RULES TO ENHANCE NETWORK OUTAGE REPORTING

Back on mother Earth in Washington, the Federal Communications Commission has adopted new rules requiring wireless, wireline, cable, and satellite telecommunications providers to report information about significant disruptions or outages to their systems to the Commission. The FCC says that these reports must be filed electronically. The Commission also ruled that all sensitive information collected as a result of these new rules will be protected from public disclosure. The full story is on-line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-250543A1.doc (FCC)

**

RADIO LAW: FCC REDEFINES DTV CONVERSION SCHEDULE

The FCC has also taken steps toward deciding exactly which channels broadcasters will end up with when they switch to digital television. By unanimous vote, the Commissioners have set up a timetable that will decide by June 2006 which channels people will tune in on to see their favorite programs. .

FCC chairman Michael Powell says that the vote signals that substantial progress has been made in switching television from its current analog transmission system to digital. He adds that the national dialogue has shifted from wondering if the DTV transition would ever end to exploring when it should end. (FCC)

**

RADIO LAW: CANADIAN GROUPS CHARGE THAT HD RADIO WILL HARM RECEPTION

Meantime, Canada charges that High Definition or Hi Fi digital Radio will harm reception of Canadian stations inside its own border. At least that's the headline from the August 30, 2004 edition of Inside
Radio.

According to the story that follows, both the Canadian Boadcasting Corporation and the Canadian Association of Broadcasters have asked the country's technical regulatory agency to protest iBiquity's In-Band On-Channel digital radio system. They allege harmful effects on current A-M reception, especially during nighttime hours. The whole story is on-line at http://tinyurl.com/6uubn and www.insideradio.com (CGC)

**

HAM AWARDS: THE RCC IS BACK AND ITS FREE

Some good news. The Rag Chewers Club or R-C-C award is back, but it will not be sponsored by the American Radio Relay League. Bill Pasternak, WA6ITF, has the details:

--

Its the Society for the Preservation of Amateur Radio -- better known by the acronym SPAR that will be sponsoring the new R-C-C. The group has announced that as of September 1st it will adnminister this fun award and will do so following the old ARRL rules.

According to SPAR, all a ham has to do to get an R-C-C is to present evidence of having had an actual one on one Q-S-O that lasted at least 30 minutes. The QSO can be made on any legal amateur frequency.

In early 2004 the ARRL announced it was discontinuing the Rag Chewers' Club Award due to a lack of interest. Conversations SPAR held with hams seemed to indicate that the lack of interest was due mainly to the cost of the award. So SPAR says that the award will be available free of charge to all licensed radio amateurs.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, in Los
Angeles. Jim.

--

All certificates will be distributed by e-mail as Adobe P-D-F files that you can print and frame. The awards are numbered and endorseable by mode. Complete rules and an on-line application are on the SPAR website at www.spar-hams.org. (SPAR, QRZ.com)

**

NAMES IN THE NEWS: HAPPY 104 BIRTHDAY TO KJ6KQ

And less we forget, a belated birthday greeting goes out to Bill Diaper, KJ6KQ who turned 104 on August 12th. That's right, we

said
104, and probably making him the oldest living radio amateur in the United States, if not the world.

According to a posting on the Q-R-Zed dot com by Tom Ferguson, N6SSQ, website, Bill is a member of the Pacific Amateur Radio Guild and these days resides in the Masonic Homes in Union City, California. Tom says that there is a radio shack in the basement that Bill used up till a year ago but is very difficult for him to access now. That's because the station is in the basement next to the laundry room. Bill says it is dark and damp down there and must get assistance to get there and have someone tune and adjust the frequency on the rig for him.

N6SSQ adds that the Pacific Amateur Radio sent Bill a flurry of letters and cards on his birthday and that he was very pleased to get them. (QRZ.com)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United
States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

HAM FAIR JAPAN ATTRACTS 30000 ATTENDEES

Turning to the ham radio social scene, Japan's largest hamfest, the JAIA Ham Fair, was held the weekend of August 21st and 22nd. The venue was Tokyo's Big Sight International Convention Center. Among
the highlights of gear being shown were Yaesu and Icom both showcasing their high end $10,000 H-F transceivers. Kenwood did not match in the super high end radio category but had a well attend ongoing demonstration of their ARCP-480 Radio Control Program.

But the manufacturers and dealers were only a small part of the show. Over 170 radio clubs also had booth space at the show. These ranged from large organizations like JAMSAT, the Japan Shortwave Club, and SEANET down to local organizations who use their booth for flea market sales.

Also present were a wide variety of organizations promoting every aspect of Amateur Radio. This included mountain-topping operators, microwave activity enthusiasts and antenna construction experimenters. Operations represented included facsimile, SSTV, ATV,

RTTY, 10M FM, 6 Meters, CW devotees, QRP, homebrewing, classic rigs, military surplus and even a contingent from the A-M community.

Ham Fair is Japan's largest annual gathering of radio amateurs from
the Pacific Rim. An estimated 25,000 to 30,000 attended this years event. (WIA News)

**

THE SOCIAL SCENE: WSWSS 2004 FALL CONFERENCE IN FRESNO CA

Back on this side of the Pacific, the Western States Weak Signal Society tenth annual VHF and UHF Conference takes place Saturday, October 9th. The venue is the M2 Antenna System Facility, at 4402 N. Selland Ave in Fresno, California. Registration starts at 8 AM with the conference program slated to begin at 9 AM. For more information write to David Peters, KI6FF, 14291 Middletown Lane, Westminster, California, 92683. You can also e-mail David to ki6ff@juno.com (VHF Reflector)

**

HAM RADIO BUSINESS: OAL NO LONGER REPPING DEM

In news from the ham radio business world, David Clingerman, W-6-O-A-L says over the V-H-F Reflector that his company known as the Olde Antenna Lab of Denver, Colorado is no longer representing Down East Microwave, Inc. Dave says to please refer your help questions, pricing information and orders directly to Down East Microwave in New Jersey. (VHF Reflector)

**

HAM RADIO NEAR SPACE: UK BALLOON LAUNCH LICENSED FOR SEPT. 12

G3ZHI reports that a license has been granted for a United Kingdom high altitude ham radio balloon flight. The project is now authorized for operation on 2.500 GHz on Sunday, September 12th. The license has special permission to operate at up to 50,000 feet instead of the usual flight ceiling of 2,000 or 5,000 feet.

The launch is scheduled to take place at about 1.30. Plans are still afoot to relay pictures via the new 13 centimeter GB3FT repeater if the system is completed and on the air in time for the flight. More information on this experiment as it becomes available. (G3ZHI)

**

WORLDBEAT - UK:: NEW RSGB ON -LINE

There's a new ham radio promotional video out and it has a definitely
British flair. And in an effort to help to promote amateur radio, the recently-created Essex Amateur Radio Club has started streaming

the new RSGB video "What is Amateur Radio" on the Internet.

The Essex group is providing it at speeds of 26 kb and 57 kb so it can be viewed by those using dial-up as well as broadband. If you want to take a peak it is available in cyberspace at www.essexamateurradio.org.uk (RSGB)

**

WORLDBEAT - NORWAY: HACKER DEFEATS AIRPORT EXPRESS

Meantime on the European mainland the same Norwegian hacker known for developing D-V-D encryption-cracking software has apparently struck again. This time his target is the security system that protects Apple Computer's wireless music streaming technology.

Jon Johansen has released a hacking system on his website that provides a key to unlock the encryption Apple uses for its AirPort Express. The unit lets users broadcast digital music from Apple's on-line iTunes Music Store on a stereo that's not plugged into an Apple computer. This permits other software applications from competitors to work with the proprioritary AirPort Express codec. Apple is reportedly considering taking legal action in the case. (Published reports)

**

RADIOSPORTS: HOST STILL NEEDED FOR 2005 ARDF GAMES

Turning to the world of radiosports, a reminder from Joe Mell, KZ0OV, that a group is still meeded to host the fifth U-S-A Amateur Radio Direction Finding Championship games. This, in the summer of 2005.

Some prerequisites for being the host include having suitable sites for 2 meter and 80 meter hunts along with the ability to provide foxhunting courses. There are also the organizational aspects to consider. These include providing registration services, housing for the contestants, meeting rooms, transportation to and from the hunt areas and lots more.

If your club is interested in hosting this event, please contact Joe by e-mail before September 15th to homingin@aol.com. Full details about the games and how to become the 2005 host is on line at www.homingin.com (ARNewsline(tm))

**

DX

In D-X, word that K3GV portable VY2 is active on 15 and 20 meters as from Prince Edward through the 12th of September. The island counts as NA-029 for the RSGB Islands on the Air award program. QSL's go to
K3GV at his callbook address. (RSGB)

And while this is short notice, the All Asian SSB contest will take place beginning at 00.01 U-T-C on Saturday, September 4th and will run for 48 hours. Operation is on 160 through 10 meters with stations in Asia trying to work the rest of the world. The official exchange for this one is a signal report and the operator's age. (WIA News)

**

THAT FINAL ITEM: NRC MEETS IN BATAVIA NY

And finally this week, a big meeting of broadcast band SWL's is taking place as we go to air. Here's Fred Vobbe, W8HDU, with the details:

--

Audio report only. Download the newscast at www.arnerwsline.org

--

Fred has promised to be here net week with a full wrap-up on this years gathering. (W8HDU)

Nah, this stuff is on satellite these days. I've seen once in a
while receptions of stuff from the Philippines and Argentina, but it's
very very rare. 73s Mike

Too bad. It looks like SITOR B and NAVTEX would make a good news clippings distribution method.

1162. ARRL Walks Away From Bandwidth Restrictions

Newsgroup: rec.radio.amateur.dx
Date: 2004-09-05 07:30:51 UTC
From: hamop_62@hotmail.com
Message-ID: <792e029d.0409042330.1c1769e8@posting.google.com>
Source record: 6803

The Newsline says that ARRL will give up its bandwidth restriction idea. This is in the current news.

RESTRUCTURING: REACTING TO THE ARRL BANDWIDTH PROPOSAL

An ARRL proposal to restructure Amateur Radio along bandwidth lines has caused a lot of discussion in the nations ham community. And it may cause the League to rethink its position. Amateur Radio Newsline's Mark Abramowicz, NT3V, is in Philadelphia, and has the rest of the story:

--

Shortly after the ARRL began circulating the proposal and posted it on its website, the e-mails, phone calls, HF, VHF, and digital-mode traffic took off.

And now, Amateur Radio Newsline has learned the bandwidth proposal may be tabled for more study when the ARRL's executive committee meets next month.

That confirmation comes from W6OBB in Nevada. If the call sign isn't familiar, the name behind it might be. He's Art Bell, host of the weekend edition of "Coast to Coast AM" heard on more than 500 commercial radio stations across the nation.

Bell, who joined the fight against Broadband Over Powerlines several months ago, and featured the subject on his radio program, expressed concern about what he called a Draconian proposal that would over-regulate the ham bands. Bell tells me he relayed that concern in a phone call to ARRL President Jim Haynie W5JBP.

Bell characterizes the discussion as cordial and at the end, he says Haynie related he was re-evaluating the proposal based on many comments he had received.

"He indicated to me and told me I could pass on to you that they're looking into pulling this whole thing back and taking a harder look at it," Bell says.

While Bell says he believes the ARRL had good intentions with the proposal, it may have gone too far.

"What began as an examination by the League of how we could possibly encourage the digital mode, it went a little too far and began to over-regulate," Bell says. "I'd kind of like to see it go the other way and I'd like to see our bands freed up."

Haynie says he's gotten a lot of feedback on the proposal. He says it came from the League's desire to promote - not restrict - innovation and experimentation. He says it was also a response the Federal Communications Commission's desire to see more innovation from the ham community.

"I think we rose to the challenge," Haynie says. "We have demonstrated Software Defined Radio that just knocked their socks off, in my view.

"We have come up with some other stuff - Joe Taylor and some of his things for moon bounce. And I think the Amateur Radio community needed a wake-up call is what they needed and I think that's what we've gotten and were given."

Haynie says it's clear the digital modes like RTTY and PSK 31 need attention.

"Where do we want to go to the future?" Haynie asks. "And, as I mentioned a couple of years ago, I took my model 28ASR and took it to the scrap man. But that's the standard that's used today is 850Hz shift at 45 baud.

"Well, we don't do too much of that. I'm not saying there's not RTTY enthusiasts out there, there are and I appreciate that and I know that and I want to protect their rights to do those things."

Art Bell says he and others don't object to digital innovation. But he doesn't think the proposal hits the mark.

"There are many with differing interests who are not too pleased with the proposal and, on the face of it, it simply does not make sense," Bell says. "I agree that we should encourage the digital modes and development, but we shouldn't try to push something into place that is not techincally ready to happen yet."

Restricting bandwidth, Bell says, won't promote innovation.

"Why do we have to cut and slice and dice and regulate," Bell says. Why not just let anybody virtually go anywhere and let all of us just live together with some gentlemen's agreements which we have now and which work very, very well on most bands?

"So with that in mind, look at the Canadians. The Canadians have a 6khz limit and they can go anywhere on the band they want from the bottom to the top. And I don't see why that would not apply and work well in America."

Haynie says he wants to hear more from hams and he's encouraging all of us to get into the FCC's Part 97 rules and share input on the proposal at the ARRL's website, that's ARRL-dot-org.

"Look at the rule book and see what's there now, "Haynie says. "And, is there something that could be changed that would allow a new technology to be developed, then that's what we want to know."

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

More on the ARRL proposal and reaction to it in upcoming Amateur Radio Newsline reports. (ARNewsline(tm))

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 29th/August, through Sunday, 5th/September there were 209 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5X, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9N, 9U, 9V, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J3, J6, J8, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, XZ, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

135TH HPM BIRTHDAY ANNIVERSARY (REMINDER!). You have just under a week to go for this celebration. Some stations believe this is a contest and are confused what the /135 is. No, it is not a contest. Many stations are on the air to help celebrate the 135th birthday anniversary of the League's co-founder and first president Hiram Percy Maxim, W1AW, who was born

September 2, 1869. Look for ARRL Life members and League's elected and appointed volunteers and officials to append /135 to their callsigns. The HPM/135 celebration concludes at 2400z on Sunday, September 12th. To find out if you are eligible to sign /135, please see September's QST (page 40) or visit the following Web page for details at:
http://www.arrl.org/qst/2004/09/field-positions-135.html
A certificate is available by working at least 25 HPM/135 stations and submitting a log extract including date, time, band, callsign worked and exchange for each /135 contact. This certificate is endorsable in increments of 25 contacts up to a maximum of 100. Details are also available on the above mentioned Web site and QST.

3Y, PETER I ISLAND (Update). A multi-national team of 21 operators is now complete for the 2005 January/February 3Y0X DXpedition. The operators are: F2JD, HB9AHL, HB9BHW, K0IR, K4UEE, K3NA, K4SV, K5AB, K9SG, LA6VM, N2WB, N4GRN, N6OX, NK7C, NP4IW, OH2BH, OH2PM, PA5M, UA3AB, VK4GL and W0RUN. Alternates are in place for any unexpected cancellations. They plan to operate for two full weeks with nine stations on the air 24 hours a day. Most members of the team will meet in Atlanta, GA, between September 23-26th. This is a serious meeting to discuss details of the operation which include practice shelter set-up, equipment checks and seminars (such as safety, search and rescue, emergencies and medical care, logging, propagation, equipment operation, dietary and food, environmental concerns, and operating Techniques). The voyage to Peter I Island will start from Punta Arenas on January 14th. The voyage to Peter I Island will take 6 to 7 days. The exact landing date will depend on weather. The team is still looking for contributions. If you would like to donate, please send them to K4UEE, F2JD, JA1ELY and ZL2AL. More details are available on the 3Y0X Web page at: http://www.peterone.com
They have recently setup a souvenir store to help collect funds for their operation. So vist and purchase a souvenir from the DXpedition at the "Peter I Store" at: http://www.cafepress.com/peter1store

7Q, MALAWI (Update). Ely, IN3VZE, reported last week he will be active as 7Q7CE from September 9-23rd. He informs OPDX this week that his friend Renato, IN3BHR, will be with him at the Resort Club Makokola, the southwest shore of Lake Malawi. The callsign Renato received is 7Q7RB. Activity will be on all bands 160-10 meters SSB. QSL 7Q7RB via his home callsign IN3BHR, direct or via the Italian Bureau. QSL 7Q7CE via his home callsign IN3VZE, direct or via the Italian Bureau.

9A, CROATIA. Zrinko (Zik), DL/VE3ZIK (also 4N1DX), will once again be active from Croatia between September 12-19th. This will be a holiday style operation from the QTH Bilice, near Sibenik (JN73WS). He will try to concentrate on WARC bands and 10m FM. If somebody wants to make a sked, send an E-mail to: zik@contesting.info
Also, there is some posibility to be active from some Croatian Islands. For those who already sent QSL card direct for his July activities, please wait until QSL cards come from printer. QSL ONLY via DL3PS, direct or by the DL Bureau (too dificult to receive bureau cards from VE3-land since he is now permanent in Germany).

C9, MOZAMBIQUE. Andre, ZS6WPX, informs OPDX that he will be in Mozambique from October 28th to November 1st on business, so his activity will be limited. He will be active as C91Z mostly on SSB, but also some CW and RTTY. Also, his XYL, Magda, will be active as C91Y. She will be active mostly on phone when time permits. Andrea will also been a Single-Op/ High-Power entry in the CQ WW DX SSB Contest (October 30-31st). QSL via ZS6WPX DIRECT ONLY. ADDED NOTE: Andrea states that for the CQ WW CW Contest, look for Chuck/W4GMY and Joe/AA4NN to be in C9.

DXCC NEWS (Annual Deadline Comes To An End!). Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX of the following: "DXCC Annual List Deadline Change: Beginning in September 2004, there will be no deadline for the DXCC Annual List. We have been working toward this end for several years. In previous years, September 30 was the cutoff point for compiling the entity totals for the DXCC Annual List published in the DXCC Yearbook. Over the years, DXCC participants tended to collect cards and submit them once a year, in September, to ensure the highest possible total for the listing. A major downside of the deadline is that we receive over 25% of our annual credit submissions during the month of the deadline. This in turn creates a huge increase in workload and a lengthy processing time. Going forward, the lists of DXCC standings previously published in the DXCC Yearbook will be replaced by complete lists on the ARRL Web site. The new Web-based lists should be ready and on-line early in the first quarter of 2005, when the listings in the DXCC Yearbook would normally have been published. After initial publication, the new lists published on the Web will be updated regularly, perhaps weekly or even daily. They will also include the standings of all DXCC members, not just those who made a submission in the previous year (as has been the practice with the printed Yearbook due to space limitations).
A smaller version of the Yearbook will be published containing highlights of the standings, along with other features, as in the past."

EA6, BALEARIC ISLANDS. Christian, DL6KAC, will be going to EA6 again starting September 6th through probably September 28th. Activity will be from Mallorca Island (IOTA: EU-004, DIE: E-021) and will be on 40-10 meters, mainly on SSB, and maybe some digimode. Antennas will be dipoles with 350 watts of power. This will be a holiday style operation! QSL via the DARC Bureau or direct (QRZ.com).

GM, SCOTLAND. Andre, GM3VLB, will be active from Skye (EU-008) and possibly several other islands in the Inner Hebrides during the next week and a half. Depending on the weather, look for him to activate the following 8 islands: S. Rona (DI27), Scalpay (CN18), Longay (CN19), Staffin (DI28), Flodigarry (DI29), Wiay (CN21, Soay (CN16) and Crowlin (CN20). QSL direct only via his home callsign. ADDED NOTE: Andre plans to activate the Isle of May (IOTA EU-123, SCOTIA CS01) as soon as he can after his return from EU-008.

IOTA NEWS.....
AS-004. Operator JO1DPQ will activate Miyake Island during September 11-15th. Natives of this island left and fled to the main island due to an eruption of a volcano 4 years ago. QSL via his home call, direct or via the JARL bureau.

AS-108. A short story and photos on the recent Ramkin Island operation can be found on the following Web page at:
http://www3.ocn.ne.jp/~iota/newpage85.htm

AS-117. Kenji, JA4GXS, will be active as JA4GXS/4 from the Otsu Island (JIIA-AS-117-110), September 19th (0800z) to September 20th (2300z). Activity will be 80/40/30/20/15 meters CW/SSB. QSL via the bureau or direct to: Kenji Sasaki, 2-15 Ishikannon-cho, Yamaguchi, 753-0038 Japan.

AS-118. Members from the Kuwait Amateur Radio Society plan to be active as 9K2F from Failaka Island for a 3 to 4 day operation at the end of September.

EU-010
EU-011. Operators G3ZAY, M0BLF, M0TDG, M0NKI and M3OXY to be active September 6-10th, from the Outer Hebrides (EU-110). There will also be a number of brief Summits on the Air (SOTA) activations in Harris and North/South Uist. QSL via their home callsigns. Weather permitting, they also plan to operate during the daylight hours only as GM6UW/p from the Monach Islands (EU-111) on either the 6th or 7th. QSL GM6UW/p via M0BLF (Bureau cards can be requested by E-mail to: M0BLF@domsmith.co.uk).

EU-146. Members of the Scottish HAM Portal, Will/PE1OPM and his friend Jeroen (SWL NL12339), are going to activate Dutch Schouwen Duiveland Island. They will be on the air Saturday, October 16th, to Sunday, October 17th. The operation's frequencies are the known IOTA frequencies on the HF bands: 80m (3750 kHz), 40m (7055 kHz), 20m (14260 kHz), 17m (18128 kHz) and 15m (21260 kHz) when conditions permit. They will take a Yaesu transceiver FT-897 and a couple of portable antennas. For more information, please check out their Web site at:
http://home.zonnet.nl/eu-146/
QTH Location: Co-ordinates 51'42'59N - 03'56'32E; QRA Loc. JO11XQ. Please send your QSL cards via PA QSL Bureau or to PE1OPM: Will Bakker, Molenstraat 33, 4641BA, Ossendrecht, The Netherlands.

OC-171. Paul, G0WRE, will be active from Magnetic Island in the Queensland State (North Coast) South Group and possibly another island which they will know upon arrival for the IOTA Program in the Queensland State (South Coast) North Group. The dates are not sure as of yet, but it will be between October 14-20th. Paul states that his callsign will be allocated to him upon his arrival in Australia. Activity will be mostly 20 and 15 meters SSB (14260 / 21260 kHz +/-). Anyone wishing a contact for a new one for OC-171 can E-mail Paul prior to activating Magnetic Island at:
g0wre@blueyonder.co.uk
He states that all contacts will be automatically sent via the RSGB Bureau (He does not require your card!). But he will accept direct requests via his QRZ.COM address.

SA-056. Look for Tono, EA9CP, to activate the Isla Cojimies (Ecuador) during his South American trip (See OPDX.674). Activity will take place during September 17-21st. His callsign will be HC4CB and HC4/EA9CP. QSL boths callsigns via EA7FTR.

J42004/SV9, CRETE. Phil, G4OBK, will be active a few hours each day from Akrotiri, Western Crete, starting September 8th. He will have wire antennas for 30-10 meters. Phil will use the special Olympic callsign J42004Q until September 15th and then revert to SV9/G4OBK. He expects to be active on RTTY and CW and maybe a litle PSK31 and SSB. QSL is via his home callsign, direct or by the bureau. His Web page is: http://www.qrz.com/g4obk

JT100, MONGOLIA. Yuri, UA9OBA, has been active as JT100M. This is a special callsign being used until September 13th during the Mongolian leg of the Altay-Himalaya Transasian off-road expedition. Activity has been mainly on 20 meters SSB around 14180 kHz (at various times). There have been some QSNs reported on 80/40 meters. QSL via UA9OBA. Also, visi the Web page at: http://off-road.ru

KH7K, KURE ATOLL. It has been announced that the DXpedition to Kure Atoll by the Pacific DX Group, which was planned for mid to late October, has been postponed due to "transportation problems." The PDXG feels that the next possible opportunity for an operation to Kure will be late winter or early spring 2005. The PDXG asks that all groups or individuals who have contributed towards this operation or are thinking of contributing, to please continue to support their effort as they work to raise the necessary funding. The regional fund raisers can be contacted at:
funds-na-sa-kure@inix.com - North/South America
funds-eu-kure@inix.com - Europe
funds-ja-kure@inix.com - Japan
funds-kure@inix.com - All other areas
General inquiries should be sent to: pdxg-kure@inix.com

OH0, ALAND ISLANDS. Oleg/ES1RA and Jaak/ES1FB will be active as OH0/ES1RA/P and OH0/ES1FB/P, respectively, from September 7-10th. QSL via their home callsigns.

QSL INFO AND NEWS.....
QSL LA3SRK/P via SM5SIC. Activity was from Hitra Island (EU-036) during this past weekend's Reg1 Field Day. Operators were from the Skandinavisk Radio Club. More info is available on QRZ.com under LA3SRK.

NOT THE MANAGER. Graham, M5AAV, reports that he is NOT the QSL Manager for 5W0SB. He does not have the logs or any cards, so consequently, confirmations for this activation are only available DIRECT from I2YSB.

T33C BUREAU QSLS. Rob/PA2R and Flo/F5CWU have announced that this week the first batch of OQRS QSLs will be sent via the bureau. So far around 2000 labels of max. 3 QSOs per label have been processed via OQRS, which is a great number. Remember, registering QSOs will save the QSL Manager, F5CWU, a lot of time to manually register all bureau cards and your spending money on printing QSL cards. You also save time because

the time it takes to get your card to the QSL Manager is "0" days
instead of a year or more. QSOs made with T33C can be registered via
OQRS at: http://www.dx-pedition.de/banaba2004/
(Choose the Online Logs menu.)
The latest logs have been uploaded to the log search.

R1MV, MALYJ VYSOTSKIJ. "The Daily DX" reports that the R1MVI operation
has been rescheduled to take place September 10-12th. QSL via RA3AMG:
Denis Skobelkin, A.k. 698, LV-1010 Riga, Latvia. It is recommended to
use Denis's Latvian address instead of his Russian address.

S9, SAO TOME. Jorge, CT1EFV, will be a part of "Latitude Zero Equatorial
Challenge 2004". This challenge is humanitarian (they will be carrying
medicines to deliver to the mission of the AMI), cultural (they will
recoup a Portuguese school, deliver 6000 Portuguese books to the library
of Sao Tome) and also open new roads to impassable parts of the Island.
Half of the team will make use of local communications (VHF, telephones
and satellite) while Jorge will be operating the HF bands as S92LZ from
the Island of Sao Tome (IOTA AF-023) between September 19-26th, providing
conditions and logistics allow. He will use a Kenwood TS50S mounted
onboard a Land Rover and will make use of a G5RV antennas. QSL via
CT1EFV (QRZ.com).

SPECIAL EVENT. Alek, VK6APK, member of the Northern Corridor Radio Group,
states: "The state of Western Australia is celebrating its 175th anniversary
of existence this year. As part of the celebrations, the Northern Corridor
Radio Group Inc (VK6ANC) is activating the special callsign VI6175WA. The
callsign will be aired for the month of October. Its first operation will
be in the Oceania DX SSB Contest on the first weekend in October. After that
it will be used on the HF bands by individual members of the club. We hope
to have activity on all the hf bands and all modes during the course of the
month. More information will be posted shortly on <http://www.ncrg.org.au>
and also on QRZ.com. QSL cards have already been printed by UX5UO Print
<http://www.ux5uoqsl.com> and will be available for all contacts via the
manager, VK6NE, direct with return postage or via the bureau is fine."

SPECIAL EVENT. The Orkney Wireless Museum will be on the air as GB2OWM
during the Orkney Science Festival now through September 11th. Probable
operating times will be weekdays and Sundays between 2:30 and 4:30pm
and on Saturdays from 10:00am to 12:30pm. For more details, please visit
the Scottish HAM Portal Web page at: http://www.scotham.net

SU8, EGYPT. Gab, HA3JB, informs OPDX that he will operate as SU8BHI from
Cairo, September 21st through December 20th. His activity will include an
entry in the CQ WW RTTY DX and CQ WW DX CW Contests. Activity outside of
the contest will include CW, PSK, RTTY, SSTV and some SSB. QSL via HA3JB,
only direct to: Gabor Kutasi, H-8601 Siofok, P.O.Box 243, HUNGARY - EUROPE.
There will be an online log at: http://www.qsl.net/ha3jb

TT8, CHAD. Francois, F6GYV, reports that he has received his new licence
and the callsign issued to him by the Tchadian Authorities is TT8FT. His
station in Ndjamena consists of a FT-847 Transceiver and dipole. Francois's

job is with the mobile telephone service, and he states this leaves him with very little time to operate. Look for him to be on the air only during his evening hours (Ndjamena time) and on Sundays. He states, "Some of you have asked for 160 meters activity. I'll try to build an HM antenna with my few own parts (nothing to find or buy for amateur radio gear here). More information later." QSL via the French Bureau (via F6GYV) or direct to: Francois Theveneau, Celtel Tchad, BP 5665, Ndjamena, Chad. ADDED NOTE FROM FRANCOIS: "I apologize for my past stay in Mali but, because of my job, I couldn't make a lot of traffic with my TZ8FT callsign."

TZ6, MALI. QSL Manager Dennis, PA7FM, informs OPDX that after his stay in Niger, Michael, PA5M (5U7DX), is now in Mali until September 16th (or possibly the 22nd per Ghis/ON5NT). When this was written, OPDX was informed by ON5NT that Michael was in Bamako. He will be traveling around the country, and in his spare time he will be active as TZ6M. He was spotted this past week on/or around 14190 kHz after 1900z. As usual, he has a Web site with online logs at: http://www.pa7fm.nl
ADDED NOTE: Michael, PA5M, will be one of the operators going to Peter I Island in early 2005.

WFP NEWS. Ghis, ON5NT, in Dubai, UAE, provides the following updates of amateur radio operators that are with the "UN World Food Program" (WFP) in the following countries:
TT, CHAD. Robert, S53R (ex-YI9R, A52KR), is heading for Chad for about a 10 day stay. He was expected to arrive there around September 2nd. He has applied for a TT8RK or TT8KR callsign. It is expected to hear him on the bands as early as Monday, September 6th. Knowing Robert, this might be a "mostly CW" operation. As he is there for work, he will only operate during his spare time. QSL via K2PF.

ST, SUDAN. Dane, ST2T (S57CQ, ex-YI9T, A52DX), is still in the Sudan, but not very active due to a heavy workload. However, he was heard during this past weekend's All Asian Contest.
QSL via S57DX.

VARIOUS COUNTRIES. Michael, PA5M (5U7DX just recently), continues his African trip. You might expect some activity between now and the end of October from TZ, 9G and TY. Again, his activity is work - dependent. QSL via PA7FM.

W9DXCC CONVENTION (Reminder/Update!). The Northern Illinois DX Association is pleased to announce the 52nd annual W9DXCC Convention on September 18th. The convention will be at the Holiday Inn in Elk Grove Village, IL, about five miles west of Chicago O'Hare International Airport. Their banquet speaker is John Devoldere, ON4UN. John will also be appearing during the day along with John Battin/K9DX and Jerry Rosalius/WB9Z, in the Low Band Forum. Eric Scace/K3NA will be on hand with the story of the 3B9C Rodrigues Island 150,000+ QSO DXpedition. Jay Terleski/WX0B will tell us about his Fort Bragg NC military antenna farm featuring phased log periodics. Scott Robbins/W4PA will have the Ten-Tec Orion Story and Lee Finkel/KY7M has his 5U5Z African Adventure to relate. Propagation expert Carl Luetzelschwab/K9LA

will be back for his fifth year as he updates our prospects in the declining years of Cycle 23. The ARRL Forum features Central Division Director Dick Isely/W9GIG, Vice Director Howie Huntington/K9KM, DX Advisory Committee Chairman Jim O'Connell/W9WU, Membership Service Chairman and Logbook of the World Guru Wayne Mills/N7NG, and BPL expert Greg Lapin/N9GL. Jim Cain/ K1TN, author of the YASME book, will present a program about Danny Weil/ VP2VB, arguably the first DXpeditioner and Lloyd and Iris Colvin, W6KG and W6QL. For the IOTA fans, Mike McGirr/K9AJ, Jim Model/K9PPY, and Gordon Bazsali/WB9EEE will have the latest Island News. Card checking will be available for DXCC, other ARRL awards, and the CQ DX awards program. Full details about the convention are available at the W9DXCC Web site:
http://www.w9dxcc.com
On-line registration is available as well as a link to the hotel for on-line lodging reservations. Further information is available from the 2004 Chairman Bill Smith, W9VA, at: w9va@aol.com

I think it is too hard to encrypt, and it is less reliable than satellite.

ARRL, of by and for the former CB and now ham
appliance operator.

ARRL, a dying organization, whose officials will grab all
the money they can before ARRL finally goes belly up.

ARRL loves suckers who keep mailing in membership
dues to a do nothing orgainization to line the pockets of
ARRL officials.

ARRL, an organization that screws ham operators at
every turn, if it means putting another dime in the pocket
of ARRL officials.

Send your dues in suckers!

Amen brother!!

> ARRL, a dying organization, whose officials will grab all
> the money they can before ARRL finally goes belly up.

Yup!-Yup!-Yup!-Yup! Amen Brother preach it!!

(almost as big in the tacky pathetic money grabbing department
as is Profit "young black boo-taye diddiling" RG Stair in Walterboro
and Gene "Get on the telephone!" Scott. My all time favorites
however are still the brainless lackies in tacky callsign ballcaps
who shill for and staff the booths for the ARRL at the hamfests.
Those BONOBO CHIMPANZEES are almost as brainwashed
as is your average Church of Scientology gleep on the streetcorner
downtown.)

...then again, how much different is Hare-Krishina chanting and extolling
the virtues of the ARRL at hamfests or public gatherings *be any more
different*
than common, garden variety mental illness?

> ARRL loves suckers who keep mailing in membership

Don't forget that's all TAX FREE REVENUE ALSO!
What a deal eh? Scientology and UFO Church Cults
near Rachel, Nevada wish they had it that good!

> ARRL, an organization that screws ham operators at

Since most of us in this newsgroup are fully aware that almost all of
the ARRL officials are volunteers and work for free, you have
succeeded only in exposing yourself as the ignorant troll that you
obviously are.

Nice try...and now it is my pleasure to cordially invite you to try
the rec.radio.cb newsgroup, where you will fit in much better and
might even become a respected regular, given enough time.

I agree. It's way too easy to become a troll these days. Back in the
old days, you had to learn DOS commands first. None of this
point-and-click crap that's so easy even a child could do it, you had
to learn how to type, you had to learn about filenames and extensions,
you had to learn how to use a keyboard. Today's trolls are spoiled
because all they have to do is click their little mouse. Windows is
going to be the end of trolling as we know it, mark my words. They
ought to bring back DOS. That's what separated the real McCoys from
the wanna-be's back in the good old days - DOS.

Besides, what happens in an emergency? Your computer crashes and
Windows won't boot, you need to know DOS in order to get in there and
fix it. These trolls of today don't know squat about DOS, and when
they end up trashing their Windows they have to haul their computer
off to a club meeting to get a REAL troll to fix it. DOS works when
nothing else will work, that's why they should never have gotten rid

of it. Windows just made the Apple and Commodore riffraff from years ago think they are real computer users. Bring back DOS and let 'em all go back to their Commode Door 64 where they belong.

Proposed three-step ARRL membership Application
process:

A. Join ARRL, send your $35 dues to Newington, you sucker.

B. Since you proved you are stupid, now send another $35 to
Kerry For President HQ.

C. Wow, stupid twice. Ok, send $100 and we will sell you a
bridge in Brooklyn.

So you run a business? Otherwise this kind of reasoning is rather pitiful
for someone using the computer as a hobby.

Hams used to be on the forefront of technology, these days they are mere
consumers.

Linux ist the best way to *understand* computers, use them as a tool for ham
radio operation, get your hands dirty with source code, look under the hood,
argue with developpers and do things that no commercial software company is
willing to give to them.

And yet all hams do is cry "Windows, Windows, Windows" and they are proud if
their system doesn't crash for one year, instead of making it crash so hard
that people can make it better. Windows is a security nighmare, it's a usability
nightmare and it's money thrown at a company that doesn't care about its
customers. Instead, they try to do whatever is possible to keep a monopoly,
force inferior standards upon the unwashed masses and keep you locked into a
proprietary system that you have no control over it. And you are glad to pay
for it.

Great attitude, Walt.

Go back a couple of years, say like 30 years, and think about that: Some
Kenwood guy comes to your doorstep and hands you a brandnew TS 820 and tells
you: Here is that rig, it's free and you can do with it what you want. Here
is all the technical details, all the manuals, the complete documentation,
together with a free support line to the guys who built it.

We value your input, because we realize that it's not perfect, but we want
to make it as perfect as possible and to do that we need your input. Please
use it, abuse it, use all modes, fiddle with the dials, send us your ideas
for improvement and we will definitely consider them and we do that we will
tell you what it is that we did with your suggestions. And when the new
TS930 is ready, we will send it to your doorstep, free of charge and will
thank you for your valuable assistance in making a better product.

That is what Linux is about.

It's not about the "better" system, it's about a system that let's you
participate in a technical revolution that has changed the world.

Peter Lemken
Berlin

PS: If you want to see what Open Source can do to your favorite hobby, take a look at Elecraft's K2. They do what I described above and the result is an outstanding piece of equipment, because they value input from their customers. Their documentation is as good as it gets.

PS2: The line about "excellent network/internet software" is about the best joke I've ever heard.

1198. Getting better reception...

Newsgroup: rec.radio.amateur.dx
Date: 2004-09-08 17:23:07 UTC
From: mail2@tidelink.net
Message-ID: <2f0b2c24.0409080923.50d9ec1f@posting.google.com>
Source record: 6839

Hello to all... I am brand new to the group, just signing up today. I appreciate any/all help and advice you can provide.

I live in Lakeside Oregon, right on the pacific coast. It is 14 miles north of Coos Bay/North Bend and 13 miles south of Reedsport. I can describe the area as sand dunes, forests and hilly terrain.

I want to get local AM stations. In specific, AM 1230 out of Coos Bay, and ESPN radio station. We can't get T.V. here unless we have satellite, which I could not justify the cost of monthly (just my wife and I and we both work full time, not at home enough really). Therefore, I am looking towards having some entertainment in the winter, specifically local AM radio.

During the day, we get only one station, AM 1030 (http://www.kdun.com/)out of Reedsport which I know broadcasts at 50,000 watts during the day, turning down at night. At night, we cannot get the station at all.

I have been using multiple radios to test and see if I can improve reception by moving the units, rotating, etc. My two main test units are a Craftsman radio from the 60's with a large ferrite rod antenna (I measured and it is over 6 inches long)and a Radio Shack SW-100 radio with a rotating ferrite rod antenna on top (http://support.radioshack.com/manuals/ome12-795.pdf). Neither can pull in the AM 1230 station in Coos Bay clearly enough to listen. I can get faint hints of the station, but it is not clear either during day or at night.

What can I do to increase the reception power of my radios? I place them near the window and it does help somewhat, but not substantially. Am I am prime candidate for a C Crane "dinner plate" antenna or one of their other models (http://www.ccrane.com/am-antenna.aspx)?

I know little/next to nothing of getting the most out of my equipment or AM antenna technology. I have heard the GE Superadio is a perfect radio for rural users, is this accurate?

Thank you all for the assistance, I truly appreciate it...

Jason

Man, that *does* look like a tough place for reception!

Have you tried antenna TV? My database suggests you should be within
range of channels 11 (CBS), 13 (NBC), 27 (ABC), 30 (Fox), and 46 (NBC),
even with simple antennas. (11 even ought to make it with rabbit ears)
It's not that good at taking terrain into account though, so maybe those
indeed aren't accessible to you...

> What can I do to increase the reception power of my radios? I place

What's wrong with your reception of AM 1230? I mean, is it a buzzing
noise? Is it just generally weak? Is there interference from other
radio stations? Does it sound better if you take the radio outside and
away from the house?

It seems strange to me you'd have trouble with daytime reception of a
station less than 20 miles away. (night reception can be more
problematical due to massive interference from other stations) I
suspect you have a local noise source that's causing your problems.

I only worked them twice but do have the QSLs.

I too have always received cards promptly via G3SWH.

Lo Strange Radio Team presenta un evento che occasione di contatto tra OM
e mano tesa verso il prossimo...

```
** STRANGE RADIO EVENT **

Strange Radio Team presents a special event made for the OM. An hand to the
world.

** STRANGE RADIO EVENT **

This competition will be yearly but the program will be different each year.
Strange Radio Event participation rules:
```

1- Period: from 00.00 UTC of 22 October till 24.00 UTC of 24 October 2004.
2- Points: S.R.T. stations 3 points, special call stations 5 points, Jolly
station 10 points.
These stations can be worked a time to day for every band.
3- For the Strange Radio Event Certificate are necessary 30 points.
4- Bands: 2 m.(144.240-144.280 Mhz), 6 mt.(50.200-50.250 Mhz), 10
m.(28.650-28.750 Mhz), 15 m.(21.300-21.400 Mhz), 20 m.(14.290-14.350 Mhz),
40 m.(7.042-7.047 Mhz), 80 m.(3.600-3.700 Mhz).
These frequency ranges are made to respect other activities on bands.
QSO using links, repeaters, satellites are not allowed.
5- S.R.T. Stations, special calls and jolly station calls will be posted as
they will be available before the contest start.
6- Award: A plaque with certificate will be awarded to: First HF Station,
First VHF Station, First SWL Station. The S.R.T. Committee will give the
plaque to the Winners during the
2 Strange Radio Meeting in Agropoli (SA-Italy) on 2005.
7- Log: Standard logs are necessary. A summary sheet is required showing
all the QSO details on each band, name, callsign, full address of the
applicant, callsign of the operators and a signed declaration. Logs must be
mailed within 30 days from the end of the contest and addressed to:
IZ7DOK Marco De Carlo, via Degli Orefici 6, 73100 Lecce, Italy
8- Donations will be give on 2004 to the Nation AIDS Research Association.
9- Strange Radio Event Certificate: this special participation certificate
is available to all the participants with a minimum of 30 points.
The Strange Radio Event Certificate can be obtained sending a donation of 10
Euro or 10 $ with the log to the Event Manager.

Amateur Radio Newsline™ Report 1413 – September 10, 2004

Amateur Radio Newsline report number 1413 with a release date of
Friday, September 10th, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T.

Hurricane Frances strikes Florida and ham radio is prepared. Hear the ham radio first responders in action on Amateur Radio Newsline report number 1413 coming your way right now.

(Billboard Cart Here)

**

RESCUE RADIO: HURRICANE FRANCES VS. HAM RADIO

Hurricane Frances pounded Florida with high wind and heavy rain after it smashed across the state's East coast. Close to 4 million residents lost power and telephone service. Cellular phone networks that survived Frances’s gale force winds quickly became overloaded. Enter ham radio. Amateur Radio Newsline’s David Black, KB4KCH has been following the story from our South-East bureau in Birmingham, Alabama:

--

When Hurricane Frances hit Florida on Labor Day weekend, the storm ripped roofs off buildings, toppled trees and cut power to about 4 million people. Also lost was part of the states telephone and cellular service. This created a communications vacuum.

But hams affiliated with SATERN - the Salvation Army Team Emergency Radio Network, A-R-E-S, and the Hurricane Watch Net were expecting Frances. Radio amateurs had been tracking this storm as it ravaged its way across the Caribbean. And it was ham radio that let the world know of the destruction the giant storm had caused as it hit some of the islands:

--

“Roger roger. On Elutheria Ill say about 40 percent of the structures have damage. In the Rainbow Bay area where I live I would say about 70% of the hhomes here have structural damage. Over.”

--

Once a Category 4 hurricane with winds of 145 mph, Frances had weakened to a Category 2 storm as it neared Florida. Winds dropped to a peak of 105 mph as it made landfall at Sewall's Point, north of Palm Beach, around 1 a.m. Eastern Daylight Time on Saturday, September 4th. Ham radio operators affiliated with

the Hurricane Watch Net tracked its approach:

--

“This is KA5E with the Hurricane Watch Net. We are currently taking measured weather reports out of the affected area for Hurricane Frances. Do I have any stations on with pdates or signifigant weather reports. KA5E, over.”

--

The powerful storm hit Florida with ferocious winds and sheets of rain. The hurricane was so large and slow moving that its western outer edges had began arriving on the east coast on Saturday morning. On Sunday morning its eastern edges were still pounding the coast from which 2.5 million people had been told to flee. Repeaters interconnected using I-R-L-P and Echolnk were pressed into service to help coordinate the latest round of evacuations:

--

“KC4PNC KB1CYO net control. Go ahead sir,”

“They have called for mandatory evacuation for Hillsboro county for manufactured homes and also mobile homes. They have not ordered a mandatory for low lieing areas but they are strongly recommendng it.”

--

And as evacuee’s poured into shelters, communications volunteers were needed. A call was put out over the interlinked repeater network and the hams responded

--

“We are looking for any volunteerr Amateur Radio operators to help with shelters. We have eight shelters open right now. Those are being manned. However, since its a declared evacuation all of the other shelters will be opened and we are looking for vlunteers to man those shelters. KC4PNC.”

--

As Frances path of destruction hit Florida's central Atlantic coast counties, blinding rain squalls drove clouds of sand into the air. At the same time high waves thundered onto the beaches. One ham watched as his rain gage was torn away and white caps pounded ashore:

--

“Any kind of rainfall accumulation?”

“No, that gage blew away but I can tell you that we are in a high tide area right now and I can see the tides up about a foot and a half and I have water coming over my seawall. But its not a problem. We are still at a much higher elevation. The water is over the seawall along the Intercoastal Waterway.”

--

As palm trees rained coconuts and then toppled over and buildings suffered extensive damage there was also a tragedy at sea. And the U-S Coast Guard turned to Amateur Radio for help:

--

“I want to remind the net that the Coast Guard has asked us to lend assistance in the search for the Anna Marie. It is a vessel that went down off the coast of Sarasota this evening about 10 to 12 miles out. Any assistance or any information on the Anna Marie that went down with the crew 10 o 12 miles out of Sarasota, the U.S. Coast Guard would appreciate your assistance.”

--

At airtime its not known what happened to the Anna Marie nor the fate of its crew. But as the search continued, there was yet another threat. Early on Sunday the 5th, the massive weather system spawned a tornado, and the warning went out over the I-R-L-P ham radio network:

--

“The tornado is expected to be by Bostwick by by 2:45 Eastern, Forholm by 3:00 a.m. and thats all I have.”

--

As that twister touching down the National Weather Service office in Jacksonville issued a tornado warning for Northern Clay County including the city of Orange Park. Also affected were St. Johns, Clay, and Putnam Counties. And as dawn was breaking radar picked up a developing tornado near Doctors Inlet moving West at 45 mph. Only some damage to roofs was reported.

But reporting weather was not the only chore radio amateurs were involved in. Another as health and welfare. Letting worried relatives and friends know about those stuck in Frances path. Many like this central American station who was happy to hear that the hurricane was headed away from his daughters location:

--

“OK. Great. Thank you very much. I appreciate that information. We are here in a location where we do not have any TV or any other communication. We are on the beach on the West coast of Panama. So thanks very much I do appreciate it. This is HB1XRO and the handle is Bob.”

--

By Monday afternoon, Frances had crossed the eastern Gulf of Mexico and made its second landfall in Florida's northwest Panhandle section some 20 miles south of Tallahassee. Now it only a tropical storm with sustained wind near 65 mph. Damage was mainly to power and telephone lines. At that point the forecasters were predicting the storm would move north-northwest at about 8 mph, and was not expected to regain hurricane strength.

Frances soaked Georgia, dumping 11 inches of rain in a 24 hour period in the town of Patterson.

Media reports blame Frances for at least seven deaths in Florida, including two people who were killed Saturday when the roof of he building they were in collapsed. There were also two deaths in the Bahamas. One of these was a teenager who was reportedly electrocuted when he tried to hook up a generator to a power mains that was still on.

With thanks to the hams who supplied the storm audio over the Internet used in this report, I'm David Black, KB4KCH at the South-East bureau in Birminham Alabama for the Amateur Radio Newsline. (ARNewsline(tm))

--

**

RESCUE RADIO: HAM RADIO PREPARES FOR IVAN

And its not over yet. As we go to air Hurricane Ivan is making its way cross the Caribbean and could strike the United States. CQ's newsdesk reports that Amateur Radio at the National Hurricane Center, WX4NHC, was to be reactivated for Hurricane Ivan at 2 PM EDT Thursday, Sept. 9, and will be active on Friday-Sunday 8 AM-11 PM EDT. The Hurricane Center will be on the Hurricane Watch Net on 20 meters as well as the VoIP Hurricane Net,. The latter is a combination of IRLP and Echolink stations.

The Cayman Islands and Jamaica are the next locations in the path of this extremely dangerous Category V Hurricane which now has maximum sustained winds of 160 MPH per the latest advisory issued at 5 AM EDT Thursday morning.

VoIP Net Control Station Rob Macedo, KD1CY, says they are trying to coordinate with the IRLP node owners on the Cayman Islands and Jamaica on usage of their nodes and liaisons to those affected areas. Currently there are no Echolink or IRLP nodes in Cuba.

National Hurricane Center advisories indicate that the path of Hurricane Ivan is not clear after it passes over Cuba on Sunday. Residents in the affected area should monitor the situation closely. There is a possibility that the hurricane's forward progress could slow and emergency nets may be activated for an extended period of time. It also means that ham radio communications volunteers could have a lot more to do in the coming days. (CQ)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the repeaters of the Condor Connection intertie serving the great American South-West.

(5 sec pause here)

**

RESCUE RADIO: FIRST RESPONDERS SAY THEY NEED INTEROPERABILITY

Meantime, three years after the nine eleven terrorist attacks, thousands of police and fire divisions in cities and counties across the United States still

do not have coordinated communications capabilities. So says the First Response Coalition and Amateur Radio Newslines Norm Seeley, KI7UP, has the details:

--

The First Response Coalition calls this lack of interoperability an unresolved national crisis and it has decided to take on the FCC and big business to solve it. This as the organization reaches out directly to more than 43,000 local police and fire officials to solicit their help.

First Response wants Congress to overturn the FCC decision to award spectrum to Nextel in favor of a plan that deals both with interference problem and the interoperability crisis. Gene Stilp, who is the First Response Coalition coordinator says that the FCC plan involving Nextel is wrong for police officers and firefighters. This is because it only takes on only part of the interference issue. Moreover, it does not do anything about the lack of interoperability between emergency response groups.

The First Response Coalition says that this outreach program is getting a very favorable grassroots response. So far over 17 fire chiefs have joined ranks with the group in opposing the FCC's current plan for what they call a give away of taxpayer-owned spectrum.

For the Amateur Radio Newsline, I’m Norm Seeley, KI7UP.

--

About the only emergency responders these days who have full two way radio interoperability are radio amateurs. Hams had voluntarily set world-wide communications standards many years ago. (First Response Coalition release)

**

RESCUE RADIO: AMBER ALERT LINKS UP TO THE WEB

The nation's Amber Alert system has become a web available tool. This, thanks to a portal made available by the E2C company of Scottsdale, Arizona.

Until now, Amber Alerts have been a primarily radio based technology. This meant that messages had depended on the nation's Emergency Alert system for relay and delivery. The new Web-based system can process and transmit the same emergency information more quickly and make it available to a wider variety of devices. It also comes with software that pinpoints the location of a child abduction and sends out emergency notification targeted to that geographic area.

As of now, Amber Alert managers in 11 states have access to the new portal. Use of the system is expected to expand to the 49 states that have statewide Amber Alert systems. Hawaii has no statewide system but has several local alert networks. (E2C)

**

THE BPL FIGHT: VK 4-WHEELERS JOIN BPL FIGHT

A Four Wheel Drive hobby group has joined the fight against BPL. Its happening down-under. WIA Newscaster Phil Waite ,VK2DKN, reports:

--

The VKS737 4WD HF Radio Network, joined the fight against BPL last week, following the recent WIA news broadcast by Jim Linton, VK3PC, highlighting the BPL industry's attack on interference protection for so called `recreational radio services' and an approach from WIA Director, Glen Dunstan, VK4DU.

VKS737 are currently circulating their members with information about the threat BPL poses to their activities, and encouraging their members to lobby politicians on the issue.

The VKS737 network is used extensively for emergency communications in remote areas, as well as serving the communications needs of outback travellers. Their current membership is around 7,000 and they potentially reach 250,000 Australian 4WD owners.

Many of their network base stations are in urban areas potentially affected by BPL and VKS737 members are rightly concerned about the threat presented to their HF communications. Their organisation is also associated with the Australian Citizens Emergency Radio network, who provide similar services on citizens band frequencies.

Phil Waite, VK2DKN, for the WIA National News.

--

The Wireless Institute of Australia is discussing ways the two organizations can assist each other in the fight against BPL. (WIA News)

**

INTRUDER WATCH: STRANGE SIGNALS AT 7238 KHZ

According to Bob Gonsett, W6VR, for the past three weeks, hams in the southwestern U.S. have been reporting a mysterious signal in the 40-meter band. One party described it as a "mechanical sound." Another speculated that it was "data."

Engineers at Communications General Corporation in Fallbrook California took a quick look at the situation on Septeember 6th. And at 3:20 P-M Pacific Daylight Savings Time the company found several close-spaced CW carriers. The four strongest signals at CGC's lab were on 7238.063, 7238.150, 7238.237 and 7238.412 kHz. The signal on .237 was the strongest of the group and the frequencies reported should each be accurate to better than plus or minus 30 Hz.

Communications General says it is not sure if the signal was coming from one specially modulated transmitter or from transmitters at different locations. Bob Gonsett adds that it will be interesting to learn the source or sources of these transmissions. (W6VR, CGC)

**

SAFETY: RADIO ENGINEER ELECTROCUTED WHILE WORKING ALONE AT TOWER SITE

The hazards of working near power lines has been brought front and center again. This with word that a Wyoming broadcast engineer has killed while working at a transmitter site in Colorado.

Thirty nine year old Robin Bradley Thomas was killed while working alone, trying to install a radio transmitter. The accident happened about 18 miles northwest of Red Feather Lakes in northern Colorado. Indications are that Thomas of Cheyenne died when he accidentally came in contact with high-voltage and was electrocuted. Thomas was described as an experienced engineer who contracted out his services. (CGC)

**

RADIO LAW: CELLPHONE PROVIDERS SUED OVER LOCKED PHONES

A consumer watchdog group sued three cellular telephone companies. This. for "locking" their phones to make it harder for customers to switch carriers.

The Foundation for Taxpayer and Consumer Rights is the group that filed the suit in Los Angeles. It accuses AT&T Wireless Services Inc., T-Mobile USA Inc. and Cingular Wireless, of using software in their handsets that prevents them from being used on a competitors' network.

All phones in question use Global System Mobile communications, or GSM technology which effectively limits a handset to a specific carrier using a non interchangeable SIM card. The lawsuit complains that this is an unfair and deceptive business practice under California state law.

The phone companies are defending their policy. They say that they routinely subsidize handset cost and would loose substantial revenue if they allowed customers to easily use those phones with another carrier. (Foundation for Taxpayer and Consumer Rights)

**

REPEATER COORDINATION: METROCOR MORITORIUM TO END DECEMBER 15

Attention repeater owners in the New York metro and surrounding area. An impoerant deadline is aproaching.

You may remember that your new area frequency coordinator MetroCor had put in place a two year moritorium on new co-channel coordinations when the group came into being. It had also asked existing repeater operators who have documented proof of expired coordination from the now defunct Tri State Amateur Repeater Council to update their coordinations with MetroCor.

In a posting to QRZ.com, MetroCor's Mario Sellitti, N2PVP, says that this moratorium had minimized the possibility that new coordinations might inadvertently displace longstanding users of the spectrum. It also helped to avoid creating disputes where none previously existed.

Now, says Sellitti, this period must now come to an end. He says that MetroCor will be terminating the moratorium as of midnight, Saturday, December 15th.

But he adds this qualifier. Sellitti says that anyone in the area having a repeater or knowing of one belonging to another ham, and that repeater qualifies for this exception, to please refer to MetroCor's on-line F-A-Q in item No. 11. This will give you or the person with the other machine the information needed to gain new coordination through MetroCor. Those in need will find it on-line at www.metrocor.net/faq.htm. (MetroCor, QRZ.com)

**

THE SOCIAL SCENE: W9DXCC CONVENTION IN ILLINOIS IN SEPT

Turning to upcoming social events, Joe Shrader, W9JUV says that the 52nd annual W9DXCC Convention and Banquet takes place Saturday, September 18th. This years venue is the Holiday Inn Chicago in Elk Grove, Illinois with noted DXer and author John Devoldere, ON4UN, as the featured banquet speaker.

John Devoldere leads the world in countries worked on 80 meters with over 350, and is first ham outside of North America on 160 meters with over 290 contacts. He is also an avid contester was elected to the CQ Contest Hall of fame in 1997. Devoldere is also one of the best speakers in the hobby.

This is a show you won't want to miss. For registration and lodging information visit the www.qth.com/w9dxcc on the world wide web. (W9JUV)

**

THE SOCIAL SCENE: SVHFS IN NC NEXT APRIL

And make plans now to attend the 9th Annual Southeastern VHF Society Conference. The 2005 gathering will be held in Charlotte, North Carolina next April 29 and 30.

Guy Titman, K4NUS has offered to be host and facilities chair for 2005 gathering. More information is on the web at www.svhfs.org (VHF Reflector)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

HAM TECHNOLOGY: HAM DREAM DIGITAL VOICE QSO

What is believed to be the first two-way digital voice contact in South Africa took place between ZS1AN and ZS1AU on August 10th. Contact was made on 15 meters with both amateurs using Ham Dream software for the QSO. Amateur Radio Newsline's Bruce Tennant, K6PZW has the details:

--

Ham Dream is an open-source version of the Digital Radio Mondiale broadcasting standard. It was adapted for amateur use by HB9TLK and gives hams the ability to talk almost noise free. Here’s how.

Speech is converted to digital data using a low-bitrate vocoder analog to digital converter. The data is then transmitted using a high-speed modem. At the receiving end the data is decoded to recover the audio at the receiver. Although still in the evelopment stages, there is worldwide interest in Digital Voice, which can deliver very high signal-to-noise ratios over medium quality narowband S-S-B channels.

For those who want to experiment, HamDream software can be downloaded free of charge from the South African Radio League's website at www.sarl.org.za.

For the Amateur Radio Newsline, Im Bruce Tennant, K6PZW, reporting.

--

Further information on digital voice in ham radio is available on HB9TLK's website. Its in cyberspace at www.qsl.net/hb9tlk (GB2RS)

**

EMERGING TECHNOLOGY: TiVO OVER THE NET

Federal regulators have approved technology allowing TiVo subscribers to send copies of recorded shows over the Internet. In its decision, the Federal Communications Commission said the new feature by Alviso, Calif.-based TiVo has enough protections in place to prevent mass distribution of copyrighted material.

The technology would allow a TiVo subscriber to download broadcasts to a computer and send copies of recorded shows over the Internet to an office or home or to a small circle of friends, as long as they are on the subscriber's registered account. The Motion Picture Association of America, the National Football League and others complained that the new service would allow the 1.6 million TiVo subscribers to redistribute shows over the Internet to virtually anyone, anywhere. (Published news reports)

**

EMERGING TECHNOLOGY: FCC TAKES NEXT STEPS TO PROMOTE DIGITAL TV TRANSITION

Its full speed ahead with the conversion to digital television. So says the FCC as it issues a Report and Order that it says implements several steps necessary for the "continued progress of the conversion of the nation's television broadcast system from analog technology to digital television.

The paper covers almost every aspect of the conversion process over the next several years. It also highlights the coming events and should be considered "must reading" for those interested or involved in the future of digital T-V. You will find it on-line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-250542A1.doc (CGC, FCC)

**

WORLDBEAT: NEW UK REPEATER SERVES LONDON AND KENT

And if you are planning a trip to the UK, don't forget your reciprocal license and your HT. And be sure to try out a new repeater serving the needs of hams in the North Kent and South East London England area.

Its call is GB3OK and it is sponsored by the Bromley Repeater Group and it went on the air on the 16th of August. It transmits on 145.650 MHz with the standard 600 Kilohertz input offset and requires a 103.5Hz tone to access the receiver. The trustee of GB3OK or repeater keeper as the British call them is Tony Ravelini, G1HIG, in the city of Kent. (GB2RS)

**

DX

In DX, HA3JB tells the Ohio Penn D-X Newsletter that he will operate as SU8BHI from Cairo, Egypt. This, from September 21st through December 20th. Activity will include CW, PSK, RTTY, SSTV and some SSB. QSL direct to HA3JB. (OPDX)

And UA9OBA, has been active as JT100M. This is a special callsign being used until September 13th during the Mongolian leg of the Altay-Himalaya Transasian off-road expedition. Activity has been mainly on 20 meters SSB around 14.180 Mhz. QSL via UA9OBA. (OPDX)

**

THAT FINAL ITEM: THA FINAL ITEM: A KEYLESS T-HUNT

And finally this week, a Michigan ham radio operator from the Ford Motor Company was part of a two man team that has solved the mystery of malfunctioning remote keyless car door openers, garage door openers and other such devices in Las Vegas, Nevada. A problem with R-K-E devices that had baffled many residents since a massive outage began last February.

Las Vegas resident Bill Zawistowski was one of those complaining. He and others vented their frustration to anyone who would listen including the FCC. Ford responded by flying in two R-F detectives. Earl Morse, N8SS, represented the auto maker and Nabil Hachem was from Alps Automotive, which makes the keyless car-door devices. And it did not take very long for Morse and Hachem to figure out what was happening:

--

Morse: "When we got there we discovered a signal in the paassband of the RKE receivers which was actually strong enough to keep the RKE from activating its own receiver in the vehicles. We investigated further and found it to be a stuck repeater. We can leave it at that."

--

Morse says it was not much different than a ham radio T-hunt except for the frequency:

--

Morse: “Having experienced Fox Hunting first hand. the only difficult art was shifting all my equipment to that frequency. All of my antennas were relatively useless because they were cut to 2 meters an 440 so we had to make some new antennas for the 315 Mhz. band.”

“We did have one advantage in that the RKE group had purchased a Doppler direction finder and we utilized that a lot.”

--

Morse tells Amateur Radio Newsline that once they found the transmitter it only took a few phone calls to get it turned off. The problem did surface again a week later but this time one landline call got it to go QRT for good. (ARNewsline (tm))

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's W-I-A News, that's all from the Amateur Radio Newsline(tm). Our e-mail address is newsline @arnewsline.org. More information is available at Amateur Radio Newsline's(tm) only official website located at www.arnewsline.org. I would have to agree with Doug.
It seems you should be able to get some AM radio there without any trouble.
At night there should be many signals on your AM radio.
What do you hear at night.

Go outside and try your car radio, what do you hear at night and daytime.
On the car radio you should be hearing many stations at night especially on AM.

If you can hear stations on the car radio but not in your house, then it could be that inside your house you just wont get much.
Which would mean an outside antenna of some sort for AM and FM.

Also an outside TV antenna maybe with a rotor on it so you can point it to different stations would be a big help in the TV reception.

If you cannot even hear AM stations on the car radio then you are really in an interesting area.

>Who is the "best" repair shop for repairing and aligning a Kenwood TS930?

I don't know who would be the best.
I think Kenwood itself would take a long time, so I have heard.

I recently had to send my old Kenwood TS-180S out to get fixed and aligned
etc.

I sent it to Burghardt Amateur Center in Watertown, SD. And they didnt take
very long and the price wasnt bad and it did come back fixed.
The only problem I encountered was them trying to get a part from Kenwood.
That does seem to be a problem, not getting the part, but getting the part in
some decent time frame.

You might want to call Burghardt and see what they say on price and time etc.
Their number is 605-886-7314

I dont know if they have an 800#, but they probably have a web page.

Craig N0BSA

I found that the Kenwood East Service Center was my solution to many TS-930S problems. I sent it for repair of the usual intermittent digital problems, the main office didn't fix it, but the East did. I gave them all the time they wanted to work on it, don't send it back until fixed. The technician working on it felt it ready enough to smoke test in a contest before sending it back. I had to admit that my idea of getting it fixed and buying a TS-950 disappeared when seeing how it worked after a real going over by Kenwood East. It never sounded so good.

I was very impressed with Kenwood East in Virginia Beach, VA, they even talked to me on the telephone, answered emails, gave advice on repairs of other Kenwood gear on the phone.

September 13, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, N2TK, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K6RIM, K8YSE, DL1EK & The DX News Letter, DL7RBI, EA5KY & El Mundo del DX, F5CWU & La Gazette du DX, F5NQL & UFT, HA0HW, I1JQJ/IK1ADH & 425 DX News, IZ8CCW, JE1JKL, JI6KVR & JA-IOTA Islands News, LA7DFA, OM3JW, ON5NT, OZ7C, PG5M, TA3YJ, VA3RJ & ICPO, and MDXC HQ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 5th/September, through Sunday, 12th/September there were 218 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5U, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EI, EK, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J8, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1MV, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TI9, TJ, TK, TL, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9L, VP2M, VP2V, VP8/h, VP9, VQ9, VR, VU, XE, XT, XW, XX9, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

6W, SENEGAL. Al, F5VHJ, will be active as 6W1RY in the CQWW SSB DX Contest (October 30-31st) as a Single-Op/All-Band entry. QSL via F5VHJ.

7X, ALGERIA. Luis, EA5KY, editor of El Mundo del DX in the Radioaficionados, official bulletin of the URE, informs OPDX that operators Angel/EA1QF,

Pere/EA3CUU, Paco/EA4BT, Emilio/EA7AAW, Julio/EA7JB, Juan Lucas/EA7TL and Ramom/EB4EPJ will be active from here October 2-9th. Callsign will probably be 7X0AD, but it's not confirmed yet. QTH will be 7X0AD's house, and he will be one of the operators as well. QSL is via EA4URE. This activity is a cooperation between URE and ARA.

9K, KUWAIT. Yaser, 9K2YM, will be active in the upcoming CQ/RJ DX RTTY Contest (September 25-26th) as a Single-Op/Single-Band (20m) entry. QSL via 9K2YM (DIRECT, address QRZ.com).

9M6, EAST MALAYSIA (IOTA/Contest Op). Saty, JE1JKL, informs OPDX that he will be active as 9M6NA on Labuan Island (OC-133), East Malaysia, starting November 24th until the end of the CQ WW CW DX Contest (November 27-28th). He will be active before the contest probably on 160m, 80m and the WARC Bands (CW only). During the contest, he will be a Single-Op/ All-Band/High-Power entry. QSL via JE1JKL (E-mail requests for Bureau returns are welcome!). His E-mail address is: 9m6na@jsfc.org
His Web is at: http://jsfc.org/je1jkl/9m6na.html

ANTARCTICA AWARD (MDXC - Press Release). Antonio Cannataro, IZ8CCW, Mediterraneo DX Club (MDXC) Secretary, informed OPDX that the MDXC is pleased to introduce the "Antarctica Award" to the DX-oriented Amateur Radio community. Information and details on how to obtain and view this nice looking award are available the MDXC Web page at: http://www.mdxc.org/antarctica
Should you need further information or a higher resolution version of the award image, please feel free to contact the MDXC secretery at: mdxc@mdxc.org

ATTENTION LOTW USERS! (Logbook of the World Certificate Renewals).... "To all Logbook of the World certificate holders - All LoTW certificates currently have a term of one year and must be renewed before expiration. No additional documentation will be required if the renewal request is created before the certificate expires. We will send an email reminder to all certificate holders whose certificates are about to expire. This email will refer users to detailed renewal instructions on the Logbook of the World Web site (www.arrl.org/lotw/renew).... 73, Logbook Team"

CU, AZORES. The editor of the "DX News Letter", Karlfried, DL1EK, informs OPDX that each year he and others try to find another place of interest for the CQ Word-Wide SSB DX Contest at the end of October. After their successful Jersey and Sardinia operations, they decided to go to the Azores Island (CU - IOTA EU-003) to set up their Multi-Operator station this year. The team consist of Burghard/DF8XC, Peter/DH4JQ, Alfons/DJ8VC, Hans-Jorgen/DL1YFF, Franz/DL3PS, Stefan/DL7AOS, Lars/DL9LR and Karlfried/ DL1EK. The callsign for the contest is not yet known. One week before and also one week after the contest they will use their own callsigns (e.g. CU2/DL1EK). Activity will be on 160-10 meters (sorry, no 30 meters) on CW and SSB. For skeds, please contact the following E-mail address: dl1ek@r25.de
Look for further information on their Web page soon at: http://www.rwdcc.de

FK, NEW CALEDONIA. It seems that Mike/KM9D and his girlfriend Jan/KF4TUG will be staying here until September 15th. Mike is active as FK/KM9D and has been quite active. Over the past weekend he was heard on CW at various times on 160/40/30/20/17/12 meters. QSL via OM2SA.

FP, ST. PIERRE AND MIQUELON ISLANDS. Pete, NN9K, is now active as FP/NN9K from Miquelon Island (IOTA NA-032, DIFO FP-002, WW Loc. GN17TC) until September 18th. He has really been keeping DXers busy on 30 meters over the past weekend. His main goal is to provide FP QSOs as much as possible on 30 meters. He will be on other bands from time to time but mainly on CW. QSL via his home callsign, by the bureau or direct to: Peter Beedlow, 741 Greenway Ave, Colona, IL 61241-9337, USA.

HB0, LIECHTENSTEIN. Andy, LY2BVB, will be active as HB0/LY2BVB from September 20-23rd. Activity will be on 80-10 meters CW/SSB. This will be a holiday style operation. QSL via bureau is OK.

IOTA NEWS.....
SA-NEW. An international team presently consisting of Marco/CE6TBN, Mario/CE6NE, Lucas/LU1FAM and Mike/K9AJ, will be active February 11-14th (2005) from Rennel Island, Ultima Esperanza Province South Group (CE8). Activity will be on CW and SSB. Further information will be available soon at:
http://www.ce6ne.cl

SA-086. Look for members of the Atacama Desert DX Group and Radio Club La Serena to be active from Gaviotas Island, September 25-26th, to commemorate the 40th IOTA Aniversary. This will be a multi-mode and band operation (CW, SSB, BPSK31, RTTY and SSTV; 80-10 meters and the WARC bands). They will be using the special callsign XR2G. A Web page is currently under construction (URL not provided).

IS0, SARDINIA. Operators Roberto/IS0GRB, Alessandro/IS0MYN, Basso/IS0CLA, Gianni/IS0XDA, Angelo/IS0ADZ, Alessio/IS0SEL, Antonello/IS0XSE and Stefano/IS0WBT will be active as IS0A in the CQ WW DX SSB Contest (October 30-31st) as a Multi-Multi/Low-Power entry. Activity will be on 160-10 meters. All antennas are homemade and their contest site is 1000 meters above sea level. They do have a Web page and live images will be provided through a wireless link on 2.4 GHz to the Internet at:
http://www.cqis0.it/is0a
QSL to IS0MYN or eQSL.

J45, DODECANESE. Operators Laci/HA0HW and Tomi/HA4DX will be active as J45HW and J45DX, respectively, with an unnamed HA friend from Faliraki, Rhodes Island (EU-001). The operation will take place September 26th through October 3rd. Activity will be on 40-10 meters, CW, SSB, RTTY and PSK31. QSL via operator's home callsign via the HA QSL bureau or direct by the QRZ.com addresses.

JA UPCOMING DXPEDITIONS (Reminder).....
4S - (OPDX.674) Masa, JQ3DUE/4S7DUG, will lead a large group of Japanese operators (possibly 25) to Sri Lanka to be active between September

18-25th. Activity will be on all bands and modes. QSL via operator's instructions.

FK - (OPDX.672) Eleven members from the Mitsubishi Electric Tokyo ARC (JM1YGG) will be active September 16-19th, as FK/JM1YGG and FK/homecall from New Caledonia (IOTA OC-032, DIFO FK-001). Activity is planned for 80-10 meters CW, SSB and FM. QSL via JM1YGG, by the bureau or direct to: Mitsubishi Electric Tokyo Amateur Radio Club, 2-1-1 Marunouchi, Tokyo, 100-8310 JAPAN.

KP2/WP2, U.S. VIRGIN ISLANDS. Operators Barry/W3FV, Tom/K2TW and Tony/N2TK will be active from contest station WP2Z on St. Croix, U.S. Virgin Islands, for the CQ WW SSB Contest, October 27th to November 3rd. They will be a Multi/2 entry in the contest. QSL WP2Z via KU9C. Before and after the contest, they will use their "own call/KP2". QSL to their home callsigns.

LIGHTHOUSE ACTIVITY.....
Albert, IT9MRM, will be active as I8/IT9MRM from the Capo Spartivento Lighthouse (ARLHS ITA-043 - WAIL CL-009) this week. Activity will be on 40/20/15 meters SSB, starting at 1400z, September 14th through 1200z September 15th. QSL via his home callsign, via the bureau or direct to: Albert Mattei, Via E. Millo, 20 Augusta 96011 (SR) ITALY.

Bill, KI4BBK, will be active from the Chesapeake Light Tower (ARLHS USA-168) in Virginia, September 25th (between 1600-1800z). His primary frequency will be 14270 kHz, but he will also try 18145, 21370 and 28370 kHz as conditions permit. QSL via his home callsign, direct with #10 sized SASE or SAE with sufficient postage.

MIA CONTEST. The Mediterranean Islands Contest, organized by the Mediterraneo DX Club, will take place from 1200z September 18th to 1200z on the 19th. Rules can be found at: http://www.mdxc.org/contestmia/rules.htm
Also, MIA Contest software can be downloaded at:
http://www.mdxc.org/contestmia/download.htm
< Build your MIA Contest log with it! >

NCDXF PRESS RELEASE. At its Board of Directors meeting on September 11, 2004, in Cort Madera, CA, the Northern California DX Foundation re-elected the following officers and directors:
President Len Geraldi K6ANP
Vice President Al Burnham K6RIM
Secretary Tom McShane NW6P
Treasurer Bruce Butler W6OSP
Director Rusty Epps W6OAT
Director Dave Pugatch KI6WF
Director Chuck Ternes N6OJ
Director Glenn Vinson W6OTC
Director Steve Merchant K6AW
Director Ken Anderson K6TA
Director Tim Totten N4GN
Information pertaining to the Northern California DX Foundation is available at: http://www.ncdxf.org

PIRATE ALERT. Per, LA7DFA, informs OPDX that the station signing JX7DFA during July and August of 2004 was a PIRATE. Last time Per was active as JX7DFA from Jan Mayen was in 2002.

QSL INFO AND NEWS.....
DANISH DATABASE MOVES TO A NEW URL. Boye, OZ7C, informs OPDX that The Danish DX Group's Web page will be (or is) closing down soon at: http://www.qsl.dk
The Web which has QSL and MANAGER databases has been moved to the new URL address at: http://www.ddxg.dk/oz
This Web page has more than 355,000 records and weekly updates. They hope this Web site will be permanent.

NOT THE QSL MANAGER. Steve, OM3JW, informs OPDX that he is receiving QSLs via the Bureau for YI0M again. He wants to inform the radio amateur community that he is NOT the QSL Manager for YI0M. Operator was Peter YI9OM (OM6TY), during the 2003 CQ SSB WPX Contest, and the QSL Manager is his father OM6TX.

W3HNK IS MANAGER FOR THESE NEW ONES: 4X1UH, AP2NK, C4M, FK8AH, FK8GX. RW6AWT, UA9QFF and YI9WRV.

R1MV, MALYJ VYSOTSKIJ. By the time you read this the R1MVI operation should be QRT. QSL via RA3AMG: Denis Skobelkin, A.k. 698, LV-1010 Riga, Latvia. It is recommended to use Denis's Latvian address instead of his Russian address.

S7, SEYCHELLES. Marco, HB9OCR, will be active as S79MH from Praslin Island, October 26th through November 6th. Activity will be on all HF bands excluding 80 meters. He will also be in the CQ WW DX SSB Contest (October 30-31st). QSL via HB9OCR.

S7, SEYCHELLES. All arrangements have been made for Willi/DJ7RJ and Klaus/DJ4SO to be on the air from Seychelles beginning October 3rd, for 2 or 3 weeks. They will be operating as S79RJ (DJ7RJ) and S79SO (DJ4SO) on 40-6 meters and on CW/SSB/RTTY/PSK31. Use of the 80 meter band has not been authorized, but they will be requesting permission to operate on 80 meters during the weekends (3505 kHz +/-). QSL via their home callsign.

SILENT KEY. World traveler and DXpeditioner, Frank Turek, DL7FT, became a "Silent Key" (SK) on August 17th, 2004. Over the years Frank went to many rare locations and handed out new ones to many people. He is survived by his wife Siegrid, DL7CN, who will be handling QSL duties. She will continue to keep the DL7FT Post Office Box open. OPDX and its readers would like to send out our deepest sympathy to Frank's family and friends.

SV9, CRETE. Gerben, PG5M will be spending his holiday (dates not provided) on the Island of Crete and will be active as SV9/PG5M. He will be operating occasionally on 40-10 meters CW only. His equipment is a FT-897 and a G5RV. QSL via PG5M (ex-PA0GAM, PA5NT), by the bureau or direct to: G.A.Menting, Waezenburglaan 104, 9351 HG Leek, Netherlands.

SV9, CRETE. Operators Stelios/SV9FBM and Chrisovalantis/SV9FBZ will be active as SY9Y in the CQ WW DX SSB Contest (October 30-31st) as a Multi-Single entry. Also, look for Stelios/SV9FBM to be active as SY9Y in the CQ/RJ WW DX Contest (September) as a Single-Op/All-Band/Low-Power entry. QSL both operations via SV9FBM to: Stelios Aggelakis, P.O.Box 113, GR 72200 Ierapetra, Crete Island, Greece.

T42, CUBA. Operators Angel/EA1QF and Carlos/EB1AA will be here from October 12-25th. They will be working on a "Radiosolidarity" project, and will be busy working on several HF station installations. In their spare time, they will be active as T42R. QSL via EA4URE.

TA3, TURKEY. Dennis, DL7RBI, will go to Ephesus near Izmir, Turkey, for his holiday from September 18th to October 1st. He will be active as either TA3/DL7RBI or as TA3Z*, depending on the possibility of getting a Turkish Guest License. Dennis will be active mostly in the local evening hours on 40-10 meters, with 100 watts and mostly on CW (SSB on request). Listen for him on one of the following frequencies (+/- QRM):
CW - 7016, 10116, 14016, 18086, 21016, 24916 and 28016 kHz
SSB - 7090, 14250, 18150, 21250, 24950 and 28250 kHz
Please QSL via his home callsign. For further information (in German), see the Web page at: http://www.dk0uni.uni-bonn.de

TC2, TURKEY (Special Activity). Berkin, TA3J, will activate the special callsign TC2K4J from Antalya, in the memory of the unforgettable 40 Silent Keys of Turkish Radio Amateurs, between 0240z, September 24th and 0240z, November 2nd. Activity will be on 160, 80, 40, 20, 15, 10 and 2 meters, including the WARC bands and on all modes. He will give a report each day on the memory of one TA Silent Key (For Example: On September 24th, 59-TA0A). QSL via TA3YJ, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. SWL QSL Cards are OK. Details on the special award which is available, as well as a list of the "TC2K4J Commemoration Program" on the following Web page at: http://www.geocities.com/tc2k4j/

TT8, CHAD (Update). Ghis, ON5NT, in Dubai (A61), informed OPDX that Robert, S53R, was not able to pick up his license last weekend because the PTT office in N'Djamena was closed. When he went to the PTT on Monday (lucky he had sent a fax before he left Dubai), the papers were ready but still had to be signed. In the meantime, he went on a mission for 3 days to the northeast of the country (with a small plane, max. lugguage 10kg, so he could not take his gear anyway). During his absence, someone from the office picked up his license. He finally came on the air on Thursday last week as TT8KR. He will in N'Djamena until about Tuesday, September 14th. He said he will try 160m, but the roof of the hotel is very low. Another report states Robert will be listening on 1828 kHz sporadically (or possibly 1831 kHz if frequency is not good) on the mornings and evenings of September 13th and 14th.

V6, MICRONESIA. Lanny, W5BOS, plans to be active as V6O from Pulap (Pollap) Island (IOTA OC-155), West Chuuk, Fed. States of Micronesia, October 18-23rd. No other details were provided. QSL via N6AWD.

VP5, TURKS AND CAICAOS ISLANDS. Look for Dave, AH6HY, to be active as VP5/AH6HY from Salt Cay in the Turks Islands group (IOTA NA-003) from September 23rd to October 2nd. Activity will be on 40-10 meters, SSB only. QSL via his home callsign, direct or via the bureau.

XU, CAMBODIA. Wim, ON6TZ, will be active as XU7TZG now through September 28th. Suggested frequencies are: 7075, 14220 and 21320 kHz (+/- QRM). However, he was heard this past weekend on 17 meters SSB between 1030 and 1300z. QSL via ON4AJV.

Z38, MACEDONIA. Zoli, HA1CA, has received his license and will be signing as Z38C. He will operate from Macedonia on the HF bands for the next two years. Later on he will put up some antennas for 2m and 70cm too. (His QRA is KN01..) QSL via HA1RS.

ZD8, ASCENSION ISLAND. Ian, G8WVW, has been active as ZD8I and will be here until the end of March 2006. No QSNs have been reported since August 20th, but his activity will be SSB on 80-6 meters (no 30m). Suggested frequencies are: 3737, 7077, 14237, 18137, 21337, 24937 and 28537 kHz. QSL via G4LTI. Check his Web page at: http://www.zd8i.net

ZK3, TOKELAU ISLANDS. Operator Chris, ZK3DX, has been quite active on 20/17/15/12/10 meters SSB usually after 2330z (for stateside) and 0530z (for EU). Length of activity is not known. QSL via EB2AYV.

Amateur Radio Newsline™ Report 1414 September 17, 2004

Amateur Radio Newsline report number 1414 with a release date of
Friday, September 17th, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. Ham radio meets hurricane Ivan. Find out
the details on Amateur Radio Newsline report number 1414 coming your
way right now.

(Billboard Cart Here)

**

RESCUE RADIO: HAM RADIO VS. HURRICANE IVAN - IN THE CARIBBEAN

Last week it was Frances. This week it's Ivan. Bother killer
storms
that took lives and destroyed property across the Caribbean before
making landfall on U-S shores. And as has been the case s many times
this year, ham radio was ready. Our team coverage starts here:

--

I'm Henry Feinberg, K2SSQ:

--

" The eye center of hurricane Ivan was located near latitude 17.9
North and longitude 78.7 West, or about three-zero, thirty miles or
five-zero, fifty kilometers South-West of the Western tip of Jamaica
and 190 - one hundred and ninety miles or 305 kilometers
East-South-East of Grand Cayman"

--

That was a warning relayed over ham radio in the Voice over I P
Hurricane Watch Net. Hurricane Ivan had hit Jamaica with wind speeds
near 155 mph. And as the storm approached, hams involved in the
Hurricane Watch Net relayed up to the minutes reports to the National
Hurricane Center in Miami:

--

"...wind speed sustained at 80 miles per hour. Gusts to 100
miles. Is
getting horizontal ran. Skies are darkening rapidly..."

--

The killer storm had already been blamed for at least 64 deaths in the Caribbean, including 34 in Grenada. It hit Jamaica on Saturday, September 11th packing winds close to 165 mph. In downtown Kingston, 20-foot-tall trees were uprooted, some flung onto the roofs of cars, and twisted metal roof panels strew the streets. At least 11 people were killed as the storm blew across.

Now on Sunday the 12th, reports were coming in from Ivan's next stop.
From the few hams in the Cayman Islands who were riding out the storm on the air using whatever gear they had that would run on emergency power:

--

"Zed-F-one kilo oscar has come up a couple of times reporting flooding
in areas that have never flooded before in a hurricane. They have some intermittent cellular telephone service. The land line phones are down and a lot of flooding. VP5DB with the Hurricane Watch Net."

--

Then there was this dramatic report to the Hurricane Watch Net from a crew member of the British Royal Navy ship Richmond that was anchored not far off shore. The Richmond had cut short her visit to Curacao to standby to assist islands devastated by Ivan:

--

Audio only. Hear it at http://www.arnewsline.org

--

Category 4 and 5 hurricanes can cause buildings to collapse, destroy mobile homes and flatten trees and road signs. Such storms are accompanied by a surge of sea water and require evacuation of low-lying areas within 5 miles to 10 miles of the shore. Normal lines of communications are almost always cut and this was the case with Ivan. And broadcasters in the Caribbean who were able to stay on the air had their reports passed to the outside world using ham radio. Stations like Wenty Bethune, 6Y5IC, who had survived Ivan' rampage on
Jamaica and was on the air from Kingston using battery power:

--

"We cannot confirm it, but we understand that there are people in the
Caymans standing on their roofs shouting for help. Sounds like a traumatic situation in the Caymans. This is coming off FM radio about an hour ago. QSL?"

--

6Y5IC said that he was also handling traffic into and out of the storm ravaged area. He added that he could probably operate for about to weeks using batteries.

Now Ivan was on a direct path toward Cuba. This, as Florida residents braced for a third storm to hit the state in a month. And on Monday the 12th a strengthened Hurricane Ivan headed toward the tip of western Cuba with winds in excess of 160 miles per hour:

Ivan bombarded western Cuba with the full fury of a category 5 hurricane. It damaged hundreds of homes and swamped at least two towns. The storm was so vast that its clouds simultaneously covered Cuba, the Florida Keys, the entire Florida peninsula and parts of the Bahamas, Mexico, Belize and Honduras.

Florida expected the worst. But after passing Cuba Ivan kept traveling West into the Gulf of Mexico. And even as Cuba was being hit hams on Mexico's Yucatan Peninsula like Juan Berndes, XE3AAF, were
checking into the Hurricane Watch Net to report that Ivan was being felt:

--

"Roger, OK. I can only tell you that we have been having squalls
--
intermittent squalls all throughout the morning, and that's about it.
That's the information I can give you at the present time.
Over"

--

Now, a hurricane watch was in effect the entire Florida panhandle and as far west as Louisiana, including New Orleans. Ivan, still a category 4 killer storm was on his way to the U-S mainland. I'm Henry
Feinberg, K2SSQ. (ARNewsline(tm))

(5 sec pause here)

**

RESCUE RADIO: HAM RADIO VS. HURRICANE IVAN - LANDFALL

I'm Bill Pasternak, WA6ITF, continuing our coverage of Hurricane Ivan.

Packing gale force winds, Hurricane Ivan slammed ashore near Gulf Shores, Alabama in the wee hours of Thursday, September 16th. Anticipating the storms arrival, Alabama, Florida, Louisiana and Mississippi had declared states of emergency a day earlier. A last minute shift spared New Orleans a direct hit but some 360,000 homes and businesses were without telephone service or power in Alabama, Louisiana and Mississippi. And throughout it all, ham radio operators did their part by passing health and welfare traffic, damage assessments and those very important storm position reports:

--

"Repeating the 4 a-m CDT position: 30.9 North, 87.7 West.
Movement
toward the North near 214 miles per hour. Maximum sustained winds near 115 mph. Minimum central pressure 947 millibars."
--

Notice something interesting about that audio? The station reading that report is not in the continental United States. In fact he's thousands of miles away in Australia. But thanks the latest technology developed by hams -- a service called The Internet Repeater Linking Project -- Amateur Radio operators anyplace in the world can pitch in to help when there is an emergency like hurricane Ivan.

But long before the storm made landfall residents of the Gulf States and the nations ham radio community were preparing for the its arrival. On Wednesday the 15th, some highways were converted into one-way evacuation routes. This, after authorities from the Florida panhandle to Louisiana ordered wholesale evacuations of low lying areas. Everyone from New Orleans east to Apalachicola, Florida was on alert because even the tiniest change in the storm track now could move the location of the storm's landfall by hundreds of miles. And after taking a day off to regroup, the Hurricane Watch Net on 14.325 MHz again sprang to life. Some of those checking in were directly involved in storm relief efforts:

--

"Kilo Delta 5 Golf Golf Lima north of the Coast. I'm
operating the
Operations Center at Camp Shelby, Mississippi. Over."

--

Even though the storm was still well out to sea, it did not take long for reports from hams in Ivan's target area to begin flowing in.

--

"Kilo Charlie 5 Romeo Fox Uniform. What is your traffic?
Over"

"Thank you very much. The name is Paul and I am in Ft. Walton
Beach,
Florida. Ill give you the coordinates. Latitude 30.44 North.
Longitude 86.62 West. And the Barometric Pressure is 29.79 and
falling. The winds are estimated at coming from the
East-South-East."

--

Now it would be a waiting game for residents along the gulf coast as
they waited and watched as hurricane Ivan roared toward them with.
When Ivan did make landfall it lashed southern Alabama with 135 mph
winds and threatened much of the Gulf Coast with surging flood waters.

--

"This is K5PSB with the Salvation Army Team Emergency Net looking
for
stations with traffic in the affected areas of the Caribbean or the
Gulf Coast. Ill take anybody that I can hear. K5PSB."

"W-A-0-Lima Sierra Bravo."

And the latest advisories from the National Hurricane Center show that
Ivan still has a lot of destructive force left. The latest storm
track as of noon, Thursday September 16th shows Ivan heading
North-North-East through parts of Georgia, Tennessee, Kentucky and
Ohio as it downgrades in intensity and begins to fall apart. But
falling apart may be a bit of a misnomer because even then a hurricane
can continue to be a destructive force.

But even as Ivan is weakening, yet another storm is gaining strength.
Hurricane Jeanne intensified as it made its way to the Dominican
Republic after hitting Puerto Rico on Wednesday. Jeanne is moving
west at about 9 miles per hour with maximum sustained winds of 80 mph
and will likely be the big ham radio story, next week.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF.

--

The hurricane, one of the strongest on record to hit the region, has
killed at least 65 people. With the hurricane season not yet over
these hams could be kept busy for some time to come. (ARNewsline)

(Note: Audio of Hurricane Ivan communications was recorded off-air
and from Internet relay feeds. Our sincere thanks to the may hams
world-wide who supplied them.)

**

RESCUE RADIO: SOCAL SHADOW DRILL

Out on the U.S. West coast, twenty-five city of California's
Huntington Beach Radio Amateur Civil Emergency Service volunteers
participated in a simulated city-wide Emergency 911 system crisis on

Saturday, August 28th. Called the "Shadow Drill," radio volunteers received 9-1-1 calls and dispatched fire department equipment and personnel for an eight hour shift.

The objective of the drill was to provide an alternative dispatch communications system to all Huntington Beach Fire Department resources, including hazardous materials, ambulance and fire response apparatus. This was the third year in a row that Huntington Beach RACES performed the Shadow Drill for the city. (KH6WZ)

**

THE BPL FIGHT: PHILLY MAY GO NON-BPL WIRELESS

Philadelphia says it's looking to have wide spread Internet access available over the next few years, but it likely will not be B-P-L. This, as the City of Brotherly Love looks to create a 135-square-mile wireless network instead. Amateur Radio Newsline's Mark Abramowicz, NT3V, has the rest of the story:

--

Philadelphia's Mayor John Street has a vision to turn this community of historic and diverse neighborhoods into a Digital City. And, he's not looking at Broadband Over Powerline Internet Access to do it.

Instead, Mayor Street, a big fan and user of technology - he carries his own Blackberry everywhere - sees the wireless world as the way to go. And, he's committed a task force to explore an estimated $10 million investment in the idea.

Mayor Street's chief information officer is Dianah Neff.

"Outdoor wireless has come on the scene and has presented an affordable entry point to create a dense, cellular mesh network that would act like an umbrella over the city," Neff explains. "And it's a transport, it's an outdoor transport that would allow wireless access that then goes to the Internet for all people in the city."

Neff says users of the system would have easy access. She notes one test site near City Hall is being getting great reviews.

"You can access it through a lap top, through a PC tablet through a hand-held device," Neff says. "You would log on, put in your code to the system. And in the case of Love Park - which is a hot spot now - it's free.

"All you have to do is go on and register. And then you get a connection out to the Internet."

Neff says the plan proposes to attach transmitters/receivers atop light pots.

"The best place to mount these in the outdoors is on the light posts because you need a power source," Neff says. "You could mount the

radio antennas actually on the light posts which reside in the public right-of-way which is owned by the government.

"And that's why this has to be a public-private partnership and there's limited space on there you can't put a dozen companies' wireless device.

"But if you had this infrastructure that anybody could either pay to connect in for profit or ride for free, based on criteria that will be established, you would be able to do it."

Neff says the system would be "hot" for outdoor use. But there is equipment available to bring the signal indoors.

"There are devices that can be placed in your window to bring outdoor wireless," Neff says. "If your proximity is close to a fixed-wireless outdoor point, you may be able to get it in your house.

"And, so we see that there's a great opportunity to be able to go either out onto your front porch and log on into a wireless environment outdoors, or through a device, if you want to bring it into your home, to all rooms in your home.

"That may be one of the fee-services that would allow us to sustain the system."

Neff says the task force is looking at a couple options in terms of fees.

"The mayor is committed to providing some level of free access whether that's in public outdoor areas or as a low cost to everyone," Neff says. "There has been a committee that's been formed - the Wireless Philadelphia Executive Committee - they're looking at fees, roles and responsibilities in the investment and the sustainability of the system."

Neff says the committee will deliver a report to Mayor Street by December. After that, bids will be sought and Neff says she'd like to see several neighborhoods up and running a few months later.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

Philadelphia hopes have the whole network in operation sometime in 2006. (ARNewsline(tm))

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being

relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

ENFORCEMENT: LETS MAKE A DEAL - FCC STYLE

The FCC has accepted an offer from an Iowa ham to turn in his Amateur Radio license in order to avoid having to pay a $12,000 fine. It did so in a September 7th Memorandum, Opinion and Order that partially granted a June 6, 2003 Petition for Reconsideration filed by Scott E. Kamm, N0UGN, of Sioux City.

Back on May 7, 2003 the FCC issued a $12,000 Forfeiture Order to Kamm for what the agency said were willful violations of several sections of its Amateur Service Part 97 rules. The Commission said that the offenses involved intentional interference to communications on 146.31 MHz, the transmission of music on an amateur station, and failure to identify an amateur station by call sign.

The FCC says that in support of his Petition for Reconsideration that Kamm offered to immediately withdraw his pending application for renewal of his license. He also offered to refrain from applying for any other license for a period of five years.

The FCC says that it agrees to this offer. As such it concludes that cancellation of the $12,000 forfeiture was warranted. (FCC)

**

ENFORCEMENT: $10000 PAGING FINE AFFIRMED

The FCC has affirmed a $10,000 monetary forfeiture to Jeffrey Amedro of Morgantown, West Virginia. Amedro does business as Cell Page and the FCC says he has racked up a number of violations. Cathy Anno, KB0FDU, reports:

--

The FCC says that it issued the fine for what it calls willful and repeated violation of Section 301 of the Communications Act by Amedro's company Cell Page. This, by operating radio transmitting equipment on the frequency 157.740 MHz without FCC authorization to do so.

On September 5th, 2003 the District Director of the Commission's Columbia, Maryland Office issued a monetary forfeiture in the amount of $10,000 to Cell Page. Cell Page did not contest the violation. Rather in its October 16, 2003 response, the company requested a reduction or cancellation of the proposed forfeiture.

Presumably, intending to claim its inability to pay Cell Page stated that it had been in contact with a certified public accountant to complete its tax returns. Once completed, Cell Page states that it

would forward three years of tax returns to the Enforcement Bureau by approximately October 31, 2003.

The FCC says that as of its decision to affirm the fine, neither Amedro nor Cell Page has submitted the company tax returns. Without the appropriate financial documentation, the FCC says that it can not consider Cell Page's claim of inability to pay. So it is now denying
the request by Cell Page for reduction or cancellation of the fine.

For the Amateur Radio Newsline, I'm Cathy Anno, KB0FDU.

--

The fine against Cell Page was affirmed on September 7th. Amedro was given the usual 30 days to pay or to file an appeal. (FCC)

**

ENFORCEMENT: CLEANING UP INTERFERENCE

The FCC has written to Andrews Cleaners in Andrews, Texas. This to tell proprietor Andrew White that he regulatory agency has received complaints that equipment at the business may be causing harmful radio interference to a local ham radio operator.

In its letter, the FCC tells White that the agency has the responsibility to require that such problems be rectified within a reasonable time if the interference is caused by faulty consumer equipment. It also suggests that he might want to contact the ARRL for guidance about radio interference that involves Amateur Radio operators. (FCC)

**

HAM RADIO IN SPACE: SIGNALS BOUNCED OF THE GENESIS RE-ENTRY

A group of ham radio operators have successfully bounced signals off the ionized trail of the Genesis space probe. This, as it re-entered the Earth's atmosphere on September 8th.

According to Robert Brown, KR7O, several stations trying to be heard off the probes fiery trail were monitored at his QTH from 1552 to 1600 UTC. This is part of what Robert heard:

--

Backscatter audio

Robert says that all signals heard were on 144.200 MHz in the 2 Meter band. Among them were KC6ZWT and WA6KLK who were using voice. There were also others trying to make the path using CW. K7RO adds that KC6ZWT reported hearing Robert's signal over the same backscatter

ionized path. All of the stations involved in this test were located in California. (K7RO)

**

DX

In D-X, BB2RS reports that a group of Japanese amateurs are operating from Sri Lanka as 4S7DUG from September 18th to the 23rd. Activity is on 160 to 6 meters with an emphasis on the lower bands. They plan to have four stations active simultaneously. (GB2RS)

And F4DZY is active from Corsica stroke TK through the 22nd of September. Look for him on the High Frequency bands using SSB and QSL as directed on the air. (GB2RS)

**

THAT FINAL ITEM: HAM RADIO, HURRICANE FRANCES AND THE PRESIDENT OF THE UNITED STATES

And finally this week, the story of hurricane Frances, some ham radio operators who helped to keep a local commercial station on the air after the storm and two who met with President Bush on his recent tour. Joseph Lenartiene, KD4BTD has the rest of the story:

--

Pres Bush: "I want to thank the Emergency Operations Centers all across the state of Florida, the first responders, Police and Firefighters, the people working long hours here, I want to thank the Red Cross"

--

While President George Bush did not mention Amateur R radio Operators in his national Press Conference held on Wednesday, September the 8th, He did the next best thing while visiting Florida's Treasure Coast
that day when he shook hands with Bruce Reid, K9SHT and Lee Kaufmann KG4BYG at the St. Lucie County Emergency Operations Center in Ft. Pierce Florida.

--

Kaufmann: "Well we had two special visitors today, we had The President and the Governor both came in. The one nice thing is that he greeted everyone here: He didn't just walk by. He came in, said
hello and saw the ham station in the shelter here and even was aware of what we were doing."

--

Other than the President stopping by, thing were pretty normal at the EOC Ham Station according to Lee.

--

Lee: "I was running communications between the EOC and the shelters
and today was a little bit calm but yesterday was busy sending messages. I think we had somewhere in the number of a hundred messages back and fourth between the shelters."

--

Not the most glamorous work but as expressed by St. Lucie County EC Ernie Marques, KF4IHX, very Satisfying.

--

KF4IHX: "We had a busy last 6 days. We've handled over 350 pieces of
traffic during this emergency and we're very pleased because for a brief period of hours, ham radio was the only link between our shelters and we proved a point that Amateur Radio can get through when nobody else can."

--

While Frances stayed awhile to visit St. Lucie County, The Special Needs Shelter felt the wrath and when the need came to find a new QTH for the evacuees, (Sound of a Nextel) not Nextel but N9SRO answered the call.

--

N9SRO: "The Special Needs Shelter needed someplace to relocate because they had sustained some damage during the Hurricane. Nextel's
were a no go after the storm but I was able to facilitate communications via the ham radio to get that move started."

--

Hurricane Frances officially made Landfall in a town called Sewall"s Point in Martin County Florida. The next County south St. Lucie. While Amateurs down there did much the same from their EOC, A few did more. Louie Delonoy, K4LOU, Helped put Martin Counties Radio Station, back on the air.

--

K4LOU: "Martin County had been telling people all day Friday on their
Billboard to tune to WSTU for the latest news. Now there comes Monday Morning and they're off. I called Ben, N4BG and he tells me chances
are they took a major hit. I come up, he takes me around to the back,

and here's their tower on top of the dish with the two STL feeds
on
them. You know, sitting on the roof. So I go up there and inspect it
moved everything around and Boom, they're on the air."

--

And Port St. Lucie Broadcasters Vice President Greg Wyatt
couldn't be
happier.

--

Wyatt: "We now have the Louie, Ben, and Jerry show here at WPSL,
WJNX, and WSTU. Between the three of em, they managed to get two
radio stations on the air in 5 hours and now the third one today. I
tell you, its mind boggling."

--

Although it was far from over for Florida thanks to Hurricane Ivan,
Amateur radio on Florida's Treasure Coast has returned to what it
was
before the storm. The major lesson learned here was the need for
relief after the storm. And that's what Treasure Coast Hams are
ready
to do for those affected by Ivan.

For Amateur Radio Newsline, I'm Joe Lenartiene, KD4BTD, in Ft.
Pierce
Florida.

--

Joseph Lenartiene, KD4BTD, is with WQCS FM in Ft. Pearce, Florida.
(KD4BTD, ARNewsline(tm))

>I am still waiting for QSL card for T33C. I sent SAE and IRC.
>Am I the only one who is still holding on with baited breath ??

You sent them a whole IRC? They are probably so stunned by
your generous support that they are in shock!

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, KA2AEV, NG3K, W3UR & The Daily DX, AA4NN, N4AA & QRZ DX, N4GN, K7USJ & TIARA, K8YSE, DL1EK & The DX News Letter, EA5KY, F5CWU & La Gazette du DX, F5NQL & UFT, G0PSE, GM0HCQ, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA-IOTA Islands News, PA5R, TA3YJ, VA3RJ & ICPO, VK4AAR, VK4FW and the Marine Corps Mars for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/September, through Sunday, 19th/September there were 225 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5X, 5Z, 6W, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9U, 9V, 9X, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE0A, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J6, J7, J8, JA, JT, JW, JY, K, KG4, KH0, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1MV, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V6, V7, V8, VE, VK, VP2M, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YB, YI, YJ, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZK2, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2004 DX MAGAZINE'S MOST WANTED SURVEY. Once again the "DX Magazine's" annual "Most Wanted Survey" is being conducted now through October 31st. The survey is open to all DXers, and the form is available on the Web at: http://www.dxpub.com/dx_survey2004.html

Look for the results published early next year 2005.

3Y, PETER I ISLAND (DXpedition Team 3Y0X Announces Major NCDXF Sponsorship Grant). From Chicago, on September 18th, the 2005 Peter I (3Y0X) DXpedition Team announced that it has been awarded a major sponsorship grant by the Northern California DX Foundation, Inc. (NCDXF) [see NCDXF below]. The press release states, "A multinational team of twenty operators and one explorer, led by Antarctic DXpedition veterans Ralph Fedor, K0IR, and Bob Allphin, K4UEE, will activate Peter I Island between 14 January and 10 February, 2005. Other team members come from France, Norway, Russia, Switzerland, Finland, Australia, The Netherlands and the United States, and possess significant DXpedition and Antarctic experience. The Chilean registered vessel Antarctic Dream, and its dedicated helicopter, will be supporting the group for their entire journey.
'This DXpedition is funded principally by the contributions of its twenty-one members plus this very generous grant by the Northern California DX Foundation,' said Bob Allphin, K4UEE, co-leader of the DXpedition. However, because of the extraordinary cost of chartering the Antarctic Dream to travel safely to and from this remote location, additional assistance is still being sought from the world-wide DX community."
For further information on the Peter I DXpedition, and how to contribute to the success of this DXpedition, go to: http://www.peterone.com

7X, ALGERIA (Update/Change in Callsign). Luis, EA5KY, editor of El Mundo del DX in the Radioaficionados, official bulletin of the URE, informs OPDX that operators Angel/EA1QF, Pere/EA3CUU, Paco/EA4BT, Emilio/EA7AAW, Julio/EA7JB, Juan Lucas/EA7TL and Ramom/EB4EPJ will be active from here October 2-9th. Callsign will be 7W0AD, not 7X0AD as first announced. QTH QSL is via EA4URE.

AMSAT ELECTION. As a result of the 2004 AMSAT Board of Directors elections, Thomas Clark/W3IWI, Louis McFadin/W5DID and Paul Shuch/N6TX will serve on the Board for two years. The first alternate is Bruce/KK5DO and the second alternate is Stephen/W4EPI.

ANTARCTIC OPERATIONS (VP8, VP8/G and VP8/O). Mike, GM0HCQ, who has operated from Antarctica since 1990 and works as a ship's Radio Officer onboard the BAS vessels, has informed OPDX of his forthcoming trip to the Antarctica onboard the British Antarctic Survey vessel RRS James Clark Ross. The vessel sails from the UK on September 22nd, and he will operate as GM0HCQ/MM for the trip to the Falkland Islands (VP8). His Estimated Time of Arrival (ETA) is October 20th. From there Mike will then opearte as VP8CMH/MM while onboard the ship. All being well, Mike will also operate from the following bases:
1) Signy Base, South Orkney Islands. Callsign will be VP8SIG. The proposed dates are October 26-31st.

2) South Georgia. Callsign will be VP8SGK. The proposed dates are November 2-7th and November 18th.

3) Rothera Base, Adelaide Island. Callsign will be VP8ROT. The dates are December 7-12th.

All the dates are provisional and may well change for operational reasons. Operating from the bases also depends upon Mike's workload onboard the ship and the work that is being carried out at the base during the ship visit. Mike states, "I hope this year to be able to operate on CW from Signy as I will be taking my Ten-Tec Corsair with me. Normally I use the base equipment, but Signy does not have a CW facility." Mike advises OPDX that he will be publishing information regarding the operation from the bases nearer the time via his Web site at: http://www.gm0hcq.com

C9, MOZAMBIQUE. Operators Joe/AA4NN and Chuck/W4GMY will be active as C91F in the CQWW CW Contest (November 27-28th) as a Multi-Single/All-Band (160-10m) entry. QSL via AA4NN. Pre-contest activity (November 24-26th) will be CW only. Joe will sign C91NN and Chuck will sign C91CG.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, reports that the following operations are approved for DXCC credit:
4W4JEG - Timor-Leste from October 7, 2003 to June 30, 2004
T6RF - Afghanistan from July 1, 2004 to August 31, 2004
TT8KR - Chad from September 7, 2004 to September 14, 2004

EL2, LIBERIA. Pat, EI5IF, who is currently serving with the Irish Army contingent in Liberia has finally succeeded in obtaining a Liberian licence. Listen for him over the next three months using his new callsign EL2PM.

EM0, UKRAINE (Special Activity). The club station of the "Ukrainian State Centre of Radio Frequencies" will be active as EM0ITU during the period September 20-24th in connection with holding the ITU workshop at the "ITU Centre of Excellence" in Kiev, Ukraine. QSL via UT3UZ: Alex Arbuzov, P.O. Box 240, Kiev-232, 02232, Ukraine.

EUCW EVENT POSTPONED. The "Club Francophone Telegraphiste" (CFT, Belgian CW Club) announced that the first contest organized by the "European CW Association" (EUCW), which was scheduled for September 19th (this past weekend), has been postponed to avoid interferences with the Scandinavian Activity Contest which has taken place for years on the 3rd weekend in September. A new date has been announced for the EUCW Contest event, so please mark your calendar as follows: The Contest will happen November 11th, from 0500-1500z. This contest is "Open", so all EUCW Clubs members and all the other are welcome and invited to enter this competition. For more information and rules, please visit the CFT Web pages (available in French, English and Flemish languages) at: http://www.on5cft.be.tf/

EY8, TAJIKISTAN. Nodir, EY8MM, plans to be active in contests over the next few months. His contest schedule is as follows:
CQ/RJ DX RTTY Contest (September 25-26th) - Single-Op/Single Band (20m) - Possibly an all bands entry - Depends on his
time for antenna work.
CQ WW DX SSB Contest (October 30-31st) - Single-Op/Single Band (20m) or Single-Op/All-Band entry.
CQ WW DX CW Contest (November 27-28th) - Single-Op/Single Band (20m)

or Single-Op/All-Band entry.
QSL all via K1BV. Nodir's Web page can be viewed at:
http://www.qsl.net/ey8mm

FT/X, KERGUELEN ISLANDS (Microlite Penguins DXpedition Team Press Release). From Singapore, on September 19th, the Microlite Penguins DXpedition Team announced that it has been awarded an exclusive sponsorship granted by the Northern California DX Foundation, Inc. (NCDXF) [see NCDXF below], thus enabling the planned 2005 DXpedition to the Kerguelen Islands (FT/X). The press release states: "A multinational team of twelve highly experienced operators from France, Ireland, Switzerland, Canada, Australia, Singapore, South Africa and the United States will activate Kerguelen on the HF bands between 15 March and 02 April, 2005. The New Zealand registered vessel Braveheart, used during the 2002 Microlite DXpedition to South Georgia (VP8GEO) and South Sandwich (VP8THU), will again be supporting the group for their entire 30-day journey.
'This DXpedition is funded entirely by the twelve team members and a generous and exclusive grant by the Northern California DX Foundation,' said James Brooks, 9V1YC, DXpedition Team Leader. 'There are no other club, foundation, individual, manufacturer or QSL sponsors.' Additional details regarding the Kerguelen Islands DXpedition will be released in the coming weeks."

FW, WALLIS AND FUTUNA ISLANDS (Also 3D2). Operators Yoshinobu/JA7OV and Yoshiki/JA7AQR will be active as FW7OV and FW7AQR, respectively, from Wallis and Futuna, October 9-15th. Activity on SSB will be on 7088, 14135, 18135, 21235, 24935, 28435 and 50135 kHz. On RTTY, watch 21083 kHz. They will use an IC-706MKIIG and a 2 element Yagi. There will be some quick and short operations from the Fiji (3D2) on October 8th and 16th, using the callsigns 3D2TY (JA7OV) and 3D2YT (JA7AQR). Look for them on 21235 kHz SSB. QSL to their home callsigns, either direct or via the JARL bureau.

IOTA NEWS.....
AF-019. Gianni, IZ8CGS, will be active from Lampedusa Island (MIA MI-126), September 23-26th. QSL via IK8VRN.

AS-024. Steve, K7USJ, member of the Tokyo Intl. Amateur Radio Assoc., will be active as 7J1AIL/JR6 from Iriomote, in the Yaeyama Islands, from September 29th through October 2nd. Activity will be on 40-6 meters using CW and SSB, as well as FM on 29.300 MHz. QSL to K7USJ direct or to 7J1AIL direct or via JARL Bureau.

AS-037. Operator JQ6GXP/6, who was active from Kami-Koshiki Island (JIIA AS-037-003) over the past weekend, will move over to Shimo-Koshiki Island (JIIA AS-037-007) and will be active until September 21st. QSL via the bureau or direct to JQ6GXP.

EU-011. Members of the Taunton and District ARC, Bill/G3WNI, Tom/G0PSE and Dave/M0AOD will be activating the Isle of Scilly from October 2-9th. The callsign will be GB0SM, and the QTH will

be St. Mary's Island. Activity will be on 160-10 meters, possibly also 6 metres. Modes will be CW and SSB. QSL via the Bureau or direct to G0PSE. E-mail requests for Bureau QSLs go to: g0pse@qsl.net

EU-120. Members of the Chippenham and District Amateur Radio Club will be active as GB2LI from Lundy Island, September 21-28th. Activity will be CW/SSB on all HF bands plus possibly 6 and 2 meters as well. QSL via G3YBT.

OC-173. Gary, VK4PY, will activate Melville Island in his spare time. He has just moved there and has work commitments for the next few weeks. He will be very busy there driving bulldozers but has taken a rig and a couple of antennas. He will operate only SSB. QSL direct to VK4FW: Bill Horner, P.O. Box 513, Nambour, 4560, Australia.

KP2/WP2, U.S. VIRGIN ISLANDS. Operators John/K3TEJ and John/K3CT will be active as KP2/K3TEJ and KP2/K3CT from November 23-30th. Also, look for them to be active as WP2Z during the CQ WW DX CW Contest (November 27-28th) as some kind of Multi-?? entry. QSL contest activity via KU9C. Outside of the contest, a special emphasis will be on 160m and the WARC bands. QSL via their home callsigns.

LX, LUXEMBOURG. Six Dutch operators will be active as LX/PA6Z from Saturday, October 2nd until Friday, October 8th. Their activity will be on all bands from 160-6 meters on CW, SSB and PSK31 (24 hours a day). QSL information is via PA1K (bureau or direct).

NCDXF ANNOUNCEMENT (Major Sponsorship Grants for 2005 DXpeditions). The Northern California DX Foundation, Inc. (NCDXF) announced at the W9DXCC DX Convention (in Chicago, September 18th) that it has awarded major sponsorship grants, for the 2005 Kerguelen Islands (FT/X) and Peter I (3Y0X) DXpeditions. Together, these grants exceed $100,000, and represent the largest grants made in the history of the NCDXF. The NCDXF press release state: "Len Geraldi, K6ANP, NCDXF's President, noted that these awards are substantially larger than normal amounts provided by NCDXF in aid of major DXpeditions. 'These exceptional grants were awarded in light of the rarity of operations from these locations, the significant individual contributions being made by the participants themselves, as well as the very high cost of mounting DXpeditions to such remote locations,' said Geraldi. He called on the worldwide DX community to continue their support of NCDXF, thereby enabling such rare and challenging locations to be activated for the 'Deserving'."
"The Northern California DX Foundation was founded in 1972 to assist worthwhile amateur radio and scientific projects with funding and equipment. Although the words 'Northern California' still appear in its title, the activities of the Foundation are international in scope, rather than regional. In addition to providing financial aid to significant DXpeditions, the Foundation, in cooperation with the IARU, maintains a worldwide network of high-frequency radio beacons that help amateurs assess the current condition of the ionosphere. The entire system is designed, built and

maintained by volunteers at no charge except for the actual cost of the hardware and related components."
"The Foundation is an organization described in Section 501(c)(3) of the United States Internal Revenue Code, and all contributions are tax-deductible to the extent permitted by law for U.S. taxpayers. The Foundation does not have a paid staff, and no Foundation officer, director or advisor receives a salary or compensation in any form from the Foundation." More information about the NCDXF can be found on its web site at: http://www.ncdxf.org

OJ0, MARKET REEF. Just a reminder that members of the "World Wide Young Contesters" (WWYC) plan to activate Market Reef (EU-053) as OJ0YC between September 23rd and 26th. The team of operators include SM3WMV/Mike, OZ1AA/Thomas, KU5B/Colin and OH6GDX/Pat at the moment. The DXpedition's goal is to be a multiplier in the Scandinavian Activity SSB Contest (SAC) (September 25-26th), and to be on the air as a serious competing station too. They will also work a bit of RTTY during the contest the same weekend, but the main focus will be on the SAC SSB. Apart from HF, OH6GDX will mainly be focusing on working 2 meters (maybe also 70cm). Activity on 2m will be at least on the FSK441a, CW, SSB, FM modes. Mike promised to work some 6m QSOs too. QSL via OH6GDX: Patrik Willfor, Langviksgatan 24 B13, FI - 65100 Vasa, Finland.

QSL INFO AND NEWS.....
Alan Roocroft, VK4AAR, informs all OPDX readers that "all DXers should be aware that Australian postal rates increased by 10% starting 6th September. Please make allowances for this when enclosing reply postage. Also, it is not a good idea to attach Australian stamps to your SAE because 95% of DXers get the wrong series of stamps and the wrong value. Please let us do it ourselves. We know the system best and it is different to most countries." JUST A REMINDER! Alan is the QSL Manager for the following stations: 9V0A, 9V1DX, C21RH, KH2VM, P29RH, V63PD, VI0ANARE, VK0MM, VK6AN (OC-266), VK6BM (OC-234), VK6BSI (OC-243), VK6LI (OC-071), VK8AN, VK8AN/6 (OC-154), VK8AN/8 (OC-229), VK8AV/3 (OC-136), VK8DP, VK8MI (OC-173), VK8RH, VK8XC, VU3RSB, YJ8AA, ZK2JJ and ZK2PJ. QSL "DIRECT ONLY" to: Alan Roocroft, P.O. Box 421, Gatton 4343, Australia.

SI9, SWEDEN. During this past weekend, SI9AM was active from Utanede (Grid Locator JP82iw) during the 46th Scandinavian Activity Contest (CW), by SM3EAE, SM3FJF and probably some more SM3-operator. Look for SI9AM to be active again during the Scandinavian Activity Contest (SSB), September 25th, 1200z to September 26th, 1200z by DF6JC and DL1EJS, including some activity outside of the SAC. This is a great opportunity to become qualified for the SI9AM Award. For more information, look at: http://www.qsl.net/si9am/ QSL via SM3CVM, by the bureau or direct to CBA.

SILENT KEY. The MCMARS reports: "Silent Key Captain Lee E Reisenweber, 57, K3RGD (VP2VE), passed away Saturday, February 21, 2004, at the San Juan VA Medical Center, San Juan, Puerto Rico. He is interred at Puerto Rico National Cemetery Bayamon, Puerto Rico. Lee was president of the

BVI Amateur Radio League (an IARU member), first licensed at the age of 12. During the Vietnam War, he served in the United States Marine Corps. Lee's family asks that anyone knowing Lee who has pictures or stories they can share or anything of Lee's the family might want, to please send them to D. L. Borgman, 11111 NE 105th Avenue, Archer, Florida 32618 or email to dlb@borgmangroup.com."

SPECIAL EVENT. Look for the special event callsign TM9POR, to be active on HF, VHF and UHF, using SSB, CW, ATV, SSTV, APRS and Packet. QSL via operator's instructions. Activity will take place during the annual "Open Doors for Telecommunications" in Mezieres (Ardennes) (North of France, near the Belgian border) which takes place September 26th.

SPECIAL EVENT. Members of the Cray Valley Radio Society are activating GB2BF next weekend (September 25-26th) to raise money for the British Wireless for the Blind. They will be on all the HF bands, except 24 MHz and 1.8 MHz. They will be running two stations - one on HF, one on the low bands. The more contacts they make, the more money they will raise for the fund. They have people who are sponsoring them per 100 QSOs, so the more QSOs the better! They will be active for the full 48 hours and expect to make well in excess of 1,000 QSOs. A special QSL cards will be available, either direct or via the bureau to Owen, G4DFI.

TC2K4, TURKEY (Special Prefix Activity). Last week we mentioned that Berkin, TA3J, will activate the special prefix/callsign TC2K4J from Antalya, in the memory of the unforgettable 40 Silent Keys of Turkish Radio Amateurs, between 0240z, September 24th and 0240z, November 2nd (See OPDX.676 for more details.). Nilay, TA3YJ, informs OPDX that the NEW prefix, TC2K4, stands for TC2004. QSL via TA3YJ, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. SWL QSL Cards are OK. Details on the special award which is available, as well as a list of the "TC2K4J Commemoration Program" can be found on the following Web page at: http://www.geocities.com/tc2k4j/

TRAC ON TRACK! (Special Event) The Thornhill Radio Amateurs Club (TRAC), with the cooperation of the York-Durham Historical Railroad (YDHR), is pleased to announce: "TRAC on Track - a mini DXpedition". This is not a trip to an exotic island or a perilous perch above an active volcano, but simply a fun trip on a train, with radios. All are invited to contact VA3RRT on Sunday, September 26th, between 1500-2300z. Listen on 7065 kHz +/- and 14200 kHz +/- (Also, 146.550 MHz and possibly 70cm). There will possibly be an APRS station on board. Full details can be found online at: http://www.trac.ca

V26, ANTIGUA. Team Antigua will ride once again into action to activate V26B on the Beautiful Island Nation of Antigua and Barbuda in the 2004 running of the CQWW SSB Contest on October 30th and 31st. Their plans are to enter the Multioperator/Two-transmitter category. For a complete station description, complete with photographs and rate charts of the Team Antigua V26B Superstation, go to the Web page designed by Brian, N3OC (aka V26OC) at: http://n3oc.dyndns.org/v26b/
Their Grid Square will be FK-97 and IOTA Number is NA-100. Members of

Team Antigua will also make special attempts to be active on RTTY, PSK31, 160 meters and the WARC Bands a few days both before and after the contest. There is also a possibility of some Satellite operations on AO-7 and AO-51 with time and orbital conditions permitting! Most likely their operators will begin to make their presence felt on all bands starting on or about October 26th until about November 3rd. Please be advised that QSL requests for V26B should NOW be directed to KA2AEV DIRECT ONLY at this time. They cannot guarantee a timely response for QSLs received via the Bureau route! The members of Team Antigua and their callsigns are:
V26A - Dale, N3BNA QSL via WB3DNA
V26B - Sam, WT3Q QSL via KA2AEV ADDED NOTE: Look for a
V26EM - Ed, W2SN QSL via W2SN few new members who will
V26G - Ed, N2ED QSL via N2ED announce their QSL routes
V26KEN - Ken, N2KEN QSL via N2KEN when their Antiguan callsign
V26OC - Brian, N3OC QSL via N3OC become finalized.
V26OX - Kevin, K3OX/2 QSL via K3OX
V26R - Mike, KA2AEV QSL via KA2AEV

VK9L, LORD HOWE ISLAND (Update). Bill Horner, VK4FW, President of the Oceania Amateur Radio DX Group Inc (www.odxg.org), reports that after weeks of preparation, all equipment was delivered to the boat last Thursday. It will be stored on the island awaiting the teams arrival on October 9th. Operators include: IV3FSG and VK2IVK (YLs), G3UML, IK6CAC, VK3SU, VK4NEF and VK4FW. As there will be two DXpeditions in the Pacific at the same time, they are adopting the following suggested transmit frequencies:
CW - 1812, 3512, 7012, 10107, 14012, 18072, 21012, 24912 and 28012 kHz
SSB - 3785, 7045, 14260, 18140, 21260, 24950 and 28495 kHz
RTTY - 7080, 10120, 14090, 18100 and 21090 kHz
6m - 50.100 MHz (A Yaesu FT-857 with beacon will cycle on this frequency giving everyone a chance to call)
Bill also states, "As we arrive on the island late in the afternoon we will have very little daylight time to insatll antennas. However, it is our full intention to have one of the multiband verticals installed and on air quickly followed by a low band vertical for 40m. We are still chasing another operator to compliment the above crew." Inquiries can be sent to: vk4fw@westnet.com.au

VP2, ANGUILLA. Look for the VP2E Team to be active again during the 2004 CQ WW SSB Contest (October 30-31st) as a Multi-2 entry. Operators mentioned are: Ray/KC5EA, Gordon/N5AU, Jeff/N5TJ, John/K5MR, John/VE3EJ, Norman/K1DG, and Andrew/N2NT. QSL vai N5AU. Members will be active prior to contest on the WARC bands.

VP5, TURKS AND CAICOS ISLANDS. Once again four members of the Western Washington DX Club will be hitting the DX trail, this time to VP5 land. Operators Roger/W7VV, Ralph/VE7XF, Rick/KT7G and Dick/K7BTW will be active in the 2004 CQWW CW Contest (November 27-28th) from VP5JM's location on Providenciales Island in the Turks and Caicos Islands. They will enter the contest as a Multi-2 entry and operate as VP5W. Outside of the contest, from November 21-30th, they will use VP5/homecalls. QSL VP5W to W7TSQ, outside the contest QSL to their home callsigns. Outside of

the contest, they will concentrate on the WARC bands and 6 meters on CW,
SSB and digital modes.

In case you haven't noticed, this is the DX newsgroup. This bulletin is probably the most useful piece of DX info posted here. If you don't like seeing it here, just set your newsreader filter to keep it from appearing on your machine. Or simpler yet, just don't read it.

It seems all over the HF spectrum I hear these HL* beacons:
http://freebsd.tfcis.org/~lusitani/diary_swl/20030809.txt
12840 CW cq cq cq de hlo hlo hlo qsx 12mhz k
12913 CW cq cq cq de hlf hlf hlf qsx 12mhz k
12920 CW cq cq cq de hlw2 hlw2 hlw2 qsx 12mhz k
12932 CW cq cq cq de hlg hlg hlg qsx 12mhz k
with the same message, even when not on 12kHz. I'm in Taiwan. Do
others hear them all over the HF dial too or is it just images? If
not, why do they need so many beacons? What are they used for?

Those aren't beacons, those are probably commercial ship to shore
stations. Beacons don't usually call CQ and tell you what frequency
they are listening on....

These are maritime stations. I consulted these on the book "Guide to Utility Stations" [1], HLF/HLG/HLJ/HLO/HLS/HLW/HLX have operating frequencies on 4273, 4308, 4357, 4411, 6344, 6451, 6504, 6513, 8473, 8484, 8497, 8577, 8636, 8725, 8797, 12712, 12727, 12735, *12843*, *12916.5*, *12923*, *12935*, etc. Some maritime stations repeatedly broadcast above messages to indicate that the frequency you're listening are theirs, and some don't. :)

You are probably aware of the fact that an IRC easily covers mail expenses.
No need to make fun because you don't approve his "generous support". It's
not been a question of "buying" a card.

THE BPL FIGHT: SHORTWAVE VS. DIGITAL SHORTWAVE

Amateur Radio has another friend in its fight to stop the world-wide rollout of Broadband over Powerline technology. This, as a European short-wave broadcaster say that B-P-L and digital radio will have a lot of trouble co-existing. Fred Vobbe, W8HDU, is here with an update on digital radio and an explanation of why the two do not mix.

--

Jacob Freedman, N2MPN, found an interesting story on BBC News Online and thought he would share this news with A.R. Newsline listeners. In the link to the story, titled "Fears for new digital radio system" written by By Chris McWhinnie of BBC Monitoring in Amsterdam, the warning came from Peter Senger, the chair of the Digital Radio Mondiale (DRM) at the International Broadcasting Convention in Amsterdam.

DRM is a standard agreed by world broadcasters for a completely new short wave radio system. The new internet power line distribution system has been evaluated by engineers, including the BBC, and has been found to affect short wave in particular.

Short wave is mainly used to broadcast internationally and the AM bands have been used since radio first started in the 1920s. The DRM system uses existing AM broadcast frequencies to deliver near-FM quality digital sound. It uses compression to squeeze clear digital sound into the narrow radio channels that currently carry crackly analogue signals.

The DRM technology has the potential to make digital radio available in places that Digital Audio Broadcasting (DAB) radio or even FM will probably never reach. As for the hardware required to hear these stations, there will be a new consumer DRM radio in the shops by

Christmas 2005 and a tiny PC-only DRM set is already on sale.

DRM is not being used by many radio stations yet. However a number of radio stations have seen the potential for new cross-border radio stations.

A Germany-based music station is believed to be in the planning stages. BBC World Service and its counterparts abroad already have some regular DRM programmes and are backing the system.

DRM is being seriously considered in many countries where the FM radio band is full. China sees DRM as the answer to pushing digital radio across its vast territory.

The UK is not planning to use DRM for domestic radio. The UK has pinned its digital hopes instead on DAB, which offers stations like BBC 1Xtra, 6 Music, Oneword and Core. More digital radios have been sold in the UK than any other country.

Switching-off analogue FM and AM may take years and making millions of much-loved analogue radio sets useless will no doubt be controversial. If power line internet transmission is introduced, then international broadcasting on shortwave may also be consigned to history due to the interference from data travelling over mains electricity cables.

For Amateur Radio Newsline, I'm Fred Vobbe, W8HDU

--

As we go to air, the proponents of Broadband Over Powerline have not yet challenged the Digital Radio Mondiale findings. (W8HDU, N2MPN)

**

PRESERVING THE BANDS: LEAGUE KICKS OFF 2005 SPECTRUM DEFENSE CAMPAIGN

Meantime, the ARRL has kicked off its 2005 Spectrum Defense Fund campaign and its slogan id that this is a lot more than just BPL. Amateur Radio Newsline's Bruce Tennant, K6PZW, has more:

--

ARRL President Jim Haynie, W5JBP, appears to be the point man in this important effort to preserve our operating bandspace. He says that while interference from broadband over power line technology is the most prominent and immediate threat to amateur spectrum, donations from ARRL members and supporters make it possible for the League to face it and other spectrum challenges as well.

According to the ARRL Letter, in 1985, the League spent perhaps $200,000 on advocacy and spectrum defense. Today the annual outlay is close to $900,000.

Haynie says that he is aware that this work is something that hams cannot see, touch or feel, but it's just as important as those things

that they can. This is because we would not have all those other things if it were not for the fact that we have a place to operate.

Haynie notes that not all of the ARRL's advocacy efforts necessarily involve taking defensive measures, such as with BPL, but all of them are essential. The popular ARRL leader says that, as he sees it, the League's job is to look out for the best interests of all of Amateur Radio. This includes making sure that we have places in the ether to go on the air.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

The ARRL says that the Spectrum Defense Fund depends on membership support and is essential to the League's continued success in this AREA. Contributions can be made on-line at the ARRL's secure donor Website. You will find it at https://www.arrl.org/forms/fdefense/fdefense.htm Those contributing at or above the $50 level may request a gift as a token of the League's appreciation. (ARRL)

**

BIG DX NEWS: NCDXF MAKES $100,000 GRANT TO UPCOMING OPERATIONS

Some big news in the world of DX. This as the Northern California DX Foundation announces some big money sponsorship grants for the 2005 D-Xpedition season.

The awards were announced at the recent W9DXCC DX Convention in Illinois. The recipients are the upcoming Kerguelen Islands FT stroke X and the Peter One 3YZ0X operations. These are two of the rarest and most wanted locations on every hams most wanted list.

Northern California DX Foundation president Len Geraldi, K6ANP, says that that these awards are substantially higher than normal amounts provided to aid major D-Xpeditions. Together they exceed $100,000, and represent the largest made in the foundations history.

Geraldi noted that these exceptional grants made in light of the rarity of operations from these locations and the significant individual contributions being made by the participants. He also noted the very high cost of mounting D-Xpeditions to such remote locations.

The Northern California DX Foundation not only funds DX operations. In cooperation with the IARU, the organization also maintains a worldwide network of high-frequency radio propagation beacons that help amateurs estimate the current condition of the ionosphere.

The Northern California DX Foundation was founded in 1972 to assist worthwhile amateur radio and scientific projects with equipment and funding. More about the group is on-line at www.ncdxf.org and we will

have more D-X news later on in this weeks newscast. (N4GN)

**

Break 1

Its time for you to identify your station. Cue the announcer. Dick Tyler, WA2EHL if you please:

"From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including WA2EHL on Live 365 from Burlington, New Jersey."

(5 sec pause here)

**

RESCUE RADIO: HURRICANE IVAN IS BACK AND JEANNE ON THE WAY

A reincarnated tropical storm Ivan has made landfall a 2nd time. This, near the Texas-Louisiana line on Thursday evening, September 23rd. The one-time hurricane was expected to dump up to ten inches of rain over the coming weekend.

The 22-day-old former hurricane broke apart after hitting the U-S, but a piece spun back out to sea and reformed as a separate tropical storm. It them made its way back into the Gulf of Mexico before again making landfall.

Forecasters say Galveston, Houston and College Station Texas will be under a flood alert. C-Q Magazine's Bob Josuweit, WA3PZO quoting sources at the ARRL says the Texas Office of Emergency Management has requested activation of the Amateur Radio Emergency Service Net. The net will switch between 7.285 and 3.873 MHz depending on propagation and time of day for as long as its needed.

Meantime, along the Eastern seaboard, ham radio operators are preparing for the arrival of Hurricane Jeanne. This as the killer storm appears to be zeroing in on the southeast U.S. coast, with forecasts putting Florida firmly in the storm's sights with landfall possible on September 24th or 25th. The Hurricane Watch Net on 14.325 MHz announced plans to begin operations Friday, September 24, 2004 at 10:00 a.m. Eastern and continue till until 11:00 p.m. or until the 20 meter band closes .

As we go to air news reports say that Jeanne is responsible for at least 1,100 deaths in Haiti. 1,250 are still missing and the toll continues to rise. More ham radio storm coverage next week. (WA3PZO, CQ, ARRL, ARNewsline(tm), others)

**

RESCUE RADIO: HURRICANE IVAN IN NJ

Hurricane Ivan left its mark all along the Eastern U-S before it finally disappeared from that area. From the Carolina's through New England, there were daily news stories about Ivan spawning tornadoes and severe flooding. One area hit by the remnants of the storm was the state of New Jersey which is the home on Amateur Radio Newsline's Henry Feinberg, K2SSQ.

--

Mercer County, New Jersey, ARES and RACES was activated at about 5 PM on Saturday, September 18th. This, to staff the radio room at the Mercer County Emergency Operations Center.

Heavy rainfall caused by Hurricane Ivan remnants in the Catskill and Pocono Mountains Friday night was forecast to cause the Delaware River to reach flood stage in Trenton at 6 AM Sunday and to crest at record levels Sunday night.

The original crest forecast was for 8 feet above flood stage which is 18 feet above normal river level. That was later reduced to 3 feet but was still the highest level on the Delaware River since the catastrophic floods of 1954.

In Mercer County, Amateur Radio Operators staffed the E-O-C radio room continuously in four hour shifts until Monday morning. The radio room is licensed as W2MER and has H-F, 2 meter, 220, 440 and APRS ham gear permanently installed. It also has capability on all public safety and Red Cross frequencies used in the county. Extra radio amateurs were on call over the W2ZQ Mercer County ARES and RACES 146.67 Mhz. repeater. This, if additional communications was needed at shelters and other locations.

Hams used the New Jersey Office of Emergency Management's statewide NJ2EM 220 MHz repeater and the statewide 2 meter APRS digital messaging network to maintain links with the Hunterdon County and Warren County EOC's further up the river. Per the Mercer County EOC protocol, the hams also were the operators of the public safety radios in the EOC to maintain contact with the sheriff officers coordinating the evacuations along the river.

Amateurs participating as EOC Radio Officers included N2GJ, N0YMV, K2GW, W2SRH, W2QOB, N2JV-P, and WA2KM.

For he Amateur Radio Newsline, I'm Henry Feinberg, K2SSQ, in New Jersey.

--

Gary Wilson, K2GW, is the Section Emergency Coordinator for Southern New Jersey Section. He says some 1500 people including 180 residents of a nursing home were evacuated to near-by shelters and hotels on Sunday the 19th. (K2GW)

**

RESCUE RADIO: XM SATELLITE RADIO TO ISSUE EMERGENCY ALERTS

There will soon be yet another source of emergency alert information, and you might say that this one is out of this world. Well kind of. Norm Seeley. KI7UP, has the details:

--

X-M Satellite Radio says that its getting into the emergency alert business. This by making available the X-M Emergency Alert channel to its more than 2.1 million subscribers, nationwide.

According to a September 10th press release the satellite radio provider will dedicate its Channel 247 to what it calls X-M Emergency Alert. The service will be dedicated to providing updated critical information before, during and after natural disasters, weather emergencies and other hazardous incidents to listeners across the country. The channel will also provide key survival information such as evacuation routes, shelter locations and updated weather emergency information for impacted areas.

Information sources of the broadcasts will include the Federal Emergency Management Agency, the National Oceanic and Atmospheric Administration, the National Weather Service, the U.S. Department of Health and Human Services and the American Red Cross. Also included will be local police and fire departments and eyewitness reports making the service about as all encompassing and up to the minute as it can get.

--

X-M hopes to have this new service fully operational fairly soon. (XM)

ENFORCEMENT: FCC QUESTIONS 40 METER MORSE PRACTICE OPERATION

The FCC has some questions for a Missouri ham who claims to be running Morse Code Practice on 40 meters. And in a September 2nd letter to Paul D. Westcott, KC0OAB, the regulatory agency also sets some pretty tough ground rules for him to carry on. Amateur Radio Newsline's David Black reports from our South-East bureau in Birmingham Alabama:

--

The FCC contacted Paul D. Westcott, KC0OAB, on June 21st of this year. The Commission told Westcott it was receiving complaints about high speed one way Morse code transmissions from his station on the 40 meter band. The Commission says it has complaints alleging that the ongoing transmissions interfere with normal amateur communications.

Westcott replied July 11th, saying his transmissions are indeed code practice, and he indicated that they are computer controlled. But the Commission now says Westcott's code transmissions are sent at an unvarying speed of about 30 words a minute. That they are sent continually, 24 hours a day, on 7.030 MHz. The Commission says the constant speeds casts doubt on Westcott's claimed motive for sending

the code transmissions.

The Commission reminds Westcott about amateur radio service rules requiring that a station be under the direction of a control operator during all transmissions. That means a control operator must be on duty at all the times Westcott's station is transmitting...and that he's responsible for preventing harmful interference to other stations.

The Commission tells Westcott to provide the dates, times and frequencies of all code practice sessions. And the FCC says that information is to be furnished by Westcott by either telephone or FAX at least one week in advance of any given transmission.

The Commission also wants Westcott to submit the name, address and telephone number of the control operator for all operation of KC0OAB when sending code practice. The FCC says the telephone number Westcott provides must be one at which the Commission can reach the control operator during the transmissions.

Finally, the Commission warns Westcott that enforcement action against him is coming if there are valid complaints that his transmissions continue to interfere with ongoing communications.

For the Amateur Radio Newsline, I'm David Black, KB4KCH, at the South-East bureau in Birmingham Alabama.

--

Westcott was given twenty days from the date of the FCC's letter to respond with the required information. (FCC)

**

INTRUDER WATCH REDUX: STRANGE SIGNALS AT 7.238 MHZ DISAPPEARS

And that strange unidentified signal that Bob Gonsett W6VR reported to us on two weeks ago. The one being heard by hams in Western states on 7 point 238 Mhz? Well guess what. It has disappeared as mysteriously as it showed up and nobody is very sure of exactly what it was.

According to several Newsline listeners and our own monitoring, the last time the raspy buzz saw was heard it was late on Wednesday September 15th. By the 16th it was gone without a trace and has yet to pay the 40 meter phone band -- or any other ham band for that matter -- a return visit. (ARNewsline(tm) from listener reports)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

THE SOCIAL SCENE: SWL'S MEET IN CALIFORNIA IN OCTOBER

Turning to the social scene. the 2004 Radio Fest gathering of SWL's is slated for Saturday, October 16th. This, in the Community Room of the F&M Bank in Seal Beach, California.

Radio Fest is sponsored by the Southern California Area DX'ers group. Doors open at 9:30 Pacific Coast time. This years speaker list include Radio School's Gordon West, WB6N0A, plus representatives from the broadcast and short-wave sectors of the listening hobby.

Interested? Well, for more information please contact Stewart MacKenzie by e-mail to wdx6aa@earthlink.net or phone 714-846-1685 during normal business hours on the U-S west coast. (SCADS)

**

WITH THE HANDIHAMS: 2005 CALIFORNIA RADIO CAMP ANNOUNCED

And the Handihams have announced that the 2005 California Radio Camp will be the week of February 27th through Sunday, March 6th. If you are a member with a disability and want to attend, please contact Handiham headquarters for a camp application package. You may either call the office toll-free at 1-866-426-3442, or e-mail hamradio@courage.org. (HandiHams)

**

RADIO EDUCATION: ARRL TEACHERS INSTITUTE

And a quick note on the highly successful ARRL sponsored first Education and Technology Program Teachers Institute held the second week of August. During the week long program Mark Spencer involved the teachers in hands-on activities for integrating wireless technology, Amateur Radio, Amateur Radio on the International Space Station and other space-related activities into their math and science classroom curriculum. And word is that at the end of the week the teachers had enjoyed themselves so much that some said they weren't ready to go home. (ARRL, ANS)

**

ALL POINTS BULLETIN UPDATE: $25000 REWARD OFFERED TO CATCH TOWER ARSONIST

An update to our story three weeks ago about a fire bug who seems to hate radio. A $25,000 reward is now being offered information leading to the arrest and conviction of the person setting fire to radio towers in the Clark County and Portland, Oregon during the past six weeks including a blaze that burned down a ham radio operators home.

The most recent fires, set close together occurred on September 9th in Portland. This, only 12 hours after a federally led task force asked

for the public's help in finding the man they think might be a serial arsonist working alone.

John W. McMahon, a supervisor with the federal Bureau of Alcohol, Tobacco, Firearms and Explosives told the press that a task force was offering a top reward of $10,000 for information leading to the suspect's conviction. Comcast, whose service was interrupted by one of the fires, added $15,000 to the reward. This raises the bounty on the fire bugs head to $25,000.

The fifteen member task force investigating the incidents has concluded they were linked to 12 communications tower fires set since July 29th. The most recent fires will raise the estimated damage done by the arsonist to more than $250,000. The 11 previous fires had targeted communications towers or equipment and one private Amateur Radio tower.

As previously reported, the ham-radio tower fire, which was set August 20th. At that time it was the seventh incident and spread to an adjacent rental house, leaving it badly damaged. The resident, John Stein, AB7F, cut his hand trying to put out the blaze before firefighters arrived.

And a group of Public Safety organizations that is trying to help capture the serial arsonist has published a wanted poster complete with pictures. You can find it as a PDF file of it at www.sbe124.org (Portland SBE, others)

**

HAM RADIO IN SPACE: KE5AIT COMPLETS CONTACTS WITH 7 CONTINENTS

Yet another ham radio record has been set . On Saturday September 11th, Mike Fincke, KE5AIT became the first crew member of the International Space Station to talk to all 7 continents using amateur radio. This, when he made contact with Palmer Research Station Amateur Radio station.

During the contact Fincke spoke with Chuck Kimball, N0NHJ, while a packed radio room at the center listened in. Fincke and Kimball compared life in the two stations, discussed time zone differences and the experiments involving fluids that Fincke was working with.

Fincke is believed to be only the third astronaut to accomplish this all continent feat. The last such occurrence was in 1992 aboard STS-45 when astronauts David Leetsma and Kathryn Sullivan also talked to Palmer Station to complete their continent contact list.

Fincke will be finishing his tour in the middle of October when Expedition 10 Astronaut Leroy Chiao, KE5BRW, and Cosmonaut Salizhan Sharipov will come aboard. (Courtesy of Kenneth Ransom, JSC)

**

NAMES IN THE NEWS: G3YJO NAMED VISIONARY AND INNOVATOR

And word that Space News International on the Space dot com website has honored a UK ham. This as it names Professor Martin Sweeting, G3YJO, as one of the top space visionaries and innovators.

In a recent article the news service said that Sweeting turned Surrey Satellite into the world's microsatellite builder. Also that under his guidance this British company has trained a new generation of spacecraft builders throughout the world helping countries like Turkey, Thailand, Korea and Chile enter the space age. (GB2RS)

**

HAM RADIO NEAR SPACE: AMATEUR RADIO HIGH-ALTITUDE BALLOONS

Attention East Coast hams. The first SimSat engineering test balloon flights are targeted for launch on Wednesday, September 22, in the Maryland and Virginia area. These two experimental exercises are designated SimSat-1A and SimSat-1B. This is a good opportunity to show a local students how to receive the balloon's simple telemetry beacon. (ANS)

**

WORLDBEAT - CANADA: NEW CALLSIGN OROPOSAL

The Canadian national ham radio society Radio Amateurs of Canada has submitted a proposal on Amateur Radio Call Signs to Jan Skora. He is Industry Canada's Director Genera for the Radiocommunications and Broadcasting Regulatory Branch.

The Proposal, as approved by the Radio Amateurs of Canada Board of Directors, makes recommendations on changes to Call Sign Policy and Special Event Prefixes. This, all comes as the result of the WRC-2003 decisions amending the ITU International Radio Regulations to permit call signs in the Amateur Service to have up to four characters in the suffix. (RAC)

**

DX

In D-X word that HA0HW and HA4DX are active as J45HW and J45DX respectively. This, from the isle of Rhodes through the 3rd of October. Activity will be on 40 through 10 meters using CW, SSB, RTTY and PSK31. QSL as directed on the air. (GB2RS)

And TA3J will activate the special callsign TC2K4J. This, from September 24th to November 2nd in memory of 40 Turkish Radio Amateur Silent Keys. Activity is on 160 to 2 meters using all modes. (GB2RS)

**

THAT FINAL ITEM: PART OF THE BEEB ON THE BLOCK

And finally this week it look as if a piece of radio history may be up for grabs. This with word that part of the world renowned B-B-C World Service is for sale.

The United Kingdom's publicly funded British Broadcasting Corporation has reportedly approached Germany's Bertelsmann Corporation along with U-S media giants Time Warner and the Walt Disney Company as potential bidders for BBC Worldwide. BBC executives expect the division, which includes BBC America, BBC Prime channels and 26 magazine titles could be worth up to 3.5 billion dollars of needed revenue.

The U.K. government is currently reviewing the BBC's funding and license. One report said that the broadcasters internal review of its options appears to be timed to coincide with the government's evaluation as well. (W8HDU, Bob Ulm, WDOH-FM)

1249. Searching audio .wav for Sky Sweeper Pro

Newsgroup: rec.radio.amateur.dx
Date: 2004-09-26 10:32:20 UTC
From: Thierry <http>
Message-ID: <41569ac9$1@news.vo.lu>
Source record: 6690
Cross-posted to: rec.radio.amateur.dx,rec.radio.amateur.equipment

Hi,

Having tested Sky Sweeper Pro 5, a marvellous spectrum and phase analyzer
and DSP software (see review on eham and my websoite), I am looking for
short .wav files (1 to 5 min max, mono, 8/16 bits, 10-40 kH samples/sec)
suited to be read by Sky Sweeper Pro 5.x.
My objective is to estimate the threshold of the application.
I know for example that a signal 30 dB over the noise but associated to
shadows tunes at 24 dB during an EME QSO cannot be directly decoded
digitally but its DSP filtering can help, etc. I would like to determine
this minimum in other working conditions than "loud and clear"...

I am mainly interested in SSTV (Martin's, Robot's), CW with noise but
readable digitally (e.g. from Aurora, MS or EME traffic) and any Hell or
other digital signal, including QRSS. Of course good quality files are
welcome too.

Please make proposal via the email adr on my website
http://www.astrosurf.com/lombry

Thanks in advance

73

Not in this case. You should find that for NG "rec.radio.amateur.misc", such posting IS allowed (and the O/P-DX-B is also allowed for "rec.radio.info"). It's in the rec.radio.amateur newsgroup hierarchy guidelines and charter. Even Bill Pasternak's "A R Newsline" drivel is allowed here (but NOT on "rec.radio.amateur.policy").

BerlinRadio - Internetradio auch f&#65533;r Funkamateure

BerlinRadio, das neue Internetradio, sendet jeden Freitag und Samstag von 18.00 Uhr bis 21.00 Uhr. Fester Bestandteil des Programms ist die Sendung "Weltweit DX", ein Magazin f&#65533;r Funkamateure und alle Interessierten, die am Freitag um 18.00 Uhr, 19.12 Uhr und 20.25 Uhr CET / ME(S)Z l&#65533;uft. Das Programm von BerlinRadio wird in der Qualit&#65533;t von 128 Kbit/s "ausgestrahlt".

Den Livestream des Programms findet man auf der Homepage von BerlinRadio:
http://www.berlinradio.de.tc.

Wir freuen uns &#65533;ber jegliche rege Zuh&#65533;rerschaft :-) ...

73 Tom

PS: au&#65533;erhalb der regul&#65533;ren Sendezeit strahlt BerlinRadio auch unregelm&#65533;&#65533;ige Teststreams aus. Es lohnt sich also, auch mal "zwischendurch" den Livestream anzuklicken. Eine Ausdehnung der Sendezeiten ist vorgesehen.

Anybody remember that Scientific American article from the early 1960's,
where the subject kept referring to the act as "Master Painting"?

See, not ALL the hot stuff was in National Geographic or CQ.

Hello,

To celebrate the 4th birthday of my site, I propose you a riddle : who am I ?
Four years ago was born a multidisciplinary French-speaking educational web site which dared to approach very original topics like the theory of relativity, quantum physics or the philosophy of sciences. In complement the autor being impassioned for astronomy, meteorologist, photographer and computist, he reserved a large part of his site to astrophysics, bioastronomy and amateur astrophotography, and did recently a digression to meteorology and ecology.
Eclectic in his opinions, prolific and verbose, wanting to touch even more readers, he opened new English pages devoted to amateur astronomy (astronomical optics, image processing, technical comments, software review), radioastronomy and amateur radio, as many activities that he practices with assiduity. But where does he find all this time wondered readers ?...
Today this site acquired its maturity and does propose you not less than 1200 educational pages, more than 7000 images and hundreds of animations and audio files. It even includes a translation module. It becames a reference as testify his guest book. Childs 12 years old connect to it as well as professors at university. One connects to it from all over the world, and to be accurate from 155 different countries. 40% of readers are English-speaking whose 12% come from the USA (6% from Can., 3% from the U.K., 1% from VK) ! To wonder what magnetism comes out from this site !...
But you will judge by yourself. Have you recognized it ?

Indeed, it's LUXORION, already 4 years ; -)

No, we just have to put up with a bunch of ass holes who have nothing better to do with their time. Either juvenile delinquents or dick heads who don't know how to carry on a "conversation" so they have to post this stupid shit.

They ought to take their computer and shove it up their ass.

Oh and the ass holes are really giving their "true" identity. Give me a break! Maybe you prefer to read their stupid shit... I see you use a DESPAM ADDRESS TOO! SO WHAT, if I don't use my name..... I could give ANY name, proves nothing. I'm not the one sending the trash. Attack the ass holes, not me. Sheeeesh.

If ya want a name, try this....

You need to laugh, if you were here, I would show you who is a yellow belly, you ass..Maybe the G isn't for England as in Ham Call Sign, maybe it is for your G STRING that you wear. Come here, I'll give you a bloody lip for calling me a yellow belly.

In case you haven't noticed you idiot, MANY do NOT use their rightful name or e-mail address. I'm not the only one. SO GET USED TO IT. You have no idea how much I'd love to kick your ass right now for calling me a yellow belly JUST because I chose not to list my address. GET A LIFE.

Don't bother replying ass wipe, I'm deleting your messages. I don't have time to waste with you. SCUM BAG.

Yeah my QSOs show up too, but I think I'll still send for a card. I have had an application pending for LoTW credits since July 21 and it still hasn't been processed. If you think because this is "automated" it's going to be fast, think again.

I learned that since my application was a hybrid (i.e LoTW and paper) is wouldn't be processed until the paper part was received. I submitted 120 cards for field checking on Aug 28 and the ARRL web site now shows that it was received on Sept 1, although it didn't show this news until today.

In the meantime, my credit card expiration date changed, and I got a request for the new one via email on Sept 24. I'm not holding my breath.

Amateur Radio Newsline™ Report 1416 October 1, 2004

Amateur Radio Newsline report number 1416 with a release date of Friday, October 1, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. Ham radio is ready as Hurricane Jeanne hit Florida. Find out the details on Amateur Radio Newsline report number 1416 coming your way right now.

(Billboard Cart Here)

**

RESCUE RADIO: HAM RADIO MEETS HURRICANE JEANNE

Making landfall near Stuart, Florida, early on Sunday, September 26th, Hurricane Jeanne blew across that state with 120 mph wind and drenching rain. News reports say that the storm hurled debris into the air, tore rooftops off buildings and sent monster waves onto the shoreline. And as Jeanne's wrath played out on television screens across the nation, it was the calm voices of ham radio operators of the Voice Over I-P Hurricane Watch Net that signaled it was about to arrive:

--

"At 11 PM, the center of Hurricane Jeanne was located near Latitude 27.2 North and Longitude 80 West, or about 15 miles East of Stuart Florida. Jeanne is moving slightly North of West near 13 Miles Per Hour."

--

Hams also relayed a stark warning from the National Hurricane Center. One that said -- stay out of Jeanne's way:

--

"...with maximum sustained winds of 115 MPH with higher gusts, Hurricane Jeanne is a is a dangerous Catagory 3 hurricane on the Saffer-Simpson Hurricane Scale."

--
Over two million residents had been urged to evacuate. State officials said more than 42,500 stayed at shelters. Many of these were staffed by ham radio operators associated with A-R-E-S and RACES groups.

As Jeanne made her way across Florida, many residents were without telephone service and more than a million people lost power. But ham radio operators using all kinds of emergency power sources were on the air. In fact they were the ones who relayed word of some of the major outages:

--

"KA4EPS in Deerfield Beach passing on some information you might be interested in. Have some numbers passed along by the local utility company. Dade County has 2900 without power. Broward County 71,000 and Palm Beach County 487,000 without power."

"QSL Lou, Thanks."

--

The Category 3 storm became the fourth hurricane to pummel Florida in a single season. The three other hurricanes - Charley, Frances and Ivan - have all hit within the last six weeks. And hams like Paul Goodell, KG4GOQ, in the town of Lake Worth might not have sounded that great through all of the radio links, but he did get the word out:

--

"Estimated winds in excess of 100 miles per hour. Trees bent and laying over."

--

Then for a while there was a period of calm. This as the eye of the storm came ashore. It gave first responders a chance to assess the damage done so far:

--

"KG4YQK at the Port St. Lucie E-O-C W4SLC. We are in the eye of the storm presently. We had sustained winds of well over 110 miles an hour. We received substantial damage here locally. Trees down. Powerlines down. Flooding as well."

hurricanes. As it did, even public service communications took a hit:
--

"Net control is listening. Go ahead Paul:

"I just heard second han that the communications tower for Riviera Beach has collapsed. Probably not something for the national hurricane Center, but just as a note to anyone else out there listening to hear how bad these winds are going."

--

By late morning, Jeanne had weakened to a Category 1 storm with 75-mph top sustained winds, but its 400-mile diameter covered most of

the central part of the state including Tampa and Orlando. As Jeanne proceeded to fall apart while heading North-East over Georgia and the Carolina's she dumped torrential rain and spawned close to a dozen twisters. More on the aftermath of Hurricane Jean in future Amateur Radio Newsline reports. (ARNewsline(tm) with audio from the VoIP Hurricane Watch Net)

THE BPL FIGHT: PERTH INTERFERENCE NOT BPL RELATED

A widespread interference problem in Perth, Australia, that sounds like B-P-L has to be something else. This, after the city's Power Authority tells Dennis Muldownie, VK6KAD, that it is not using Broadband Over Powerline technology to monitor its electrical network.

There is now some supposition that noise that wiping out free to air TV channels 2, 7, 9 and 10 may be coming from some home network gear which uses the power mains to connect the various pieces in a home Local Area Network. But the noise is so widespread that it has to be more than one installation causing the problem. This, by radiating back out over the local Perth power grid. (WIA News)

**

THE BPL FIGHT: FCC TO RELEASE R&O ON BPL ROLLOUT

Meanwhile, back at home the ARRL says that an initial Report and Order on the rollout of B-P-L could be on its way out of the FCC this month. Amateur Radio Newsline's Mark Abramowicz, NT3V, has been following the story and has more:

--

The ARRL says that an initial Report and Order on the rollout of B-P-L could be on its way out of the FCC this month. Amateur Radio Newsline's Mark Abramowicz, NT3V has been following the story and has more…

As predicted almost on cue, the Federal Communications Commission appears ready to render its decision on Broadband Over Powerline Internet access.

And despite thousands of comments on the subject, many of them raising concerns about the interference potential of the technology, the ARRL says it has learned the panel is ready to act.

As one high-ranking ARRL official has told Amateur Radio Newsline, it's not a question of whether there will be BPL. There will. The question is in what form will it be rolled out and how effective will the safeguards be to protect other services.

In its recent bulletin, the ARRL advised it had learned the FCC's Office of Engineering and Technology would have its draft order on BPL ready for the commission's Oct. 14 meeting.

The ARRL has mounted a vigorous information campaign to raise awareness about the threat BPL poses. And, it has also tried to lobby at various levels to change some minds about the benefits the BPL industry says the technology will bring.

But it appears, based on the ARRL's BPL bulletin, that the organization is pessimistic about what will be coming out of the FCC's technology arm.

In fact, the ARRL's Chief Executive Officer David Sumner, K1ZZ, in a letter sent as a follow-up to a recent meeting with FCC commissioner Jonathan Adelstein sums up what the League is expecting.

"…the ARRL has no confidence that the draft report and order will be based on sound engineering and believes the rush to adoption is unwarranted and premature. " That excerpt of Sumner's letter from the ARRL's Bulletin.

In interviews with Amateur Radio Newsline, ARRL President Jim Haynie W5JBP says there was little doubt in his mind the issue would be decided BEFORE the presidential election. Haynie contends the issue is being driven by business interests who have the ear of the president and his technology advisors.

Haynie has told Amateur Radio Newsline of his concerns about the FCC's apparent lack of interest in following up on the many pending BPL complaints - filed as a result of system tests. He has told us he fears when the commission finally acts, it may bow to BPL interests that are seeking to weaken the impact of any interference complaints.

So the question many amateurs may be asking themselves as we await the FCC's order is where will this leave me? Is it time to put my radios up on Ebay and turn my focus to my computer and EchoLink?

The answer: Not so fast!

The National Telecommunications and Information Administration still has a card or two to play. Its technical people have raised interference issues and are continuing studies and plan to release more results in the next several months.

Will the FCC wait for the NTIA? Will the FCC table BPL? Not likely to both. Is there room for an appeal of any FCC BPL decision? If so, it would likely wind up tied up in the federal courts.

With the planned rollout out of Wireless Internet access here in Philadelphia and other cities across the nation, do the economics dictate a utility recovering its investment in BPL technology at a pace investors are willing to wait?

The questions are many and the debate is likely to continue for the next several days.

From our perspective, it seems unlikely the FCC decision - if it goes against amateur radio interests - will stand without a challenge. Too much time and talent has been invested in preparing the data showing what BPL can do to the amateur frequencies and our ability to operate.

We'll stay on top of it for you. And, once the FCC order arrives, we'll have the first reaction and what it will mean to you.

Stay tuned!

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

More on the B-P-L issue in future Amateur Radio Newsline reports. (ARNewsline(tm, ARRL)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the Rio Hondo Amateur Radio Club net serving our home town of Los Angeles California.

(5 sec pause here)

**

THE BPL FIGHT: BPL COMES TO CENTRAL VIRGINIA

Still with news on the B-P-L front, Charles Rivelle, K3FT, has some news about one electric company's future. He says over QRZ.com that the Central Virginia Electric Cooperative has completed testing of its B-P-L system in Nelson County and the company is now serving customers on 40 miles of operational lines.

The K3FT posting provides a link to a two-page advertisement that has been sent to thousands of customers throughout central Virginia. The ad alerts them to look forward to B-P-L service in the area noting that line crews are now installing the equipment needed to deliver Broadband over Powerline services. Up to 4000 homes and businesses will be eligible to participate in the first phase of this program. Central Virginia Electric Cooperative says its "always on" 256 kilobaud per second broadband connection is priced at a very competitive $29.95 a month.

Check this web site for details: http://www.forcvec.com/bplcoop/ (K3FT via QRZ.COM)

**

THE INTERNET: US FALLING BEHIND IN BROADBAND ROLLOUT

Meantime, the FCC insists that the United States is making progress in rolling out high-speed Internet service. This, despite facts showing that the nation is falling further behind other countries.

A new Federal Communications Commission report found that U.S. high-speed Internet lines had tripled to 28.2 million by the end of 2003 from June 2001, but the country at best was 10th place in international rankings down from fourth, lagging nations like Canada and South Korea.

FCC Commissioner Michael Copps criticized his own agency over the disappointing news. He says that the agency had failed to establish a coherent policy for broadband, sacrificing the nation's rank. Copps also noted that service was as cheap as $10 a month in Japan for 8 megabits a second versus $30-$50 for 1-3 megabits in the United States. (Published news reports)

**

CHANGING OF THE GUARD: STAN BURGHARDT, W0IT - S.K.

The changing of the guard in ham radio continues with word of the passing of two well known radio amateurs. The ARRL Letter reports that Stan Burghardt, W0IT of Watertown, South Dakota, died on August 22nd at age 93. Burghardt was the founder of Burghardt Radio Supply Inc. which is now known as the Burghardt Amateur Center. He was first licensed in 1931 as W9BJV and became W0BJV in 1946. Burghardt remained active on the air -- especially on 6 meters -- until his death. (ARRL)

**

CHANGING OF THE GUARD: ROGER BAKER, G4IDE - S.K.

And ham radio software writer Roger Barker, G4IDE, has passed away. Baker died on September 9th following a long bout with cancer. Baker was the author of UI View, PSK31SRV and a host of other digital mode software and was recently named as the first recipient of the 'Lifetime Achievement Award' by the Tucson Amateur Packet Radio for his services to digital communications.

Baker's packet radio program Winpack is currently in use by tens of thousands of radio amateurs around the world, while his UI View program is now considered to be the benchmark by which all other APRS Raster Mapping software is compared. (KB7TBT, G3ZHI, others)

**

ENFORCEMENT: KEEP OFF 10 METERS

The FCC has written to five trucking and transport companies warning them to keep their drivers from operating radio gear on 10 meters.

The letters went to Con Way CWX Trucking of Long Beach, California; Dowell Express, Inc. of Lavonia, Georgia; K & K Cartage, Inc. in Sunbury, Pennsylvania; Teeberry Trucking LLC whose home base is Charlotte, North Carolina and United Van Lines of Fenton, Missouri. Divers for these companies were heard operating radio gear without licenses on 28.085, 28.115 and 28.215 MHz

Each letter carries a stern warning that continued operation could lead to confiscation of the radio gear as well as a prison term and a hefty fine and for the unlicensed radio operator. These monetary forfeitures normally range from $7,500 to $10,000. (FCC)

**

ENFORCEMENT: A DEAL A PIRATE COULD'T REFUSE

And there appears to be two ways to get someone to stop rebroacasting your radio station. You can complain to the FCC or you can take another and apparently much quicker route that one station has. Norm Seeley, KI7UP, explains the unique and effective approach:

--

An unlicensed broadcaster is off the air in San Diegio, California. This, after a licensed broadcaster in San Clemente kind of took matters into its own hands and made the pirate a deal he could not refuse. Legally speaking that is.

When KWVE was recently advised that its signal was being rebroadcast by apparently unauthorized translator station in Lakeside, California, the station dcided to act. Rather than wait for the FCC to investigate and politely ask the pirate to cease and desist, representatives of KWVE paid the party a visit. The station also threatened in writing to seek legal injunction if the unauthorized rebroadcasts continued.

And you can call this approach as being very effective. The translator fell silent in short order and has not been heard since.

--

While this system is seemingly a lot faster it also means having to hire a lawyer and pay his fee. (CGC)

**

RESCUE RADIO: FCC PARTICIPATES IN COUNCIL ON EMERGENCY PREPAREDNESS AND INDIVIDUALS WITH DISABILITIES

The FCC has participated in the first meeting of the Interagency Coordinating Council on Emergency Preparedness and Individuals with Disabilities. This, at the Department of Homeland Security in Washington D.C..

The FCC was represented by K. Dane Snowden, the chief of the FCC's Consumer & Governmental Affairs Bureau. At the meeting, Snowden

announced that the FCC has issued policies and will launch outreach efforts. This, to ensure that facilities that provide telecommunications relay services for persons with hearing and speech disabilities are designated priority for restoration of service in cases of emergency. Snowden also described a rulemaking by the FCC to improve the emergency alert system to make it more accessible for people with disabilities.

The Interagency Coordinating Council on Emergency Preparedness and Individuals with Disabilities was established by Executive Order on July 22nd. Its purpose is to address the safety and security needs of people with disabilities. (FCC)

**

HAM RADIO ON THE INTERNET: BIG DATABASE UPGRADE AT QRZ.COM

The QRZ.com website call sign system is running a lot faster these. This as the result of a major an upgrade to a new and more powerful server.

The new database engine is a Sun E280R. This is a 64-bit industrial strength machine with dual 900 MHz processors, 4 GB of RAM, and a pair of 36 gigabyte 10,000 R-P-M Fibre channel disk drives.

Fred Lloyd who runs QRZ.com says that these new disks are really impressive. Fred says that he has clocked them at speeds of up to 64 megabytes per second. That equates to an entire C D ROM's worth of data being moved internally in only 10 seconds.

Lloyd adds that this new server only handles the call sign database. The main QRZ.com web server remains a 450 MHz Sun E420R with 2 gigabytes of RAM. (QRZ.com)

**

THE SOCIAL SCENE: THE WSWSS VHF/UHF CONFERENCE IN CA IN OCT

Turning to the ham radio social scene, a reminder that the Western States Weak Signal Society's annual VHF UHF Conference takes place on Saturday, October 9th. The venue is the M2 Antenna Systems facility in Fresno, California and features prizes, technical programs and a great BBQ Dinner. More info at www dot wswss dot org. (WSWSS)

**

THE SOCIAL SCENE: OPRC HAMFEST IN AZ. IN OCTOBER

Just to the East in Arizona the Old Pueblo Radio Club will hold its hamfest on October 16th at the Kinko Sports Complex in Tucson. For more information on this one please contact John Kalmes, KC7LIB, by e-mail to kc7lib@aol.com (SW Communicator)

ARNEWSLINE(TM) SUPPORT FUND REPORT WITH N6TCQ

Audio report only: Hear it at www.arnewsline.org

**

RADIO HERITAGE: NAVY TO CLOSE SUB COMM CENTERS

The United States Navy says that it will dismantle two extremely low frequency radio transmission centers used to communicate with submerged submarines. The Navy says that the 400-million submarine-communications system, which has been in use since 1989, is outdated and no longer needed.

Two transmitter sites are involved. One is in northern Wisconsin and the other in Michigan. They will go out of service on September 30th but could take up to three years to disassemble and close down permanently.

Each system consists of a transmitter and an antenna strung on 600 12 meter high poles. The navy has used these extremely low frequency transmitters to maintain secure communications with submarines at sea but now will use 12 smaller transmitters, sited worldwide. (Pulished reports)

**

HAM RADIO IN SPACE: ISS REPEATER ON AGAIN

The FM Repeater and BBS on board the International Space Station was again open for general ham radio contacts on September 27th and 28th. During that time voice contacts were available on by transmitting up to the I-S-S on 145.920 MHz with a 67 Hz CTCSS tone while listening for replies on 435.300 MHz. The Bulletin Board used an uplink of 145.860 F-M and a downlink at 435.150 MHz. This operation was followed by a PSK-31 Experimenters Wednesday Test on September 29th.

The system will be on periodically and ARISS will announce the dates and times in advance. Check with the I-S-S Fan Club web page at www.issfanclub.comto see what the latest status is.

Also, keep in mind that the radios on board the space station are not able to correct for Doppler as the frequencies are channelized. It

is up to the ground station to do the Doppler correction. For 2 meters, the Doppler shift is about +3kHz at the beginning and goes to about -3kHz at the end. For 70 cm, the Doppler is about +10kHz at the beginning and goes to about -10kHz at the end.

The 70cm Doppler is roughly 3 times the 2m Doppler. Many of the tracking programs have the ability to calculate the frequency shift. (ARISS)

**

HAM RADIO IN SPACE: MIKE FINCKE ON THE AIR

And as his time on board the I-S-S begins to wind down ham astronaut Mike Fincke, KE5AIT, has been on the air quite a bit. Not only to talk to school students in pre-scheduled contacts, but also to any ham who wants to chat a bit. One of those who had the opportunity to talk recently with the intrepid space traveler is Scott Avery, WA6LIE, in Salinas, California, who had had his recorder running:

--

Contact audio here. Hear it at www.arnewsline.org

--

Scott says that his QSO with KE5AIT space mobile took place at about O2:15 on September 28th. Needless to say that signals were 5 by 9 and full quieting both ways.

Fincke and Commander Gennady Padalka, RN3DT will be finishing their tour of duty on the ISS in the middle of October. They will be replaced by Expedition 10 Astronaut Leroy Chiao, KE5BRW, and Cosmonaut Salizhan Sharipov. WA6LIE's full contact with the I-S-S can be heard on line at www.qsl.net/wa6lie (WA6LIE)
**

DX

In D-X word that Crete will be coming on the air in October. This as SV9FBM and SV9FBZ become active as active as SY9Y in the CQ World Wide DX SSB Contest on the 30th and 31st as a Multi- Single entry. QSL to Stelios Aggelakis, P.O.Box 113, GR 72200 Ierapetra, Crete Island, Greece. (OPDX)

And EA1QF and EB1AA will be on the air from Cuba from October 12th to the 25th. The pair will be working on a "Radiosolidarity" project, but will also be operational on the H-F bands from several station locations as T42R. QSL to EA4URE at his callbook address. (GB2RS)

**

THAT FINAL ITEM: THE ARDF REPORT

What do Burrowing Owls and 80-meter transmitters have in common? They are both targets of hams who like to do radio direction finding. Newsline's Joe Moell K0OV tells us more:

--

There's lots happening in the world of radio direction finding this summer. More young Burrowing Owls are leaving their nests in western Florida, so hams in that state who aren't busy with hurricane communications are by their receivers, listening for the radio tag signals to see where these critters will go. If you can help, please join them -- I'll tell you how in a moment.

Also, a 21-member delegation of ARDF Team USA competitors, trainers, jurors, and family members went to the Czech Republic and the World Championships of radio foxhunting, September 7th through the 12th. These World ARDF Championships take place every two years. USA's 2004 team members were OMs and YLs ranging in age from 19 to 62. Among them was Jay Thompson W6JAY, Newsline's Young Ham of the Year for 2003 and recent winner of the ARRL Hiram Percy Maxim Award. Each competed once on 80 meters and once on two meters, looking for three, four or five transmitters, depending on age and gender category.

USA began attending the World Championships in 1998, but European and former Soviet countries have been holding ARDF events for over 30 years. So it's no surprise that they dominated in the final standings. Nine of these nations garnered all of the individual and team medals. The total medal count was led by Czech, Russia, and Ukraine with 34, 28 and 26 respectively.

USA, Australia, and Great Britain were among the 19 nations that won no medals. But we're getting better every year. Two Team USA members had top-ten individual finishes in their categories. Nadia Scharlau of Cary, NC took 6th place out of 22 on two meters. She might have won a medal on 80 meters, but the battery fell out of her receiver and she had to find the last fox transmitter with just the bearings that she already had on her map, losing about ten minutes. Bob Cooley KF6VSE, age 62, of Pleasanton, CA placed 9th out of 34 on his two-meter run.

All of our team members earned their spots by taking medals in the USA National Championships. This year's were in California in June, and a site is already being sought for the national championships in 2005, 2006 and beyond. As USA's ARDF Coordinator, I would like to hear from you if your club is interested in putting on the championships.

You can read all about the ARDF championships, Team USA, and volunteer wildlife tracking -- and find out how to get involved -- at the usual place, www.homingin.com. That's homingin, as one word, homingin.com.

From southern California, this is Joe Moell K-zero-Oscar-Victor, for Amateur Radio Newsline.

--

Again, that website Joe mentioned is www.homingin.com. And homingin is one word. (K0OV, ARNewsline(tm))

Hallo Achim,

wir hatten am Freitag dem 01. Oktober stellenweise 100 Prozent Auslastung unserer Audioserver. Aus diesem Grund senden wir nun mit etwas geringerer Bandbreite (64 Kbit/s) und haben noch w&#65533;hrend des freit&#65533;glichen Programms weitere Audioserver zugeschaltet. Ab Montag, dem 4. Oktober kommen noch weitere Server hinzu. Eventuelle Rebuffering-Probleme sollten damit der Vergangenheit angeh&#65533;ren :-) ... Der Audiostream ist mit einem DSL-Anschluss in guter Qualit&#65533;t h&#65533;rbar. F&#65533;r Modemnutzer schalten wir ab kommenden Freitag einen separaten Stream (56 Kbit/s mono), der nat&#65533;rlich auch auf unserer Homepage http://www.berlinradio.de.tc zu finden sein wird.

Kann auch sein, dass Dein Netscape Explorer m&#65533;glicherweise ein Problem mit mp3-Audiostreams hat. Zum Empfang unseres Programms einfach den kostenlosen RealPlayer 10 oder eine &#65533;ltere Version installieren (gibts f&#65533;r Windows, Linux oder Mac), den Download findest Du hier: http://forms.real.com/netzip/intl/intl_getrde601.html?lang=de&h=software-dl.real.com&f=windows/RealPlayer10-5GOLD_de.exe&p=RealPlayer&oem=rp10_de&src=ZG.de.idx,ZG.de.rp.rp.hd.def,ZG.de.rp10_p_f.rp10_p_f.760.rp10_plus_free&tagtype=ie&type=rp10_de

Ich hoffe, dass ich Dir helfen konnte :-). W&#65533;rde uns freuen, wenn Du bei uns reinh&#65533;rst! Auch &#65533;ber ein weiteres Feedback :-).

aber hoffentlich variabel, denn 56K-Modems
konnektieren nicht immer mit 56kb/s, bei mir
z.B. nur mit 45 kb/s. Auï¿œerdem braucht man ja
noch etwas Bandbreitenreserve, um neben dem Hï¿œren
zu surfen :-)

Hallo Hans,

zumindest ist es nicht unsere IP, die beginnt stets mit 217. ... ..., wenn
es auch keine statische IP ist (1&1). Eventuell hat Firefox, der ja auch auf
die Mozilla Engine (wie Netscape) zur&#65533;ckgreift, ein Problem mit dem in die
Webseite eingebetteten Playermodul. Wir werden das am Sonntagnachmittag
selbst mal hier testen. Wir hatten Samstag abend rund 4000 Zugriffe mit mehr
als 30 Minuten Verweildauer, darunter etliche mit Mozilla Engine. Merkw&#65533;rdig
... na ja, wie gesagt, wir testen das selber nochmal mit dem Firefox.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 26th/September, through Sunday, 3rd/October there were 212 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5N, 5R, 5U, 5V, 5W, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9U, 9V, 9X, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J7, JA, JD/m, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V3, V5, V6, V7, V8, VE, VK, VK9N, VP2M, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4Z0, ISRAEL (Special Event). Look for special event station 4Z0V to be active until October 9th. Activity is taking place during the Wine Festival at Rishon Le Zion. Activity over the past week was on 40/30/20/15/12 meters CW/SSB/PSK. QSL via 4Z4KX.

5Z4, KENYA (Interesting Callsign of the Week!). Miki, YT1CS, is currently active from Nairobi and will bethere until November 18th. His callsign is 5Z4YT1CS (ed. Wow! What a mouthful. Yes, it is true and there is no "/" [slatch] between the 5Z4 and YT1CS). It was reported that Miki's activity would only be SSB on 20/15/10 meters. There is a possibility he may activate some of the IOTA islands there. QSL via YT1CS (direct or by the bureau).

7W0, ALGERIA. The 7W0AD is now active until October 9th. Activity over the past weekend was very active on 30m (RTTY) and 17 (SSB/RTTY) with some 40m (CW). QSL via EA4URE.

CE0Z, JUAN FERNANDEZ ISLAND. Marco, CE6TBN, informs OPDX that there is now no amateur radio operator on this island. Eliazar, CE0ZIS, has left the island 4 month ago and is now living near Valparaiso City in CE2-land. Marco states that he has plans to travel to CE0Z next year, but he is not sure when yet.

CN, MOROCCO (Update OPDX.678). Last week we mentioned that Jan "Jim", SM2EKM, will be active as CN2KM in the CQWW DX CW Contest. Jan now has informed OPDX that he will be there November 23rd to December 1st. QSL via SM2EKM.

FR, REUNION ISLAND. Bert, PA3GIO, informs OPDX that he will be active as FR/PA3GIO/p from Reunion Island (AF-016), October 2-11th. Activity will be on 80-10 meters SSB only; using 100 watts and Doublet (Limited activity). He was heard this past weekend on 3800, 7046, 14260, 18145, 24945 and 28495 kHz. For Bureau QSLs, PLEASE use the easy QSL request form on his Web site. (ADDED NOTE: Also for all other operations.) For direct QSLs, please use the QSL info/address on his Web site at: http://www.pa3gio.nl/FR/

HZ1AB CHANGE. For almost six decades the HZ1AB club station in Saudi Arabia has been active. Originally known as the United States Military Training Mission station and more recently known as the Dhahran Amateur Radio Club, this station is now shut down. According to "The Daily DX" and the "ARRL Letter", Club Secretary Thomas Carlsson, SM0CXU/AB5CQ, said this week that new station license requirements in Saudi Arabia made it necessary to shut down the station, and the callsign has been reissued to a Saudi national. The QSL Manager Leo Fry, K8PYD, still has the HZ1AB logs and will handle any past/late QSL requests.

IOTA NEWS.....
AF-019. Check out the pictures on the recent September 24-28th IG9/IZ8CGS IOTA DXpedition to Lampedusa Island (MIA MI-126) online at: http://www.mdxc.org/ig9_iz8cgs

AS-024. Anci, JA2ZL, will be active as JA2ZL/6 from the Kobama Island (JIIA AS-024-008), now through October 7th. Activity will be on 40-10 meters (including the WARC bands) CW, SSB, RTTY and SSTV. QSL via the bureau or direct to JA2ZL: Anci Yamada, 17-8-2 Takiro-cho, Tajimi, Gifu, JAPAN.

EU-023. Arno, DL1CW, will be active as 9H3AP from Gozo Island, October 5-13th. Activity will be CW only on 40-10 meters. QSL via DL1CW.

EU-182. Nikolay/UX0FF, Alexandr/UR5FAV, and Vitali/UR5FGW will be active as homecall/p from the Island of Ankudinov in the Black Sea, October 7-10th. Activity will be all bands and modes. QSL via operator's home callsign.

NA-069. Jeff, VA3QSL, informs OPDX that he will be visiting Florida the 2nd week of November. He plans to be on the air from Estero Island (USI FL-035S) using the callsign VA3QSL/W4 from November 11-13th. Activity will be on 14260 kHz (+/-). QSL to his home callsign via the bureau, or direct with 1 greenstamp or IRC.

OC-147. Bachrun, YC9YKI, was heard this past week from Yapen Island (resident) on 15 meters SSB just little before 1230z. QSL via YB9BU.

IOTA VIDEO. A new IOTA video is available on the recent CS7T operation to the Estelas Islands. The press release states that this is a professional produced DVD and an excellent piece of HAM radio history directed by Jose Alberto, EA1OS, with incredible footage of these most beautiful Islands. For more details, please have a look at:
http://web.newsguy.com/ea12537/Intro_Videos.htm
They are not looking for any sponsorship so the DVD costs only 10 Euros (shipping included). For enquires contact Jose Alberto, EA1OS, at:
cs7t@wanadoo.es
or
Jose Alberto Suarez Rodriguez
C/ Praga 23 - Urb. Valaire
E15008 - A Corunna, SPAIN

JD1, MINAMI TORISHIMA. Itokazu, JR6TYH, is now active as JR6TYH/JD1 on Marcus Island (OC-073) until December 20th. During the past week, he was heard on 21260 kHz between 0600-0900z and again at 2200-0000z. He reportedly has a tribander for 10/15/20 meters. QSL via the JARL Bureau.

KH9, WAKE ISLAND. Terry/K7ASU and George/AH8H are now active as K7ASU/KH9 and KH9/AH8H until about October 23rd. Activity will be limited as the two operators will only be on during their spare time. All of the activity reported so far has been CW on 20 and 15 meters between 0700-1030z. Watch around 14018 and 21017 kHz. QSL K7ASU/KH9 via K7ASU. QSL KH9/AH8H via AH8H: George Talbot, PO Box 45, APO AP 96555-0045, USA.

LIGHTHOUSE ACTIVITY. Operators Jim/KA3UNQ and Stan/N2US will operate as N3L from Maryland's Hooper Strait Lighthouse (ARLHS USA-378), celebrating the 125th anniversary of the first lighting. Expected operation will be on SSB, October 16th, 1400-2200z. Suggested frequencies are: 14270 and 7270 kHz (+/- QRM). QSL with a SASE to KA3UNQ.

MM0, SCOTLAND. Leo, W3LEO, will once again be active from Portpatrick in southwest Scotland from about October 10th to November 15th. His

callsign will be MM0LEO. In the CQWW DX SSB Contest, he will use GM3W [the contest callsign of the Wigtownshire A.R.C.]. He will use an Icom 706 (100 watts]), an R-5 vertical [10, 12, 15, 17, 20 meters], and a 40-meter dipole [in inverted-V, semi-delta configuration]. QSL via W3LEO -- QRZ.com address w/SASE or via W3 bureau for both callsign. His activity is good for the following awards and reference numbers:
Worked All Britain [WAB] Square: NW-95
CQ Zone: 14 ITU Zone: 27 Grid Square: IO-74ku
IOTA: EU-005 [Great Britain].

NP3, PUERTO RICO. Several members of the Yankee Clipper Contest Club (YCCC) will be traveling to the NP3U "Mi Casita" contest station of Carlos, WP4U, for the upcoming CQWW DX SSB Contest, October 30-31st. Operators Bill/N1HRA, Foster/N3KCJ, Joe/K1JN, Matt/WE1H, Pat/WL7Z and Dave/W1CTN will be making the trip. Look for some limited activity prior to the contest as homecall/KP4. QSLs for NP3U is via WP4U and for individual activity will be via the individual home call.

PIRATE ALERT! Bill, VK4FW, informs OPDX that he has received a few inquiries regarding a FW8FP station being active over the past week or so. He states, "This is a pirate..... don't waste your time QSLing please."

PJ2, NETHERLANDS ANTILLES. Andy, DL5CW, will be active as PJ2/DL5CW from Curacao (SA-007), November 1-15th. Activity will be on 80-10 meters on all modes. QSL via the bureau is a sured.

PROPAGATION (Last Minute Forecast Updates and More!). With the CQ WW SSB Contest coming up, Tomas, NW7US (AAR0JA/AAA0WA), Propagation Editor for CQ, CQ VHF, and Popular Communications, states for those who use the CQ Magazine Propagation Column "Last Minute Forecast" to help plan your operation, you might be interested in the "live" version of that table. Tomas has a live version of the LMF at:
http://hfradio.org/lastminute_propagation.html
Also, the NW7US HFRadio.org Propagation Center (http://prop.hfradio.org/) which features a collection of live space weather and radio propagation data, as well as commentary by NW7US, graphics, and so forth, has been updated with a new layout. The data has been "load balanced" between several pages. Specific data that is of interest:

1. CQ Magazine "Last-Minute Forecast" table is updated daily - for those who follow Tomas's column in CQ Magazine, you will know that the "Last Minute Forecast" is used with the published propagation tables. Use the latest table for DX scheduling, etc.

2. Optimal Working Frequencies and predicted Smoothed Sunspots and 10.7-cm Flux tables are updated on a regular basis.

3. Discussion forum for a wide topical range - from Propagation to Shortwave Listening, NVIS, and more (http://hfradio.org/forums/).

4. All of the major data is syndicated via RSS (XML RSS version 2.0) (http://hfradio.org/propsupport/prop.rss).

5. Same information, plus SWL BCL database search, DX spots, Callsign Lookup via WAP/WML (http://wap.hfradio.org).

6. Propagation and Space Weather e-Alert service (as used by the troops in the Middle East Theater, pigeon racers, and DXers alike) (http://prop.hfradio.org/ealert/).

QSL INFO AND NEWS.....
Dave, W5WP, informs OPDX that at the request of David, KH9AE (5X4CM and 5X4/KH9AE), he will be performing his QSLing "chores". Direct requests must be accompanied with an SASE. International (outside U.S.A.) must have an SAE and sufficient return postage. All requests will be answered, Those received via the bureau or without sufficient postage and SAE/SASE will be replied to via the bureau. Please do not request confirmation via eQSL as Dave does not subscribe to it. At this time, Dave does not use LoTW. He does not have the time to reconfigure the E-mail logs to meet LoTW requirements. Please send mail requests to: W. David Paperman, W5WP, 19266 Sims, Cleveland, TX 77328-6205. Dave states, "Please place the call of the station somewhere on the envelope as I am also the manager for CO2KK."

QSL 8S7A via W3HNK. Activity was last weekend from IOTA EU-037.

QSL JA4GXS/4 via the bureau or direct to JA4GXS: Kenji Sasaki, 2-15 Ishikannon-cho,Yamaguchi, 753-0038 Japan. Activity was by Kenji from No-shima Island (AS-117) (JIIA-AS-117-110).

Joe, W3HNK, has informed OPDX that he has the logs for the V44NK operation; July 10th and 11th 2004 ONLY!!!! PLEASE NOTE: Joe is "NOT" the QSL Manager for V44NK. However, he will answer QSL requests (ONLY) for the above 2 day operation!

OLD QSL COLLECTION. Jean Michel, F6AJA, wants to remind everyone to visit the Les Nouvelles DX (LNDX) Web page to see some 2000 old QSLs in six different albums. This site contain:
- At least, one card, for each 58 deleted DXCC countries (more than 400 QSLs)
- Nearest the totality of current prefix, disappeared now (more than 800 QSLs)
- More than 300 QSLs from the Antarctic bases.
- Nearly 190 QSLs from the TAAF (Terres Australes and Antarctiques Fran&#65533;aises).
- More than 200 cards for the old timer with more than 100 countries before 1945.
- A card from the French Department before 1945.
The URL address for the Web site is : http://LesNouvellesDX.free.fr
Some cards are still needed for the collection and your participation is welcome, please visit their site and give them your comments by send an E-mail to: LesNouvellesDX@free.fr

SOUTH PACIFIC DXPEDITION. Operators Carlo/IK6CAC and Elvira/IV3FSG will activate a few Pacific Ocean island during the months of October and November. Look for them to join the Ocean Amateur Radio DX Group (ODXG)

as VK9LA and VK9LW from Lord Howe Island, October 9-23rd. See VK9L below. The Italian team will also activate New Caledonia (OC-032) as FK/IK6CAC and FK/IV3FSG from October 25th to November 4th. Activity is also planned for Loyalty Island (OC-033) and the rare Belep Island (OC-079). They will move from FK-land to Vanuatu (YJ) and be active between November 5-13th. Callsigns for YJ-land were not provided. QSL via operators instructions.

TJ, CAMEROON. Just a reminder! Also, refer to OPDX.669. Operators DL7DF, DL7UFR, DL7KL, DL7DF, DL4WK, DK1BT and SP3DOI will be active this week as TJ3SP and TJ3FR from October 6-20th. They will have four stations active and on all modes and all bands, except on 160m and 6m (no licence). For more information, please watch the Web page at:
http://www.qsl.net/dl7df

TO7, MARTINIQUE. Laurent, F5MUX, will be here and active between October 26th to November 5th. His activity will include the CQ WW DX SSB Contest as a Single-Op/All-Band/High-Power entry using the callsign TO7X. All stations which contact him on a minimum of 4 bands will receive a QSL DIRECT automatically. All others will be confirmed via the bureau. QSL via F5MUX.

V5, NAMIBIA. Vladimir, ZS6MG, will be active as V55V in the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/Low-Power entry. QSL via ZS6MG. His Web page is at: http://zs6mg.hobby.com.mk

VE1, CANADA. Jim, VE1JF, informs OPDX that he will be running as a Multi/2 in the upcoming CQWW SSB Contest and will attempt to "make a market" (ed. that how he phrased it!) for EU/NA 10M QSOs. Look for him to be on 28450 kHz (+/- QRM) around 1300z both days. He expects to have the other rig running EU on 20m at that time, and will announce this and the frequency on the air. Jim will be running his F12 7/7/7 3-stack and is hopeful at least some of the EU Big Guns can hear and work him (He will of course be listening carefully for others).

VK9L, LORD HOWE ISLAND (Update). Bill Horner, VK4FW, President of the ODXG, informs OPDX that "All systems go. Callsigns..... VK9LA for the OMs.... VK9LW for the YLs." QSLs will be handled by the Oceania Amateur Radio Dx Group Inc, P.O. Box 513, NAMBOUR 4560, AUSTRALIA. Activity will be between October 9-23rd. Operators will be: Vicki/VK2IVK (YL), Elvira/IV3FSG (YL), Laurie/G3UML, Eric/VK4NEF, Mike/VK3SU, Carlo/IK6CAC and Bill/VK4FW. Suggested frequencies are:
6m - 50100 kHz (CW/SSB)
CW - 1812, 3512, 7012, 10107, 14012, 18072, 21012, 24912 and 28012
SSB - 3785, 7045, 14260, 18140, 21260, 24950 and 28495
RTTY - 7080, 10120, 14090, 18100 and 21090 kHz

YJ0, VANUATU. Trent, VK4TI, is now active as YJ0AX until October 10th. He was active this past weekend's Oceania DX Contest. Activity will be limited. Watch 40/20/15/10 meters on CW/SSB. QSL via VK4TI: Trent Sampson, PO BOX 1647, Toowoomba QLD 4350 Australia.

December 2002 issue of "ARLD-051 DX-News" said to QSL via his home call, DS4CNB. A home address was listed. I made two mailings w/$ requesting confirmation of Dec 02 and Feb & Mar 03 contacts. Have also sent 2 e-mail requests asking if my cards were received...to date no response to either effort. Good luck.

Dean -- W4IHK

Yes I have the card for QSO 2-Jan-2003, I guess I sent 2 x US 1$'s cannot recall the address I used but have noted QSL manager as DS4CNB.

Keep trying.

With respect, I disagree.

Anonymity can benefit a debate more than it detracts: it relieves a poster of the externalities that blunt honesty and originality so badly wanting in many discussions on Usenet, and being recognized seduces some to sink to mean-spirited sarcasm when they're afraid to make a controversial point or defend an unpopular opinion.

With the entire world able to read my words, and with a mind to the ever-increasing power of corporations to dictate their employees' actions outside the workplace, I choose to be "anonymous" for purposes of Usenet posting.

That doesn't mean I'm not responsible for what I write: my ISP and any policeman can find my "true" identity quickly and easily. That doesn't mean I don't stand behind my words: I defend my opinions with the same vigor I apply to arguments using my "real" name.

What it means is that the reader must consider what I write without knowing who I 'really' am: in other words, (s)he must evaluate my postings and decide if they are worthwhile solely on the merit of what I write, without reference to the boatload of baggage I bring to any contest where my pedigree is advertised in advance.

That's not a bad thing. It means that the debate is focused on the issue at hand, and much less likely to be sidetracked or sabotaged by persons it makes uncomfortable. Especially in this political season, we've all seen what happens when some "heavyweight" arrogates acceptance of an opionion or 'fact' that doesn't deserve consideration or which begs for disproval, often with a hidden agenda having little or nothing to do with the argument's basis.

Moreover, the reputation I build on Usenet, even using a different name than the one inscribed on my mailbox, is still a reputation, and still carries with it the accumulated weight of my past writings. Eric Blair, David Cornwell, and Samual Langhorne Clemens all made indelible impressions on the litterary world using assumed names: in these and many other cases, their 'real' identities became a minor footnote to their

accomplishments under their 'false' names. I do not, sad to say, expect to be in their company anytime soon, but one can always dream, and my dream is that I can assend over the limitations often associated with persons of my upbringing and education, to make a meaningful difference in others' lives, if only via encouraging them to think for themselves.

FWIW. YMMV.

William

It is better - far better -- to remain anon and be thought a fool, than to
reveal your identity and remove all doubt

BerlinRadio - Internetradio auch f&#65533;r Funkamateure

BerlinRadio, das neue Internetradio, sendet jeden Freitag und Samstag von 18.00 Uhr bis 21.00 Uhr. Fester Bestandteil des Programms ist die Sendung "Weltweit DX", ein Magazin f&#65533;r Funkamateure und alle Interessierten, welches

jeden Freitag um 18.00 Uhr, 19.12 Uhr und 20.25 Uhr CET / ME(S)Z und in der Wiederholung
jeden Samstag um 18.00 Uhr, 19.12 Uhr und 20.25 CET / ME(S)Z zu h&#65533;ren ist.

BerlinRadio sendet ab sofort mit variabler Bandbreite, um auch Modemnutzern einen einwandfreien Empfang erm&#65533;glichen zu k&#65533;nnen und zudem auch den Bufferingproblemen vorzubeugen, die in letzter Zeit auf Grund der gro&#65533;en H&#65533;rernachfrage tempor&#65533;r auftraten.

```
Den Livestream des Programms findet man auf der Homepage von BerlinRadio:
http://www.berlinradio.de.tc.
```

Wir freuen uns &#65533;ber jegliche rege Zuh&#65533;rerschaft :-) ...

```
73 Tom
```

PS: au&#65533;erhalb der regul&#65533;ren Sendezeit strahlt BerlinRadio auch unregelm&#65533;&#65533;ige Teststreams aus. Es lohnt sich also, auch mal "zwischendurch" den Livestream anzuklicken. Eine Ausdehnung der Sendezeiten ist vorgesehen.

Also ich werde jetzt hiermit einfach mal fragen, ob ein Leser von
de.comm.software.mozilla.browser einen Tipp hat, weshalb der Audiostream
auf http://www.berlinradio.de.tc/
mit Mozilla und Real-Plugin nicht funktionieren will.
Also liebe Mozilla-User, was meint ihr, woran koennte es liegen?

(Die Website macht uebrigens keinen guten Eindruck, weil der Documentstyl
nicht angegeben ist.)

MfG Markus

Hallo Markus,

vielen Dank f&#65533;r Deinen Hinweis, wir werden versuchen, den Eindruck unserer Webseite auch hinsichtlich des Documentstyles zu verbessern. Gut, wir sind beruflich keine Webseiten-Programmierer, sondern kommen aus anderen Medienbereichen. In den n&#65533;chsten zwei Wochen sitzt jedoch ein Programmierer &#65533;ber unserem Internetauftritt und sicher wird dann auch der Fehler mit dem fehlenden Documentstyle beseitigt sein. Uns kam es darauf an, &#65533;berhaupt erstmal den Livestream auf einer Homepage anbieten zu k&#65533;nnen. Das hat auch sehr gut funktioniert. Die momentane Fehlerquote liegt bei nur etwa 2 Prozent aller Streamaufrufe. Aber auch an diesen 2 Prozent arbeiten wir.

Looks like they got a bit of a late start. They were on 12 SSB and 17 CW earlier today (the 7th). Absolutely huge sigs on 12M, but I couldn't bust the massive EU pile. They're supposed to be there 'till the 20th, so they'll be begging soon enough <g>. I hope.

Amateur Radio Newsline™ Report 1417 October 8, 2004

Amateur Radio Newsline report number 1417 with a release date of Friday, October 8, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. A New Jersey radio club makes a big donation to the local community and hams in Great Britain may get more privileges on 40 meters. These stories and more on Amateur Radio Newsline report number 1417 coming your way right now.

(Billboard Cart Here)

**

PUBLIC SERVICE: RADIO CLUB DONATES $400,000 TO NJ PARK

A radio club has donated $400,000 to Essex County, New Jersey. This, to pay for renovations already made to Irvington Park where the club has its headquarters. And there's more money on the way. Amateur Radio Newsline's Henry Feinberg, K2SSQ, has the rest of the story:

--

According to a story in the September 29th edition of the Newark Star Ledger, the $400,000 donated by the Irvington Amateur Radio Team came from the states Green Acres program. It will be used to pay part of the $1.1 million in renovations that included new tennis courts, basketball courts, benches and a track.

The club, a nonprofit organization that volunteers as keepers of the park. It is expecting another $500,000 in Green Acres funds to pay for the second phase of the parks upgrade. Phase I of the $2 million overall was completed during early summer. Phase II, scheduled to begin next year, will include a second floor addition to the field house, where the radio club has its headquarters.

Phase I was completed during early summer. Phase II, scheduled to begin next year, will include a second- floor addition to the field house, where the radio club has its headquarters. The funds obtained by the club have been matched by Essex County.

Charles Freeman, N2JGC, is the clubs president. He says that the park renovations have boosted community pride.

--

Freeman: "Its all volunteerism. Its a bunch of wonderful people who dedicate their time and service to I-ART - the Irvington Amateur Radio

Team, the Office of Emergency Management, CERT, and any way we can get involved in helping out our community."
--

Feeeman says that this has helped get some of the children off the street by getting them involved in computers and amateur radio.

For the Amateur Radio Newsline, I'm Henry Feinberg, K2SSQ.

--

The club brought its headquarters to the park in 1998. Soon after, members became the primary caretakers of the facility. (Star-Ledger, ARNewsline(tm))

**

RESTRUCTURING: VICTORIA VK HAMS LOOSE LOWER HALF OF 70CM

The bottom half of the 70 centimeter band is no longer available for amateur radio in most of Australia's Victoria state. This, as the result of a new exclusion zone that has just become law. W-I-A reporter Jim Linton VK3PC explains:

--

The ACA has prohibited all amateur radio activity on the 420-430 MHz band within Victoria in an area of up to a 250 kilometre radius of the Melbourne General Post Office. That band will now be used for a new state-of-the-art digital radio system to replace the current analogue systems of the Victoria Police, Metropolitan Ambulance Service and Metropolitan Fire Brigade.

The exclusion zone has been anticipated and comes after other permanent Exclusion zones were imposed for similar purposes around Perth and Sydney, including the Australian Capital Territory. The band 420-430 MHz has been used for amateur fixed links and amateur television. The WIA has assisted with the timely closure and migration of those links in Victoria in liaison with the Bureau of Emergency Services Telecommunications and the ACA.

The new digital voice and data radio system now being installed for Emergency services will also provide common coordination channels to support multi-agency response to major incidents and events. The aim is to have it fully operational well in advance of the Melbourne Commonwealth Games in 2006. This has been

Jim Linton VK3PC for WIA National News.

--

Where else the A-C-A will impose these exclusion zones is not known as we go to air. (WIA News)

**

RESTRUCTURING: MORE 40 METERS FOR UK HAMS

Meantime there is much better news coming from the U-K. That's where Ofcom -- the Office of Communications -- says that it might change the rules and give that nations hams more access to 40 meters. Jeramy Boot, G4NJH, is in Nottingham with more:

--

Ofcom is proposing to vary the Foundation, Intermediate and Full amateur radio licenses to permit UK amateurs to operate in the band 7,100 to 7,200kHz.

The band would be allocated to the Amateur Service on a Secondary basis, and would be available on the basis of non-interference to other services, inside or outside the United Kingdom.

Ofcom announced a one-month consultation period beginning on 23rd September and all license-holders are invited to make representations to this proposal in writing or by e-mail.

Jeremy Boot, G4NJH

--

The cutoff date for U-K hams to comment on this proposed Notice of Variation to the nations Amateur Service rules is October 23rd. (GB2RS)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the WB9AET repeater serving Chicago Illinois.

(5 sec pause here)

**

RESCUE RADIO: SATERN IN THE PUBLIC INTEREST

Ever hear of SATERN? Not the planet but a group of true helping hams that are always ready to serve the public need.

In our reports on the numerous hurricanes that hit the United States mainland the past few weeks we have often referred to several high frequency service nets. These include the Hurricane Watch Net, the Maritime Mobile Services Net and of coarse SATERN - the Salvation Army Team Emergency Network. You heard a lot of audio from the Hurricane Watch Net and the Maritime Mobile Services Net in our reports, but little of SATERN. That's because it was not really audible at our studio here on the U-S west coast. But we recently caught it being relayed on the Internet by K-A-4-E-P-S audio website and grabbed a few minutes of it in operation. Sometimes it takes nothing more than a referral to help out. Take a listen:

--

SATERN Net Audio. Hear it in the audio report at www.arnewsline.org.

--

Some of you may say that it sounds a little boring to just sit there hours on end, taking messages or directing people to a website. But that's an important part of the Salvation Army's job and the SATERN Net is one of its most important tools.

Major Pat McPherson, WW9E, explains it all on the SATERN website. He says that the Salvation Army Team Emergency Radio Network provides emergency communication support to the Salvation Army wherever needed. As a result, SATERN members have found themselves in tornadoes, floods, hurricanes, fires, aircraft accidents, bombings, earthquakes -- just to name the more expected types of emergencies.

In short, SATERN is not your ordinary radio club or net. Maybe not the most exciting to listen in on but it is ham radio in service to the public, at its very best. (ARNewsline(tm))

**

ENFORCEMENT: ENNIS COMMUNICATIONS IN $300,000 CONSENT DECREE

Turning to enforcement news, word that Emmis Communications has reached a $300,000 settlement with the Federal Communication Commission. This, after admitting that it broadcast indecent material on the airwaves.

Emmis owns 27 stations nationwide. The settlement comes in part from comments made by a nationally syndicated Chicago shock jock named Mancow Muller. Muller is an air personality at WKQX-FM and has been the source of every previous FCC fine issued to Emmis. To date that totals $42,000.

Besides the $300,000 payment, Indianapolis-based Emmis has also agreed to implement a company-wide plan intended to prevent future violations. (FCC)

**

ENFORCEMENT: ONE LAST CHANCE FOR K1MAN

The FCC appears to be giving Glenn Baxter, K1MAN, one final chance to strictly conform to the agency's Part 97 rules. This, before taking action against the Belgrade Lakes, Maine ham. The FCC's Daryl Duckworth, NN0W, explains:

--

Duckworth: "A warning letter went to Glenn Baxter, K1MAN, of Belgrade Lakes, Maine. Back in April of this year the Commission notified him of two areas of operation that would lead to enforcement action and / or designation for a hearing to determine his qualifications to remain

a licensee. This is regarding deliberate interference to ongoing communications and using the station for pecuniary interest.

Copies of the warning notice were also went to the United States Attorney in the United States Department of Justice, District of Maine.

This is Daryl Duckworth, NN0W, reporting."

--

In the September 15th Warning Notice the FCC's Riley Hollingsworth tells Baxter that the Commission has received approximately a dozen complaints that K1MAN Amateur Radio transmissions started on top of ongoing communications of individual operators, as well as on top of ongoing communications of the Salvation Army Team Emergency Radio Net. Hollingsworth says that this is a net that has been handling health and welfare traffic for this season's hurricane victims.

As to the pecuniary interest allegation, the FCC says that this is because Baxter's website lists a bulletin service transmission schedule and items for sale on the same pages. The FCC says that this is in violation of Sections 97.113(a)(2)and (3) of its rules.

Hollingsworth ends the letter by saying that failure to correct the violations will subject Baxter to enforcement action against his station and operator licenses. Baxter was given twenty days from the date the warning notice was issued to resoind. (FCC, RAIN)

**

ENFORCEMENT: FINE "KIND OF" REDUCED FOR GOOD BEHAVIOR

And a follow-up to a story we reported some time ago about a few unauthorized transmitters coming on the air in California. This, in 2003 around the time of Super Bowl thirty-seven. Amateur Radio Newsline's Bruce Tennant, K6PZW, is here with an update:

--

As listeners may recall, Global Radio, Inc. had requested that the FCC issue authority for it to operate on transmitters 89.1, 92.9, 93.7, 96.9, 104.1 and 106.9 Mhz. This, in conjunction with the Super Bowl thirty seven activities at Qualcomm Stadium in San Diego. T

he FCC granted operation on 93.7 and 96.9 Mhz under the call sign WN3XFL, but it specifically denied Global's request to use 89.1, 92.9, 104.1 and 106.9 Mhz. This based on possible interference to existing stations in Mexico and the U.S. as outlined under bi-lateral agreements.

But on January 26, 2003, an agent from the San Diego FCC field office was listening to the FM band. He observed that WN3XFL was active and operating, without authorization, on 88.98, 104.1 and 106.9 Mhz. This, in addition to its permitted operations on 93.7 Mhz and 96.9 Mhz.

Global's willful violation of its operating authority initially resulted in a fine of $12,000. In its reply, the company claimed it could not pay that amount but the Commission didn't buy that argument. Global also argued that its otherwise unblemished compliance record should be taken into account.

Well, the FCC did just that. Well, kind of. Because of the unblemished record, the Commission reduced the fine by $1200. If you do the math, that's now a fine of $10,800 that Global has been told it has to pay.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

The full FCC finding in this case is on line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-3017A1.doc (CGC)

**

THE HAM BUSINESS WORLD: A HEALTHY C3I

Turning to the ham radio industry, C3I says that it is not out of the ham radio business. In fact, following a short pause to reassess the current business climate, the concern is shipping out products and its business as usual according to company owner Owen Wormser, K3CB.

--

Wormser: "We are fully operational. We have built up a good stock of out standard antennas. We have taken special orders the last two weeks. So, we have been able to recover in about two to two and a half weeks time."

--

C3I is a unique company that manufactures printed circuit board modules, VHF, UHF and Super High Frequency, high-performance Yagi antennas and related accessories for the Amateur Radio and land mobile market. More information is on-line at www.c3iusa.com and look for a complete company profile with K3CB on an upcoming Rain Report. (ARNewsline(tm))

**

THE SOCIAL SCENE: TITUSVILLE FL. IN OCTOBER

Florida's North Brevard Amateur Radio Club will be among the first to begin celebrating the return of the good days following the hurricanes of 2004. This, as it announces that its Titusville Hamfest will be held on Saturday, October 23rd.

This year's venue is the Disabled American Veterans Chapter 109 building in Titusville. The event is open to the public from 7 a.m. to 2 p.m. Eastern time. More information is on the club webpage at www.northbrevardradioclub.org (Via e-mail)

**

THE SOCIAL SCENE: SAN DIEGO HAM RADIO ROUNDUP & HAMFEST

And on the West side of the country the San Diego Roundup and Hamfest hosted by ARRL San Diego Section takes place October 30th from 8 a.m. to 4 p.m.. The location is Hilltop Recreation Center on Ovieda Way at San Diego. For more information contact KC6NXZ by telephone at area code 619-561-6678 during normal business hours Pacific coast time. (Via e-mail)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

RALPH WRIGHT (MIKE RIVERS), W5JVI - S.K.

More sad news to report with word of the passing of Ralph Wendel Wright, W5VJI. Better known to his many fans as Mike Rivers, Wright dominated the airwaves at radio station CKLW from 1967 to 1970.

Wright suffered a cerebral bleed in May from which he never recovered. He passed away at his home in Antioch, Tennessee on Monday night September 13th.

In addition to being a top rated air personality W5JVI was also a gifted musician, jingle writer, a master at radio production and a very active ham radio operator. No public memorial service was planned. (W2JKD)

**

THE CHANGING OF THE GUARD: FRANK TUREK, DL7FT - S.K.

Also, noted D-Xpeditioner, Frank Turek, DL7FT, became a "Silent Key" on August 17th. Over the years Turek traveled to many rare locations to hand out new country contacts to many operators worldwide. He is survived by his wife Siegrid, DL7CN, who will be handling QSL duties and will continue to keep the DL7FT Post Office Box open. (OPDX)

**

NAMES IN THE NEWS: RAC LEADERS RESIGN FOR HEALTH ISSUE

Two key officers of Canada's national Amateur Radio Society have stepped down for health related reasons. According to an RAC bulletin issued on October 5th, President Daniel Lamoureux, VE2KA, and First Vice-president Bob Nash, VE3KZ have resigned after having been

hospitalized with heart related problems.

The bulletin says that the Radio Amateurs of Canada Board of Directors will convene a special meeting as quickly as possible. This, to deal with the vacancies created by these resignations. No date for the meeting has yet been announced. (RAC)

RADIO HEALTH: KOREAN RESEARCHERS CLAIM CANCER CONNECTION TO HIGH POWER RADIO TRANSMISSIONS

Korean scientists sat that they have found that regions near some A-M radio broadcasting towers show 70 percent more leukemia deaths than those without. This, according to Wired News which reports that the study, to be published in an upcoming issue of the International Archives of Occupational and Environmental Health, also found that cancer deaths were 29 percent higher near such transmitters.

Two years ago an Italian investigation found death rates from leukemia increased dramatically for residents living within two miles of Vatican Radio's powerful array of transmitters in Rome. The Koreans looked at the death rates in 10 regions with AM radio transmitting towers broadcasting at more than 100 kilowatts and compared them with control areas without transmitters.

The substantially higher cancer mortality in those who lived within two kilometers of the towers led researchers to conclude that more investigation was needed. However, they also said their study did not prove a direct link between cancer and the transmitters. (Published news reports)

HAM RADIO NEAR SPACE: A NEW ALTITUDE RECORD BY SIMSAT 1B

Pat Kilroy, N8PK, reports a new altitude record of over 112,900 feet was set by the SimSat-1B mission when it flew last week. Pat says that while the VHF telemetry failed early in the flight there are numerous clues as to why and the group is piecing the puzzle to help improve for future operations.

The Simulated Satellite or SimSat project is an education and outreach activity being developed by N8PK at the NASA Goddard Space Flight Center. A SimSat spacecraft uses a small high-altitude weather balloon platform to fly experiments designed and built by students to near-space altitudes.

In this case, a tiny CricketSat transmitter on UHF was also on board as a last minute hitchhiker. Powered by a standard 9 Volt alkaline battery and producing under 20 milliwatts, it operated all the way through splashdown and saved the day for tracking the flight.

More information and the part ham radio plays is on line at www.patkilroy.com/simsat on the World Wide Web. (N8PK)

**

HAM RADIO IN SPACE: MICROSAT ON DISPLAY

And some news from Dr. Perry Klein, W3PK, who says that The Smithsonian National Museum of American History has put a Microsat Mechanical Test Model on display in time for AMSAT's 35th Anniversary meetings. The satellite is suspended from the ceiling outside the NN3SI Smithsonian Amateur Radio Club station. That's located at "The Information Age" exhibit on the first floor at the West end of the American History Museum. (ANS)

**

HAM RADIO IN SPACE: SOLDERING ON-ORBIT

Meantime, the ham astronauts on the International Space Station have been trying to solder in zero gravity, and the results are intriguing. The NASA website says that the solder, heated, became a molten blob with a droplet of rosin clinging tight to the outside. As the temperature increased, the droplet began to spin, round and round, faster and faster, like a miniature carnival ride. You can see and enjoy the video of this experiment at at: http://science.nasa.gov/headlines/y2004/16aug_solder.htm (ANS)

DX

In D-X, word that G3UML is joining the Oceania DX Group operation from Lord Howe Island which is scheduled to start on 9th October. Separate stations will be active on CW and SSB. (GB2RS)

And look for DF7XE to be active portable SV8 from Thassos Island through the 13th of October. He will be using CW, SSB, PSK31 and RTTY on 10 to 80 meters. (OPDX)

Lastly, information that PA0CJH operating as 9G5JH is active from Ghana until November 13th. He is on 80, 40, 20, 17 and 15 meters using SSB, CW and PSK31. For each of these operations, Q-S-L as directed on the air. (OPDX)

**

THAT FINAL ITEM: ITS JOTA TIME

And finally this week, its time for scouts around the land to get together and take to the ham bands in the annual Jamboree on the Air. Amateur Radio Newsline's Mark Abramowicz, NT3V, is also a parent involved in the scouting program and has this inside look at the big event:

--

It's one of the best operating events of the year.

Why?

Because it showcases the best of our hobby to thousands of young people across the country and around the world.

For me, and others, it also gives us as operators a chance to reach out in brotherhood and friendship to young people. We get to serve as a bridge with our radios to other children and teens who share similar interests in Scouting.

Charlie Beck, chairman of Venture Crew 59, sponsored by the Frankford Radio Club and based out of Kutztown, PA is excited about his group's plans.

He says they will be operating KC3BSA from the Hawk Mountain Scout Reservation in Summit Station in eastern Pennsylvania.

"We're going to set up a couple stations in our science and tech center," Beck says.

At this point, he says you'll find Crew 59 on the HF bands on phone, CW and PSK 31. He says there are also plans to set up a VHF station and an EchoLink position.

Becks says the best part of the weekend event is getting visitors to the operation involved.

"I know we have some Girl Scout units and Cub packs and Boy Scout troops that will be stopping by," Beck explains. "They'll all get a turn to get on the air and try to make a contact with another Scout in another part of the world."

Beck says some get mike-shy, but that quickly dissolves with the help of a Venture Crew member sitting beside them.

"They'll be giving their name, their rank and talk about their hobbies and tell them where they're calling from which would be Schuylkill County in eastern Pennsylvania," Beck says.

Beck says the special part about JOTA is its diversity.

"There are Girl Scouts and Girl Guides. There's the World Association of Girl Guides and Girl Scouts that are invited to join in the JOTA," Beck says. "There's also a patch that the Girl Scouts can earn just like the Boy Scouts can earn for making contacts."

And, he says, for those who are a little shy about grabbing the microphone, there's also a keyboard.

"It's interesting to find the quiet Scout or the quiet boy to come in and sit down and get behind PSK 31 and really get in there and spend an hour chatting with different people around the world," Beck says.

Beck says Scouts across the country and around the world will be camping out and working radios from field conditions. Others will be going to stations of operators who've invited them in to take part.

Operators play a big part in making it happen and whether you've been a Scout in your lifetime isn't a factor. It's simply sharing the joy of the Amateur Radio service we've all come to appreciate.

Hope to hear you on the air during JOTA weekend.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

The 47th Jamboree on the Air takes place October 16th and 17th. More information is on line at www.scout.org/wse/jota.shtml and the Leagues website at www.arrl.org. (ARNewsline(tm))

Hi guys,

Does anybody know if there's a software package out there which supports sending DX alerts as pages or TXT messages? I'm not thinking about a piece of logging software with an alert module built in, but rather a stand-alone app of some nature. Any ideas?

And the answer for those who don't speak *NIX would be...<g>? In any event, that essentially just culls the spots. It's the passing of needed spots to a TXT or SMTP gateway that's the real trick. If I knew how to code this, and was even remotely interested in Linux/Unix/BSD/etc, I probably would have done so already.

1308. HOW TO TURN $6 INTO $6,000!!!!!! READING THIS COULD CHANGE YOUR LIFE!

Newsgroup: rec.radio.amateur.dx
Date: 2004-10-10 21:11:30 UTC

HOW TO TURN $6 INTO $6,000!!!!!! READING THIS COULD CHANGE YOUR LIFE!

I found this on a bulletin board and decided to try it. A little while back, I was browsing through newsgroups, just like you are now, and came across an article similar to this that said you could make thousands of dollars within weeks with only an initial investment of $6.00! So I thought, Yeah right, this must be a scam, but like most of us, I was curious, so I kept reading. Anyway, it said that you send $1.00 to each of the 6 names and address stated in the article. You then place your own name and address in the bottom of the list at #6, and post the article in at least 200 newsgroups (There are thousands). No catch that was it.

So after thinking it over, and talking to a few people first, I thought about trying it. I figured: what have I got to lose except 6 stamps and $6.00, right? Then I invested the measly $6.00. Well GUESS WHAT!!... Within 7 days, I started getting money in the mail! I was shocked! I figured it would end soon, but the money just kept coming in. In my first week, I made about $20.00. By the end of the second week I had made a total of over $500.00! In the third week I had over $3,000.00 and it's still growing. This is now my fourth week and I have made a total of just over $10,000.00 and it's still coming in rapidly. It's certainly worth $6.00, and 6 stamps, I have spent more than that on the lottery!!

Let me tell you how this works and most importantly, why it works....Also, make sure you print a copy of this article NOW, so you can get the information off of it as you need it. I promise you that if you follow the directions exactly, that you will start making more money than you thought possible by doing something so easy! Suggestion: Read this entire message carefully! (Print it out or download it.) Follow the simple directions and watch the money come in! It's easy. It's legal. And, your investment is only $6.00 (Plus postage)

IMPORTANT: This is not a rip-off; it is not indecent; it is not illegal; and it is virtually no risk - it really works!!!! If all of the following instructions are adhered to, you will receive extraordinary dividends.

PLEASE NOTE: Please follow these directions EXACTLY, and $50,000 or more can be yours in 20 to 60 days. This program remains successful because of the honesty and integrity of the participants. Please continue its success by carefully adhering to the instructions.

You will now become part of the Mail Order business. In this business your product is not solid and tangible, it's a service. You are in the business of developing Mailing Lists. Many large corporations are happy to pay big bucks for quality lists. However, the money made from the mailing lists is secondary to the income which is made from people like you and me asking to be included in that list.

Here are the 4 easy steps to success:

STEP 1: Get 6 separate pieces of paper and write the following on each piece of paper ;PLEASE PUT ME ON YOUR MAILING LIST. Now get 6 US $1.00 bills and place ONE inside EACH of the 6 pieces of paper so the bill will not be seen through the envelope (to prevent thievery). Next, place one paper in each of the 6 envelopes and seal them. You should now have 6 sealed envelopes, each with a piece of paper stating the above phrase, your name and address, and a $1.00 bill. What you are doing is creating a service. THIS IS ABSOLUTELY LEGAL! You are requesting a legitimate service and you are paying for it! Like most of us I was a little skeptical and a little worried about the legal aspects of it all. So I checked it out with the U.S. Post Office (1-800-725-2161) and they confirmed that it is indeed legal! Mail the 6 envelopes to the following addresses:

#1) Dennis Couch II 7353 Lucille Ave. Louisville,KY 40258
#2) Yarcadova Lewinson 3722 E. Grove St. Tampa, Fl 33610
#3) Devanshu More 12820 Morning Park Circle, Alpharetta,GA 30004
#4) Josh Lane 2865 Westwood Lane #8 Carmichael, CA 95608
#5) Del Massey 376 Stones River Cv. Nashville, TN 37214
#6) Bryan Manson 4620 14 St. NW. Calgary, Alberta, Canada. T2K 1J6
STEP 2: Now take the #1 name off the list that you see above, move the other names up (6 becomes 5, 5 becomes 4, etc...) and add YOUR Name as number 6 on the list.
STEP 3: Change anything you need to, but try to keep this article as close to original as possible. Now, post your amended article to at least 200 newsgroups. (I think there are close to 24,000 groups) All you need is 200, but remember, the more you post, the more money you make! This is perfectly legal! If you have any doubts, refer to Title 18 Sec. 1302 & 1341 of the Postal lottery laws. Keep a copy of these steps for yourself and, whenever you need money, you can use it again, and again. PLEASE REMEMBER that this program remains successful because of the honesty and integrity of the participants and by their carefully adhering to the directions. Look at it this way. If you are of integrity, the program will continue and the money that so many others have received will come your way.
NOTE: You may want to retain every name and address sent to you, either on a computer or hard copy and keep the notes people send you. This VERIFIES that you are truly providing a service. (Also, it might be a good idea to wrap the $1 bill in dark paper to reduce the risk of mail theft.)

So, as each post is downloaded and the directions carefully followed, six members will be reimbursed for their participation as a List

Developer with one dollar each. Your name will move up the list geometrically so that when your name reaches the #1 position you will be receiving thousands of dollars in CASH!!! What an opportunity for only $6.00 ($1.00 for each of the first six people listed above) Send it now, add your own name to the list and you're in business! ---------

DIRECTIONS ----- FOR HOW TO POST TO NEWSGROUPS----------
Step 1You do not need to re-type this entire letter to do your own posting. Simply put your cursor at the beginning of this letter and drag your cursor to the bottom of this doent, and select 'copy' from the edit menu. This will copy the entire letter into the computer's memory.
Step 2) Open a blank 'notepad' file and place your cursor at the top of the blank page. From the 'edit' menu select 'paste'. This will paste a copy of the letter into notepad so that you can add your name to the list.
Step 3) Save your new notepad file as a .txt file. If you want to do your postings in different settings, you'll always have this file to go back to.
Step 4) Use Netscape or Internet explorer and try searching for various newsgroups (on-line forums, message boards, chat sites, discussions). Just for an example, you log on any search engine like yahoo.com, google.com, altavista.com, excite.com then you search with these subjects; 'millionaire message board' or 'money making message board' or 'employment message board' or 'money making discussions' or 'money making forum' or 'business message board' etc. You will find thousand & thousand message board.
Step 5) Visit these message boards and post this article as a new message by highlighting the text of this letter and selecting paste from the edit menu. Fill in the Subject, this will be the header that everyone sees as they scroll through the list of postings in a particular group, click the post message button. You're done with your first one! Congratulations...THAT'S IT! All you have to do is jump to different newsgroups and post away, after you get the hang of it, it will take about 30 seconds for each newsgroup!
REMEMBER, THE MORE NEWSGROUPS YOU POST IN, THE MORE MONEY YOU WILL MAKE!! BUT YOU HAVE TO POST A MINIMUM OF 200
That's it! You will begin receiving money from around the world within days! You may eventually want to rent a P.O.Box due to the large amount of mail you will receive. If you wish to stay anonymous, you can invent a name to use, as long as the postman will deliver it. **JUST MAKE SURE ALL THE ADDRESSES ARE CORRECT. **
Now the WHY part: Out of 200 postings, say I receive only 5 replies (a very low example). So then I made $5.00 with my name at #6 on the letter.
Now, each of the 5 persons who just sent me $1.00 make the MINIMUM 200 postings, each with my name at #5 and only 5 persons respond to each of the original 5, that is another $25.00 for me.
Now those 25 each make 200 MINIMUM posts with my name at #4 and only 5 replies each, I will bring in an additional $125.00!
Now, those 125 persons turn around and post the MINIMUM 200 with my name

at #3 and only receive 5 replies each, I will make an additional $626.00!
OK, now here is the fun part, each of those 625 persons post a MINIMUM 200 letters with my name at #2 and they each only receive 5 replies that just made me $3,125.00!!!
Those 3,125 persons will all deliver this message to 200 newsgroups with my name at #1 and if still 5 persons per 200 newsgroups react I will receive $15, 625, 00!
With an original investment of only $6.00! AMAZING! When your name is no longer on the list, you just take the latest posting in the newsgroups, and send out another $6.00 to names on the list, putting your name at number 6 again. And start posting again.
The thing to remember is: do you realize that thousands of people all over the world are joining the internet and reading these articles everyday?, JUST LIKE YOU are now!! So, can you afford $6.00 and see if it really works?? I think so... People have said, "what if the plan is played out and no one sends you the money?". So what! What are the chances of that happening when there are tons of new honest users and new honest people who are joining the internet and newsgroups everyday and are willing to give it a try? Estimates are at 20,000 to 50,000 new users, every day, with thousands of those joining the actual internet.
Remember: play FAIRLY and HONESTLY and this will really work.

FEEL FREE TO EMAIL ME WITH ANY QUESTIONS!!

here is the entire command in one line to be placed into a crontab

```
wget -O - http://oh2aq.kolumbus.com/dxs/hfdx25.html? | grep $WANTED_DX |
mailto -s DX $EMAIL_ADDRESS
```

substitute $WANTED_DX and $EMAIL_ADDRESS as required.

Thinking about a bit more, it would probably be better to use lynx instead
of wget, as the output would be a bit cleaner

lynx -dump http://oh2aq.kolumbus.com/dxs/hfdx25.html? | grep $WANTED_DX |
mailto -s DX $EMAIL_ADDRESS

as usual with *NIX, there is more than one way to skin a cat.

Come on - even if it wasn't painfully obvious this is a virus,
why on EARTH would ANYONE want to download a
file like that? Can you Romainian fuckwits not at least tempt
the stupid with Britney Spears or J Lo?... a GOAT?

Ho hum. What is virus spam coming to anyway.... makes
ya long for the days of Anna Kournikova....

1316. 80 meter European and Russian SSB frequencies ?

Newsgroup: rec.radio.amateur.dx
Date: 2004-10-15 00:36:39 UTC
From: DOUGLAS SNOWDEN <SNOWDEN@peoplepc.com>
Message-ID: <rYEbd.4459$SZ5.1198@newsread2.news.atl.earthlink.net>
Source record: 6706

Where is a list of the freq allocations for DX on 80m ssb?

Doug
N4IJ

The ARRL Operating Manual has quite a comprehensive list for all regions. I think they not only include the frequencies but the foreign band plans as well.

Might have been an awful lot better had it not been on one
long line!

--

Jock.

It's the Afghan National Army that went into Najaf
and did the work there.

George W. Bush

1320. "BerlinRadio drahtlos - Funkfreunde on air" - Neues Radiomagazin jeden Mittwoch ab 20.15 Uhr puenktlich nach der Tagesschau

I agree, especially helpful is the fact it is written at
a grade school reading level for the functional illiterates
who flock to it, hoping to garner secrets of how to
shoot skip.

Lloyd

1324. IT9RYH NINO WHAT TO DO ?

Newsgroup: rec.radio.amateur.dx

tHE king OF 14.195 Nino IT9RYH

What to do ?

He have making QRM on many DX stn
on 14.195.

He is a Shame for all Ham`s

What can be doing to stop this Idiot

He have making so many qrm , on the
DX expedition eg.

For me he can DROP IN THE OCEAN

He is a Shame for Italy

Ohio/Penn DX Bulletin No. 681

The Ohio/Penn DX PacketCluster
DX Bulletin No. 681
BID: $OPDX.681
October 18, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, W1CWU, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, W4OI, W4WX, N5FG, WX5L, K8DD, K8YSE, DL1EK & The DX News Letter, DL6UAA, F5CWU & La Gazette du DX, F5NQL & UFT, G3NKC, G4DYO, G0IAS, G0PSE, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA-IOTA Islands News, VA3RJ & ICPO, VA3YDX and YZ1SG for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 10th/October, through Sunday, 17th/October there were 219 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FK/C, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T30, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V5, V6, V7, V8, VE, VK, VK9L, VK9N, VP2M, VP5, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS. Mart, DL6UAA, expects to arrive here October 20th and will be active as 3B8MM. He plans to stay until November 16th (the day before his birtday - November 17th). However, he states that the day of his return back to DL-land is not confirmed right now (possibly 1 week later). Mart also states it seems that a 160m operation will not be possible because there is not enough space at the main-QTH and "/p"

activities are not allowed (at the moment).

5Z4, KENYA (IOTA Op). Miki, YT1CS, currently active as 5Z4YT1CS from Nairobi, has arranged a side trip to Lamu Island AF-040 (Coast Province North Group) from November 4-11th. He will be active on 80-10 meters SSB only, using 100W into an inverted "V" for 40/80 meters and verticals for the higher bands. The callsign to be used in this operation will be 5Z4YT1CS/M. Look for him on the usual IOTA frequencies. He will stay in Kenya until November 18th. QSL via YT1CS, by the bureau or direct.

7Q, MALAWI. Rumor has it that Les, 7Q7LA, will be back in Malawi, before the end of this month. More details are forthcoming.

9Y, TRINIDAD AND TOBAGO. Operators Stefan/DK1MM and Frank/DL2CC will be active as 9Y4ZC in the CQ WW DX SSB Contest (October 30-31st) as a Multi-Single entry. QSL via DK1MM. Outside of the contest, between October 27th and November 2nd, they will sign as 9Y4/DK1MM and 9Y4/DL2CC.

C6, BAHAMAS. Operators Mike/K1EU, Joe/K1JB, Steve/K1MV and Jesse/KB1GWT will be active as C6AVV during the CQ WW DX SSB Contest (October 30-31st) as Multi-Single entry. QSL via K1JB.

C6, BAHAMAS. Three members of SWODXA (Southwest Ohio DX Association) will be active as C6DX for the CQWW DX SSB Contest (October 30-31st). Members mentioned are Jim/K8FL, Wayne/K8LEE and Joe/W8GEX. They will be the Island of Eleuthera (NA-001) in the Bahamas. They are expected to be active there between October 26th and November 1st. The crew will be on all bands and modes PLUS 60 meters.

D4, CAPE VERDE. Alexander, 4L5A, will be active as D4B in the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/All-Band entry. QSL via K1BV. Visit the Web page: http://www.qsl.net/d44tt

FM, MARTINIQUE. Gil, FM5FJ, will be active in the CQWW DX SSB Contest (October 30-31st) as a Single-Op/Single-Band (15m) entry. QSL via KU9C.

FR/G, GLORIOSO ISLAND. Another rare French DXpedition has been announced over the past week in the "La Gazette du DX" bulletin. The 2003 CDXC Europa DX team are planning a 15 day operation to Glorioso Island in May 2005. As with the Europa operation, the operators will be taken to the island by military personnel. The operators mentioned are: Didier/F5OGL, Dany/F5CW, Freddy/F5IRO, Pascal/F5PTM and possibly others. The team also plans to be an entry in the CQ WPX Contest while there. Now for the bad news. Due to international situations, this operation could be cancelled at any time. QSL via F5CQ.

GD4, ISLE OF MAN. Once again, the MD4K team plans another operation this year in the CQWW DX SSB Contest (October 30-31st). This year's operators include G1GEY, G3NKC, G0HSS, G4MJS, G4XUM, M0BEW, M0RHI and M5RIC. Their entry is still undecided; they may yet switch from Multi-2 to Multi-Multi this time. They welcome invites for QSYs in the contest. QSL via G3NKC, or requests through their Web page at: http://www.md4k.com

HK, COLOMBIA (Another Op Needed!). Tony, W4OI (ex-N7BG), reports that he has plans to do a Multi/2 operation this November from HK3CQ's Idyllic QTH in the mountains of Colombia, about an hour from Bogota. He is looking for another operator. They plan to only have 3 operators, Juan/HK3CQ, Tony/W4OI and one other which will allow for plenty of operating time. Anyone who is interested must be willing to bring a transceiver and/or amplifier and be willing to assist in putting up some wire antennas for 80/160m during the week before the contest. Tony states that they will commute to the station and stay in his apartment in Bogota, so living costs will be minimal. If interested, contact Tony via E-mail at: trogo@cfl.rr.com

IOTA NEWS.....
AS-076. Activity was expected this past weekend by JA5BEX/SO2005 to operate from the Megishima Island (Kagawa Pre). However, no QSNs were seen on the cluster newtworks. The special "SO2005" suffix is used to celebrate the 2005 World Special Olympics in the Nagano Winter Games. QSL via the bureau or direct to his home callsign.

EU-132. Operators Juergen/DL5CE and Dieter/DL7VAF will be active as SO1CE and SO1VAF, respectively, from Wolin Island, October 23-24th. Activity will be on 160-10 meters SSB, RTTY and PSK31. QSL via his home callsign, direct or by the bureau.

NA-091. Ken, G3OCA, expects to be active as VE7/G3OCA from Quadra Island (CISA BC-006) between October 20-25th. QSL via his home callsign, direct or by the bureau.

NA-142. Members of the OH KY in Amateur Radio Society will be active as K8SCH from Santa Rosa Island (USI FL-003S, Okaloosa County), Florida, from October 25-29th. Operators mentioned are John/ N8YC, Philip/KG8AP, Brian/K4BRI and possibly others. Look for activity on all bands. The dates are tentative, so if there are any changes, it will be plus or minus one or two weeks at the most. QSL via K8SCH (QRZ.com).

SA-NEW. Marco, CE6TBN, has plans to activate Rennell Island in the Ultima Esperanza Province South Group (dates are not set yet). He does have a yacht contacted to go to the island.

SA-031. Marco, CE6TBN, states that he has permission from the Chilean Navy to operate from Cape Horn (Wollanston Island) on any date during the year 2005.

J7, DOMINICA. Five members of the Florida DXPedition Group, Bill/W4WX (J75WX), Clarence/W9AAZ (J79AA), Larry/W1LR (J79LR), Cory/N1WON (J79CM) and Vance/N5VL (J79VL) will be here between October 26th and November 2nd. They will operate from the Picard Beach Resort Cottages. Look for them during the CQWW DX SSB Contest as J75J. They will be on all bands and modes prior to and after the contest. QSL J75J via their QSL Manager KR4DA and all others callsigns via the operators home callsign.

NEDXCC MEETING. Jim Tumelty, W1CWU, New England DX Century Club President, informs OPDX readers that if you are in the New England area (Beverly, Mass.) on October 25th, Eric Scace, K3NA, is scheduled to speak at their club's meeting. Eric, who recently participated in the 3B9C DXpedition in the spring, is scheduled to participate in the much anticipated 3Y0X - Peter One Island DXpedition in January. Everyone is invited to attend and bring along a friend. For further info, you can check the NEDXCC Web site at: http://www.nedxcc.org

QSL INFO AND NEWS.....
Tom, G0PSE, informs that the log for the GB0SM (IOTA EU-011) operation has been updated to include the recent October 2-8th activity and is available for viewing at: http://www.qsl.net/g0pse/dxpeds.htm
E-mail requests for a QSL via the Bureau can be sent to: thomas.taylor19@btinternet.com or g0pse@qsl.net

The log for the last IG9/IZ8CGS IOTA DXpedition to Lampedusa Island (AF-019) by Gianni, IZ8CGS, is online in the log section (name of the log IG9-IZ8CGS2004) at: http://www.mdxc.org/logsearch1.asp

IR1PL QSLS. Mauro, IW1RHG, (QSL Manager and IR1PL Team Member), reports that QSLs have been received from the printer (TopQSL), so during the next few days he will start to confirm all direct QSLs. The QSL is a double page QSL. The QSL can be viewed at: http://home.tele2.it/iw1rhg

The logs and a photo gallery of Christian's EC3ADC DXpeditions online are at: http://www.mdxc.org/ec3adc/
He was active as 3D2EA, 3D2EA/p, A35DX, T20DX and ZK3DX.

T2, TUVALU. Just a reminder that Ulli, DL2AH, will be active this week from Funafuti Island (OC-015) between October 20-24th. His T2 callsign has not been announced yet. This will be a holiday style operation, but Ulli will be active on 20-10 meters SSB, RTTY and PSK31 using his FT897 and a Delta-Loop antenna. QSL via DL2AH, direct or to the DL Bureau.

TO7, FRENCH GUYANA. Members of the F6KOP of Provins ARS will once again be going on a DXpedition. The team will be active as TO7C from Salut Islands (SA-020 and DIFO FY008) between March 10-17th. Activity will be on 160-6 meters including the WARC bands on modes CW/SSB/PSK. Operators mentioned are: Frank/F4AJQ (SSB), Bernd/F9IE (CW/SSB), Dany/F5CW (CW/SSB Low Bands), Serge/F6AML (CW/SSB Low Bands), Bruno/F5AGB (CW), John/F5VHQ/OE5TGL (SSB), Jean-Paul/F8BJI (Digimodes/SSB), Franck/F5TVG (CW/SSB/Digimodes) and Guenther/OE3GCU (Digimodes/SSB). QSL via F9IE. The TO7C Web page is avalible at: http:\\to7c.free.fr

TX9, CHESTERFIELD ISLANDS. The Germans became active early October 14th as TX9. Yes, TX9 is the complete callsign. Activity will be on 160-6 meters using CW/SSB/RTTY and last until October 22nd. Pilot station/TX9 Web Master Bernd, DF3CB, reports there will be NO online log search until after the operation. QSL all CW QSO via DL4XS. QSL all SSB and RTTY QSOs via DL5NAM. Addresses for both QSL Manager and updated news on the DXpedition can be found on the Web page at: http://www.df3cb.com/chesterfield

V4, ST. KITTS AND NEVIS. Andrei, EW1AR, will be active as V44/EW1AR and NC2N/V44 between October 25th and November 1st from the Island of Nevis (NA-104). Activity will be on all HF bands CW, SSB and especially RTTY. QSL via W3HNK. Also, look for him during the CQ WW SSB Contest. He will be using the callsign V49A (entry QRP(A) 160m). QSL via V44NK.

V4, ST. KITTS AND NEVIS. Boris, UU5SY, will be active as UU5SY/V44 between October 25th and November 1st. Activity will include the CQ WW SSB Contest as a Single-O/Single-Band (10m) entry. QSL via his home callsign KC2FVN.

V6, MICRONESIA. Look for Lanny, W5BOS, to be active as V6O from Pulap (Pollap) Island (IOTA OC-155), October 18-23rd. QSL via N6AWD.

VA4, CANADA. Rich, N0HJZ, will be operating as VA4MWA in the CQ WW DX Contest (October 30-31). Details of his entry in the contest were not provided. QSL via his home call.

VE3, CANADA (CISA Activity). Look for operators VA3YDX/p (Igor), VE3GKW (Boris) and VE3/ER1MF (Maxim) to activate several Canadian Islands for the CISA Trophy from October 22-25th. Here are the following Canadian Islands to be on the air:
1. Manitoulin Island CISA: ON001
2. Barrie Island CISA: ON015
3. Great Clotche Island CISA: ON016
4. Little Clotche Island CISA: new activation
5. Birch Island CISA: ON017
6. Parry Island CISA: ON029
7. Goat Island CISA: ON072

Their suggested (main) frequencies are: 3815, 7260, 14260 and 21260 kHz. Operations will be on the SSB, CW, RTTY and PSK modes. The team will also try to reach other islands for new activations if conditions permit. QSL via their home callsigns:
*VA3YDX : 105 La Rose Avenue, Apt.#803, Etobicoke, Ontario M9P 1A9
VE3GKW : 90 Cordova Avenue, Apt.#1009, Etobicoke, Ontario M9A 2H8
VE3/ER1MF: 45 Oakmount Rd., Apt.#1010, Toronto, Ontario M6P 2M4
* New address!

VK2, AUSTRALIA. Travis, W5GED, will head here on December 1st and expects to be active as VK2GED for 3 weeks and will operate from VK2UW's QTH. Look for him to show up on a Pacific Island net on 14315 kHz at 0900z.

VK9L, LORD HOWE ISLAND. The following was received from Bren, G4DYO, who was asked to forward the below message from Laurie Margolis, G3UML/VK9LA, to all bulletins, on Lord Howe Island: "We have noticed adverse comments on the cluster about some of our lowband operations, especially in the evenings EU time. We have sometimes joined nets like the I2ZGC or UR4DX operations around 7O45. The simple reason is that we are having huge problems being heard in the EU evening, and I would prefer to work 60 or 70 people on a net rather than shouting at the QRM for two hours each morning to no purpose. Sorry, but that's the way it is. We are hammering all the greyline times. 40 CW has been quite good. SSB much more difficult. Offensive Cluster comments are pointless. We have spent huge time, money

and effort getting out here, and want to maximise the QSO rate. I will try to spend more time working 80 metre EU long path in the EU morning, but the contact rate is very slow, and other bands are busy then. I can hear many G's perfectly around 3799 at 0700 GMT, but they can't hear me despite power and good long path antenna. Unfortunately high band condx -- 17-12-15-10 -- are truly dreadful, at the half way point of our operation. Still trying!" 73 LAURIE, G3UML
REMEMBER the VK9LA activity will end on October 23rd. QSL via Oceania Amateur Radio DX Group, Inc., P.O. Box 513, Nambour 4560, Australia.

VO2, CANADA (ZONE 2). Operators Stanely/AC8W/VA3ACW, Hank/K8DD/VE3RDD and Ian/K8MM will be active as VO2AAA from Labrador City, Labrador, during the CQ WW DX CW Contest (November 27-28th) as a Multi-Single, possibly a Multi-2 if they get another operator or two. QSLs for the contest callsign go to K8DD/VE3RDD.

VU4, ANDAMAN ISLANDS (Follow-Up/Update). Over the past week, it was learned that the two operators who requested everyone to write to the Indian Telecommunication Ministry to authorize an operation to Andaman Islands, are two separate efforts and that there is no competition between the two. However, there has been some letters written to Miku, VU2WAP, supporting Mrs. Bharathi, VU2RBI. These letters should be kept separate so as not to confuse the application with the minister of communications. Both are receiving plenty of support. For more details, please refer to last week's OPDX.680.

OHHH

The "Fake" email adress are so CLEAR so CLEAR
so anyone can see it is a "fake"

Evrey time when "nino" has been talk about
and with "right" email aliases
They after got tousands of "spam mails
So therefore the FAKE

But what , that not the point by my mail.!!

You simply do not understand the meaning

So Peter go and read the history books
maybe so, you gonna see the "Light"

You write * pathetic little whiner *

Poor man you are

Me the happy man , on the RIGHT side of the Border !

>
> * PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or

> more likely a "BUSTED CALLSIGN". As always, you never know - "Work
> First Worry Later" (WFWL).
>
> 3B8, MAURITIUS. Mart, DL6UAA, expects to arrive here October 20th and
> will be active as 3B8MM. He plans to stay until November 16th (the day
> before his birtday - November 17th). However, he states that the day of
> his return back to DL-land is not confirmed right now (possibly 1 week
> later). Mart also states it seems that a 160m operation will not be
> possible because there is not enough space at the main-QTH and "/p"
> activities are not allowed (at the moment).
>
> 5Z4, KENYA (IOTA Op). Miki, YT1CS, currently active as 5Z4YT1CS from
> Nairobi, has arranged a side trip to Lamu Island AF-040 (Coast Province
> North Group) from November 4-11th. He will be active on 80-10 meters
> SSB only, using 100W into an inverted "V" for 40/80 meters and verticals
> for the higher bands. The callsign to be used in this operation will
> be 5Z4YT1CS/M. Look for him on the usual IOTA frequencies. He will stay
> in Kenya until November 18th. QSL via YT1CS, by the bureau or direct.
>
> 7Q, MALAWI. Rumor has it that Les, 7Q7LA, will be back in Malawi,
> before the end of this month. More details are forthcoming.
>
> 9Y, TRINIDAD AND TOBAGO. Operators Stefan/DK1MM and Frank/DL2CC will
> be active as 9Y4ZC in the CQ WW DX SSB Contest (October 30-31st) as a
> Multi-Single entry. QSL via DK1MM. Outside of the contest, between
> October 27th and November 2nd, they will sign as 9Y4/DK1MM and 9Y4/DL2CC.
>
> C6, BAHAMAS. Operators Mike/K1EU, Joe/K1JB, Steve/K1MV and Jesse/KB1GWT
> will be active as C6AVV during the CQ WW DX SSB Contest (October 30-31st)
> as Multi-Single entry. QSL via K1JB.
>
> C6, BAHAMAS. Three members of SWODXA (Southwest Ohio DX Association) will
> be active as C6DX for the CQWW DX SSB Contest (October 30-31st). Members
> mentioned are Jim/K8FL, Wayne/K8LEE and Joe/W8GEX. They will be the
> Island
> of Eleuthera (NA-001) in the Bahamas. They are expected to be active there
> between October 26th and November 1st. The crew will be on all bands and
> modes PLUS 60 meters.
>
> D4, CAPE VERDE. Alexander, 4L5A, will be active as D4B in the CQ WW DX
> SSB Contest (October 30-31st) as a Single-Op/All-Band entry. QSL via
> K1BV. Visit the Web page: http://www.qsl.net/d44tt
>
> FM, MARTINIQUE. Gil, FM5FJ, will be active in the CQWW DX SSB Contest
> (October 30-31st) as a Single-Op/Single-Band (15m) entry. QSL via KU9C.
>
> FR/G, GLORIOSO ISLAND. Another rare French DXpedition has been announced
> over the past week in the "La Gazette du DX" bulletin. The 2003 CDXC
> Europa DX team are planning a 15 day operation to Glorioso Island in May
> 2005. As with the Europa operation, the operators will be taken to the

> island by military personnel. The operators mentioned are: Didier/F5OGL,
> Dany/F5CW, Freddy/F5IRO, Pascal/F5PTM and possibly others. The team also
> plans to be an entry in the CQ WPX Contest while there. Now for the bad
> news. Due to international situations, this operation could be cancelled
> at any time. QSL via F5CQ.
>
> GD4, ISLE OF MAN. Once again, the MD4K team plans another operation this
> year in the CQWW DX SSB Contest (October 30-31st). This year's operators
> include G1GEY, G3NKC, G0HSS, G4MJS, G4XUM, M0BEW, M0RHI and M5RIC. Their
> entry is still undecided; they may yet switch from Multi-2 to Multi-Multi
> this time. They welcome invites for QSYs in the contest. QSL via G3NKC,
> or requests through their Web page at: http://www.md4k.com
>
> HK, COLOMBIA (Another Op Needed!). Tony, W4OI (ex-N7BG), reports that he
> has plans to do a Multi/2 operation this November from HK3CQ's Idyllic
> QTH in the mountains of Colombia, about an hour from Bogota. He is
> looking for another operator. They plan to only have 3 operators,
> Juan/HK3CQ, Tony/W4OI and one other which will allow for plenty of
> operating time. Anyone who is interested must be willing to bring a
> transceiver and/or amplifier and be willing to assist in putting up some
> wire antennas for 80/160m during the week before the contest. Tony states
> that they will commute to the station and stay in his apartment in Bogota,
> so living costs will be minimal. If interested, contact Tony via E-mail
> at: trogo@cfl.rr.com
>
> IOTA NEWS.................
> AS-076. Activity was expected this past weekend by JA5BEX/SO2005
> to operate from the Megishima Island (Kagawa Pre). However,
> no QSNs were seen on the cluster newtworks. The special
> "SO2005" suffix is used to celebrate the 2005 World Special
> Olympics in the Nagano Winter Games. QSL via the bureau or
> direct to his home callsign.
>
> EU-132. Operators Juergen/DL5CE and Dieter/DL7VAF will be active
> as SO1CE and SO1VAF, respectively, from Wolin Island, October
> 23-24th. Activity will be on 160-10 meters SSB, RTTY and
> PSK31. QSL via his home callsign, direct or by the bureau.
>
> NA-091. Ken, G3OCA, expects to be active as VE7/G3OCA from Quadra
> Island (CISA BC-006) between October 20-25th. QSL via his
> home callsign, direct or by the bureau.
>
> NA-142. Members of the OH KY in Amateur Radio Society will be active
> as K8SCH from Santa Rosa Island (USI FL-003S, Okaloosa County),
> Florida, from October 25-29th. Operators mentioned are John/
> N8YC, Philip/KG8AP, Brian/K4BRI and possibly others. Look
> for activity on all bands. The dates are tentative, so if
> there are any changes, it will be plus or minus one or two
> weeks at the most. QSL via K8SCH (QRZ.com).
>

> SA-NEW. Marco, CE6TBN, has plans to activate Rennell Island in the
> Ultima Esperanza Province South Group (dates are not set yet).
> He does have a yacht contacted to go to the island.
>
> SA-031. Marco, CE6TBN, states that he has permission from the Chilean
> Navy to operate from Cape Horn (Wollanston Island) on any
> date during the year 2005.
>
> J7, DOMINICA. Five members of the Florida DXPedition Group, Bill/W4WX
> (J75WX), Clarence/W9AAZ (J79AA), Larry/W1LR (J79LR), Cory/N1WON (J79CM)
> and Vance/N5VL (J79VL) will be here between October 26th and November
> 2nd. They will operate from the Picard Beach Resort Cottages. Look for
> them during the CQWW DX SSB Contest as J75J. They will be on all bands
> and modes prior to and after the contest. QSL J75J via their QSL Manager
> KR4DA and all others callsigns via the operators home callsign.
>
> NEDXCC MEETING. Jim Tumelty, W1CWU, New England DX Century Club President,
> informs OPDX readers that if you are in the New England area (Beverly,
> Mass.) on October 25th, Eric Scace, K3NA, is scheduled to speak at their
> club's meeting. Eric, who recently participated in the 3B9C DXpedition in
> the spring, is scheduled to participate in the much anticipated 3Y0X -
> Peter One Island DXpedition in January. Everyone is invited to attend and
> bring along a friend. For further info, you can check the NEDXCC Web site
> at: http://www.nedxcc.org
>
> QSL INFO AND NEWS.............
> Tom, G0PSE, informs that the log for the GB0SM (IOTA EU-011) operation
> has been updated to include the recent October 2-8th activity and is
> available for viewing at: http://www.qsl.net/g0pse/dxpeds.htm
> E-mail requests for a QSL via the Bureau can be sent to:
> thomas.taylor19@btinternet.com or g0pse@qsl.net
>
> The log for the last IG9/IZ8CGS IOTA DXpedition to Lampedusa Island
> (AF-019) by Gianni, IZ8CGS, is online in the log section (name of the
> log IG9-IZ8CGS2004) at: http://www.mdxc.org/logsearch1.asp
>
> IR1PL QSLS. Mauro, IW1RHG, (QSL Manager and IR1PL Team Member), reports
> that QSLs have been received from the printer (TopQSL), so during the
> next few days he will start to confirm all direct QSLs. The QSL is a
> double page QSL. The QSL can be viewed at: http://home.tele2.it/iw1rhg
>
> The logs and a photo gallery of Christian's EC3ADC DXpeditions online
> are at: http://www.mdxc.org/ec3adc/
> He was active as 3D2EA, 3D2EA/p, A35DX, T20DX and ZK3DX.
>
> T2, TUVALU. Just a reminder that Ulli, DL2AH, will be active this week
> from Funafuti Island (OC-015) between October 20-24th. His T2 callsign
> has not been announced yet. This will be a holiday style operation, but
> Ulli will be active on 20-10 meters SSB, RTTY and PSK31 using his FT897
> and a Delta-Loop antenna. QSL via DL2AH, direct or to the DL Bureau.

>
> TO7, FRENCH GUYANA. Members of the F6KOP of Provins ARS will once again
> be going on a DXpedition. The team will be active as TO7C from Salut
> Islands (SA-020 and DIFO FY008) between March 10-17th. Activity will be
> on 160-6 meters including the WARC bands on modes CW/SSB/PSK. Operators
> mentioned are: Frank/F4AJQ (SSB), Bernd/F9IE (CW/SSB), Dany/F5CW (CW/SSB
> Low Bands), Serge/F6AML (CW/SSB Low Bands), Bruno/F5AGB (CW), John/F5VHQ/
> OE5TGL (SSB), Jean-Paul/F8BJI (Digimodes/SSB), Franck/F5TVG (CW/SSB/
> Digimodes) and Guenther/OE3GCU (Digimodes/SSB). QSL via F9IE. The TO7C
> Web page is avalible at: http:\\to7c.free.fr
>
> TX9, CHESTERFIELD ISLANDS. The Germans became active early October 14th
> as TX9. Yes, TX9 is the complete callsign. Activity will be on 160-6
> meters
> using CW/SSB/RTTY and last until October 22nd. Pilot station/TX9 Web
> Master
> Bernd, DF3CB, reports there will be NO online log search until after the
> operation. QSL all CW QSO via DL4XS. QSL all SSB and RTTY QSOs via DL5NAM.
> Addresses for both QSL Manager and updated news on the DXpedition can be
> found on the Web page at: http://www.df3cb.com/chesterfield
>
> V4, ST. KITTS AND NEVIS. Andrei, EW1AR, will be active as V44/EW1AR and
> NC2N/V44 between October 25th and November 1st from the Island of Nevis
> (NA-104). Activity will be on all HF bands CW, SSB and especially RTTY.
> QSL via W3HNK. Also, look for him during the CQ WW SSB Contest. He will
> be using the callsign V49A (entry QRP(A) 160m). QSL via V44NK.
>
> V4, ST. KITTS AND NEVIS. Boris, UU5SY, will be active as UU5SY/V44 between
> October 25th and November 1st. Activity will include the CQ WW SSB Contest
> as a Single-O/Single-Band (10m) entry. QSL via his home callsign KC2FVN.
>
> V6, MICRONESIA. Look for Lanny, W5BOS, to be active as V6O from Pulap
> (Pollap) Island (IOTA OC-155), October 18-23rd. QSL via N6AWD.
>
> VA4, CANADA. Rich, N0HJZ, will be operating as VA4MWA in the CQ WW DX
> Contest (October 30-31). Details of his entry in the contest were not
> provided. QSL via his home call.
>
> VE3, CANADA (CISA Activity). Look for operators VA3YDX/p (Igor), VE3GKW
> (Boris) and VE3/ER1MF (Maxim) to activate several Canadian Islands for
> the CISA Trophy from October 22-25th. Here are the following Canadian
> Islands to be on the air:
> 1. Manitoulin Island CISA: ON001
> 2. Barrie Island CISA: ON015
> 3. Great Clotche Island CISA: ON016
> 4. Little Clotche Island CISA: new activation
> 5. Birch Island CISA: ON017
> 6. Parry Island CISA: ON029
> 7. Goat Island CISA: ON072
>

> Their suggested (main) frequencies are: 3815, 7260, 14260 and 21260 kHz.
> Operations will be on the SSB, CW, RTTY and PSK modes. The team will also
> try to reach other islands for new activations if conditions permit. QSL
> via their home callsigns:
> *VA3YDX : 105 La Rose Avenue, Apt.#803, Etobicoke, Ontario M9P 1A9
> VE3GKW : 90 Cordova Avenue, Apt.#1009, Etobicoke, Ontario M9A 2H8
> VE3/ER1MF: 45 Oakmount Rd., Apt.#1010, Toronto, Ontario M6P 2M4
> * New address!
>
> VK2, AUSTRALIA. Travis, W5GED, will head here on December 1st and expects
> to be active as VK2GED for 3 weeks and will operate from VK2UW's QTH.
> Look for him to show up on a Pacific Island net on 14315 kHz at 0900z.
>
> VK9L, LORD HOWE ISLAND. The following was received from Bren, G4DYO, who
> was asked to forward the below message from Laurie Margolis, G3UML/VK9LA,
> to all bulletins, on Lord Howe Island: "We have noticed adverse comments
> on the cluster about some of our lowband operations, especially in the
> evenings EU time. We have sometimes joined nets like the I2ZGC or UR4DX
> operations around 7O45. The simple reason is that we are having huge
> problems being heard in the EU evening, and I would prefer to work 60 or
> 70 people on a net rather than shouting at the QRM for two hours each
> morning to no purpose. Sorry, but that's the way it is. We are hammering
> all the greyline times. 40 CW has been quite good. SSB much more
> difficult.
> Offensive Cluster comments are pointless. We have spent huge time, money
> and effort getting out here, and want to maximise the QSO rate. I will
